Not Loaded for Bear.  
A party of gentlemen, some of whom were from this city, went squirrel hunting near Willard's, in Pender county, last Saturday, and jumped a bear. None of the party were prepared for anything larger than squirrels, and so they concluded to give Bruin a wide berth.

Ocean Travelers.  
The following is the list of passengers who arrived on the steamship *Gulf Stream* to-day from New York:  
Mrs. Wilkin Roddick and son; Mrs. B. Callahan, Miss Katie Brown, Mrs. Cansellos, Miss Jessie Cansellos, Miss Mary Cansellos, Miss Mary Glowry, F. Asiran, C. C. McKinney, John Cansellos, Joseph Cansellos, James Cansellos, and J. B. Berry, colored, and wife. Several of the above disembarked at Smithville.

Vital Statistics.  
The number of deaths in this city for the month ended September 30th, 1885, as furnished by Dr. F. W. Potter, city physician, is as follows:  
Whites, 10, of which 9 were male and 1 female. Of this number 7 were adults and 3 were children.  
Colored, 25, of which 11 were males and 14 were females. Of this number 8 were adults and 17 were children. Total white and colored 35, from which should be deducted 4 still-born and 2 who died from old age, leaving 29 as the number who died from disease as against 35 for the corresponding month of last year.

The most economical coal scuttles known are the galvanized iron ones. They never rust. You will find them at JACOB'S Hdw. Depot.

### A Fishy Enterprise.

Messrs Craig & Thomas, of No. 113 South Front street, have started a fishery which is located on the Cape Fear, about 14 miles from the city, for the purpose of catching fresh water fish and terrapin. They made their first shipment North to-day, which consisted of five barrels of catfish and one barrel of terrapins.

The Cape Fear Baptist Association will convene at Bogue, Columbus county, on Thursday, the 22nd inst.

### Very Sick.

A colored man was picked up in the street last night and taken to the guard house in a deplorable condition. He was barefooted and was nearly unconscious. The city physician was sent for and he said that the man was suffering with congestion of the brain and was too sick to be taken to the hospital. The sufferer could not give his name but those in attendance ascertained that he came from Goldsboro, and had walked to this city. He is about 21 years of age, ginger complexion and 5 feet and 10 inches high. There is no hope of his recovery.

### The Banker's Daughter.

This popular and meritorious play, which will be presented at the Opera House to-morrow night and also on Saturday matinee, called forth the following from the Norfolk *Virginian*. Crossen's Banker's Daughter Company presented that popular society drama at the Academy of music last evening to a large audience. The piece was put on the stage with due regard to proper scenic effect, the vestibule at the residence of the American minister at Paris, and the duel in the snow, being especially good. The wardrobe of the ladies was rich and elegant and the company performed its work in a conscientious manner.

### Rev. Robert Strange.

Rev. Robert Strange, of this city, has been called to the charge of the Church of the Good Shepherd, in Raleigh, made vacant by the resignation some months since, of Rev. E. R. Rich. The *News and Observer* speaks thus handsomely of Mr. Strange:  
We are pleased to learn that this talented young clergyman has returned to North Carolina and will become a resident of this city as pastor in charge of the church of the Good Shepherd. Bearing the name of his distinguished grandfather, Judge Robert Strange, of Fayetteville, and his late lamented father, Col. Robert Strange, of Wilmington, and having graduated some years ago at our State university with the highest honors of his class, he might have been the third of the name to illustrate the bar in North Carolina had he made the law his profession; but turning aside from this path that lay so bright before him he gives his attention to the christian ministry, making usefulness rather than distinction his aim in life. We are informed that Mr. Strange will remove to Raleigh about the last of the present month and preach his first sermon on the first Sunday in November. He has already many friends among the citizens of Raleigh who will welcome him here.

The State Fair opened at Raleigh yesterday and we clip the following relative thereto from the *Visitor*:  
By 9 o'clock this morning the Fair grounds presented an animated appearance, and by 10 o'clock the buildings were filled with a large class of visitors and sight-seers.  
The Central Exhibition hall this morning bore evidence of hard work on yesterday, and judging from the beautiful display of the works of art, hand work and articles of vertu it was a job of no little matter and concern in placing all the exhibits to advantage.  
The Horticultural Department looms up to great advantage. Here one is confronted with all of our native products, from the old confield pea to the gracious lumix-looking pumpkin standing out in bold prominence like the old squires of merry England.  
On every hand are to be seen evident marks of progress in our agricultural productions, while the continued improvements in our machinery and farming implements attest the fact that the North Carolina farmer is keeping pace with the new methods of the present day and is fast throwing aside the "old ideas" instilled years and years ago.  
Up to the present moment there have been 1,527 entries made with a likelihood of the list swelling up to 2,000.  
The exhibition of stock is worthy of more than a passing notice. It is decidedly the best for years. Surely the Old North State is making rapid strides in the breeding of fine stock. This exhibit is worth to those interested in the finecattle a week's admission to the fair.

**Indications.**  
For the South Atlantic States, slightly warmer, generally fair weather, variable winds, generally from West to South, in Northern portion.

**Registering Deeds.**  
The time for registering deeds will soon be up, and all deeds left unregistered will be unmarketable and worthless. The law requires that all deeds made since 1825 must be registered. This is a very important matter and concerns every citizen who holds a deed for property. The register of deeds can be found at his office in the court house every day except Sunday, ready to discharge his duties in the matter. The importance of this matter can be appreciated when one stops to think that after the expiration of the time for registering deeds, a deed unregistered will not hold good for a transfer sale.

