300 TONS KOVA SCOTIA LAND PLAS-TER, 91.36 per cent. of Sulphate of Lime.

The want of Plaster has been one of the greatest drawbacks to successful farming in this State, and it is an important service to this great industry and to the State.

It is quite indispensable in any judicious system of agriculture, and it serves several mportant ends, besides the direct one of furnishing lime and sulphur; it gathers nitrogen and prevents its dis ipation and lose; it is a specific for clover and other leguminous plants and it indirectly renders the potash of the soil available and so a tes in the restora

tion of wern lands.

We have sold Plaster to many during the last year, all from whom we have heard, express their satisfaction a its results. The spolication of Plaster, to animal man ure, will increase the value of that manure

beyond calculation. Composting with plaster will improve the value of your compost3 13 percent. Sowing from 20 to 400 pounds of plaster to the acre, over your small grain after it is in the ground, will give you an increased er p of from to to 100 per cent.
