Advertising rates low and liberal.
Subscribers will report any and all failures to receive their paper regularly.

THE DAILY REVIEW.

VOL. IX. WILMINGTON, N. C. MONDAY, OCTOBER 5, 1885. NO. 232

The Daily Review has the largest home file circulation, of any newspaper published in the city of Wilmington.

Blaine is the name of a new county in the State of Nebraska.

A new fancy of the fair is gold knitting needles tipped with pearls.

The artists of New Orleans have decided to found a school of design in that city.

The Genesta has been stripped of her racing rig in order to be shipped back to England on a steamer.

The Baltimore grand jury reports that the introduction of the whipping-post to punish wife beaters has had a salutary effect.

In the Mississippi delegation to the Forty-ninth Congress there are three members who were privates in the Confederate Army—Messrs. Barry, Allen and Catchins.

The Gazette des Hopiteaux describes the case of a woman who drank a pint of kerosene. The dose nearly killed her, and she was saved only after great suffering and an active treatment for ten days.

It is estimated that there has been a decrease of about \$12,000,000 in the public debt during the month of September. The payments on account of pensions during the month were about \$4,000,000.

A pickle famine is threatened this winter. The present supply at the East is set down at 80,000,000—one half only of what is needed for the Eastern trade. The Western crops have suffered, and heavy advances in price are looked for.

Col. Charles C. Jones, Jr., of Augusta, Ga., having investigated the subject, is convinced that neither Major-Gen. Nathaniel Greene nor Major-Gen. Connt Pulaski "sleeps beneath the respective monuments which a grateful and patriotic people have reared in their honor."

Charleston (S. C.) News and Courier: Gen. Mahone's present embarrassment, in view of the appeals that are made to him by his strikers for money for campaign purposes, affords pretty clear evidence of the character of his methods in the past.

A telegram from Gallipolis, Ohio, says: "Leading colored citizens of this place waited upon the School Board with a formal petition asking that former action refusing colored children admission to the white High School be rescinded. The board returned an adverse answer."

The Union Pharmaceutique says that an eminent chemist prepared with great care a mixture of manganese, permanganate of potash, and oxalic acid, only to find that the mixture exploded a few minutes afterward in the patient's pocket. It also gives an instance of a tooth powder composed of cachou and chlorate of potash exploding in the mouth of a person engaged in brushing his teeth.

The Prohibitionists of New York are very bitter in their war upon the Republicans. They say that they will not withdraw their State or any of their local tickets, but will press the canvass in their own interests and especially against the Republican ticket on account of Daveport's record.

A plain and honest confession comes from the Nutmeg State. The New Haven Union says: "There are places in Connecticut, and Meriden has been one of them, where it was not healthy for a Democratic workingman to vote against the candidates backed by his Republican employers. Shotguns were not used to convince him, but methods equally effective were brought to bear."

Chronic Sciatica Cured.
ASHLAND, MASS., January 23, 1885.
For the last two years I have hobbled around on crutches. During that time I was afflicted with sciatic rheumatism. I not only suffered terrible pain night and day, but was utterly helpless. After using every possible effort to get well, and exhausting the best medical advice, I was induced to try four Alcock's Porous Plaster. These I wore on my side, hip-bone and thigh. In one week I was almost entirely free from pain, and strength returned to my palsied limb. I continued using these Plasters with the most surprising results for three months, when I became perfectly cured, and abandoned the use of crutches. Persons desiring further information can address me.

Chairman Hensel, of the Pennsylvania Democratic committee, spent one day last week with Mr. S. J. Tilden, who expressed himself as pleased with the Democratic nominations in New York. He expects to see both New York and Ohio go Democratic this fall. When told that the chances of the Democrats carrying Pennsylvania were good he was especially delighted.

The President last week received an elegantly framed photograph of Prince Bismarck. It was a present from Prince Bismarck himself and bore his personal autograph. It will be hung in the President's chamber. It represents the Prince in his military uniform. It is probable that the President will return the compliment and send back one of his photographs similarly framed.

Congressman Warner's so-called "compromise" bill is denounced by various bankers and business men of New York city as a delusion and a snare, on the ground that it does not limit the amount of silver which may be coined and leaves far too much power in the hands of the secretary of the treasury. For these reasons it is considered even worse than the Bland Act.

The Chicago Sun, referring to the assault of Dr. White upon Judge Ward, thus forcefully, if not religiously, sums up its views: "There seems, by the way, to be some defect in the quality of the Virginia 'chivalry' exhibited in this affair. The most commonplace ruffianism anywhere could hardly be guilty of a more cowardly butchery than that perpetrated by the three 'chivalrous' dogs who deliberately continued firing upon a fallen and defenseless foe."

For other locals see fourth page.

The receipts of cotton at this port today foot up 712 bales.

The weather last night was almost cold enough for a frost.

The School at St. James' Home will commence on Monday next.

Notice to the Boys—These Bracket Saws are here. JACOB'S Hdw. Depot.

Br. steamer Carbis Bay, Tregarten, cleared at New York on the 3rd inst, for this port.

Nor. barque Hovding, Olsen, from Stettin, for this port, passed Copenhagen Sept. 25th.

"John DYER, Tailor and Haberdasher," 34 Front street. Winter is coming and you need warm clothing. Go see him.

