No rains have fallen in Crawford County, Kansas, for sixteen months. It is stated, and water sells there for forty cents a barrel.

Ostrich farming in California continues to be profitable. A car load of the big birds from Africa has recently reached Los Angeles.

A Washington correspondent says that many young women in society there are learning to swear, and tells of a caller who sent in his card and heard, in an adjoining room, a young woman say: "Damn the man! Show him in."

Some queer things are seen in the Veterinary Hospital of Philadelphia—Among other things are a pig's easy chair, a padded cell for a lucious horse, a Turkish bath and a swinging harness, in which a horse may live and die without bearing any weight on his legs.

Asphalt has been discovered in Morgan county, Ala., on the Louisville & Nashville Railroad. This rare mineral deposit, known as rock tar, is found nowhere else in the United States, the great lake of Trinidad having furnished the supply for this country for years.

According to the proposed law now before the Legislature of Massachusetts, no report of any execution of a criminal can be published, under a penalty of \$500. The criminal's counsel can authorize the publication of the criminal's final confession, declarations or remarks.

In 1834 the Roman Catholics had in the Diocese of Detroit one bishop, thirty priests and a Catholic population of 30,000. In 1885, in the territory comprising the Diocese of Detroit in 1834, there were two archbishops, nine bishops, 930 priests and a Catholic population of 802,000.

It is stated in the Congressional Club at San Francisco that in that city, with a population of about 300,000, the attendance at the Protestant churches was about 33,000, and at the Catholic churches about 18,000, making a total church attendance of about 50,000. Probably three fourths of the population never attend church.

In modern war ships that are to sail the ocean as cruisers three qualities are absolutely indispensable: They must have batteries equal to any emergency except fighting with forts or heavily armed ships; second, their batteries must be protected by sufficient armor; and third, they must have speed enough to overtake the swiftest ocean racers, and to run away out of reach of any too powerful antagonists.

The Independents and Republicans in the Legislature have a queer way of showing their love for the mechanic and laboring man. They have got an amendment to the revenue bill through the House, reducing the amount of taxable incomes from \$1,500 to \$300. If they succeed every man who makes more than \$300 a year will be required to pay an income tax. But they will not succeed. The Democratic Senate will come to the poor man's rescue.

# THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., THURSDAY, FEBRUARY 24, 1887. NO. 47

The question of passing the dependent pension bill over the President's veto comes up in the House to-day and we hope that no North Carolina representative will vote for it.

Here is a description of a wonderful operation which was performed upon a man in Detroit:

On Thursday last an unknown man was brought to St. Mary's Hospital, who, it was said, had fallen at one of the car works. His entire left side was paralyzed, and he was insensible. He lay in a comatose condition until yesterday, when the doctors came to the conclusion that the paralysis was caused by a blood clot on the brain, which they believed to be in a certain locality. They cut a circular piece out of the skull three quarters of an inch in diameter, and the diagnosis was so accurate that on removing the bone thus sawed out the suspected blood clot was immediately discovered. It was removed, and almost instantly signs of life were noticed in the limbs of the left side. The hole was filled with tissue, which will be gradually withdrawn so as to avoid inflammation by too sudden a change in the shape of the brain. Today the man regained consciousness and the use of the paralyzed side.

**Excitement in Texas.**  
Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; every body said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

**An End to Bone Scraping.**  
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve and my leg is now sound and well."  
Electric Bitters are sold at fifty cents a bottle, and Becklen's Arnica Salve at 25c. per box by all W. H. Green & Co.

The receipts of cotton at this port today foot up 51 bales.

The Northwest storm signal was hoisted this afternoon.

The receipts of cotton and spirits turpentine to-day were unusually light.

You will save money and get the best work by sending your clothes for repairs to John Dyer and Son.

Steamboatmen from Smithville report that the fog was unusually dense on the river this morning.

Six tramps were accommodated with lodgings in the guard house last night. Three of them secured work in the city and the other three were escorted by the police outside of the city limits.

The two drunken men who were arrested yesterday morning for fighting at the corner of Front and Market streets were discharged yesterday afternoon after they had become sober.

**Indications.**  
For North Carolina, generally fair weather, with Northerly winds and lower temperature.

**Personal.**  
Mayor Hall left the city on this morning's train for Raleigh.

Drs G. F. Lucas and W. T. Ennett, of Pender County, were in the city today.

Mr. B. G. Crisp, our young lawyer friend from Smithville, is in the city today and paid us a pleasant visit this forenoon.

Mr. and Mrs. P. L. Bridgers will be in North Carolina next week. A little more than a year ago Mr. Bridgers was appointed United States Consul to Montevideo, a city of some 135,000 inhabitants, and now returns to this country on a short leave of absence. He with his wife and children sailed from Montevideo on the 15th of January. Telegrams received here announce their safe arrival in England. After a short stay in London they sailed for New York on the 17th inst., and expect to reach North Carolina on next Sunday or Monday, first visiting Raleigh, where Mrs. Bridgers' parents reside, and then coming on to Wilmington.

## Entertainment.

There are now but three dramatic companies that are booked at the Opera House for the month of March. These are as follows: J. Owen O'Connor, tragedy, March 11th and 13th; The Aiden Benedict "Monte Christo" Company, March 14th, and Frederic Ward, tragedy, March 22nd and 23rd. There are no companies now booked for this month. It is possible that other companies may make engagements for the earlier days in March, but that is one of the uncertainties.

