# THE DAILY REVIEW.

VOL. XI WILMINGTON, N. C., FRIDAY, MARCH 11, 1887. NO 60

Barnum and Forepuzh's big circus opens at Madison Square Garden in New York on Monday night.

The casino and famous grotto of Napoleon I. at Corsica, have been bought by an English company, who will establish a winter station, casino, hotel and villas on the spot.

Senator Sherman is in Jacksonville but in two weeks he will be in Nashville, where he proposes to open the campaign for John Sherman. Some of the Northern papers are already discussing the attempt. They say that Sherman has no hold on the Southern Republicans.

The whisper among the well informed in Germany that the Kaiser is about to leave his death as a living man exists. There is no belief that he can survive the spring and it would be a surprise if he did not live to see his birthday, the 22d. Few people get to see him nowadays, and for obvious political reasons the papers do not discuss his condition.

Tadema is finishing for the Academy an exceptionally important and striking work called "The Women of Amphissa," illustrating Plutarch's account of the way the Amphissan women protected the worn-out Phayades by surrounding them as they slept in the market place. There will be many figures in bold groups, and great study architecture in the market place, with booths, fruits, &c., and a showing of open daylight and richly colored draperies, with classically beautiful faces, and the laurel-crowned Thyades, some of whom are still in drunken sleep and others awaking.

George M. Pullman, who has recently been decorated by the King of Italy, is not the only American upon whom honors of a similar nature have been conferred. Father Harry McDowell, of St. Agnes's Roman Catholic Church in New York city, wears the Cross and Cordons of St. Maurice. Mr. Patterson, of Boston, was decorated with "the Crown of Italy." The Hon. S. S. Cox has several Italian stars and crosses, while the popular American actor, W. S. Florence, has the Russian Cross of St. Stanislaus, the Italian "Couronne d'Italie," and the Papal crescent of the first class, "Pour le merite," which is Turkish. All of these were personal tributes from the sovereigns of the countries named.

Thomas Power O'Connor, M. P., in a special telegram to the New York Star says: "The future of the session threatens to be stormy. The younger Tories are growing fiercer, and threaten mischief. When the Speaker is armed with the new rules, it is expected he will cause wholesale suspensions of Irish and possibly English members. The prospect disdusts English public opinion. To sum up, the House of Commons is noisy, bewildered and impotent, the Government is distracted, half the Unionists are in revolt and the other half discouraged. Gladstone is cheerful as a boy, Parnell the soul of energy and grim as death, and night sittings are almost a certainty for all next week, the last despairing effort of the Tories to push business through."

Following is the latest from the strike in Ohio. It is in the shape of a special to the New York Star, and is dated at Cleveland, O., March 9th:  
The situation in the New York, Pennsylvania and Ohio yards seems to grow more serious every day, and it is very probable that the strike, which began with the yard men, will extend all along the line and the road brakemen and conductors who handle freight will also go out. It will take some days for the company to get the tracks cleared of the freight cars now sidetracked in the Cleveland yards.  
Meanwhile corporations dependent upon the New York, Pennsylvania and Ohio for coal are being seriously crippled. At present there are seventeen engines stalled in the yards, and six side tracks, each over half a mile in length, are crowded with cars, many of which contain perishable freight. At Youngstown it is said to be even worse, while along the line of the New York, Pennsylvania and Ohio, especially at Leavittsburg and at Niles, trains are at a standstill.

The Western Union directors met in New York on Wednesday and did not declare a dividend. It is said that they are holding it tight. The Herald says editorially:  
The Western Union Telegraph Company continues to sink under the burden of water infused into its capital stock by Mr. Gould a few years ago, for a time its true condition was skillfully concealed, but it is now so badly waterlogged that concealment is out of the question.  
The quarterly statement made yesterday is the poorest on record. No dividend was declared and the scrip dividend paid out last year is to be taken up with a new issue of stock. That is to say, the stockholders will get new pieces of paper issued on their own property. That burden of the various subsidiary corporations which Gould saddled upon the concern in its prosperous days at vast profit to himself is now becoming intolerable, and that wonderful invention, a "collateral trust bond," will be issued to take up the stocks and bonds on which Gould secured the Western Union's guarantee for interest and dividends.

