 Advertising rates low and liberal.
 Subscribers will report any and all failures to receive their paper regularly.

The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

The charitable societies of Boston number in the neighborhood of three hundred.

A line of street cars was opened in Burlington, Vt., on Thursday which was the first ever built in that State.

A boy who bought a quart of New Orleans molasses at a Cincinnati grocery the other day found a diamond ring worth \$200 in the stuff.

Sir Arthur Sullivan has undertaken to compose a new sacred oratorio expressly for the Leeds festival next autumn. He has already sketched it out.

The British Medical Journal says that an establishment where opium smoking is to be taught will shortly be opened in the West End of London.

Mrs. Nellie Grant Sartoris so the latest rumor runs, before leaving for England told a friend that she vastly preferred English society to American.

The lost tribes of Israel, in the belief of Lieut. Totten, who has written a paper on the subject, have their representation at this day in the Anglo Saxon races.

The German ministry has approved of a bill for the construction of a canal to unite the North Sea with the Baltic, at the expense of the Imperial Government.

The Sabbath is held in such great respect at Thurso, Scotland, that the cemetery is not allowed to be open on that day. Even burial is considered a desecration.

It is stated that a plant has been discovered in South America which possesses strong electric properties. When a twig is broken a distinct shock is felt, and at a distance of several feet a compass is affected.

The history of a Vermont mountain town is thus epitomized by a good observer: "The early settlers cleared up good farms, and the children got rich from them. The grandchildren ran them down, and loaded the town with debts. The next generation skipped away to the West."

Senator Mahone, who is now in New York, says that there is no truth in the report that he is going to leave Virginia to live permanently in the Red River valley, and that he has no idea of resigning his seat in the Senate. His term will expire in March, 1897.

Gen. Thayer, of the ordinance department, has invented a balloon which, he claims, can be directed at will and will be strong enough to carry a weight of fifty-five tons. It will have a speed of seventy miles an hour. Gen. Thayer says he has proved by experiment that his machine will work.

A strip of Arabian paper dating from the ninth century, and containing a wood-cut with ornaments and initials, has just been found among the papers of the Austrian Archduke Rainer. This relic shows that the art of wood-cutting was probably of Arabian origin, or that it was, at all events, known to the Arabs in the ninth century.

An electric stud is the latest novelty of this inventive age. The diamond forming the stud has a cavity in the centre. This forms the receptacle for a tiny electric lamp. Stored electricity can be carried in the waistcoat pocket, and when switched on to the stud lamp it greatly intensifies the brilliancy of the diamond, producing a splendid effect.

There are this year 92 packs of fox-hounds in England and Ireland, 14 packs of stag-hounds, 133 of harriers and 17 of beagles. As yet no hostility to hunting has been manifested in Ireland. The 75 couples constituting the Duke of Beaufort's park of hounds at Badminton consume about forty tons of meal, three tons of biscuits and 150 horses annually.

New York is about to have a fierce milk war. The Orange County farmers have organized an association for the purpose of fighting the New York Milk Exchange, which, the farmers say, is run exclusively in the interests of the dealers. The fight is about the price of milk. The farmers refuse to send milk to the city unless their terms are accepted. There are fears of a milk famine as the city's supply of milk is drawn from Orange County.

Those Brass and Silver head tacks are here. JACOBI'S Hdw Depot.

LOCAL NEWS.

INDEX TO NEW ADVERTISEMENTS.
 F. C. MILLER—For Sale
 HEINBERGER—Best Novels
 C. W. YATES—Ready for Work
 JOHN L. BOA—WAGGIT—Apples

There were no tramps at the guard house last night.

The receipts of cotton at this port today foot up 568 bales.

The Monarch shirt is the best and is sold only by DYER, 34 North Front street.

Steamboatmen report that the river has fallen off rapidly and is still falling, with barely fair boating water.

The little ones are already beginning to speculate upon the probabilities of a visit from Santa Claus and what he will bring them for Christmas.

The Myra Goodwin "Sis" Company of 10 persons, arrived here this morning and will appear in that laughable farce at the Opera House to-night.

The city has not been infested with tramps thus far this season as much as in former years, but it is safe enough to predict that they will be here in force before "The swallows nest again."

A great lot of Gent's heavy Canton Flannel Drawers, from 40c and upwards, at the Wilmington Shirt Factory, 27 Market st., J. ELSBACH, Prop.

Thanksgiving is approaching, in consequence of which turkeys begin to roost high so far as prices are concerned. They were offered yesterday at 18 cents per pound.

A party of young ladies and gentlemen in the city are rehearsing the temperance drama of "Ten Nights in a Bar Room," with the intention of presenting it to the public as soon as they are "well up in their parts."

The Literary Society of the Wilmington Light Infantry had an extremely interesting meeting at their among last night. Several papers were read, all of which were interesting and instructive.

