THE DAILY REVIEW.

VOL. X. WILMINGTON, N. C., MONDAY, JULY 19, 1886 NO 170

The King of Siam's newborn son is named George Washington.
It is now said that Gilbert and Sullivan's new opera, which is about half written, has nothing Egyptian in it.
M. Depasse heads a movement in Paris to raise a 2,000,000 franc monument commemorative of the French Revolution. The monument is to be on the ruins of the Tuileries.
King Ludwig's heart, which was removed from his body previous to the embalming of the latter and placed in a silver-gilt urn filled with spirits of wine, has been given into the care of the monks of the ancient monastery of Altoning, near Munich, where the hearts of a long line of Bavarian Kings are kept.
The San Francisco Post says the number of able bodied street beggars in that city has increased to an alarming extent in the past few weeks, and no one is safe from their importunities for "ten cents to get something to eat." At the same time men are scarce in the agricultural regions, where \$50 to \$60 per month and board is offered. The tramps nearly always plead hunger, but will rarely accompany a person to a restaurant.

Oklahoma boomers are at it again. At least they have given notice of their intention to again settle on the reservation. There is no law, it appears, adequate to their punishment. A fine may be imposed upon them, but that is no punishment, for they are not "responsible" parties, and the fine does not get collected. It is among the sins of omission of the present Congress that it has neglected to pass a bill providing for the imprisonment of such intruders.
Prof. Thurston's estimate of the kind of steamship which would be required to cross the Atlantic in less than four days is a vessel 800 feet long, 38,000 tons burden and with engines of 250,000 horse power. The consumption of coal is estimated at 10,500 tons for the voyage, and it is estimated that it would cost \$75,000 for each trip. Five hundred passengers, at \$150 each would pay running expenses, leaving the mail and freight receipts for other charges and profit. Under the circumstances, it is not likely that such a vessel will be built in our day and generation.
George W. White, of Oswego, was at Niagara Falls a few days ago studying the rapids and the whirlpool. He proposes to make the swim in a cork suit if the authorities do not prevent him. If he does he will probably not live to tell his story. The swimming and rowing craze is now on, and from all quarters come reports of men who are to attempt a feat of some sort or another in connection with the falls, the rapids and the whirlpool. Two men in Buffalo, N. Y., are now building a balloon boat in which they intend to go over the falls, through the rapids and all in August.
The whole number of soldiers enlisted during the Mexican war was little over 100,000. Of these 27,500 were in the regular army, and most of these who survive are probably entitled to pensions under existing laws, which the new bill will not increase. Of the volunteers 34,000 were from the Southern States and 38,500 from the other States, Illinois, Indiana, Ohio and Pennsylvania contributing about one-half. These are the official records, but it experiences counts for anything the promise of a pension will call into existence an army of veterans such as Scott or Taylor never dreamed.

Pic Nic for Purchasers
Bargains in every department Odds and ends and broken assortment of sizes will be sold without regard to cost. A chance for all in want of clothing or furnishing goods. Our rule is not to carry over any goods from one season to another if low prices will sell them; therefore we cut prices accordingly. Come and see the goods and you will be astonished at the marvelous bargains. I. SIMON, the Old Reliable, 114 Market st. Sign of the Golden Arm.
A Captain's Fortunate Discovery
Capt. Coleman, schr. Weymouth, plying between Atlantic City and N. Y., had been troubled with a cough so that he was unable to sleep, and was induced to try Dr. King's New Discovery for Consumption. It not only gave him instant relief, but allayed the extreme soreness in his breast, and his children were similarly affected and a single dose had the same happy effect. Dr. King's New Discovery is now the standard remedy in the Coleman household and on board the schooner. Free Trial Bottles of this Standard Remedy at all Drug Stores.

At Rest.
We regret to announce the death of Miss Ida, youngest daughter of Capt. H. J. Farmer, of Bolton, Columbus county, which took place at the residence of her father, at about 6 o'clock on the evening of the 15th inst. The deceased was 20 years of age and had been an invalid for nearly a year, with but little prospect of recovery. She was a consistent and conscientious member of the Methodist Episcopal Church, and she died in that Christian faith in which she had lived. She was a most exemplary young woman, and her death has created a great void in the bereaved home as well as in the neighborhood where she resided.
Death of a Good Man.
We have just learned of the death, in Fayetteville on Saturday morning last, of a most excellent man, Mr. J. G. Yates, eldest brother of Mr. W. J. Yates, of Charlotte, and of Rev. Dr. Yates, of this city, closed a long and exemplary life at 5 o'clock a. m. on that day. He was in his 67th year, an elder in the Presbyterian Church for many years, of unimpeachable integrity of character, and of profound Christian life. His mind was stored with a wide range of information, well-read in history, of which he was fond, and learned in the sacred Scripture. As an elder in the church his usefulness was large. The sweet savor of his memory will live in Fayetteville through many generations to come.

Excursion.

Moth-Wax.
IS OFFERED IN COMPETITION with all known substances for the protection of Furs and Woolen Fabrics from moths.
Moth-Wax may be placed in direct contact with the most delicate fabrics without fear of injury by stain or bleaching.
Moth-Wax, like Camphor, is a volatile substance, evaporating so slowly, however, that in use it is ten times more economical.
The odor of Moth-Wax is not objectionable, and is readily dispelled from Furs or Clothing by exposure to the air.
Moth-Wax is put up in One-Pound Boxes, One Dozen Cakes to the Pound. Retail at 5 cents per Cake. 50 cents per pound. For sale by
