JOSH T. JAMES,

EDITOR AND PROPRIETOR.

SUBSCRIPTIONS POSTAGE PAID:

One year \$4.00, Six months, \$2.00. Three months, \$1.00; One month, 35 cents.

The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week.

Advertising rates low and liberal.

Subscribers will report any and all failures to receive their paper regularly.

One fifth of the entire population of England and Wales are said to be in Sunday-schools, there being 600,000 teachers and 5,200,000 scholars.

Mrs. Cleveland's grandmother, Mrs. Ruth H. Harmon, is dangerously sick at Jackson, Michigan, and fears are entertained that she may not recover.

A vessel with a cargo of forty-four ostriches arrived recently at Galveston, Texas. This is the second cargo within twelve months. The birds are for ostrich farms in California, and came from Natal.

Zangarona, one of the volcanoes of the Cordillera is still active. Recent lava flows and the coming in of one side of the cone are reported to have entirely changed the features of this notable mountain.

The value of the cotton plant, great as it is acknowledged by all to be, seems to have the possibility of being increased, since it has lately been discovered that the bark of the root contains what promises to be an available coloring matter.

It has been demonstrated that platinum wire may be drawn so fine as to be invisible to the naked eye, although its presence upon a perfectly white card can be detected by the touch, and can be seen by the aid of a small magnifying glass when the card is held in such a position that the wire casts a shadow.

A bill recently introduced in the Minnesota Legislature provides that all railroad companies operating in Minnesota and carrying passengers shall furnish a special car built of iron or steel for each train of cars, or that a compartment of such special car shall be built of iron or steel, upon which shall be located all heat and light-producing mediums.

Henry, second son of the German Crown Prince, who has lately been betrothed to the Princess Irene, third daughter of the late Princess Alice, of England, is known as the "sailor prince." He will soon be promoted to the rank of captain, and will make his first voyage as an independent commander of a war ship.

The New York World, using the life insurance tables as a basis of calculation, has figured out that the late dependent pension bill, if passed, would have required \$15,840,000 per year, or a total of \$253,584,000 to have met its claims of the pensioners from New York State alone. During the war 467,000 men from New York were on duty, and 421,000 survived.

The grain trade of New Orleans seems to be gradually growing. The receipts of corn and wheat for the month of February aggregated about one million bushels, the great bulk of it by river, and the foreign shipments for the month were about 800,000 bushels. Thursday last the receipts from the West by river were 328,606 bushels, and the foreign shipments the same day footed up 231,932 bushels.

Vice President Reed, of the New York, New Haven & Hartford Road, testified that the system of heating by steam from the locomotive is entirely practicable, and that there will be no difficulty in thoroughly warming a train in this way during the coldest weather. The expense, he says, will be no greater than the cost of stove heating, and, in addition, absolute safety as regards fire will be insured.

The master mechanic of the Cleveland, Columbus, Cincinnati & Indiana Railroad, on which the system of steam heating from the locomotive is in successful operation, says that the cost of a car for stove heat was \$42.37 per car. The amount of steam used to heat the passenger cars is, he declares, very appreciable, and the company get no value on it, the cost of the heating system is next to nothing. The cost of heating a passenger car with stoves on the Eastern railroads is estimated at over \$300 a year.

The House of Representatives of Tennessee, by a party vote, passed the bill to increase the pension of soldiers' widows who lost the use of both or both legs or both arms in the war, from \$10 to \$25 per month. The bill provides that the pension shall flow to Confederate soldiers and Federal soldiers not pensioned by the United States Government. Objections were made to the measure by the Republicans on the ground that it was unconstitutional, and was, therefore, unconstitutional. The bill passed by a vote of 57 to 24.

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., FRIDAY, MARCH 4, 1887. NO 54

Literary.
The *Magazine of American History* for March is at hand, and as usual, is filled to the full with matter of historic interest. This periodical stands deservedly in the very front rank of American literature, and fills a position taken by no other magazine. Its articles are always interesting and instructive, and written in the clear, terse and forcible style of our best writers. It is edited by Mrs. Martha J. Lamb and published at 30 Fayette Place, New York, at a subscription price of \$3 per annum. Stepladders of all lengths can be found at JACOBI'S Hdw. Depot.

The Verdict Unanimous.
W. D. Sult, Druggist, Bippus Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is, unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at W. H. Green & Co's.

Brace Up.
You are feeling depressed, your appetite is poor, you are bothered with headache, you are listless, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very bad, cheap whiskey, and which stimulate you for an hour, then leave you in worse condition than before. What you want is an alternative to purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at W. H. Green & Co's.

The Forty-Ninth Congress expired at noon to-day.
The receipts of cotton at this port to-day foot up 70 bales.

We have no Raleigh *Histor* to-day, and consequently can give no legislative proceedings.
You will save money and get the best work by sending your clothes for repairs to John Dyer and Son.
The political thermometer indicates a high temperature which will probably continue for several days.
Parties to the Sound are beginning to be popular, but the season for this pleasure has not yet fairly begun.
Yesterday was decidedly warm and pleasant, while to-day the atmosphere has been chilly, raw and uncomfortable.

