# THE DAILY REVIEW.

VOL. X. WILMINGTON, N. C. SATURDAY, JANUARY 23, 1886. NO 20

PLEASE NOTICE We will be glad to receive communication from our friends on any and all subjects generally interesting but The name of the writer must always be placed to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents, unless so sign in the editorial columns.

The divorce cases in Lane county, Oregon, for 1885, outnumber the list of marriages twice to one, according to the San Francisco Bulletin.

St. Louis, with a new twelve-story building, will possess the highest commercial edifice in the world, and Chicago is pining for a home among the stars.

The butcher bird, a small spotted bird resembling the common mockingbird, is the foe of the domestic canaries in the Pacific coast, and destroys numbers of them.

A platinum wire too fine to be seen with the naked eye is said to have been made by Mr. H. T. Reid of Brooklyn. It is to be used in telescopes as a substitute for the spider's web usually employed.

Gen. Lord Woiseley's appearance is decidedly effeminate, and when he speaks he accompanies each remark with a nervous shake of the head. He is disposed to be sociable, but is not a favorite with the "rank and file."

Connecticut has less than 1,000 miles of railway, but those carried last year seventeen and a half millions of passengers of whom only twelve were injured. The passenger traffic of 1885 was almost 50 per cent greater than that of 1884.

Fortunately the Congress is with the people. This is just the point that we have been trying to make plain for months past. Congress is with the people and the Blair educational bill, in a modified or unmodified form, will soon become the law of the land.

Among the features of the Colonial Exhibition in London next summer will be aquarium tanks containing as many of the fishes and marine productions of the colonies as can be brought alive to England. Turtles will be kept in one tank, and their conversion into soup become a matter of public observation and sale.

There are a dozen or more schemes now before the General Assembly of Virginia for creating a board of railroad commissioners. The latest bill on this subject was that introduced in the House last week by Mr. Fulkerson, of Washington. This proposes to adhere to the present law, and increases the commissioners to three.

The French Minister of Agriculture is about to establish several experimental farms in various parts of the country, in order to show the peasant farmer what can be done in his own locality. The yield of cereals in France is little more than one-third per head of the agricultural population of what it is in England.

Mexico is said to possess only about 100 factories of all kinds, owing to the paucity of water and the high cost of fuel. These factories employ about 13,000 hands, and those devoted to weaving contain 9,500 looms and 250,000 spindles. The largest cotton mill is at Queretaro, employs 1,400 hands, and manufactures the unbleached cloth worn by all Indians.

The German census, just taken, shows that the Empire contains 45 towns of over 50,000 inhabitants, 21 of which have more than 100,000. Dusseldorf, Berlin, Magdeburg, Chemnitz, Nurnburg, Hamburg and Leipzig show an increase during the five years of over 14 per cent., Credit over 21 per cent., and Dresden, Bremen and Carlsruhe over the 30 per cent. In Danzig the population has increased only 5 per cent., while in Memel there has been a decrease of nearly 4 per cent.

The next Texas Legislature will elect a successor to Senator Maxey, and the Senatorial campaign is already taking form. Maxey is more than willing to be his own successor and will receive the support of Northern and Eastern Texas. Governor Ireland's stronghold is the Western part of the State, and Congressmen Mills and Reagan may be considered in the light of dark horses. It is all thus far a battle of the politicians.

In a study upon a nature of hypnotics, M. Dejardis Beaumetz concludes that opium and its alkaloids do not produce a condition of sleep. They stupefy the faculties and induce torpor, but the brain still remains in a condition of tonic excitement. Chloral will bring about true sleep, but in large doses it has a dangerous action on the heart, and its ingestion often gives rise to gastric disorders.

The annual emigration returns for the United Kingdom show that during 1885 264,986 persons left British and Irish ports for places out of Europe, a decrease of 38.5 per cent. compared with the previous year. Five-sixths of the Irish emigrants proceeded to the United States, as did nearly two-thirds of those of Scotch nationality, while England contributed under 71,000 of a total of nearly 127,000.

The great steel manufacturer, Marshall, of Sheffield, is about to remove his entire works to America. The firm employ three thousand men. Some scores of the most skilled will be taken over, and the rest will be hired in America. The State department has been informed of the fact, which is regarded as a striking proof of foreign confidence in the results of the new Administration and the reality of the American business revival.

At the annual conference of the United States Potters' Association it was shown that the number of pottery kilns in operation last year, exclusive of the decorating kilns, was 275. There is now invested \$8,000,000 in this industry, and the amount of wages paid annually reaches nearly \$5,000,000. The development of the decorative branch of the business has given lucrative employment to a large number of women and girls.

The proceedings in Congress yesterday were confined to the discussion of a resolution introduced by Mr. Herbert of Alabama, in the House, as a substitute for that introduced by Mr. Boutelle, of Maine, a few days ago, looking to an enquiry as to the alleged removal of an inscription from the grounds of a Union soldier. The report is too lengthy for our columns and it would not do to abridge it. Representative Geo S. Wise, of Virginia, made one of the most telling speeches ever delivered in the House and the rout of the Republicans was complete, all along the line.

The box sheet for the Kellogg concert on Monday night shows that the concert is intended to bear the celebrated prima donna. This morning the demand was such that the seats in the orchestra were sold and benches were placed in the aisles on the sides of the building and seats were taken upon them. We have never before seen such a rush in this city for seats.

White, so favorably known as the manager of the Telephone Exchange in this city, has severed his connection with the company and will leave for Richmond, Va., about the 1st of February, where will engage in other business. ### Temperance.

There was quite a large gathering of ladies and gentlemen at Temperance Hall last night to listen to the eloquent and effective temperance address which was delivered by Rev. D. H. There are a number of men out all Winter Clothing before we get in the largest and finest stock of Spring Clothing ever seen in this city, which is now manufactured expressly for our trade, and will therefore dispose of our goods at prices bearing little or no relation to their true value or actual value, and consequently will sell, some 30 per cent. less than value; some 30 per cent. less than value; some 40 per cent. less than value. Money to be refunded if you can equal our goods at the low prices. Convince yourself of the fact by calling on SHRIER, The Old Reliable Clothier, 114 Market St.

### This Morning's Fire.

At about a quarter of 3 o'clock this morning the kitchen on the premises ten Mr. Andrew Peterson, on Four Rose street, between Castle and Queen, then discovered to be on fire. The six-story was given and the firemen were promptly on hand, but the flames had gotten under such headway the building was entirely destroyed and the roof of the dwelling was badly burned before they could be extinguished. There was insurance on the dwelling to the amount of \$450, and on the kitchen to amount of \$50, both in the Hartford Fire Insurance Company, of Hartford Conn., represented in this city by Messrs. Atkinson & Manning.

Marable, D. D., to preach the sermon; Rev. Jno. M. Rose to charge the pastor and Rev. J. W. Primrose the people. The public are cordially invited to be present at those services, at the First Presbyterian Church, where the seats are free; and also at 7:30 p. m., when Rev. John M. Rose will preach, or at the Second Presbyterian Church, where Rev. J. W. Primrose will preach at night.

### How It Happened.

I saw her mouth all filled with pearls,  
The sweetest of earth's charming girls;  
I lost my heart to her that day,  
And now I never cease to say,  
"BUY SOZODON!" That made her mine,  
That made her beauty so divine.

### Ladies

who use SOZODON have only to open their lips to prove its excellence. Their white, gleaming, spotless teeth, and fragrant breath will tell the story. There is more demand for this wholesome and unexceptionable preparation than for any other dentifrice in the market. One day its use will be universal.