**Storm Tossed.**  
Considerable alarm was manifested yesterday regarding the safety of the steamship *Gulf Stream*, Capt. Pennington, which sailed from New York last Saturday and was due here on Tuesday last. She was expected here yesterday and was reported arrived by us through an inadvertence in not withdrawing the name from our memorandum. She came in over the bar at Smithville at about 9 o'clock this morning and arrived at her wharf in this city at about 1 o'clock this afternoon, having had a very rough passage. Capt. Pennington reports that a gale of wind from East Southeast struck the vessel off Hatteras at half past 4 o'clock last Monday morning and such was its violence that he was compelled to heave to. Remained hove to the wind until half past 11 o'clock on Tuesday forenoon when the gale had somewhat abated, and the vessel was put upon her course. During the gale and while she was hove to, the vessel shipped a sea which carried away her round houses and forecastle companion way, stove the pilot house and broke her steam hoisting machine. Fortunately there was no damage to life or limb and her passengers were all safely landed and no doubt were glad to put their feet again upon terra firma.

**Beware of Parties**  
that hold out tempting baits. Honest goods and low prices are the only inducements necessary. If more is required the patron must pay for the extras pro rata, as hundreds of our patrons have, and who can truly testify that such are facts. We have saved our customers many dollars when they have taken the time and trouble to compare our goods and prices with scheming competitors. This is the only true and reliable test. We will cheerfully send goods to your residence, letting you be the judge. We have a standing offer to donate \$100 to any charitable institution in this city, if \$100 worth of goods selected from our large stock, viz: clothing for men, boys and children, gents' furnishing goods, and hats and caps, are not found to be 15 per cent. less than the identical goods, of as good value, can be had elsewhere; in many cases we would be safe in saying 25 per cent.

It is very gratifying to us to know that our trade has increased, which goes to show that notwithstanding the different schemes and new competition we have to contend with the masses will not be gulled, preferring rather to trade where goods can be had for the least money, and whoever offers other inducements with their goods, you will find that the purchaser is taxed either directly or indirectly to support these schemes. Farmer's who can raise merino lambs and sell them for \$1 000 apiece when three months old can afford a little recreation now and then.

Miss Thorndyke, the young lady just married to Dion Boucicault, is forty-one years younger than the actor. It is all right now, but when she is 85 he will be 126.

With the close of the trotting season we hear that Harry Wilkes, while preparing for his race with Clingstone, trotted a mile in 2.094. The quarter's were done in 33, 32, 31 1/2, 33.

Free Press: Leonard, the Prohibition candidate for Governor of Ohio, says he expects to live in that State when there is not a saloon in it. We think Leonard is playing a confidence game on himself.

A confidential friend of S. J. Randall says: "The report that Mr. Randall is in bad health again is incorrect. His health is very good, and he will be ready for a hard winter's work in the coming Congress."

The Philadelphia Press says the Irish American leaders appear to have been seized with a spasm of first class common sense. In their view the cause of Irish liberty can be advanced more by cold cash than by hot words.

"God bless them all," were the last words spoken by Cardinal McCloskey. He referred to the people of his Church, clerical and lay, and addressed them to his successor to the Archbishopric, the Most Rev. Michael H. Corrigan.

The Iroquois Club, the leading Democratic club in Chicago, has voted down a resolution of confidence in Mayor Carter Harrison by a vote of 17 to 13. The mayor treats the matter lightly, and declares that it was done by a few young men, and that the club, as a whole, is friendly to him.

The late Dr. Richard McSherry, of Baltimore, spent a most active youth. He served in the Florida war in the medical corps under General Zachary Taylor, and in the Mexican war as surgeon to a battalion of marines under General Winfield Scott. He then made a cruise around the world in the frigate Constitution (Old Ironsides) under Captain Percival.

Senator Call, of Florida, does not know why, when the Government wants a penman, the applicant should be examined in the discovery of steam and decimal fractions and square root. The Florida Times-Union retorts in kind when it says it cannot see why, when the Government wants a clerk, it should wait to inquire whether the applicant has managed caucuses and conventions in the interest of Mr. Call or others.

As stated by us yesterday, Ohio has gone Republican, body and soul. This was really expected, although something better has been hoped for. Hoadly's election in 1883 was not by any means a test of party strength but was brought about by various causes outside of the party. Ohio is a Republican state, and there is therefore nothing to crow about in its having gone back to its vomit again this year. The Democrats had much to gain in this contest and nothing to lose. They have lost nothing, as Ohio has simply gone Republican again. That is all there is in it.

**The Best Internal Remedy.**  
Brodruth's Pills, the best medicine known for all diseases. They are purely vegetable. The same dose always produce the same effect; other purgatives require increased doses, and finally cease acting. They purify the blood. They invigorate the digestion and cleanse the stomach and bowels. They stimulate the liver and carry off vitiated bile and other depaved secretions. The first two or three doses tell the story. The skin becomes clear; the eye, bright; the mind, active; digestion is restored; costiveness cured; the animal vigor is recruited, and all decay arrested.

**Unruly Sailors.**  
Capt. Wroldsen, of the Nor. barque *Stanley*, came up to the city this morning on the steamer *Louise*, with three of his crew who had refused to proceed further in the vessel. They went before Mr. R. E. Heide, Norwegian Vice Consul for this port, by whom the matter was soon settled by the discharge of the men and securing three others to supply their places.
