A Free Ride and Free Lunch.

A couple of well known gentlemen

of this city were returning on the cars from New York a few days since and helped a poor tramp along on his journey-to somewhere-quite generously. We say somewhere, because it has seemed to us that the tramp gentry. while continually on the move, have no particular destination, no home to reach, no kith or kin who are waiting to greet them welcome, but wander aimlessly, carelessly and recklessly from one point to another, subsisting as best they may upon the charity of the generous-hearted. But to the incident in question: While the train was stopping at Wilson the conductor discovered a man concealed under one of the cars on the truck frame, and made him get out and off. At the same time one of the gentlemen referred to saw another of the tramp gentry upon ans other truck frame, who had eluded the eyes of the conductor. When he saw that he was discovered, the tramp said to the gentleman, "Don't say anything, boss," and the latter replied that he would not. The train soon started, when he who had discovered the tramp told his companion of the circumstance. At Goldsboro they both got off the train and saw the tramp safe enough on the truck frame, when the sort. he said that he had concealed himself when the train was about 20 miles North of Weldon. One of the gentlemen gave the fellow a cigar, which was accepted gratefully. At Magnolia they got off again and there was the tramp safe and sound on the truck frame, and they bought and gave him a lunch to eat after the train started, as best he him for a respectable funeral. reputation and reflected honor and Mrs. H.
