THE DAILY REVIEW.

VOL. XI WILMINGTON, N. C., WEDNESDAY, MARCH 9, 1887. NO. 58

A Senator at Albany has introduced a bill imposing a tax of \$20 on incomes of \$2,000 with an increasing ratio until half of an income of \$100,000 goes to the State.

Allen G. Thurman has the best assortment of chickens in his neighborhood, and takes good care of them; but with all his wealth he keeps no horses. Mrs. Thurman is afraid to ride, and her husband does not care to.

A New York correspondent is responsible for the statement that in an uptown store are displayed a lot of stockings, woven thicker at the knees than elsewhere presumably to withstand the wear and tear of prayers; and over them this inscription: "Examine this line of Lotion now!"

A H. Winchester a West Virginia landowner, has given about 60,000 acres in Randolph county, West Virginia as a hunting and fishing preserve for the use of a sportsmen's association which includes Pittsburgers, Virginians, New Yorkers and Ohio men. It will be the greatest hunting park east of the Yellowstone, and the membership fee of the association has been placed at \$1,000.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption; having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it praise it at every opportunity."

Dr. King's New Discovery for Consumption is guaranteed to cure Coughs, Colds, Bronchitis, Asthma, Croup and every affection of Throat, Chest and Lungs.

Trial Bottles Free at W. H. Green & Co. Large Size \$1.00.

Renews Her Youth.

Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Try a bottle, only 50c. For sale by W. H. Green & Co.

Moulding. Best in city, at JACOB'S Hdw. Depot.

The receipts of cotton at this port today foot up 248 bales.

Steamboatmen report that there is about seven feet of water on the shoals in the Cape Fear.

Pianos and organs can be bought cheaper at Heinsberger's than at any other house in the State.

You will save money and get the best work by sending your clothes for repairs to John Dyer and Son.

The Wilson Mirror is welcome to my matter it finds in our columns but when it is clipped we would like have credit for the same.

Steamer Excelsior, which was sunk in the Northeast river a few days since, has been raised and brought down to the city to be refitted and repaired. She now lies at the railroad dock, near Morton & Hall's naval store yard.

Schr. Lorenzo, Moore, arrived here today from New River with a cargo of cotton and naval stores for Messrs. Hall & Pearsall. She also had on board the furniture and instruments of the U. S. Signal Office at New River, that station having been abandoned.

A large line of new Spring samples men's wear received from Brown, King & Co., the largest merchant clothing establishment in the country. All early and leave your measure at I. HEINSBERGER'S and save from fifteen to twenty dollars on a suit. Our binding obligation is:

1st. The quality shall be as represented.

2. The garment shall be made to fit.

3. The prices shall be lower than the same goods can be had elsewhere.

4. Money refunded if we fail in any of these particulars.

For the best Cook Stoves and lowest prices go to JACOB'S Hdw. Depot.

Primaries.

The Republican Executive Committee have decided to put a full municipal ticket in the field for the election which is to be held on the 24th inst., and to effect that purpose have called primary meetings in the several wards of the city, to be held at 8 p. m. on the 17th inst., to nominate candidates for Aldermen.

City Court.

The first case for the Mayor's consideration this morning was that of Caroline Frank, colored, charged with disorderly conduct. As it appeared, in this instance, that the defendant was "more inebriated than sinning," she was discharged.

Cornelia Johnson, a denizen of the "Hollie," charged with disorderly conduct, was ordered below for 10 days, which on account of her "uproariousness" in the presence of the Court, was increased to 20 days.

"All Aboard!"

Six miles of track of the branch railroad from Warsaw to Clinton have already been laid and the work is progressing towards completion as rapidly as possible. It is expected that the track will all be laid by April 1st., and that trains will be running regularly to Clinton by that time. It will, when completed, be an important railroad connection, and will bring in close proximity to our market the products of a rich and fertile section of territory, which will prove a profitable factor in the traffic of the Wilmington & Weldon Railroad, of which it is a branch.

All Nonsense.