There is not a doubt that the efforts of the Salvation Army are resulting in much good, which we hope may prove permanent.
Parties interested are moving vigorously for the railroad to the Sound, with the determination of having the same constructed and in running order the present season.
Fire alarm box No. 53 has been placed at the Crockett Works on the river front below Castle street. Firemen and others will remember that a fire in that vicinity will be indicated by the strokes 5-3 on the bell.
Indications.
For North Carolina, local rains and colder with winds, shifting to northerly.

A Circus.
A colored man on the back of a bucking Texas pony was the cause of considerable merriment in front of Mr. J. W. Taylor, stables this afternoon. It was a spirited "rattle" for about two minutes, but the colored man, who had no saddle on the pony, came out victorious, and the animal finally concluded to behave himself and trotted off with his unwelcome load as tamely as a kitten.
For the best Cook Stoves and lowest prices go to JACOBI'S Hdw. Depot.

The Way it is Done.
Misc host of the Guthrie Hotel has his house full of visitors, among whom the drummer is, as usual, in the majority, and New York, Philadelphia, Richmond, Greenboro, Charlotte and other cities represented by clever and agreeable gentlemen, but never a Wilmingtonian has yet made a smile on us. We hope to see our eastern brothers soon.
We clip the above from the *Rutherford Banner*, published at Rutherfordton, the Western terminus of the Carolina Central Railroad, and commend it earnestly to the careful consideration of the merchants of this city. In olden times the country trader sought the city merchant and made his purchases from the stock on hand, but in these days of push and close competition the wholesale houses which fall to reach out for a portion of the trade of the country, are in a fair way of getting left.

The Atlantic Coast Line.
The following are the officers, recently appointed, of this great Southern line of freight and passenger traffic:
President—Wm. T. Walters, with office in Baltimore.
First Vice President—John B. Palmer, with office in Richmond.
Second Vice President and General Manager—Henry Walters, with office in Wilmington.
Directors—W. T. Walters, B. F. Newcomer, R. R. Bridgers, H. Walters, F. R. Scott, J. B. Palmer, A. F. Ravenel.

The following, with the president, constitute the Executive Committee: B. F. Newcomer, R. R. Bridgers, J. B. Palmer.
The railroads embraced in the Atlantic Coast Line are as follows: Richmond & Petersburg; Petersburg, Wilmington & Weldon; Wilmington, Columbia & Augusta; Albemarle & Raleigh; Midland of North Carolina; Northeastern of South Carolina; Central, of South Carolina; Cheraw and Darlington, and the Cheraw and Salisbury.

Wretched Indeed.
Are those whom a confirmed tendency to biliousness, subject to the various and changeable symptoms indicative of liver complaint, Nausea, sick headache, constipation, furred tongue, an unpleasant breath, a dull or sharp pain in the neighborhood of the affected organ, impurity of the blood and loss of appetite, signalize it as one of the most distressing as it is one of the most common, of maladies. There is, however, a benign specific for the disease and all its unpleasant manifestations. It is the concurrent testimony of the public and the medical profession, that Hostetter's Stomach Bitters is a medicine which achieves results speedily felt, thorough and lasting, restores rectifying liver disorder, it invigorates the feeble, conquers kidney and bladder complaint, and hastens the convalescence of those recovering from enfeebled diseases. Moreover, it is the grand specific for fever and ague.

Japanese Wedding.
The success attending the entertainment for the benefit of the New Methodist Church, which was given last night at the City Hall, was so pronounced that the management have determined to have it repeated to night. The Hall was fairly thronged last night, and the refreshment tables were well patronized that everything was sold out. There will undoubtedly be a large throng in attendance to night, as all will be anxious to witness the impressive ceremony of a 'Japanese Wedding,' and to offer their congratulations to the happy couple. The same couple will be remarried to night as a complete divorce from last night's marriage has been secured.

The Cornet Concert Club, in their new and elegant uniforms, were in attendance last night, and in the opinion of good judges they never played better. They were under the direction of Mr. James E. Willson, and the pieces were carefully selected and exquisitely rendered.
A large line of new Spring samples for men's wear received from Browning, King & Co., the largest merchant tailoring establishment in the country. Call early and leave your measure at I. SHIRK'S and save from fifteen to twenty dollars on a suit. Our binding obligation is:
1st. The quality shall be as represented.

This 25th day of February, 1887.
MARY E. SMITH,
Feb 25 law6w 1st Administrator

300 TONS NOVA SCOTIA LAND PLASTER.
TER, 24.25 per cent. of Sulphate of Lime.
The want of Plaster has been one of the greatest drawbacks to successful farming in this State, and it is an important service to this great industry and to the State.
It is quite indispensable in any judicious system of agriculture, and it secures several important ends, besides the direct one of furnishing lime and sulphur; it gathers nitrogen and prevents its dissipation and loss; it is a specific for clover and other leguminous plants and it indirectly renders the potash of the soil available and so aids in the restoration of worn lands.
We have sold Plaster to many during the last year, all from whom we have heard, express their satisfaction a its results.
The application of Plaster to animal manure, will increase the value of that manure beyond calculation.
Composting with plaster will improve the value of your compost 25 per cent.
Sowing from 25 to 400 pounds of plaster to the acre, over your small grain after it is in the ground, will give you an increased crop from 50 to 100 per cent.
It is indispensable in early trucking for such as strawberry beds, asparagus beds, &c.
For sale in lots to suit by
THOS. F. BAGLEY,
Wilmington, N. C.
