MISCELLANEOUS. KEEP IT PURE. THE LIFE IS THE BLOOD .- PREVENT DISEASE. SURGERY THE LAST RESORT .- A TELLING

LETTER.

Here is a fact for you to think over, viz: Medical science proves that diseases no mut ter how great a variety they some thave proceed from comparatively few cuses It is for this reason that some single medicies re-Heve or cure so wide a range of complaintssome of them appearing almost directly op posite in their natares When a medical pre paration acts at once pron the digestive and a-Juary organs, and also purifies the bl or the list of difficulties subject to its control fastopl sh'ng. But, while many things a e said to possess this power, the e which actually

use for all diseases arising from a foul or im-pure state of the circulation Hence it is more than likely that 'f the writer of the f l lowing letter had habitually taken "FAVOR-ITE REMEDY" ten "ears ago he would never have suffered from Cancer

PITTSFIELD, MASS, March 22 1884

Dr D. Kennedy, Rondout, N Y .:

DEAR SIR .- About six years ago I was obliged to report to external treatment for the removal of a cancerous growth on my lip. my return home. I became sensible that my blood needed a thorough cleaning My whole system, too, required toning up. While cast-ing about for the best modicine to do his. your "FAVORITE REMEDY" was so highly commended in my hearing that I r solved to try it. I did so and the result surprised me It was effected so quickly and completely. I soon got over the depression produced by the operation, and since the "FAVORITE REM-EDY" which I have continued to take in small tairly decent people. doses, has kept me in such health and strength as I never had before, nor expected to have. It is the best blood purifier in the world. I am sure of that. Yours, &c. MATTHEW FARBELL.

24 Adams Street.

In all cares when a consultation is deemed desirable.

Address:-Dr. David Kennedy, Rondout, N.Y. But, if you have not done so, adopt "FAVORITE REMEDI" as a rousehold sept 17 d&w nrm friend.

The New York State campaign has do exert it fare very rate It is conceded that DB. PAVID KENNE-DI'S FAVORITE REMEDY, of Rondout. N Y., is the most effective preparation how in Y., is the most effective preparation how in beings they are. Mr. Davepport is denounced as a wine merchant and a cold-hearted wealthy aristocrat. Governor Hill is pilloried as a partner of Boss Tweed, and Jones, of Binghampton, is ridiculed tor his tremendous mustache his absurd style of advertis-

made for it in

how the conventions were induced to nominate such outrageous persons, but

Some of the most valuable antique furgiture on the continent is to be found. it is said, among the possession of the Creole tamilies of Louisiana. At an auction in New Orleans lately a gen tieman purchased for two dollars a FirstEmpire chiffonier, which he readily sold for more than thirty times that sum. By watching auction sales in New Orleans rare bargains may often be had

in bronzes, pictures, clocks, chairs, sofas, cabinets and dressing tables. Sometimes a cabinet of the time of Louis XII, Florentine tourteenth century chairs and exquisite inlaid cabinets of Louis Seize and Louis Qainze may be picked up for little or nothing. Under the first Napoleon many French families settled in Louisiana, bringing

their housholds goods with them.

According to the New York World.

Bradstreet's furnishes the following commercial summary for the past

week: Jobbers, manufacturers agents and the commercial classes generally as re-ported by wire to Bradstreet's this week very generally recognize not only that the fall spur in business has about spent its force, but are inclined to concede that there is no likelihood whatever of a boom this year. With the exception of a tew Southern cities, where receipts of cotton have been heavier and where trade has been stimulated thereby, there is a noteworthy check to the late freer purchases of staple goods. This holds true except at St. Louis, where an exposition and to retain urine, and all the diseases and otter special influences have contrib- ailments peculiar to Women"uted to a movement of merchandise quite as ful, as previously. At Boston money is easy, and some lines of trade are quieter, while a tew are ac-tive. There, as at the East gen-erally, dry goods staples are in light-er demand thas during August and September, though some better than during the corresponding week in 1884. Ask the same physicians "What is the most reliable and surest cure for all liver diseases or dyspepsia. constipation, indigestion, billiousness, malaria, fever, ague, &c.," and they will tell you Mandrake! or Dandelion !!!! money is easy, and some lines of trade during the corresponding week in 1884. Wool at Eastern markets is quiet, and prices are unchanged. Boots and shoes continue in active request, and factories with others equally valuable. And compounded into Hop Bitters, such a ing and his quite moderate mil tary continue in active request, and factories record. For a month we shall wonder are busy. Philadelphia markets are developed, which is so varied in its orerations not as a rule quite so firm, and dealers that no disease or ill health can possibly exist are a shade less confident. Retailers are more active there, as at many other alter that time it may again appear points, but it will take some time for the consumptive demand to lessen the interior wholesale purchases made within two months past. A significant leature is found in the New York and Chicago money markets. At New York call loan rates have been made at 2 per cent., against 1@11 per cent. so long prevalent, and at Chicago at 4 per cant. as compared with 3 per cent. In Ch cago trade circles talk is le s confident, although opinion inclines to the belief that the improvement is here and shronic, or suffering from scrofula, to stay, and that "another wave

of buying" will follow the last. indigest on, and, in fact, almost all diseases There is no improvement in the iron frail" market. At some centers there is less demand for pig than there was last Have been cured by Hop Bitters, proof of which can be found in every neighborhood in week. Old rails are firmer and in fair- the known world. ly active demand. Anthracite coal retaius the leatures of improvement noted last week. Petroleum is dull. The export demand is only moderate, and their name certificates of crude hang heavily between \$1 and \$1.02 per barrel. Provisions are less improved than was to be expected considering the firmness shown by Indian corn and wheat. Speculation has had much to do with Refrigerator and Ice Works this, and receipts of hogs continue large. Corn stocks are light and no new corn can get east in quantity until December and January, which contributes to the advancing tendency noted in prices Wheat has been more active speculatively, though there is not much more demand from abroad The excessive output of flour points to confldence on the part of millers in the epidemic is spreading. Unfortunately, course of wheat prices in the near for Family use. future. The quantity of wheat on passage is still declining, and "on the basis of demand and supply" alone English ous diseases, it flourishes in cold weath- buyers are likely to have to pay materially advanced prices for grain later in the season. In the less important grocery staples there is a slightly improved demand, but tea, sugar and coffee are still dull. Dairy products bave advanced. Cotton, after being higher on Bradstreet's untavorable report last week, has been somewhat lower, but with a later reaction to a higher level again. There were 179 failures in the United States during the past week, as compared with 172 the preceding week, and with 213, 166 and 125 respectively in the corresponding weeks of 1884, 1883 and 1882. About 84 per cent. were those of small traders whose capital was less than \$5,000. Canada had 25, an increase of 2.
