WILMINGTON. N. C. SATURDAY, JANUARY 29, 1887.

intered at the Postoffire at Wilmington, N. C. as second-class matter.

Cardidates for the well paid tlice of Inter State commerce commissioner are being suggested with great prempts ness by the friends of many citi-Zens who are supposed to be willing to The salary is \$7 500 a year. The name of Senator Conger, of Michigan who will be an Ex-Senator in about a month is mentioned as offered for one of the two Republican places. For the three Democratic places several names have been heard in addition to that of Civil Service Commissioner Oberly. Col Morrison, of Illinois, is one, but if he is chosen Mr. Oberly, also of Illinois, will not be. Judge Boyer, of Illinois, who has sometimes been spoken of as the author of the Cullom bill, is suggested by his friends as a proper man. Hon. George Davis, o this city, has been spoken of and another suggested candidate is Ex Judge Smith of Georgia, while Gen Pierce M B Young, consul-general to St. Petersburg, who does not like the climate of Russia and would like to be minister to Turkey or at Bogo'a is said to be willing to abandou diplomacy for this field of domestic usefulness.

When a woman talls from her high estate she falls very low indeed. And so, when a Democrat falls from grace he generally strikes the rock-bot.om of allathat is mean and despicabe. living illustration of this fact is Dr Tyre York, once a trusted leader of the Democratic party in this State but now a traitor and an outcast from that Safe and always Reliable. Beware of worth | party. He it was who helped to give to less Imitations. Indispensable to LAD ES the State the present beneficial system trayed his party he is now as vigorous ly opposing that system as he once earnes ly befriended it. As long as Dr York retained his virtue he was " triend to the State University but now mand of him that he shall attack and defame her whom once he deemed enagree with the Charlotte Home-Demo. covery" be employed early crat when it says:

We see that Dr York has introduced Bill in the House to deprive the N. C. University of the proceeds of the Land Scrip donated to the State for agricultural education. We do hope he appropriation to the University will not be interfered with North Carolina should certainly maintain a State institution for the education of her sons, instead of compelling them to go to Virginia and other States. The University has recently added five new Professors o her culty on the strength of appropriations made, by former Legislatures, and it would now be unfortunate to have to dismiss them for the want of funds to pay their salaries. One of the new Professors has taken pains o qualify him-elt especially to each Agricultural Chemistry, and is equal to the best in the United States. By all means let us have some State pride and show it by maintaining State institutions. It would be a disgrace to us as a people to dismiss from our tate University gentlemen whom we ave emplosed to aid us in building up gher duca ten in North Carolina.

There is considerable speculation ver the organization of the 50.h Concress. So many old members were deseated tor re-election that an almost complete reorganization of the commisee will be accessary. Mr. Randall vill likely go back to the head of the committee on appropriations, Mr. Belmont to the head of foreign affairs. Mr. Herbert to naval affairs, Mr. Blouut to postoffices and postroads. Mr. Matson to invalid pensions and Mr. Hatch to agriculture. The great majority of chairmen were elected to stay at home Probably the most conspicuous of these is Mr. Morrison, of ways and means. Next in prominence is Mr. Willis, of Kentucky, head of rivers and harbors. Gen. Bragg, chairman of military affairs, who is left at delay. It has cured many of the worst cases nome, will also be missed. Mr Tucker, of Varginia, chairman of judiciary, and one of the best lawyers the flouse drifting to the grave. will in most cases recey bas ever had, retired of his own voli-Mr. Mitchell, of Connecticut. another who retires because he does not want more of official l.fe, will make a change in the head of patents. Nicholas Muller, of New York, will go away from the nead of militis, and Mr Hill, of Ohio, will say good-byeto Territories, while his colleague, Mr. Geddes, will look no more upon war claims. Mr. Barbour, of Virginia, will depart from the head of the District of Columbia, Mr. Eidridge, of Michigan, from pensions, Mr. Cobb. of Indiana, from public lands. Mr. Miller, of Texas, from banking and currency. The changes, in short, will be so numercus as to make the working machinery of the 50.h Congress as different from the present as can well be. considering that the same party will