There is no disguising the fact that there is a big scare in this city, amounting in some sections to almost a panic, relative to the presence of scarlet fever among us. To hear some people talk about it one would imagine that a terrible epidemic is raging here, and yet there is absolutely no cause whatever for it. Physicians tell us that although there is scarlet fever in the city, yet that there is no epidemic, nor is there any danger of one, that there are not more than a dozen cases in the city, that these are all of a mild type and that there has been but one malignant case developed here at all.

In view of these facts the present popular excitement on the subject is not only unwise but it is absurd.

Attempted Arson.

A dastardly attempt was made by some scoundrel who richly deserves to stretch hemp, at about 7 o'clock last night, to destroy the school house for colored children, on Fifth street, between Red Cross and Campbell. The Northeast corner of the building had been saturated with kerosene oil, which had been ignited, but fortunately the fire was discovered before the flames had gained headway, and was extinguished by those living in the vicinity. The alarm was sent out from box 43, corner of Sixth and Red Cross streets, and the firemen turned out promptly, but their services were not needed. It was a wicked act, and we sincerely hope the guilty party may be discovered and made to suffer the full penalty of the law.

Personal.

Lieut. Gov. Stedman has returned to the city.

Gen. J. C. Dhané, Chief Engineer U. S. Army, and Col. W. P. Craighill, U. S. Engineers, are in the city and registered at the Orton House. They are here for the purpose of inspecting the works on the lower Cape Fear.

Dr. George M. Ellis returned today or two since from Nashville, Tenn., having graduated at the Medical University at that place with high honors. He is a brother of Dr. S. C. Ellis, of this city.

Mr. S. Behrends, of the firm of Behrends & Moore, left on yesterday morning's northern bound train for New York and other markets, for the purpose of purchasing furniture with which to newly stock their store.

Mr. P. L. Bridgers, U. S. Consul at Uruguay, whose arrival in North Carolina we spoke of a few days ago, is in the city, the guest of his father, Hon. R. R. Bridgers. Mrs. Bridgers and the children are in Raleigh on a visit to the lady's parents.

News and Observer: Mr. David Justice, who has for some time been very favorably known in connection with the Raleigh and Gaston R. R. Company, and who has numerous friends in Raleigh, left yesterday to accept a position in the engineer corps of the Wilmington and Weldon Railroad.

Staple dealers of all lengths can be found at JACOB'S Hdw. Depot.

The City Hospital.

The report of the Board of Managers of the City Hospital, accompanied by the report of Dr. Lane, the surgeon in charge, and the annual statement of Mr. W. W. Shaw, the treasurer, was submitted to the County Commissioners and Board of Aldermen of the city at the regular meeting of these bodies.

The report of Dr. Lane shows that 197 patients were received into the hospital during the year, of which 156 were charity patients and 41 pay patients. Of the charity patients 86 were whites—59 males and 27 females—and 70 colored—53 males and 17 females. The total number of deaths that occurred in the institution was 31—17 of charity and 14 of pay patients. There were two births during the year. The amount received from pay patients was \$391.

The statement of the treasurer shows total receipts from all sources during the year, \$2,835.25 of which \$967.98 was received from the city; \$1,451.97 from the county; \$391 from pay patients; \$23 from sale of hogs; \$3.10 from the sale of medicines, and \$1.20 from sale of old barrels. The expenditures during the year were, for provisions, \$1,181.62; furniture and bedding, \$107.31; medical supplies, \$197.37; public grounds, \$225.18; burials, \$52; fuel, \$245.74; pay for janitor, \$6; treasurer, \$120; steward, \$264; superintendent, \$420; stationery and printing, \$3; laundry, \$13. Total, \$2,835.25. REPORT OF THE BOARD OF MANAGERS.

We herewith make our annual report of the management of the institution for the year ending December 31, 1886.

