Beware Where You Trade. The question that should interest you the most is where the best clothing for men, boys or children can be had for the least money, without any nonsense or humbugging. Just think for a moment, how could these scheming con cerns exist if such was not the case: if their prices were not above SHRIER'S, who is satisfied with the smallest livins profit? We sell as fine clothing as can be bought ready made of the largest clothing houses in this country, but we also have low and medium qualities, for every one is not able to buy the finest. It is a well known fact that every garment in our house, whether the cheapest or the best, is strong, durable and well made. We will not sell poor, worthless goods at any price.
