Three months, \$1.50; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. All subscribers will report any and all failures to receive their paper regularly.

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., FRIDAY, FEBRUARY 25, 1887. NO 48

The South of Europe has had more dread earthquakes. A score or more of lives have been lost.

Senator Stanford's enthusiasm over his plan for erecting a great university in California is said to have reached such a pitch that he contemplates resigning his seat in the Senate in order to devote his whole time to the project.

The heirs of Mrs. A. T. Stearns are seeking to have her will declared void on the ground that she was unduly influenced by Ex-Judge Hilton. Serious charges of fraud are brought against Ex-Judge Hilton. He is claimed to have converted over \$20,000,000 of personal property to his own use, without rendering any inventory to the Court.

The Illinois Legislature is loaded with bills establishing an arbitration commission, the most radical being by C. G. Dixon a labor member, representing the Conservative workmen of Chicago rather than the Socialists. The bill makes a commission of five, one retiring each year, and gives it the power, which the railroad commission has, of taking jurisdiction and enforcing its decrees.

There was a missionary conference in Etowah, I. T., recently, and an appeal was made to the Indian congregation for money to send the Gospel to those who have it not. There were 300 persons in the congregation, and the collection amounted to \$350, many of the Indians giving all the money that they had with them, and some of the girls throwing bracelets, rings and other jewelry into the collection baskets.

Furniture dealers complain of the craze for staining woods to make them look like others, and especially like something antique. This leads to extensive "doctoring" of ash, chestnut and plain oak to make them sell as quarter-sawn oak. Birch is easily painted off for cherry, and so all through the list. High cost woods are imitated almost beyond detection. Common hemlock can be made to take the place of the choicest hard wood.

The Legislature of Nevada has passed, with only three opposing votes, a resolution proposing a constitutional amendment whose adoption will disfranchise all members of the Mormon Church in that State. This amendment provides that no one shall be allowed to vote who will not swear that he is not a member of that Church. Such a test-oath law is in force in Idaho. A similar law was enacted in Arizona two years ago, and in response to the recommendation of the Governor was repealed last month.

The Rev. Phillips Brooks says: "Character is the only thing that prospers in this world. It is not the only thing in this world that wins money, but money is not near so precious as character. Do you think of money when you think of the golden streets beyond? No; you think only of that which belongs to the soul, that God is absolute purity of character, that there is no stain on his righteousness, no cloud ever comes over the perfect righteousness of that character that belongs to Him, simply because He is the sunlight of the world."

A large cave, made up of many rooms of great extent, has been found in Marshall county, Texas. In one of the chambers there were found two human skeletons, about six hundred dollars in gold and silver coin and a quantity of silverware. The cave is believed to have been the hiding place, during the late war, of a band of guerrillas known as "Bloody Bill Brady's gang." These marauders were attacked near Benton, Marshall county, in 1864, and all but two were killed. These two escaped and going, as it is thought, to this cave, quarrelled over a division of the spoils of the gang, and following their murderous bent, shot and killed each other.

Physicians Have Found Out
That a contaminating and foreign element in the blood, developed by indigestion, is the cause of rheumatism. This settles upon the sensitive subcutaneous covering of the muscles and ligaments of the joints, causing constant and shifting pain, and aggregating as a calcareous, chalky deposit which produces stiffness and distortion of the joints. No fact which experience has demonstrated in regard to Hostetter's Stomach Bitters has stronger evidence to support than this, namely, that this medicine of comprehensive uses checks the formidable and atrocious disease, nor is it less positively established that it is preferable to the potassium often used to arrest it, since the medicine contains only salutary ingredients. It is also a signal remedy for malarial fever, constipation, dyspepsia, kidney and bladder ailments, debility and other disorders. See that you get the genuine.

The REVIEW JOB OFFICE is the place to get good work at moderate prices.

The dependent pension bill was killed in the House yesterday after a bitter debate, the two thirds necessary to override the President's veto not being forthcoming. It was not made a party measure.

