The strike among the longshoremen
and coal-handlers in New York and
Jersey City is spreading and the dangers
of a disastrous coal famine in New
York and Brooklyn are hourly growing
greater.

Popular flowers in Paris this winter
are white lilac, roses, carnellias and
the orchid. On the morning of January 1
there are annually sold at the Halles
Centrales 150,000 dozen of fine roses,
15,000 bunches of ordinary roses, 10,000
dozen carnellias and 15,000 bunches of
lilac.

The three hundred active building
societies of Philadelphia are carrying
mortgages on real estate to the amount
of \$50,000,000. These mortgages are
being paid off in monthly sums, rang-
ing from \$5 to \$50 monthly. Three-
fourths of these mortgages are on small
houses, worth from \$800 to \$3,000, and
the occupants, instead of paying rent,
are paying off the mortgages, and will
eventually own their houses at a cost
but little more than they would have
paid for rent.

Richard Malcolm Johnstone, the
writer of dialect stories, is about sixty
years of age. For years before the war
he conducted a fine school for boys,
modeled on Rugby. He had a large
plantation near Sparta, Georgia, and he
gave his boys all its advantages. He
was skillful and zealous and developed
some fine boys. During the war he
lost first his pupils, and then his slaves,
and finally the bulk of his property.
After the war he went to Maryland
and sought to establish a similar school
near Baltimore. But this enterprise
did not succeed, so he betook himself to
literature.

There has been terrible excitement in
Jersey City over the ruthless and brutal
murder of an inoffensive boy by some
of a gang of Pinkerton's detectives who
were guarding the depot of the Dela-
ware & Lackawanna R. R. The mur-
dered boy, who was but twelve years of
age, was on his way home from work
and had stopped to look at some boys
who were skating on a pond in the
neighborhood of the depot. He was
deliberately shot and killed by one of
the detectives without having offered
the slightest provocation for the dan-
gerous act. An assembly of striking
Knights of Labor were in session near
by and rushed to the scene of the shoot-
ing. It is to their credit that they re-
strained themselves and did not attack
the depot to which the detectives had
retreated. It is gratifying to know,
however, that four of the men are in
jail and that the scoundrel who fired
the shot has been detected.

The *News and Observer*, claiming to
be the organ of the Democratic party
in the State, is evidently very sore over
its defeat. It is the organ of the ma-
chine faction of the party, but does not
by any means, represent, in all things,
the real Democracy of the State. That
faction of the Democratic party, repre-
sented by the *News and Observer*, is in
a minority in the Legislature, and we
don't see how that paper could reason-
ably expect the position it so much cov-
eted. Fortunately, for the people and
the good, the bosses have lost their
power, especially in the Legislature of
North Carolina. — *Asheville Advance*.

In all of this there is a very serious
situation against the *State Chronicle*,
and that anybody will doubt its ortho-

doxy because of anything that the
Asheville Advance can say, but yet we
would be glad to see Mr. Daniel stand
up and refute the insinuations. As for
the *News and Observer*, it is rather a
compliment than otherwise that it
was passed over this time in the be-
stowal of the public printing. It is the
standard of Democratic principles in
the State and it represents the feelings,
opinions and sentiments of the truest
and best people in North Carolina.

The cell in the Richmond jail which
Cluverius occupied has been closed ever
since his execution. It will probably not
be opened for several days. The
sergeant is waiting to hear from the
parents of the deceased to know what
disposition shall be made of his little
effects. Among the articles left by
Cluverius is the Bible which he read
during his long confinement. Some of
the chapters which made particular
impression upon him are marked.

The New York Elevated Railroad is
earning a dubious reputation of late for
safety, and many persons are begin-
ning to suspect that, in view of the
numerous accidents recently, there
must be some truth in the allegation
that is sometimes made as to the struc-
ture wearing out, and that is now com-
pelled to perform a great deal more
work than its originators ever contem-
plated or provided for. Carelessness,
however, has quite as much to do with
the mishaps as wear and tear.

A syndicate of capitalists owning
about seven million dollars of Virginia
six per cent deferred trust receipts, are
hopeful of some action by the Legisla-
ture of West Virginia now in session,
by which these receipts will be re-
deemed. M. C. Mahen, of the syndi-
cate, will leave New York for West
Virginia shortly, in reference to the
matter. He expects that the Legisla-
ture will give the syndicate about \$4,-
000,000 of four per cent. bonds in ex-
change for the certificates.

