The Daily Review

JOSH. T. JAMES, Editor & Prop WILMINGTON, N. C.

SATURDAY, SEPTEMBER 12, '85 as second-class matter.

Gen. Hazen, of the signal service hat in press a volume of army reminiscences which those who know its character say will raise the greatest kind of a riot among the officers who served with bim in the late war. The General is in Europe now, where he goes every Summer, and very little accurate information can be obtained of the contents of his book, but it is known that eyer since the Court-martial a Governor's Island Gen. Hazen has been burning with a desire to get even with Gen. David S. Stanley and other officers who testified for him or expressed sympathy with him.

and Canada have been a source of great apprehension to the insurance companies, who have exhausted nearly every expedient in their efforts to check the tremendous waste. Last year over with Red Tin Tag; ROSE LEAF Fine Cut Chewing; NAVY CLIPPINGS, and Black, Brown and Yellow SNUFFS are the best and cheapest, quality considered?

\$110,000,000 worth of property was burned up, and the earlier months of 1885 promised to surpass all previous \$110,000,000 worth of property was records of fire destruction. There is cause for much encouragement, however, in the estimates for last month just published by the New York Commercial Bulletin, the figures being \$5,500,000 against about \$10,000,000 last year, and an August average of \$7.000 000 for the principle, he says, not practice.

> The Washington correspondent of the New York Herald, in speaking of the murder of the Chinese in Wyoming says: The Territory of Wyoming, being territory over which Congress has exclusive jurisdiction, it is believed here that the Chinese Government will demand a money consideration for the injury done those who were forced to leave the place and indemnity for the lives sacrificed by the rioters. Had the ic. violence occurred in California, Nevada, Colorado or any of the States the matter would be complicated by the sovereignty of a State; but having taken they don't charge anything extra. place of Government soil the United States, it is said, is directly bound by the provisions of the treaty, and important and interesting diplomatic questions will arise eventually in presenting the claim for damages.

A Washington gentleman who has spent the Summer at White Sulphur Springs for many years says that the closing season reminded him of days before the war, when this Southern resort was crowded with the wealthiest representatives of the slave States. This season there were a number of the old planters there who boasted that the fall crops in the Southern States would bring a larger sum than was ever received for the products of that section. The value of the cotton crop alone is at the lowest estimate \$300,000.000 \$200,000,000 of which will go to the Jour. credit of foreign exchange. The rice. sugar andt obacco 'crop will be the largest and most valuable eyer in wn in the history of the South, while cereals will be abundant for the next twelve months at the lowest prices. Such a year of prosperity, it is said, the South has never known before.

The London correspondent of the New York Times says: "The mean side of English legal practice is shown in the suddden swoop by warran's upon all persons connected with the Eliza Armstrong case, from Mr. Stead looks like it. Magnolia down. There was a cowardly failure Balm both freshens and to prosecute him on the general quespress clamored for it, and he dared the authorities to do it because it was known that he purposed to defend himself by proving the complicity of many notables in the crimes exposed, but they have now got a twist on him the selection of a special case where the Judge has rigidly excluded as extraneous all justification for the publi cation of the exposure, which, or course, is what he will really be punshed for. He is too bright and daring a man, however, to be muzzled thus, and what the court excludes the public will hear. This manipulation of the courts in the interest of a class was grievously illustrated in the Adams-Coleridge case, but this is ten fold worse, and I much mistake Mr. Stead's spirit if he fails to make England relaize it."

> New York special: "Inquiry among the agents of the transportation lines discloses the fact that the fall trade is opening in marked improvement over last year. The volume of business is much larger than at the corresponding period last year, but at the same time with one voice the agents declare that this business is done with little or no 95 BBLS. NEW MULLETS. profit to the transportation companies. One of the principal agents of the New York Central makes the remarkable

statement that the company was taking freight simply to oblige customers. The rates obtained scarcely paid for the cost of the transportation. 'The agents,' he KENNEDY'S FAVORITE REMEDY GURES A TERsays, 'are not therefore asking for business, though faking all that is offered. Rates have gone all to pieces, and I do not see any immediate prospect of improvement.' The testimony of the transportation lines as to the volume of outward bound freight is regarded as fair indication of the condition of busiiess. Careful inquiry was made today of nearly all the agents of the principal companies; the result may be summed up as follows: The fall trade business is, so far, all the way from to 20 per cent. larger than last year at this time. This is true of shipments to New England, and larger orders from the South and Southwest are also reported. This is the testimony of the railroad agents as well as of the agents of steamer lines, and it supplies further proof of the improvement in business which has been reported lately from all parts of the country,"

Salvation Oil is the greatest paindestroyer of any age or clime. For the cure of neuralgia, rheumatism, and wounds occasioned by accidents such The growing fire losses in this country as cuts, bruises, sprains, burns, and frost-bites it has no equal. Price only 25 cents a bottle.

100 Pounds in each barrel. DAVIS & SON MISCELLANEOUS

HE FELL IN THE STREETS, 1884. RIBLE CASE OF GRAVEL-WHEN OTHER HELP FAILED.

What is Gravel? what causes it, and who are most liable to it? There is no one—no matter how apparently free from this appaling and painful disease now—but is interested in the answer to these questions. Gravel is a general name for all those diseases which ingeneral name for all those diseases which include the formation of a sandy substance—and ultimately larger and more solidistones called calculi in the Kidreys and Bladder. It is frequently attended with acute pair, and unless relief can be found, produces inflammation and death. Both sexes and all ages are liable to it, although men who have reched or passed middle age are its most common victims. Nothing is more urgently needed than a reliable medicine for Gravel, as the disease seems on the increase, and we are glad to say that such a specific is now before the public in the such a specific is now before the public in the orm of DR. DAVID KENNEDY'S FAVOR ITE REMEDY, of Fondout, N. Y. We put in evidence the following letter, selected from many similar communications: PITTSFIELD, Mass., March, 1884.

DEAR FIR:-You have a right to know, and desire the public to know my experience with Gravel and my remarkable recovery through the use of your "FAVORITE REME DY." I am a carpenter living in this place: and there are plenty of witnesses to the truth of what I say. My first comparatively slight attack of Gravel was in the year 1878. It passed away and I had little more trouble until last July 1883 One day when at work in my shop I was suddenly selzed with a keen and terrible pain in my left side. I consulted two physicians at once. One said: "I can do nothing for you. Your case is incurable! I was frightened and went to the recond who said little but gave me a prescription. It did no good.

Then began a ser'es of experiences the agony and horror of which words cannot de ict Think of it! I was sometimes taken in the street and would fall, writhing with agony, upon the sidewalk. It was death in life Thank Heaven, I then heard of "KENNEDY'S FAVORITE KEMEDY" through Mr. P. P. Cooley. I had not used half a bottle when I passe i three stones in succession, one of which was nearly one-half an inch long, I persevered with the medicine, the symptoms gradually abated, and I have no more trouble since. I am well, thanks to you and "FA-

Yours most Gra efully, JAMES D. KENNEDY. What "FAVORITE REMEDY" did in this case, it has done in many others. If you de sire to do so Address-Dr. David Kennedy, Rondout, N. Y. aug 21 daw