Cotton is being brought here in quite large quantities and the compresses and cotton dealers are kept quite busily employed.

The Graded Schools of the city opened this morning with an unusually large attendance, nearly every seat being occupied.

Mrs. Kate C. Wines is now busy opening up the new stock recently purchased by her in New York. It will be ready for inspection on Thursday next.

There have been heavy rains in the up-country by which it is expected that the streams tributary to the Cape Fear will be swollen so as to cause considerable of a rise in the river, to the advantage of steamboat navigation.

The streets were quite lively this morning with children wending their way to school and in front of the different public schools, before the hour for opening, there had gathered a large throng of pupils waiting to begin the studies of the term.

You will find a full assortment of paint, horse and scrub Brushes, made by the best factories, at JACOB'S Hdw.

The ladies were out in force to-day and many of them were at Taylor's Bazaar, this being the first of the three opening days there. By invitation of the proprietor we made an inspection of the stock and even to our masculine eye the display was indeed a beautiful one.

Have you seen the fine assortment of Stoves at JACOB'S Hdw. Depot? You can save money by buying there.

Gun Club.

Several gentlemen in this city who have a fondness for hunting have concluded to form a gun club and will meet to-night in the room over the First National Bank for the purpose of organization. There are a good many in the city who delight in this sort of field sport, and the club should have a goodly number of members.

A Want Supplied.

Many persons, who have been desirous of learning to play the violin, have not been able to do so on account of being unable to obtain a competent instructor. Prof. G. M. Hobbs will locate in Wilmington, and he being a thoroughly competent musician will give entire satisfaction. He also makes a specialty of teaching Harmony and modulation. No doubt some of our organists will take advantage of this, as it is really needful for an organist to understand harmony in order to modulate well.

The best ready mixed paint can be had at JACOB'S Hdw. Depot. He has it in all size cans, from half pints up.

Found Drowned.

The body of an unknown colored man was found floating in the river yesterday nearly opposite the timber pen at Messrs. Parsley & Wiggins' mill. It was secured and Coroner Jacobs was notified, but he did not deem a jury of inquest necessary under the circumstances as there were no marks of violence upon the person of the deceased, and the body was buried at the expense of the county. The deceased was apparently about 35 years of age and was not identified by any one. He was evidently a stranger from the country and appearances indicated that he had accidentally fallen overboard and drowned.

Will Double the Business.

SHRIER is determined this Fall and Winter to double the amount of business that he did last, and will not resort to any unfairness, schemes or give away presents to accomplish it, but merely by fair and honest dealing with the people. We guarantee to give to each and every patron fully one hundred cents value in return for each and every dollar and frequently much more. It makes no difference what inducements other houses may offer in the way of prices, we can always save you at least from 15 to 33 per cent. on the dollar by dealing with SHRIER, the Old Reliable Clothier, 114 Market st., sign of the Golden Arm.

Millinery.

I HAVE A FINE STOCK OF MILLINERY GOODS which will be opened next THURSDAY, Oct 8th. Hope the Ladies will give me a call before purchasing.

IS COMING, AND NOW IS THE TIME to have your Stoves overhauled and put up for the winter. If you want a first-class COOKING OR HEATING STOVE, we can furnish you.
Pure White Oil always on hand.
PARKER & TAYLOR'S,
23 South Front St
Oct 5

Reward.

EARLY ON LAST SATURDAY MORNING a white man got a horse and buggy from my stalls stating that he was going to Masonboro Sound, since which time he has not been heard from.

The man was between 25 and 30 years of age and well dressed; clothes rather light; about 5 1/2 feet in height; fair complexion and no beard. The horse is a solid bay, small and compact and dark below the knees. The body of the buggy is black and the running gear red; bridle without blinds.

For the recovery of the property and arrest of the man a suitable reward will be offered.
R. C. ORRELL.

Oct 5

Creamery Buttered Flour.

AN UNEQUALLED TABLE LUXURY!
THE LIGHTEST, BEST AND HEALTHIEST food in the world. The result of more than three years' study and experiment by a scientific physician.
Warranted to contain nothing but the purest and most wholesome ingredients known to the present age, all most thoroughly and evenly mixed, by machinery especially invented and made for this purpose.
The old method of mixing by hand, besides being very laborious, is never reliable and as a result the food mixed and cooked will be all a person can desire one day, and possibly the very next day not fit to come upon the table of any well-regulated household.
These inequalities are entirely overcome by using the M. M. & WASHINGTON CREAMERY BUTTERED FLOUR.
HOW IT IS MADE.
First, the articles used in its preparation are accurately weighed; then the flour is sifted; next the flour, together with PURE CREAM of Tartar, Bicarbonate of Soda, Salt, and PURE, Sweet Creamery Butter are placed in a large ingeniously constructed and patented apparatus. The machine is then set in motion, and in ten minutes turns out a barrel of perfectly prepared "CREAMERY BUTTERED FLOUR," which a person can mix as well. It is so fine it can be passed through an ordinary flour sieve. Flour mixed with butter in the usual way by housewives is coarse, full of lumps and incapable of passing through a flour sieve, and will spoil if kept only a short time; but "CREAMERY BUTTERED FLOUR" will keep three months or longer in any climate.