Dr. Lane is still surgeon in charge, and devotes his entire time to the management. His nurses are trained, and under his direction do everything possible for the comfort of the sick. In his report to the Board of Managers of their faithfulness he says: "Our employees, whose service began with the institution, are still retained in their positions, which speaks well for the good conduct of themselves, and their attentive discharge of their duties. Through the efficiency and good management of our Matron, I think we can claim freedom from anything like peculation or wastage of the supplies furnished the hospital."

The total number of patients treated for the year 1886 was 197, of which 41 were pay patients—176 were successfully treated, and 21 died. For information of diseases treated, and surgical operations rendered, and for sexes and color treated please refer to report of Dr. Lane, which accompanies this report.

By reference to the Treasurer's statement accompanying this, you will find the total expenditures for the year have been \$2,835.25. We have received from pay patients, sale of medicine and other sources \$118.30, leaving \$2,403.95 for running expenses for the twelve months or an average monthly cost of \$200.74, with 197 patients treated.

For a detailed statement of each month's expenditures and receipts, we refer you to the very complete report of our treasurer, Mr. W. W. Shaw.

In our last annual report we called your attention to the small houses used for the colored ward, their detached condition and extra expense incident thereto, and urging an appropriation for building another ward. Dr. Lane, in his report to us says: "The small buildings now in use as a colored ward are in a very unsatisfactory condition for the proper treatment of that class of patients; they are very much out of repair; without water facilities, closets, or bath rooms; requiring extra fires in each room, and oil lamps for occupants of house. And in consequence to their near location to the street, it is next to impossible to keep entrants from coming out at night and from receiving improper visitors." It is absolutely necessary to do something to these small houses, and we would most respectfully urge your honorable body, if it is possible, to make an appropriation sufficient for the erection of another ward, which, if done, will give us an institution complete in itself, an ornament to the city and county and a monument to the benevolence of our community in providing this noble charity for the care of those who would otherwise suffer if it did not exist.

It is a matter of congratulation that this institution is now on a firm basis, provided with a good medical library, a good number of surgical appliances and instruments, provided from time to time at the suggestion of the superintendent, and which, we trust, we can complete in the next year or two by adding to our funds will permit.

The ladies of our community have taken an interest in our institution, and have aided us greatly by providing clothing and furnishing our reception room with books and furniture, for which we are thankful. And the management takes great pleasure in calling your attention to what Dr. Lane says in his report to us of them and their good works: "Many of the ladies of our community have been constant and unremitting visitors, administering to both the physical and spiritual welfare of the sick. Recently a delegation of them came out and converted our rather bare and cheerless reception room into quite a nice and comfortably furnished little parlor."

We cannot close our report without commending the skill, care and economical management of our superintendent, Dr. Lane, and the success attendant upon all of his surgical operations, and of our treasurer, W. W. Shaw, for attention to duty. We would respectfully

say that the Board of Managers have done all they could with the means at their disposal to make the institution a success, and feel proud of the result, and in closing would most respectfully urge an appropriation sufficient for the erection of a new ward.

Very respectfully,  
ROGER MOORE,  
Chm. Board of Managers.

A Bit of History.

We clip the following, which relates to two of our townsmen, from the Philadelphia Commercial Times:

In these days of the decay of the American shipping interests it is a positive pleasure to speak of our prominently known ship brokers. Our object here, however, is to make brief reference to the business as conducted by a new firm, Messrs. Harris & Northrop, successors to C. P. Foster, who has carried on the business for the past four years at No. 221 Dock street. The names of the members of the firm are George Harris, Jr., and E. A. Northrop, both of whom are natives of Wilmington, N. C. They are agents for a line of sailing vessels to Wilmington, N. C. They conduct business as ship brokers and commission merchants. Mr. Harris, we would remark has been engaged in the business for years, as a member of the firm of Geo. Harris & Co., of Wilmington, N. C. In the short time they have been together they have gained a reputation with shippers for the prompt manner in which they secure and place freights. They handle freight of all kinds in sailing vessels, and take the same creditable part in the advancement of the commercial interests of our city and have as thorough a knowledge of every detail of the shipping trade as those who have engaged in it for a longer period. This firm was admitted to membership in the Philadelphia Maritime Exchange Feb. 22, 1887.