Our friends, the enemy, may yet lose control of the next Senate. The Democrats are up and doing. There is but a bare majority of one for them to count on and if Riddieberger keeps on getting mad he may get mad enough to shake them off and return to his allegiance to the Democratic party. In that case the Senate will be evenly divided. A Washington City dispatch says:  
The breaking of the senatorial deadlock in New Jersey, resulting in the election of Mr. Blodgett, and the appointment of Finley and Lucas from Florida and West Virginia, complete the list of United States Senators as it will stand during at least a portion of the Fifth Congress. The outgoing Senate stood: Republicans 41; Democrats, 31; Riddieberger (Independent), 1. The incoming body will stand: Republicans, 38; Democrats, 37; and Independent, 1. The changes result from Democratic gains in four States—California, Indiana, New Jersey and Virginia—and a loss in Nevada, where Stewart—(Rep.) succeeds Fair (Dem.).

The handsome and attractive double-column ad. of Dr. Freeman, in this issue, speaks for itself. The Doctor is still at the Orton House, where he can be consulted every day. Read the testimonials published by him.

The first sturgeonberries we have seen this season were brought here this morning from Jacksonville, Fla. They were very fair and nice, and would have had a tempting look had it not been for the price, which was far beyond our reach.  
The series of meetings now in progress at Brooklyn Hall are largely attended and much interest is being manifested in religious matters. The pastor, Rev. G. M. Poole, is being assisted this week by Rev. Dr. Pritchard, of the First Baptist Church.

**Wretched Indeed**  
Are those whom a confirmed tendency to biliousness, subject to the various and changeable symptoms indicative of liver complaint—Nausea, sick headache, constipation, furred tongue, an unpleasant breath, a dull or sharp pain in the neighborhood of the affected organ, impurity of the blood and loss of appetite, signify it as one of the most distressing as it is one of the most common, of maladies, there is, however, a benign specific for the disease and all its unpleasant manifestations. It is the concurrent testimony of the public and the medical profession, that Hostetter's Stomach Bitters is a medicine which achieves results speedily felt, thorough and benign. Besides rectifying liver disorder, it invigorates the feeble, cures kidney and bladder complaints, and hastens the convalescence of those recovering from febrile diseases. Moreover, it is the grand specific for fever and ague.  
Stephens of all lengths can be found at JACOB'S Hdw. Depot.

DR. G. M. FREEMAN:—We desire to say that our little girl, now 13 years old, is cured of hip disease, from which she had suffered over two years, and during that time, suffered severe pain, but since we put on your apparatus, she has had no pain at all, and I would recommend all persons suffering from such troubles to apply to you for treatment.

TO WHOM IT MAY CONCERN—My daughter was afflicted with hip disease, and I can say that she has been very much benefited by the treatment instituted by Dr. Freeman.  
MRS. MARIA CROMPTON.

SPRING CITY, UTAH, March 15, 1884.  
DR. FREEMAN:—I had a daughter 12 years old with a bad club foot, and put her under your treatment with much doubting, but I am happy to say that your treatment has made a perfect cure, for which I feel grateful, and would advise others afflicted with deformities or chronic troubles, to go to you.  
JACOB JOHNSON, Attorney at-Law.  
SALT LAKE CITY, Nov. 13, 1883.

COYOTTE, UTAH, August 23, 1886.  
DR. G. M. FREEMAN:—I write to you in regard to apparatus. I do not think he needs another for his foot is as good as the other; no one can tell which was the bad foot who did not know the child. We have not taken the first braces off altogether; he toes out a little more with that foot than the other, and as for bringing down the heel, it is down; he stands as flat on it as the other. I cannot see where another brace would benefit him; I am satisfied he is cured with two braces and feel very thankful for the good you have done.  
Yours respectfully,  
WILLIAM HARDY.

TER, 94.36 per cent. of Sulphate of Lime. The great of Plaster has been one of the greatest drawbacks to successful farming in this State, and it is an important service to this great industry and to the State.  
It is quite indispensable in any judicious system of agriculture, and it serves several important ends, besides the direct one of furnishing lime and sulphur; it gathers nitrogen and prevents its dissipation and loss; it is a specific for clover and other leguminous plants and it indirectly renders the potash of the soil available and so aids in the restoration of worn lands.  
We have sold Plaster to many during the last year, all from whom we have heard, express their satisfaction a liberal one.  
The application of Plaster to animal manure will increase the value of that manure beyond calculation.  
Composting with plaster will improve the value of your compost 25 per cent.  
Sowing from 20 to 400 pounds of plaster to the acre, over your small grain after it is in the ground, will give you an increased crop of from 10 to 100 per cent.  
It is indispensable in early trucking to such as strawberry beds, asparagus beds, &c. For sale in lots to suit by