Food cannot be properly cooked, in a poor stove, so don't blame your cook but go to JACOBI'S Hdw. Depot and buy one of his fine stoves. Then you will have Peace, Comfort, and Happiness at home.

City Court.

Mary Davis, colored, was brought before the Mayor this morning charged with being drunk and disorderly in the Hollow last night. A fine of \$10 was imposed, in default of which she was required to work out the amount.

Ann Williams, also colored, for being disorderly was fined \$10 with the privilege of working out the amount.

Criminal Court.

The following have been the proceedings before this tribunal to-day up to the time of our going to press:

State vs. E. S. Gause, false pretense. On trial. Jury out when our report closed.

State vs. John Holland, highway robbery. Continued.

State vs. John Holland, assault and battery. Continued.

State vs. Ada Harris, assault and battery. Defendant submitted and judgment suspended on payment of costs.

The Affairs of Life

Hinge upon confidence. It is the basis upon which every successful business enterprise is conducted, and without it no concern can prosper. SHIER has done business a great many years, and the growth has been large, popularity and success, an established fact. We attribute this satisfactory result of our efforts to public confidence. The people trust us and we never deceive them. Our resources are ample, and as a consequence we undersell all competition and guarantee to the consumer the best value for his money obtainable anywhere. We are offering superb bargains this week. Don't buy a dollar's worth of clothing until you have seen our late New York purchases of men's, boys and children's suits and overcoats. You will save fully from 15 to 25 per cent. on every dollar you will buy. If any article bought of us is not exactly as represented, or is in any respect unsatisfactory, it may be exchanged or we shall promptly refund in cash the price paid for it. SHIER, the Old Reliable Clothier, 114 Market street.

How to make home happy. Buy an Othellocook stove from JACOBI'S Hdw. Depot.

The weather thus far this season has been quite kindly disposed towards the woodpile, but it will hardly be thus good natured much longer.

Nor barque Odd, Christiansen, cleared to-day for London with 500 casks spirits turpentine, valued at \$8 782, shipped by Messrs Paterson, Downing & Co., and 500 casks spirits turpentine and 1,078 barrels rosin, valued at \$9,638, shipped by Messrs Williams & Murchison, making a total shipment of exports foreign amounting to \$18,420.

Acquitted.

The case of the United States vs. H. E. Foster, of this city, who was on trial charged with robbing the mails, was recently heard before Judge Spear in the United States Court at Savannah. Upon hearing the testimony the Judge ordered his discharge and the case was not given to the jury at all.

Personal.

Mr. Nelson Roberts, business manager of "A Brave Woman" Company, is in the city to-day making preparations for the presentation of that drama.

Mr. James H. Taylor, of the firm of Parker & Taylor, who has been absent from the city several days in attendance upon the Baptist State Convention at Reidsville, returned this morning via Fayetteville, on the steamer D. Murchison.

Fine Vessel

The schooner *Albert H. Cross*, of which Capt. Henderson is master, part owner and business manager, is now lying at the wharf of the Wilmington & Weldon Railroad Co., taking in a cargo of lumber for Philadelphia. She is one of the finest vessels in her build, equipment and in all her appointments which we have ever seen. She is of 340 tons register, is built of the best and most substantial material, is copper fastened throughout and has a steam engine for hoisting cargo, mast-heading sails, weighing anchor, pumping out and for all other work which requires heavy power. Her cabins and state rooms are roomy and finely finished, while her standing rigging is entirely of wire cordage. She was built at Newburyport, Mass., in 1883 and is rated as A. I., for 14 years. She has brought cargoes for Messrs. Anthony & Bryce ever since she has visited the waters of the Cape Fear, and those gentlemen intend that she shall be kept in their employ as much as possible. Capt Henderson is a very pleasant and companionable gentleman and every inch a sailor. He takes much pride in his vessel, as well he may, for she is worthy of it.

Corrections.

In our report of yesterday's meeting of the stockholders of the Wilmington & Weldon Railroad, we failed to obtain the following resolution, which was an important part in the proceedings:

On motion, it was resolved that it is expedient to adopt a system of branch roads, especially one either from Goldsboro or Wilson to Greenville, or some point in that direction. Also, one from Rocky Mount via Nashville to some point on Tar river, and that the same is referred to the Board of Directors to enquire into the expediency of such construction and to recommend the most favorable points between which such construction shall be made, with power to make surveys and to take such other steps as they may think proper.

We also failed to state for want of information, that at the meeting of the Board of Directors, Mr. B. F. Newcomer was elected Vice President and Mr. J. R. Kenly was elected Superintendent of Transportation.

Brunswick Items.

The quarterly meeting of the M. E. Church at Shallotte was held last Saturday and Sunday, and the Waccamaw Baptist Association was held at Beulah Church at the same time. Both were interesting occasions.

