The belief that Montenegro can be counted upon under nearly all circumstances to side with Russia gives some weight to the report that Prince Nichs olas I has called out 35,000 troops. As this is probably about all that he could put in o the field, there may be exaggeration as to the numbers; but even should the purpose of the muster be simply to supply the men with magazine arms instead of singlesloaders the act would still be significant. Prince Karageorgevics, who married Princess Zorka, eldst daughter of Prince Nich- such a lonely; selfish life. Montenegro, or at least the reigning house of Petrovitch Niegoch, would presumably be a gainer.

Mr Hoadly said it was painful to him to have his name mentioned in this connection; that he and Judge Woods had been intimate friends from boyhood, and he could not bring himself to contemplate We want you to handle an article of any such contingency. He said further that should Judge Woods die, the place by every rule of right and propriety should go to some eminent Democratic lawyer of the South. In this opinion Governor Hoadly is unquestionably correct. The South has not since the war had any representative on the Supreme Bench, for although at the time of Judge woods's appointment it was claimed that it should be considered as from the South, as his appointment was credited to Alabama the fact was that he was an Ohio man, and had only resided in Alabama after his appoint ment to a judicial position in that State As a matter of justice the South should certainly have at least two appointments in the Supreme Court, and un doubtedly the place of Judge Woods, it THEM. Free Trade. The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with Green's August Flower and Boschee's Garman Syrup, as the reduc tion of thirty six cents per dozen, has been added to increase the size of the buttles containing these remedies, there by giving one fith more medicine in the 75 cent size. The August Flower tor Dyspepsia and Liver Complaint, and the German Syrup for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the hottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sam ple bottles for 10 cents remain the same

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the towels, and is the best known remedy for diarrhosa, whether arising from teething or other causes.