A great effort in evangelization is
now being made by the Protestant
churches in Boston. The Unitarians
are holding Sunday evening meetings
in the Howard Athenaeum, the largest
variety theater in Boston. The Metho-
dists have imported Sam Jones and
Sam Small, who are speaking twice a
day in the Methodist churches. The
Episcopalians have hired Faneuil Hall,
and Sunday night Rev. Phillips Brooks,
the famous pastor of Trinity, preached
there to a congregation that packed the
house. His subject was the prodigal
son, and it was well fitted to the char-
acter of the audience, which was gather-
ed from every quarter of the North
End and composed of the riff-raff of
Boston. The music was furnished by
a brass band, which occupied the
gallery, and by a chorus of 100 ladies
and gentlemen, who came from their
residences on Commonwealth avenue,
to sit on the platform of old Faneuil
Hall, behind their beloved pastor.

Excitement in Texas.
Great excitement has been caused in
the vicinity of Paris, Tex., by the re-
markable recovery of Mr. J. E. Corley,
who was so helpless he could not turn
in bed, or raise his head; every body
said he was dying of Consumption. A
trial bottle of Dr. King's New Discovery
was sent him. Finding relief, he
bought a large bottle and a box of Dr.
King's New Life Pills; by the time he
had taken two boxes of Pills and two
bottles of the Discovery, he was well
and had gained in flesh thirty-six
pounds.

Headews Her Youth.
Mrs. Phoebe Chesley, Peterson, Clay
Co., Iowa, tells the following remark-
able story, the truth of which is vouch-
ered for by the residents of the town: "I
am 73 years old, have been troubled
with kidney complaint and lameness
for many years; could not dress myself
without help. Now I am free from all
pain and soreness, and am able to do
all my own housework. I owe my
thanks to Electric Bitters for having
renewed my youth, and removed com-
pletely all disease and pain." Try a

flannel underwear at cost.

Fear.

books and school stationery is at Heins-

In the foreclosure sale of real estate at
the Court House today, the entire
property was sold for \$3,050.

You will save money and get the best
work by sending your clothes for repairs
to John Dyer and Son.

This has been one of those lovely
days for which this section of the
country stands without a rival.

Two carloads of Texas ponies are at
Mr. J. W. Taylor's stables, on North
Front street, and are offered for sale.

Appearances indicate that the audi-
ence at the Opera House to-night will
be larger even than it was last night.

The gallery goods behaved quite well
last night at the Opera House. They
made themselves conspicuous once or
twice only.

Mr. Anton Ebert has opened a new
crockery store on South Front street, in
the Vollers building, opposite the New
Market, and will, on Thursday, display
a handsome stock of goods there.

Trains on the Carolina Central now
run through to Rutherfordton and a
slight change of schedule has become
necessary. It will be seen that here-
after the night train will leave here at
6:45, fifteen minutes earlier than here
before.

Mr. H. L. Fennell has purchased the
stock and good will of the saddle and
harness establishment on South Front
street, occupied by the late Mr. J. H.
Mallard, and will hereafter conduct it.
He will lay in a handsome and attrac-

careful and prompt attention to all
orders.

ing to Westerly winds, fair weather

in clothing. Balance stock sold regard-
less of profits.

"The Hidden Hand."
The Louise Arnot Company made
their first appearance before a Wilming-
ton audience in the above-named play
at the Opera House last night, and al-
though we had been prepared for a
fine performance, it was beyond our
expectations. The press in the cities
where this Company have appeared has
given them unstinted praise, and
especially glowing terms have the ver-
satile genius and winning manners of
Miss Arnot been described. Her ap-
pearance and acting last night fully
warranted all that has been said of her.
She captured the hearts of her large
audience at the beginning, and all who
witnessed her rendition of the role of
Capitola were with her in heart, soul
and sympathy. Her acting was simply
superb. Her support was good, and
in some of the characters, excellent.
To-night she will appear in *Miss*, in
the impersonation of which character
the Petersburg *Index-Appel* speaks
thus:

As *Miss* Miss Arnot is an unquali-
fied success. That sums up the situa-
tion. Her method in the impersonation
of the child of the Sierras is so natural
that the spectator forgets that she is
acting, and that is the dramatic art,
after all, to let art conceal art, and
present a picture true to nature. This
Miss Arnot does, and consequently she
holds the attention of her audience all
the time. Last evening she was fre-
quently and deservedly applauded.

Do you need a good heating or cook-
ing stove? Then go to JACOB'S.
There you will find a large assortment

Sunday School Teachers.

Rev. Dr. Pritchard will commence a
class of instruction for Sunday School
teachers at the First Baptist Church
next Thursday night, at the conclusion
of the Prayer Meeting exercises, to
which all Sunday School teachers, ir-
respective of denomination, are cordially
invited. Sessions will be held every
Thursday night until further notice.