Dick Flowers, colored, made a serious assault upon Ameline Benton recently, but has not yet been arrested. There is a good deal of stealing going on in the lower part of the county, and the thieves generally manage to elude the officers the law. Wesley Stock, colored, stole a cow from Scip Butler and is yet at large. Robert Tolson, son of Dr. A. C. Tolson, of Texas, stole a horse from Peter Stanley, for which he was arrested and is now in Whiteville jail. Dr. A. C. Tolson removed from Shallotte to Texas about fourteen years ago, at which time Robert was about nine years of age.

We gather the above items from an esteemed friend and subscriber in Brunswick county.

Wilmington Columbia & Augusta R. R.

The stockholders of the Wilmington, Columbia & Augusta Railroad Company met yesterday, immediately after the adjournment of those of the W. & W. R. R., when Col. H. B. Short was chosen chairman and Mr. J. W. Thompson secretary.

Mr. Newcomer and Mr. Thompson were appointed a committee to examine proxies. They reported a large majority of the stock represented.

Hon. R. R. Bridgers was unanimously re-elected President and the following Board of Directors: W. T. Walters, B. F. Newcomer, George C. Jenkins, Enoch Pratt, H. Walters, George S. Brown, H. B. Plant, R. R. Bridgers, H. B. Short, J. T. Barron.

It was resolved to hold the next annual meeting on the first Wednesday after the third Monday in November, 1886.

Mr. Newcomer moved that the thanks of the meeting be extended to the chairman, for the dignity, urbanity and ability with which he presided.

After the adoption of this motion the meeting adjourned.

DIRECTORS' MEETING.

The directors assembled and elected Mr. W. T. Walters Vice President and Mr. J. W. Thompson Secretary and Treasurer. This road being leased to the W. & W. R. R. Co. the election of other officers was unnecessary.

Mr. H. Walters, the General Manager, says in his report that all the rail roads south of the Ohio and east of the Mississippi will be changed to the standard gauge of four feet nine inches. It is not possible, he says to estimate now the exact cost of this change to the Company, but it will have been very much diminished by the foresight displayed during the past ten years in preparations already made for this change. The accident at the Cape Fear River bridge in December, 1884, he says, cost the Company over \$10,000.—Very fortunately no one was even injured. The cause of the accident was entirely beyond the control of the officers of the Company. An open switch has been placed in the track approaching the draw, which causes much loss of time but insures absolute safety.

Following is an interesting extract from Mr. Walter's report:

"During the past year an entire change in the operation of the Transportation Department and its rules has been effected, not only over the line of the Wilmington & Weldon Railroad, but over all the roads forming the Atlantic Coast Line, and it gives me great pleasure to state that this change, which has been a very radical one, has been effected in the most satisfactory manner. Every officer and employe of the Company has lent his earnest effort and will to accomplish this change, and it has been made with perfect success. No accident worthy of note has occurred and yet it was made at the very busiest season of the year. Mr. J. R. Kenly, the Superintendent of Transportation, especially deserves much credit for the manner in which it was brought about."

Supreme Court.

In this Court, on Monday, Appeals from the seventh judicial district were taken up and causes disposed of as follows:

Leach vs. town of Fayetteville, from Cumberland; Devereux for plaintiff and Guthrie and Ray for defendant. Put to the end of the district.

State vs. Pickett, from Robeson; continued.

Worthy vs. Brower, from Moore; argued by E. C. Smith for plaintiff and M. S. Robbins for defendant.

Bruer vs. Treadgill et al., from Anson; argued by G. V. Strong, J. W. Hindsdale and E. C. Smith for plaintiff and P. D. Walker for defendant.

Pending consideration of Worthy vs. Brower court adjourned.

More Light.

It is now a tolerably well assured fact that the electric light will be introduced into our city before many weeks. It is the purpose of those having the matter in charge to have it here as early as January 1st, 1886. It will be what is known as the Thomson-Houston System, which is said to be far superior in every particular to the Brush Light, which it is superseding in a great many cities in the country.—Raleigh and Charlotte have adopted the Thomson-Houston System, and in the former city nearly all of the prominent merchants have made arrangements to use it for the illumination of their places of business. At Jacksonville, Fla., the Brush Light has been discarded and replaced by 60 lights of the Thomson-Houston System, and this is the case in many of the large Northern cities.

Fine Offices.

The new building recently erected on Princess street, between Front and Second, by Mr. Sol Bear, is now nearly completed and ready for occupancy. The second floor is divided into two offices, both of which are well lighted and finished in North Carolina pine. The building will be supplied with all the modern improvements, in plumbing and sewerage so that its sanitary condition will be as near perfect as possible.

NEW ADVERTISEMENTS

READY FOR WORK!

The Yates Gallery

Having been enlarged and refitted throughout, is again open to the public, under the management of MR. C. E. WALLIN, late of Montgomery, Ala. Mr. Wallin is a gentleman of long experience in the Photograph Business, and is highly recommended.