## Railroad Changes.

By the death of Mr. W. N. Bowden several changes have been made necessary, and the several positions filled by him have been distributed among other officials of the road. The duties of auditor of tickets for the Raleigh & Augusta, Raleigh & Gaston and Carolina Central Railroads will be performed by Mr. Thomas H. Wright, assisted by Mr. William Bowden, son of the late auditor. The duties of paymaster of the Carolina Central Railroad will be performed by Mr. W. F. Williams, Clerk to the Superintendent. Messrs. Wright and Williams are experienced and efficient railroad men, who are well fitted for their respective duties. Mr. Bowden is yet young in the business, but will succeed if industry and integrity shall command success.

## Substantial Foundations.

Workmen are busy in making the necessary excavations and in laying the foundation walls of the building which is soon to be erected on the Southwest corner of Front and Red Cross streets, for offices for the Atlantic Coast Line. The walls are about two feet in thickness and are being put up in the most thorough and substantial manner and the outside of them is being covered with cement, to prevent moisture in the basement rooms. Somewhat of symmetry, however, is lost by the situation of the walls, with reference to the street. As located a prolongation of the line of the front wall Southward would cross Front street and strike the buildings on its Eastern side near the premises lately occupied by Messrs McDougall & Bowden. We suppose, however, that the railroad authorities knew what they wanted and how they wanted it, and it is nobody's business but their own how the building is situated.

## Military Matters.

Col. W. C. Jones, commanding Second Regiment, North Carolina State Guard, in General Order No. 1, announces the following as his commissioned and non-commissioned staff.

**Commissioned.**—M. S. Willard, Wilmington, First Lieut. and Adjutant.

F. T. Atkins, Clinton, Quarter master, with rank of Captain, vice N. F. Parker, resigned.

J. F. Bishop, Maxton, Commissary, with rank of Captain.

Dr. J. A. Hodges, Fayetteville, Surgeon, with rank of Captain, vice Dr. G. G. Thomas, resigned.

Dr. J. T. Stevens, Clinton, Assistant Surgeon, with rank of First Lieutenant, vice Dr. J. A. Hodges, promoted.

Rev. James Carnichael, D. D., Wilmington, Chaplain, with rank of Captain.

**Non-Commissioned.**—W. A. Wilson, Jr., Wilmington Sergeant-Major, vice O. P. Meares, Jr., resigned.

B. F. McLean, Maxton, Commissary-Sergeant, vice Charles J. Ahearn, resigned.

W. T. Thorpe, Smithville, Quarter-master-Sergeant, vice F. T. Atkins, promoted.

W. C. McDuffie, Fayetteville, Hospital Steward.

## An Important Bill.

The following is the full text of a bill introduced in the Senate in connection with the Machinery Act of the Bill on Finance:  
"That all persons, whether as owners or in trust, or in any fiduciary capacity, who shall have in their possession or control any note, bond, account, mortgage, or other and every form of debt of any and every form whatsoever, bearing interest, shall be required to furnish the assessors of their respective towns and townships, within the State, with a written statement of all and every said obligation, subscribed and sworn to, together with the value upon which they estimate such obligation as above mentioned. And if any person or persons shall fail to comply with the said requirements, or to place a certain valuation on the obligations, then the said notes and other obligations shall forever be barred in collection by any authority of any court in North Carolina. It shall be the duty of said assessors to return such sworn statements to the register of deeds, who shall certainly file the same, and the said statements shall be in evidence against the recovery of such obligations."

## The storm signal which was flying this morning had the Northwest signal added this afternoon.

It was thought at the Signal Office this morning that the probability of a storm had passed by, and that fair weather with a lower temperature would follow. Since that time there has been a change in the indications which called for the additional signal.

## Religious Matters.

The Salvation Army is doing a large amount of work in this city. Their meetings are crowded nightly, and many of the visitors have become penitents. Those having the meetings in charge seem to have the faculty of arousing the religious feelings of their hearers to a high pitch, in consequence of which the enthusiasm is continually on the increase. We earnestly hope that much good may result.

## A Good Nurse.

Should not have a wife to wait upon with such diseases as Smallpox, Cholera or Scarlet Fever. There is little to be feared by persons waiting on the sick if they will use Darby's Prophylactic Fluid freely. In sick rooms it should be exposed on a plate or saucer, and the patient sponged off with the Fluid diluted. For safety, cleanliness and comfort in the sick-room the Fluid is indispensable.

## Quarterly Meetings.

First round of Quarterly Meetings for the Wilmington District of the Methodist E. Church, South:  
Bladen circuit, at Bethlehem, Feb. 26, 27.  
Cokesbury circuit, at Bethany, Mar. 5, 6.

Whiteville station, at Whiteville, April 2, 3.  
Brunswick circuit, at Bethel, April 9, 10.  
T. W. GUTHRIE, P. E.

## Pleurisy Cured.

KINSTON, ONTARIO, December 7, 1885.  
Six years ago I caught a severe cold standing in an ice house with my coat off. I felt myself getting chilly and went to the house, where I took for half an hour and then had high fever and terrible pain in my side and through my lungs. I put an ALLCOCK'S POROUS PLASTER on my back and one on the front of my chest and in a short time the pain decreased and I fell asleep and did not wake until the next morning, when I was again quite as well as ever. In telling my doctor about it, he said I had been attacked with pleurisy and, possibly, pneumonia.  
E. E. DUDLEY.

## Physicians Have Found Out.

That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive subcutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous chalky deposit which produces stiffness and distortion of the joints. No fact which experience has demonstrated in regard to Hostetter's Stomach Bitters has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the poisons often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fever, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.