The senior member of the firm of Harris & Northrop is a son of Mr. Geo. Harris, who began business in this city in 1847—40 years ago—as senior member of the firm of Harris & Russell. Connected with this fact is the singular coincidence that the first vessel consigned to the latter firm was the schr. M. E. Mahoney, Capt. A. Dole. The M. E. Mahoney, although built in 1813, is still afloat and doing good service. Capt. Dole is still alive and has visited Wilmington many times since; the last time, in 1880 in command of schr. Lena Hunter, and he is now master of schr. August Flower, and consigned to Messrs. Harris & Northrop, of Philadelphia. In March, 1886, Capt. R. R. Dole—son of Capt. A. Dole—was here in command of schr. Halle L. Sheets, and consigned to Messrs. George Harris & Co.

It Goes Without Saying!

That Alcock's Porous Plasters are approved by the leading medical men in the country.

That they are the original and genuine porous plasters upon whose reputation imitators have traded.

That Alcock's Porous Plasters are the highest result of medical science and skill.

That in ingredients and method they have never been equalled.

That Alcock's Porous Plasters have never yet failed to do their work quickly and effectually.

Has Prolonged His Stay.

Dr. Freeman has on, account of the large number of cases needing his professional skill, determined to prolong his stay at the Orton House.

He stands at the head of his profession in the treatment of paralysis in all its forms, club-foot, spinal curvature, hip and knee diseases.

Also, the eye, ear, throat, catarrh and consumption, if not of too long standing. ORTON HOUSE.

Hours 10 to 1 and 7 to 8 p. m.

Quarterly Meetings.

Waccamaw station, at Bethel, March 26, 27. Whiteville station, at Whiteville, April 2, 3. Brunswick circuit, at Bethel, April 9, 10.

T. W. GUTHRIE, P. E.

Wretched Indeed.

Are those whom a confirmed tendency to biliousness, subject to the various and change full symptoms indicative of liver complaint, nausea, sick headache, constipation, furred tongue, an unpleasant breath, a dull or sharp pain in the neighborhood of the affected organ, impurity of the blood and loss of appetite, designate it as one of the most distressing as it is one of the most common, of maladies. It is, however, a benign specific for the disease and all its unpleasant manifestations. It is the concurrent testimony of the public and the medical profession, that Hostetter's Stomach Bitters is a medicine which achieves results speedily felt, thorough and benign. It regulates liver, liver, it invigorates the feeble, conquers kidney and bladder troubles, and hastens the convalescence of those recovering from debility, disease. Moreover, it is the grand specific for fever and ague.

NEW ADVERTISEMENTS.

LAND PLASTER. 300 TONS NOVA SCOTIA LAND PLASTER, 94.36 per cent. of Sulphate of Lime. The want of Plaster has been one of the greatest drawbacks to successful farming in this State, and it is an important service to this great industry and to the State. It is quite indispensable in any judicious system of agriculture, and it serves several important ends, besides the direct one of furnishing lime and sulphur; it cures the soil and prevents its disintegration and loss; it is a specific for clover and other leguminous plants, and it indirectly renders the potash of the soil available and so aids in the restoration of worn lands. We have sold Plaster to many during the last year, all from whom we have heard, express their satisfaction; its cures are numerous, and prevents the value of that measure beyond calculation. Competing with plaster will improve the value of your compost 3 1/4 per cent. Sowing from 20 to 400 pounds of plaster to the acre, over your small grain after it is in the ground, will give you an increased crop of from 20 to 100 per cent. It is indispensable in early trucking, for such as strawberry beds, asparagus beds, &c. For sale in lots to suit by THOS F. BAGLEY, Wilmington, N. C.

WANTED—General agent to handle Wilmington's copper plate map of the United States, Mexico, etc., size 6x9 inches. For sale in lots to suit by W. H. YOPP & CO., 50 South Sixth Street, Philadelphia, Pa. feb 21