To Rutherfordton.

The first train over the Carolina Cen-
tral Railroad arrived at its present
Western terminus, Rutherfordton, last
Sunday night. A large throng turned
out to bid welcome to the iron horse
and there was quite an ovation. The
Superintendent, Col. Jones, and other
officials of the road, were on board the
train, and received the hearty congrat-
ulations of the citizens.

Took all His Pains Away.

A. M. Chrisholm, of No. 2724 Stod-
dart st., St. Louis, Mo., writes:
"During my long residence in Can-
ada I suffered for years from severe
pains in my back, across the region of
the kidneys, and by the constant use of
ALLCOCK'S PLASTER invariably ob-
tained great relief. Upon removing to
St. Louis, I was again troubled with
the same complaint, and was advised to
use Magnetic and other kinds of
plasters, without being relieved of pain,
so fell back to my old friend ALLCOCK,
who gives me more relief than any
other I have ever tried. I always re-
commend them to my friends and all
who suffer from pains and aches of any
kind."

Suits, overcoats and odd pants sold
at greatly reduced prices at MUNSON'S
clothing rooms.

A colored boy on (and off) a Texas pony.

considerable excitement on Front street.
The boy had pluck and was determined
to ride, but the pony could throw him
about as fast as he could mount.

Nor. barque Byron Johansen, clear-
ed to-day for Bowling, Scotland, with

Personal.

Col. W. P. Cahaday, Sergeant-at-
Arms, U. S. Senate, is in the city to-
day.

Mr. Frank O. London, of Baltimore,
was in the city yesterday and Sunday
on a visit to relatives and friends. He
left this morning.

Ex-Solicitor General S. F. Phillips,
of Washington, D. C., arrived in the
city this morning and registered at the
New Percell House.

We are glad to state that the condi-
tion of Mr. John C. Heyer, who was
stricken with apoplexy on Sunday
afternoon, has very much improved,
and that he is quite comfortable to-day.

On to Asheville.

The Carolina Central people seem to
be very much in earnest in the matter
of extending their road through to
Asheville. They are almost there now.
Rutherfordton being only about 40
miles distant. The *Citizen* says:
As we announced, Col. Coleman left
yesterday to meet Mr. Moncure of the
C. C. Road, with the purpose of making
a preliminary survey of the route be-
tween this city and Rutherfordton. The
work will likely consume ten days or
more, and at the expiration of this time
we will then be in an attitude to talk
business with the authorities of the
road. Our people are fully alive to
the completion of this connection and
no one need doubt their doing the full
measure of their duty in the matter.

We are glad to learn that the good
people along the line are much con-
cerned about the extension to Asheville,
and that leading gentlemen at Wil-
mington have pledged assistance, if it
be needed, to have the connection
made. Wilmington should be much
concerned and would be justified in
giving more for extension to Asheville
than they would in assisting the Cape
Fear & Yadkin, which they are very
properly assisting in a material way.
We will be able within the next few
days to give the views of the engineers
as to how the line looks.

Delicate persons, and all whose sys-
tems have become debilitated, should
bear in mind that Simmons' Liver Regu-
lator is not a drastic, purging medicine,
does not weaken or deplete the system
as other purgatives do, but acts gently.
It will invigorate like a glass of wine,
but is not intoxicating beverage to lead
to intemperance; will promote diges-
tion, dissipate headache, and generally
tone up the system.

Hon. Alex. H. Stephens, of Ga., says:
"Simmons' Liver Regulator is mild and
suits me better than more active reme-
dies."

LAND PLASTER.

300 TONS NOVA SCOTIA LAND PLAS-
TER, 94 per cent. of Sulphate of Lime.
The want of Plaster has been one of the
greatest drawbacks to successful farming in
this State, and it is an important service to
this great industry and to the State.
It is quite indispensable in any judicious
system of agriculture, and it serves several
important ends, besides the direct one of fur-
nishing lime and sulphur; it gathers nitrogen
and prevents its dissipation and loss. It is a
specific for clover and other leguminous
plants, and it indirectly renders the plough
of the soil available and acts in the restora-
tion of worn lands.

We have sold Plaster to many during the
last year, all from whom we have heard, ex-
press their satisfaction in its results.
The application of Plaster to animal man-
ure, will increase the value of that manure
beyond calculation.
Composting with plaster will improve the
value of your compost 33 per cent.
Sowing from 20 to 400 pounds of plaster to
the acre, over your small grain after it is in
the ground, will give you an increased crop of
from 50 to 100 per cent.
It is indispensable in early trucking for
such as strawberry beds, asparagus beds &c.