When we read of the fearful earthquakes that visited the South of France and portions of Italy on the 23rd inst., our warmest sympathies went out to those who escaped in the terrible scene and devastation. Nor could we refrain from heartfelt gratitude to God, to think our people suffered so lightly in comparison on the night of the ever to be remembered 31st of August last. According to the latest reports more than 2,000 people were destroyed in the South of Europe by the earthquake of Wednesday last; towns and villages were almost annihilated, and thousands of people were rendered homeless, and were obliged to seek for homes among the hills and mountains. It was a terrible visitation, which we earnestly pray may not be repeated in the land of those stricken people.

Excitement in Texas
Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; every body said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

Trial Bottle of this Great Discovery for Consumption free at W. H. Green & Co's.

An End to Bone Scraping.
Edward Shepherd, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve and my leg is now sound and well."
Electric Bitters are sold at fifty cents a bottle, and Becklen's Arnica Salve at 25c. per box by all W. H. Green & Co.

A clear sky and a bright sun have again made their appearance, where of we are glad.

You will save money and get the best work by sending your clothes for repairs to John Dyer and Son.

There must be a plenty of money somewhere in the country that will permit people to enjoy the luxury of travel. Our principal hotels are being quite liberally patronized by people from all parts of the United States.

The steamer *Passport* came up to the city this morning and went on the Marine Railway, having broken one blade of her propeller. The damage will be repaired to-day and she will probably come off to-night, as good as new.

An employee of Messrs. Hook & Hastings, of Boston, the celebrated church organ builders, is daily expected in this city to superintend taking down the organ of the First Presbyterian Church and putting it up on the first floor near the pulpit.

Indication.
For North Carolina, local rains; Easterly winds, and higher temperature.

Personal.
Magor Hall returned from Raleigh on this morning's train.

Mr. W. J. Parker, of Bladen County, is in the city to-day. We regret to learn that his wife is quite sick, and confined to her room at the Orton House, but are glad to state that her condition is improving.

To Myrtle Grove
The work on the new railroad from the Cape Fear river to Myrtle Grove Sound is progressing favorably. The superintendent of the grading informed us this morning that that part of the work would be completed some time during the next week, should the weather prove favorable, and that the work of laying the cross-ties, a large portion of which are already cut, would be commenced immediately upon the completion of the grading.

The Onslow R. R.

The charter granted to the Wilmington, Onslow & East Carolina R. R. by the Legislature in 1885 having lapsed because of the failure to begin the work in the prescribed period the same has been amended and renewed by the present General Assembly. We give a brief synopsis of the new law. It is entitled: "An act to amend an act to incorporate the Wilmington, Onslow & East Carolina Rail Road Company."

The first section provides that the time within which the company which was organized under chapter 933, of the laws of 1885, (the original act of incorporation) is compelled to begin the construction of its road shall be extended for the term of five years.

Section 2, that the 13th section of the original act be amended by adding thereto the following clause:

And it shall be the duty of the County Commissioners and other proper authorities of such city or town to meet and pass upon said application within 30 days after the same shall be presented to them, and if the terms of this section shall have been complied with in making the same to issue at once the requisite and proper notice calling the election in this section prescribed, which said election shall be held within 40 days after the day of the meeting aforesaid.

Provided, however, that this amendment shall not apply to, or in any way govern, the election already called by the Board of County Commissioners of New Hanover county, under the provisions of the original act.

Section 3 amends the original act to the effect that if the people shall vote the amount proposed on behalf of the county, then a meeting of the subscribers, both private and municipal, shall be called by any three of the former, or by the chairman of the Board of Commissioners and held within 60 days after the election, for the purpose of organizing by electing a board of directors. The county to be represented at this and at all subsequent meetings by some resident tax-payer who shall not be a member of the Board and who shall vote the county stock in all questions requiring a stock vote, except in the election of directors.

The Board of Directors is to consist of not less than nine nor more than thirteen members, the county to be entitled to a number proportionate to her stock, comparing her subscription to the entire capital of the Company, actually subscribed by solvent subscribers. These County Directors must all be resident tax-payers and must be named by the County Commissioners. They are to serve without pay or emolument. No member of the Board of Commissioners to be eligible as a Director. The remaining members of the Board of Directors to be elected by the Stockholders other than the County.

Section 4 declares that the subscriptions to the stock of the Company shall be paid at such time and in such manner as the Board of Directors may determine.

Section 5 prohibits the city from subscribing to the stock should the election be carried in the county.

