

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., SATURDAY, JANUARY 1, 1887. NO. 1

MISCELLANEOUS

RAILROADS, &c.

Wilmington & Weldon R. R.

Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the official columns.

Another "mammoth cave" is reported, this time in Missouri. The first exploration was only a partial one, but in several chambers and was prosecuted for a distance of a quarter of a mile, and still other chambers and mazes of passages lay beyond in several directions. The scenery is reported to be indescribably beautiful, the abundant stalactites and stalagmites assuming all sorts of fantastic shapes.

The Legislature will meet on Wednesday next and of course an organization is the first thing in order. In the Senate the Democrats have a good working majority and there will also be a Democratic majority in joint ballot. But in the House it is different. There the Independents, or mud-turtles, will hold the balance of power. Enough of these, it is thought, will coalesce with the Republicans to keep the Democrats out of the offices entirely in that body and it is in view of this fact that we suggest to the Democrats in the House that they make a deal with the Republicans that will leave Independents out in the cold. We would rather see a straight-out Republican in office any day than an Independent Democrat and this sentiment we propose as the basis of action. Let the Democrats say to the Republicans: "Exclude the Independents from your caucus, as we will from ours, and we will support our nominees for the offices." We have no doubt this arrangement could be made. It would be good policy and would at the same time give Independentism in North Carolina a black eye from which it will never recover.

The Board of Directors of the Wilmington & Weldon R. R. have declared a dividend of four per cent. payable on the 15th inst.

There will be Communion Services in English at St. Paul's Lutheran Church to-morrow morning and at night the service at the same church will be in German.

The annual meeting of the stockholders of the First National Bank, for the election of officers, will be held at the Banking House in this city on Tuesday, the 11th inst.

It being a legal holiday, Uncle Sam's officials at the Custom House closed up the "Shubang" and "took a rest" in consequence of which we can give no reports from there to-day.

Joe Monk, barber for Mrs. Bryson, on Nutt street was brought before the Mayor this morning, charged with an assault on a German sailor. The defendant was discharged.

A friend has shown us the branch of a peach tree, picked to-day in a garden in the Northern part of the city, which is covered with buds and has one full bloom on it. How is this for New Year's?

All of the household and kitchen furniture of Mr. J. W. Thompson, who will leave the city soon, will be offered a public auction by Messrs. VanAmringe & Co., on Tuesday, the 5th inst. at the residence, corner Walnut and Third streets.

Rev. C. W. Godwin, who was appointed by the last annual Conference as pastor of the M. E. Chapel in that portion of the city known as Brooklyn, has arrived and entered upon the discharge of his duties, and the church over there will be now regularly organized.

Fifth Street M. E. Church was nearly filled last night, despite the inclement weather, by persons attending the watch night services. The Presiding Elder assisted the pastor in conducting the exercises, which were profitable and interesting. Watch night services were also held at the Brooklyn M. E. Chapel, and at a number of the colored churches of the city.

Our New Dress Shirt, 18 inch square bosom with narrow plaits, reinforced; a very handsome and elegant shirt. Manufactured and sold only at one dollar, at the Wilmington Shirt Factory, 27 Market street. J. ELSBACH, Proprietor.

It's Often So. We know of a young man who didn't go to the ball last night but he just "dropped in" at about 9 o'clock to see who were there, and he didn't get away until about 3 o'clock this morning.

MORAL—When a young man who is fond of dancing does not mean to attend a ball, he had better give himself no uneasiness concerning who are there.

Cotton. The receipts of cotton at this port for the month ended Dec. 31st, were 25,694 bales as against 25,694 bales for the same month last year; an increase of 10,133 bales. The receipts for the crop year to date foot up 114,787 bales, as against 78,953 bales for the corresponding time last year; an increase of 35,834 bales.

Religious Exercises. The Wilmington Light Infantry under the command of Capt. J. H. Daniel, will assemble at their Armory to-morrow in full uniform and thence they will march to St. John's Church, where services suitable to the occasion will be conducted by Rev. Dr. Carl Michael, the Chaplain of the Second Regiment, N. C. State Guard. It is desired that every member of the corps shall be present in full uniform and attend the services.

Last Night's Ball. The grand New Year's and anniversary ball given at Germania Hall last night by the Germania Band was an elegant affair. The attendance was large, making the scene a living panorama of youth, grace and beauty. The band played several of their best musical selections, while the Italian harpers furnished the music for the merry dancers. An elegant supper of delicate and tempting viands was prepared for the occasion, to which ample justice was done. It was the best dance, thus far, of the season, far exceeding any of its predecessors. The dancing was continued until nearly daybreak this morning. The affair was in every particular an entire success; a fact which we hope will encourage the band to get up another ball before the season shall close.

A Cold Wave.

A cold wave is approaching this city from the Northwest, which promises to be unusually severe unless it should be greatly modified before its arrival. At Bismarck, D. T., at 7 o'clock this morning, the thermometer indicated 35 degrees below zero. At St. Paul it was 25 below, and at St. Louis it was only one degree above zero.

There is also another cold wave approaching here from the Southwest. At 7 o'clock this morning, with the thermometer indicating 59 degrees above zero in this city, it stood at 20 above at Palestine, Tex., 18 above at Louisville, Ky., 27 above at Shreveport, La., and 28 above at Atlanta, Ga. It has grown perceptibly colder here since sunrise, and the cold waves will probably be here in their wrath by to-morrow morning.

Strike of Firemen.

