WILMINGTON, N. C.

MONDAY, JANUARY 24, 1887.

Entered at the Postoffice at Wilmington, N. C. as second-class matter.

Bradstreet's turnishes the following commercial summary for the past

Special telegrams to Bradstreet's report a moderate improvement in the listribution of textile staples. Foodstuffs have not been moved as rapidly. but the demand for iron and steel conply. Snow and stormy weather, west are more beaux now than there and northwest, have checked deliveries ever were. But they are wild because of farm produce, but tra le in general is quite equal to and in some localities is in excess of the volume one year ago. third week of January, 1886. This shows an increase of \$27 400,000, or like week in 1886. Increases and de-

reases at leading cities are: York. \$25 300 000; Philadelphia, \$6,-700,000; Pittsburgh, \$600,000; Provi-

deme \$100,000. Decreases -- Boston, \$2,400,000; New Orleans, \$800,000; Chicago, \$700,000;

St. Lauis, \$600 000. Minneap lis and St. Paul clearings are \$876,000 less this week than last, or

13 per cent. Retail merchandise stocks at the in terior are generally reported light; collections are fairly satisfactory, and funds

continue to return from the country. The New York stock market is irregular and unsettled, activity being confined to Richmond Terminal, the coal stocks, and certain specialties in which manipulation plays a leading part Speculation in the staple stocks is at a standstill. Transactions for the week are 2 191 224 shares, against 1.575,519 shares the corresponding week in 1886

being the settlement between the Lake Shore and the Nickel Plate bondhold is Transactions for the week' amount to \$9,323,300, against \$10.517 000 the preceding week. Money is easy, the banks having gained in reserve, and the tend ency of funds is to return to New York. Call leans are 4@5 per cent. and time money 41@5. Commercial paper is scarce, though banks try to keep rates up Foreign exchange is very firm owing to scarcity of com-

mercial bills and inactivity of interna-

tional stock transactions. Wheat has been only moderately active, irregular, and closes \$e. lower for No. 2 red at New York, owing to free selling east and west, rains in Cali fornia and unlavorable cables. Flour is dull and seeks at New York are increasing. Hog products have been stronger on a good home and export Price 5 ets by msil or at inquiry and speculative demand De mand for raw sugar at New York is's ill restricted by a scarcity of coal. Centritogals and granulatid are 116. lower on the week, with the marker quiet and steady. At New Orleansugar is I 16c, higher, with light stocks and decreasing receipts. Coffee is 4c. below last week's closing price No purchases have been made in Braz I for

Europe or America, but the believit # that some reaction must follow tie enormous advance within a year have operated on that basis, and speculative prices are off 40 points, with the market very sensitive. Rumors that Brazil prices have declined are not confi: med. Business in dry go ds at first hands satisfactory, with prices strong .-Stocks are not increasing and many cotton mills are sold ahead. Exports are heavier and prices higher. Cassimeres and other heavy goods have sold a: 5 per cent. over last year's opening, but this is not the rule. Wool manus facturers are not securing advances .-

Stocks of wool are large, but European advices are encouraging. The advance in price of bar iron to 22: announced in Bradstr. et's last week has taken place, though it will not have effect in nearby deliveries .-The eastern pig-iron maker is very firm, and best grades of No Lare scarce at \$21 50@\$22 50, an advance of 50c. But with No. 2 iron at \$20 50@\$21.50. it is sale to say that 100 tons spot could not be obtained at New York even if \$25 were offered. At the west prices continue relatively higher than at the east. The St. Louis and Philadelphia imports of English pig iron were pur chased at prices lower than the same iron could be obtained for now. Still it is not unlikely that English iron may

with a continuance of the existing des mand and conditions in this market. The total number of failures in the United States reported to Bradstre I's this week is 325, as compared with 391 last week. 394 in the like week of 1886, 445 in 1885, 321 in 1884 and 317 in 1883. Canada had 32 this week, against 28 last week and 30 last year. The total in the United States for three weeks of the N. JACOBI, Sole Agent, year is 1,007 in 1887, 1,027 in 1886, 1,259 in 1885, 948 in 1884 and 819 in 1883 -Casada had 73 against 70, 74 73 and 76 respectively in 1886 1885, 1884 and

Astonishing Success. It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive. at least to try one bottle, as 80,000 doz-en bottles were sold last year, and no one case where it failed was reported Such a medicine as the German Syrup

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it has attained both at home and in Great Britain. This success has been reached by methods that must commend themselves to the judgment of parents, no less than to the tastes of children—namely, by an earnest and well sustained effort to provide an earnest and well sustained effort to provide the best and most attractive reading for young people at a low price. The illustrations are copious and of a conspicuously high standard of excellence.

An epitome of everything that is attractive and desirable in juvenile literature.—Boston A weekly feast of good things to the boys and girls in every family whi h it visits-It is wonderful in its wealth of picture in-
