Twenty thousand pies are made and eaten every day in Philadelphia. Is it any wonder that we have been called a nation of dyspeptics?

Coca cocktails, made of wine of coca and any ordinary liquor, are coming into fashion in New York, especially among brain workers.

Detroit Free Press: The Rev. Dr. Talmage says he has always avoided a man who wears a diamond stud. Why didn't he learn poker in his youth?

Mr. John L. Sullivan, of Boston, the most eminent slugger of the age, has announced his intention to retire from the prize ring and become a gentleman.

Silver advocates who have any clear sense of dimensions must feel a good deal dejected as they read that Chicago has put its foot down upon the silver dollar.

Ex-Governor John W. Stevenson, of Kentucky, who is now in New York, predicts that the next contest for United States Senator in Kentucky will be the most remarkable struggle every known in the history of the State. Thus speaks the Chicago News: "The best answer to Senator Sherman's charge that the South continues to be 'held together in political fellowship by crimes, violence and fraud,' is the record of the last election. The Republican vote in the 'solid South' increased from 805,788 for Garfield, to 1,044,532 for Blaine, thus showing a far greater relative increase than in the Republican vote in the North."

Lady Carnarvon, as far as linguistic studies are concerned, is becoming more Irish than the Irish themselves. The Irish language seems to have a fascination for persons of linguistic taste, evidenced by the ardor with which it is studied by the scholars of Germany. The beauty of its literature, the richness of its vocabulary, and the regularity of its grammatical forms seem to attract persons of intellect and refinement, who only require to become slightly acquainted with it to continue its study.

Things Worth Knowing. That Alcock's are the only genuine porous plaster. That all other so-called porous plasters are imitations. That their makers only get them up to sell on the reputation of Alcock's. That all so-called improvements and new ingredients are humbugs. That no one has ever made an improvement on Alcock's Porous Plasters. That when you buy Alcock's Porous Plasters you obtain the best plasters made. d&w eod

A good many of the peach trees and some of the apple trees on Wrightsville Sound are blossoming for a second crop. The fruit was fair and well ripened and the blossom was fully developed.

Foster Held For Trial.

At Savannah, on Friday last, ex Postal Route Agent H. E. Foster, of this city was given a hearing before United States Commissioner Erwin and was held for Court in \$700 bond. The defendant was charged with the abstraction of a registered letter from the mails on August 22. The case, as developed by the Government, is as follows: "William H. Culpepper, assistant postmaster at Camilla, Ga., testified that a registered letter containing \$89 was mailed for Savannah August 21. The letter was delivered to J. C. Few, postal clerk on the train, who receipted for it. The letter next passed into the hands of Dawson B. Snelson, a postal clerk on the route between Chattahoochee and Waycross. Snelson receipted for it at Thomasville, August 22. It was numbered 70, and Snelson wrote a description of it in a book kept for the purpose. H. E. Foster, who was at that time running between Charleston and Jacksonville, next received No. 70, and gave a receipt for it. What became of the letter after that is unknown to the authorities."

The defendant took the stand and stated that he knew nothing about the matter that could explain what became of the letter.

"I can make no explanation except what the book makes," he said. "The book shows that I received a receipt for No. 70 from Tryson."

The counsel for the defence contended that the theft of the letter was not proved on Foster. The case will come up at the next term of the United States District Court at Savannah.

Creamery Buttered Flour.
AN UNEQUALLED TABLE LUXURY!

THE LIGHTEST, BEST AND HEALTHIEST food in the world. The result of more than three years' study and experiment by a scientific physician.

Warranted to contain nothing but the Purest and most Wholesome ingredients known to the present age, all most thoroughly and evenly mixed, by machinery especially invented and made for this purpose.

The old method of mixing by hand, besides being very laborious, is never reliable, and as a result the food mixed and cooked will be all a person can desire one day, and possibly the very next day not fit to come upon the table of any well-regulated household.

These qualities are entirely overcome by using the MARTHAS WASHINGTON CREAMERY BUTTERED FLOUR.

HOW IT IS MADE. First, the articles used in its preparation are accurately weighed, then the flour is sifted; next the flour, together with PURE CREAM of Tartar, Bicarbonate of Soda, Salt, and PURE, Sweet Creamery Butter are placed in a large ingeniously constructed and patented apparatus. The machine is then set in motion, and in ten minutes turns out a barrel of perfectly prepared "CREAMERY BUTTERED FLOUR."

No human hand can mix it so well. It is so fine it can be passed through an ordinary flour sieve. Flour mixed with butter in the usual way by housewives is coarse, full of lumps and incapable of passing through a flour sieve, and will spoil if kept only a short time; but "CREAMERY BUTTERED FLOUR" will keep three months or longer in any climate.