There was a slight disturbance at the yard at the Front street depot last night among the firemen of the engines on the Atlantic Coast Line, which for a short time threatened to prove of a serious character. It seems that the firemen had made a demand for an increase of wages, and as the demand was not complied with by the railroad authorities they all left their engines on strike. Others were soon found to take their places, and as the new men started to their work there was quite an angry demonstration made by the strikers. During the disturbance a pistol was discharged by some one in the crowd, the ball from which passed through a part of the clothing, near the shoulder, of one of the new men, but fortunately without inflicting any wound upon his person. Quiet, however, was soon restored, and the trains left on time, and all trains are now running on regular schedules.

A Little Leaveneth the Whole Lump.

A disease in one part of the body will eventually fill the whole body with disease. Every year or two some part of the system grows weak and begins to decay. Such part should be removed at once and new matter be allowed to take place. There's no need of cutting it out with the surgeon's scalpel. Purge away the old diseased and worn out parts with BRANDRETH'S PILLS. Then the new body will take care of itself.

If you want to commence a new set of blank books, such as ledgers, journals, day, cash books or records, go to Heinsberger's, where you can get suited both in quality and price.

The Fantastics.

The parade that was promised for this afternoon came off in due season, starting from the front of the City Hall at precisely 3 o'clock. The number was larger than was in the parade on Christmas day. Some were on foot, some in wagons and carts and some on horseback. There was every conceivable sort, kind and color of countenance and clothing among the masquers and taken all in all, it was a most grotesque display. The streets were thronged with spectators to witness the imposing pageant and many were the ludicrous comments they made as the parade passed in review. One of the striking features of the pageant was an old mule, bearing the name of "I. Shrier," upon the saddle cloths, which was mounted by a sort of a "What Is It?" in the shape of a man who was dressed in the latest style.

Clearance Sale.

Big reduction in clothing at SHRIER'S. All small lots where sizes are broken in suits; overcoats for men, boys and children, reduced in price \$2, \$3, \$4 and \$5. The real cost or actual value of the goods have nothing to do with the low prices. SHRIER has reduced them to some extraordinary big value for very little money. Don't fail to see SHRIER for bargains; first come will have best choice to select from at the very low prices. New styles and reliable clothing can be had at I. SHRIER'S, the Old Reliable Clothier, 114 Market Street.

Saved His Life.

Mr. D. I. Wilson, of Horse Cave, Ky., says he was, for many years, badly afflicted with Phtisis, also Diabetes; the pains were almost unendurable and would sometimes almost throw him into convulsions. He tried Electric Bitters and got relief from first bottle and after taking six bottles, was entirely cured and had gained in flesh eighteen pounds. Says he positively believes he would have died, had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by W. H. Green & Co.

The REVIEW JOB OFFICE is the place to get good work at moderate prices.

is boldly charged, in a Florida newspaper, that a voter in Hamilton county at the last election sold his vote for a dozen eggs.

The owner of San Barbara, has proved that olive oil can be made in California. He has a grove of 6,000 trees that yield annually 50,000 gallons of excellent oil, which he sells at \$1.50 per gallon.

P. Gill, M. P. writes of Mr. Parrell's serious illness, and casts a gloom over us, though it is reassuring to know that he is steady and growing. He has had a narrow escape. For weeks he was forbidden to a visitor or look at a newspaper, even now his physician who is one of the most eminent in London, enforces absolute quiet if he would sufficiently to take place at the opening of parliament."

The Tradesman has revised reports in every town and city of the Southern States, showing no industries which have arisen and enterprises which have been actually undertaken and definitely projected in the year 1886, among the more important are the following, classified by State:

Textile Manufactures—Alabama 15, Arkansas 5, Florida 36, Georgia 57, Kentucky 6, Louisiana 3, Tennessee 6, Virginia 12, West Virginia 12, Texas 9.

Coal, Iron, Gold and Silver—Alabama 16, Arkansas 18, Georgia 8, Kentucky 16, North Carolina 27, Tennessee 16, Texas 8, Virginia 14, West Virginia 2.

Electric Light and Gas Works—Alabama 4, Arkansas 3, Florida 5, Georgia 10, Louisiana 4, Maryland 7, Mississippi 5, North Carolina 7, South Carolina 5, Tennessee 12, Texas 12, Virginia 3, West Virginia 11, Kentucky 14, Maryland 10, North Carolina 8, South Carolina 7, Tennessee 21, Texas 4, Virginia 7, West Virginia 3.

Food Working Establishments—Including saw mills, planing mills, grist mills—Alabama 65, Arkansas 34, Florida 36, Georgia 57, Kentucky 14, Louisiana 10, Mississippi 15, North Carolina 15, Tennessee 56, Texas 17, West Virginia 23.

Machine shops, foundries and repairs—Alabama 28, Arkansas 4, Florida 13, Georgia 13, Kentucky 11, Louisiana 10, Maryland 9, Mississippi 3, North Carolina 8, South Carolina 2, Tennessee 13, Virginia 16, West Virginia 5.

Railroads and Steel Railways—Alabama 37, Arkansas 17, Florida 21, Georgia 21, Kentucky 25, Louisiana 5, Maryland 9, Mississippi 10, North Carolina 10, South Carolina 12, Tennessee 13, Virginia 13, West Virginia 9.

Miscellaneous Industries—Alabama 4, Arkansas 8, Florida 37, Georgia 44, Kentucky 50, Louisiana 19, Maryland 15, Mississippi 15, North Carolina 18, South Carolina 13, Tennessee 65, Texas 18, Virginia 10, West Virginia 18.

The Tradesman says that among the most important features of the industrial revival of the past year is a large number of furnaces set up in Alabama and Tennessee; two steel rolling mills in Chattanooga; the organization of coal mining companies in Alabama, Tennessee, North Carolina and Kentucky; the establishment of stove factories in Alabama and Tennessee; and the extraordinary development of the lumber business in the Southern States.
