THE DAILY REVIEW

VOL. IX. WILMINGTON, N. C. THURSDAY, OCTOBER 29, 1885. NO. 253

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

It is believed that, in addition to his plaid shirt, the Hon. John Sherman is about to paint his trousers red, too.

Ex-Senator Tabor, of Colorado, is said to be suffering from insomnia. This comes from a ten-cent man wearing \$2,000 night gowns.

Miss Cleveland says she will not publish another book while her brother is President. There is where the lady makes a serious mistake.

"Ellen Terry introduced in this country the present feminine fancy for short hair." If she had known what she was doing, she would have gone and hanged herself first.

The Socialists of Milwaukee have at last taken a practical step toward the amelioration of the condition of the workingman. They have declared for 3 cent lager.

The completion of the Atchison, Topeka and Santa Fe railroad to San Diego, on the Pacific coast, dates the planning of the seed for a new city. We shall hear more of San Diego by and by.

It is doubtful if any chemical preparation can improve the complexion. The effects are extrinsic and in most cases leave the epidermis in a congested and diseased condition. The simplest, cheapest, purest and most efficacious applications are cold rain-water and sunlight.

When Cardinal McCloskey died, or was dying, prayers were uttered for him in a number of the Protestant churches, and thus is seen the benefit in this world of a teachable and charitable spirit which lives past the grave, and in the act of dying inspires a compassion which polemics can never bring about.

The canvass in Hamilton county, O., elects the entire Democratic Legislative delegation of fourteen, on the face of the returns. Even with this the Republicans still claim a majority of two on joint ballot. An effort will be made to unseat the Hamilton county senators, on the ground of gross irregularities in Cincinnati. There is still a season of delightful political excitement ahead and another Cincinnati riot is not wholly beyond the possibilities.

At Middlesborough, Eng., the other day, Dr. Seratben appeared as a witness at petty sessions, but declined to take an oath, on the ground "that it was a very serious thing to kiss a book which was handled by all kinds of people." After some argument, the doctor offered, by way of compromise, to kiss the book if a clean sheet of paper were placed over the cover. The bench declined to accede to this, or to allow the doctor to make an affirmation, and eventually he consented, under protest, to "run the risk of catching disease."

Dr. Bross, the leader of the Canadian anti vaccination movement, vigorously denies the recently published charge that he had been thrice vaccinated himself. He says in a published card that he was vaccinated fifty-one years ago, at a time when he was not in good shape to resist, but from that day to this he has successfully thwarted all attempts to inject the life-saving virus into his noble veins. He challenges the medical fraternity to examine his body for vaccine marks of a fresher date than a half a century ago.

Although there has been no definite announcement of any speedy change in the St. Louis postoffice, a dozen candidates have already been entered in the free-for-all scramble for the place. Of one candidate it is said that he was on the same tent with the postmaster-general; of another, that Private Secretary Lament is solid for him; of a third, that his nephew gave a dinner to the Vice-President last week, and of the remainder, that they possess various similar qualities of patriotism or statesmanship.

Thomas Manahan, No. 32 Montgomery street, Hudson, N. Y., two years ago was given up by his physicians. He was afflicted with dyspepsia and obstinate constipation; had lost forty pounds in weight and was a bedridden invalid. He commenced taking Brandreth's Pills in doses of five, four, two and one. Then he took two every night for a month, gained eight pounds in weight, and was able to attend to business. He took two pills every night for the following six weeks, and was entirely cured.

Sergt. Ellison, one of the victims of the Greely expedition, was an enthusiastic botanist and collected some very rare Arctic plants, two of which had never been classified. The plants are from six inches to two feet in height and under a magnifying glass presents a very beautiful appearance. Of the thirty-two classified specimens, all but two were flowering plants. At the latitude at which they were gathered (81.41) the sun is quite warm in July and August and vegetation, though stunted and short-lived, is not a rarity.

If you brush your teeth and fragrant breath are, as they should be, your desire, go and buy some of our tooth powder. And, then, you're only to enquire for "ZODONT"—it's all you need to make your mouth a joy index.

A Fragrant Breath and Pearly Teeth
Are easily attained, and those who fail to avail themselves of the means, should not complain, when accused of gross neglect. SOZODONT will speedily eradicate the cause of a foul breath, beautifying and preserving the teeth to the oldest age.

"SPALDING'S BLUE," no well-regulated family will be without it.