Section 6 repeals 11, 12 and 16 of the old act, providing for the employment of convict labor.

Section 7 makes null and void a subscription on the part of the city should the railroad corporation fail or refuse to accept this amended charter.

Section 8 is as follows: That section 14 of said act be amended by striking out in the 9th line of said section the words "as may be agreed upon" and the words "as may be agreed" in the 20th line, and inserting in lieu thereof the words "for the equal value of the said cash in the bonds of the county or municipality making the said subscription at the election of the proper authorities thereof," and by striking out the whole of the proviso in said section, from the words "provided, however," to the end of said section; and the said section be further amended by adding at the end thereof, as amended above, the following clause: "Provided that the said corporation shall not be compellable to issue stock to the county or counties, or other municipalities making any such subscription than for an amount equal to the actual cash value of the bonds at the date of the delivery of the same to the said company."

Section 9 repeals all laws or parts of laws which may be in conflict with this act.

Sea Luck.

The Spanish barque *Maria* seems to be having all sorts of bad luck. She was preparing to go to sea from Smithville, this morning, but was stopped by the inspector, as she did not have a custom house permit. This necessitated a trip by the Captain to this city. He came up on the *Louis* to-day and secured the permit, and the vessel will probably start on her voyage to New York to-morrow morning.

Meeting of the Chamber of Commerce

A meeting of the Chamber of Commerce was held at the rooms of the Produce Exchange at noon to-day to which the business men of the city generally were invited. The meeting was one of the largest ever held by this chamber and was enthusiastic.

Col. F. W. Kerchner, President of the Chamber of Commerce, called the meeting to order and Col. J. L. Cantwell was Secretary. At the request of the President, Col. W. L. DeRosset stated the object of the meeting to be to take action as to railroad freight, a railroad commission and Legislative action thereon.

Mr. Donald McRae read a communication from Mr. H. Walters, General Manager of the Atlantic Coast Line.

After an interchange of views, motions and amendments, by a number of the gentlemen present, the meeting was on motion resolved into a meeting of the merchants and citizens of Wilmington.

On motion the President and Secretary were requested to continue as such. Mr. W. Calder offered the following substitute for and instead of the pending motions, substitutes and amendments:

Resolved, That it is the sense of this meeting that the Legislature now in session should repeal all laws now on the statute books, prescribing and limiting the rights and duties of railroad companies as to charges for carrying freight; especially the amendment to 1966 of the Code, which seems exceedingly obscure, and calculated to injure the commercial interests of the State; and to substitute therefor the enactment of a law establishing a Railroad Commission upon a just and equitable basis for all the interests involved.

On motion, a vote was taken and the above resolution was adopted unanimously.

On motion, the Chair appointed the following as a committee to visit Raleigh in furtherance of the objects of the foregoing resolution:

Messrs. Wm. Calder, W. L. DeRosset, G. H. Smith, B. F. Hall, Clayton Giles, T. M. Emerson

On motion, Col. F. W. Kercher was added to the committee.

On motion, the committee were empowered to fill any vacancy which might occur.

Mysterious Disappearance.

Robert Moore, colored, who lives on Dawson street, between Front and Second, reported at police headquarters this morning, that when he went home last night he found his wife, Maria, in bed. He also retired and passed nearly an hour in conversation with her, and then went to sleep. After awhile he awoke and saw his wife in her night clothing passing out of the back door. He took no notice of the matter, supposing that she would soon return, but as she did not make her appearance he became alarmed and went in search of her. Not finding her in the yard, he went to her mother's, who lives near by, but the latter had seen nothing of her. Moore continued the search for his missing wife until this morning, without success, when he notified the police as above stated. He states that their conversation last night was entirely pleasant, and that they have always lived happily together; and he further stated that he had never seen any indications of mental trouble. He is at a loss to conceive what could have been the cause of his wife's departure and is equally at a loss to know where she could have gone to and effectually hidden all traces of her steps.

Just received a new lot of rims, spokes and hubs. Those in need of above will find that they will save money by buying from JACOB'S Hdw. Depot.

A Good Investment.

Get from 25 to 33 per cent. interest on your money by purchasing now suits or overcoats at I. SHREK'S. It will pay you to buy them for next winter at the low prices, besides having the good of them for the balance of the cold snaps.
