It is said that the legislative business has not run so smoothly, nor been so rapidly disposed of, in Connecticut for three years as during the present session. It is perhaps only a co'ncidence that this is known as the "lawyerless" legislature, from the fact that it has only four lawyers out of 249 members in the House.

The Inter-State Commerce Commis sioners vary in height from the gigantic Walker, who is much over six feet in height, to Judge Cooley, who is only five feet six. Commissioner Bragg is the typical Southerner. In his dress he evidently takes Attorney General Garland for a model. Commissioner Schoonmaker looks like a conservative business man. His features much resemble Blaine's.

The boring of an Artesian well at Galveston shows on what peculiar foundations the city rests. In the first place, it stands on a narrow sand spit between Galveston Bay and 'the Gulf of Mexico. After going through 32 feet of quicksand the drill passed through blue c.ay 17 feet, coarse sand 26, white clay 107, sea mud 57, olive clay 116, sea mud 130, blue clay 26, sea mud 11, blue clay 147. The opposition to the Inter-State law is not by any means confined to the South, it we are to believe the Washington Post. That journal says: "From the Northwest, too; comes a growl of disapproval of the Inter-State Commerce law. The growers of Minnesota and Dakota are up in arms against it, declaring that its enforcement means their ruin; that the ad dition of a few cents a bushel on wheat to New York is just the difference between raising wheat and not raising it They affirm that tustead of making the farmers rich, it will impoverish them and drive them to the wall It seems as it that were just exactly what it would do."