It rained nearly all night, some of the time quite hard.

German barque *Texas*, Loof, hence, arrived at Hamburg Oct. 27th.

German barque *Verein*, Jahne, hence, arrived at London Oct. 26th.

The storm signal was hoisted last night and was waving in the breeze to day.

There was no City Court this morning, and there were no tramps at the guard house last night.

Messrs. W. E. Worth & Co. have a new and attractive advertisement in this issue to which we call attention.

The British steamship *Carbis Bay* went down the river this morning drawing 15 feet and 4 inches of water.

When you think that you need a new hat, you will be reminded that the "Melville" is the best, and it is sold by DYER.

The J. B. Polk Comedy Co. will present "Mixed Pickles," a laughable farce, at the Opera House next Thursday night.

The strong Westerly breeze this afternoon created quite a lively sea in the harbor and boats were tossed about without regard to the wishes of the occupants.

It is thought by those competent to judge in such matters, that the great tide of travel from the North will not fairly set in this year until after the Christmas holidays.

Painters and those in need of white lead, colors, oil, etc., can get the best and save by buying at JACOB'S Hdw. Depot.

The weather was considerably mixed this forenoon, but it finally concluded to become fair and this afternoon it was sunshiny, but considerably cooler with a stiff breeze from the West.

Our thanks are due Mr. P. Heinsberger for a copy of "Students' Songs," a collection containing the most popular songs, serious, sentimental and comic, of the students of the different colleges of the country.

The series of meetings at Brooklyn Hall, conducted by Rev. D. W. Her-ring, which were commenced on the night of the 18th inst., are still continued, and quite an interest is being manifested. Several have been converted and many penitents ask nightly for prayers.

A great lot of Genl's heavy Canton Flannel Drawers, from 40c and upwards, at the Wilmington Shirt Factory, 27 Market st., J. ELSBACH, Prop.

Hanover Council No. 25, United States Benevolent Fraternity, of which the late Capt. J. C. Borden was a member, has paid to his family the sum of \$3,100, the amount due on his life. Capt. Borden had been a member of the Fraternity about a year and a half at the time of his decease. Carolina Lodge 434 K. of H., of this city, has also paid to his heirs the sum of \$2,000 due by that order.

We ask those in need of a heating stove to examine our stock and hear our low prices, before purchasing JACOB'S Hdw. Depot.

A Warning.
The following important dispatch was received at the signal office here this afternoon:

Severe storm, central in North Carolina, moving Eastward, will cause dangerous Easterly gales on Middle Atlantic and New England Coasts. Not safe for shipping to leave port; notify those interested in shipping.

Coming.
Arrangements have about been completed for the appearance in this city, sometime during the month of December, of the famous American prima donna, Miss Clara Louise Kellogg. This will be a rare treat, as there are many in this city who would like to hear America's charming songstress.

Alcoholism.
Yesterday afternoon a man living on Mr. George Harper's place, near Greenville Sound, was attacked with *delirium tremens*, and was so violent that he had to be tied hand and foot to keep him from doing personal injury to the people on the premises. The neighbors were kept awake all night by his fearful ravings and this morning he was brought to the city and lodged in jail for safe keeping until he recovers.

Last Night's Ball.
There was a nice and, considering the inclement weather, a large party of ladies and gentlemen assembled at Germania Hall last night to engage in the festivities of the benefit ball given to the Germania Cornet Band by its lady friends. The Harpers furnished the music for the dancers, while at intervals the band played some of their finest selections with a precision and expression which showed that they were making commendable progress in musical science. The dancing was kept up to a late hour, the best of order was maintained and there was nothing to mar the happiness of the occasion except the violence of the storm which deterred many from going who would have gladly engaged in the pleasures of the dance.

Election of Officers.
The regular meeting of the stockholders of the Clarendon Water Works Co. was held at the office of the Superintendent on Princess street, yesterday afternoon and elected Messrs. E. E. Burruss, J. F. Divine, F. W. Kerchner, G. W. Kidder and D. G. Worth as a Board of Directors for the ensuing year.

After the adjournment of the stockholders' meeting, the Board of Directors held a meeting and elected the following officers:
President—J. F. Divine.
Secretary and Treasurer—G. W. Kidder.
Superintendent and Engineer—J. C. Chase.

This re-elected the entire list of officers of last year.

Wear and Tear.
Wear and tear is one thing to be considered when you buy clothes. Durability is what one should look to as well as style, shape and color. Perhaps you have learned by bitter experience that a suit, which seems all right at the store, in many cases proves anything but all right when you wear it a short time. Buttons drop off, seams give way, material wears out, and colors fade. Such things are common to the lot of man, for but few are expert enough to detect clever imitations of honest goods offered by unscrupulous dealers.

There is one certain way to avoid being deceived—and that is to deal with a house who base their reputation and success on keeping only honest, reliable goods; who aim to secure continuous patronage by supplying their customers with goods which shall invariably prove satisfactory. S. H. FISHLATE is determined that your purchases of him shall be just right every time. All his clothing is expressly manufactured for him, with an eye to durability and lasting qualities. He uses the best of materials, and insists that thorough work shall be put on every article even to the minutest detail. You will find FISHLATE'S clothing all that could be desired, and equal to the best tailor made garment. He keeps no shoddy goods or cheap trap baits. Try him and we guarantee that you will be perfectly satisfied.

The literary and musical entertainment to be given by the Young People's Association of St. Paul's Lutheran Church to-morrow night, promises to be an excellent affair. It will be given at the Luther Memorial building, corner of Sixth and Princess streets.

The receipts of cotton at this port today foot up 541 bales.

Indications.
For the South Atlantic States, fair weather, preceded by local rains, cooler, winds shifting to West and North and higher barometer.

Personal.
Mr. John F. Reday, president and general manager of the New York Independent Journal, arrived in the city last night.

M. H. B. Hapgood, business agent for the J. B. Polk Comedy Co., arrived in the city last night and registered at the Purcell House. He gave us the pleasure of a call to day.

The Rain.
The rain last night was general throughout this section. It rained hard all night at Smithville, although there was no damage done to the shipping as there was, fortunately, but little wind. It also rained hard all night at Fayetteville, which will probably cause considerable of a rise in the river. We hear that there was considerable rain on the line of the different railroads, but it was not severe, and hardly amounted to the magnitude of a storm.

Oh, the Schemers.
Who opened in this city with such a big flourish of trumpets and with a boast that they would show the people of Wilmington how to run a clothing store will find out that they will be simply butting their heads against a stone wall, and that wall will prove to be the Old Reliable; for these schemers have tried it heretofore and have always failed in their attempts and will again fail to succeed. We have frequently shown up their scheming ways and they write bitter words, for they feel themselves guilty of everything we have said. They know that on a legitimate business basis they are no match whatever for us, and they know too that in spite of all their schemes, tricks and threats, that we continue to grow and prosper. We have built up a big business and we propose to hold it by continuing the fair and square dealing for which our house is noted far and wide. If our stinging words have done their work, we shall, as the doctors say, repeat the dose. It makes no difference how the pills taste so that they have the desired effect. Again, we say, that we will give to each and every customer one hundred cents in full value for each and every dollar they pay us, and we likewise have paid one hundred cents, full value, for each and every dollar's worth we have ever bought and expect to continue to do so.

We do not notice any insulting political slang or threats, as it is entirely out of order, but the Old Reliable intends to remain in the clothing business and continue to do the leading trade.

The best ready mixed paint can be had at JACOB'S Hdw. Depot. He has it in all size cans from half pints up.

Confederate Pensions.
I am directed by the State Board to say, as a number of applicants for pensions have failed to furnish the additional testimony required of them through circular letters mailed to each several weeks ago from this department, that unless this testimony is furnished the Board on or before the 15th day of November next, their claims for a pension will not be considered the present fiscal year.

The Board is desirous that the appropriation (\$30,000) should be apportioned before the close of the fiscal year, November 30, 1885, and to this end these proofs are necessary.

W. P. ROBERTS, Auditor.

Announcement!
REMEMBER THAT IN MAKING ARRANGEMENTS for the Vocal Class which I am now forming, I have fixed the tuition at \$5 for the term of six lessons. I shall begin the course as soon as a sufficient number of subscribers have been obtained. Thorough instructions will be given in the rudiments of vocal music, and the pupils will be advanced as fast as previous acquirements will warrant, and no later. There will be no teaching by rote; consequently there will be no attempts at Operas or choruses from the great masters, until the pupils are able to read ordinary church music correctly and with considerable fluency. Those wishing to join the class may leave their names at the Bookstore of Mr. P. Heinsberger or at W. E. Worth, or with the subscriber, at the Review office.
