A bill reported by the judiciary com-
mittee of the Massachusetts House pro-
vides a fine of \$100 for admitting any
child under the age of 15 years to any
public show or amusement after sunset,
unless said child is accompanied by
parent or guardian.

Intelligence from the Holy Land in-
forms us that in Jerusalem, in the streets
confronted by King David, is heard the
shrill whistle of the steam engine. The
city has, in the last twenty-five years,
doubled its number of buildings and in
other respects keeps pace with the great
cities of the modern world.

In Russia, on the Northern railways,
the locomotives, hitherto burning wood
or coal, are being adapted to peat burn-
ing, the saving being estimated at some
50 per cent. In many places the peat is
cut by hand machines, but these, al-
though cheap and easy to work, have
the drawback that the peat cannot be
worked below eight feet, whereas the
peat-cutting machines worked by steam
penetrate twenty feet and reach the
lower, denser layers of peat, which,
owing to their superior quality com-
mand a higher price in the market.

A monument is about to be erected
at Temir-Khan-Sheura, in Central
Asia, to the memory of Azaphon
Mikitin, a Russian artilleryman who
was killed at Gork-Tepe. Having been
imprisoned by the Tekes, Mikitin re-
fused to fight against his compatriots,
although he was subjected to the
cruelest tortures. He died after his
fingers had been cut off and his back
scalded. Another monument to the
brave soldier has been erected in his
native village in Poland, in the form of
a Russian church, towards the decorations
of which the Czar contributed
3,000 roubles.

M. Ligner, an Austrian meteorologi-
st, claims to have ascertained after
careful investigation that the moon has
an influence on a magnetized needle
varying with its phases and its declina-
tion. The phenomenon is said to be
more prominently noticeable when the
moon is near the earth, and to be very
marked when she is passing from the
fall to her first or second quarter. The
disturbances are found to be at their
maximum when the moon is in the
plane of the Equator, and greater dur-
ing the Southern than it is during the
Northern declination.

To Dislodge the Enemy.
When it takes the form of disease of the kid-
neys or bladder, is a task well nigh impos-
sible of accomplishment. renal and vesical
maladies are more obstinate than any others.
Consequently, therefore, the earliest indications
of inactivity of the many organs with Her-
ter's Stomach Bitters, which possess
among other excellent qualities, those of an
efficient diuretic. The degree of stimulation
apparent from its use reaches, but never goes
beyond the bounds of safety. It invigorates
always, never irritates. Bright's disease, dia-
betes, catarrh of the bladder, are diseases
successfully combated in their incipency
with this benign medicinal stimulant and ton-
ic. Besides reinforcing and regulating the
kidneys and bladder, the Bitters is a specific
for fever and ague, constipation and dyspep-
sia.

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., SATURDAY, APRIL 30 1887 NO 102

Don't Experiment.
You cannot afford to waste time in
experimenting when your lungs are in
danger. Consumption always seems,
at first, only a cold. Do not permit any
dealer to impose upon you with some
cheap imitation of Dr. King's New Dis-
covery for Consumption, Coughs and
Colds, but be sure you get the genuine.
Because he can make more profit he
may tell you he has something just as
good, or just the same. Don't be de-
ceived, but insist upon getting Dr.
King's New Discovery, which is guar-
anteed to give relief in all Throat,
Lung and Chest affections. Trial bot-
tles free at W. H. Green & Co's. Large
bottles \$1.

A Sound Legal Opinion.
E. Bainbridge Munday, Esq., County
Attorney, Cay county, Tex., says: "Have
used Electric Bitters with most happy
results. My brother also was very low
with Malarial Fever and Jaundice, but
was cured by timely use of this medi-
cine. Am satisfied Electric Bitters
saved his life."
Mr. D. I. Wilcoxson, of Horse Cave,
Ky., adds a like testimony, saying:
"He positively believes he would have
died, had it not been for Electric Bit-
ters."
The great remedy will ward off, as
well as cure all Malarial Diseases and
for all Kidney, Liver and Stomach Dis-
orders stands unequalled. Price 50c.
and \$1. at W. H. Green & Co's.

Rev. Thos. W. Guthrie, Presiding
Elder of Wilmington District M. E.
Church South, will hold the second
quarterly meeting for the First Church
at the Temple of Israel to-morrow
morning and evening.

A protracted meeting is in progress
at the First Baptist Church, colored,
corner of Fifth and Campbell streets,
at which a good share of religious in-
terest is being made manifest. The
meeting will be continued through the
coming week.

Rev. P. H. Hoge will preach the
fourth of the series of sermons on the
"Second Coming of Christ," at the
First Presbyterian Church to-morrow
night. The especial subject will be the

Street Baptist Church, in Charlotte, last
night.

Rev. F. W. E. Peschau and Mr. A.
D. Wessell have gone to Iredell county
as delegates from St. Paul's Lutheran

Religious Notice.
In the absence of the pastor, Rev.
Dr. Pritchard, Rev. G. M. Tolson, of
Brooklyn Baptist Church, will preach
at the First Baptist Church to-morrow
morning, and Rev. Dr. Yates will
preach there to-morrow night. There
will be no services at Brooklyn Baptist
Church to-morrow morning, but ser-
vices will be held there as usual to-
morrow night.

Large Eggs.
Rev. A. M. Conway, colored, has an
eccentric sort of a hen. She is of the
old fashioned barn yard breed and is a
good layer, her eggs generally being of
the ordinary size. This week, however,
she started to boom eggs and on one
day she laid an egg which weighed
three ounces and on another day she
laid one which weighed three and a
quarter ounces.

Caterpillars at Work.
They say that the caterpillars are
swarming in the Pee Dee section, in
South Carolina, and are eating up
everything green there. They even
swarm upon the railroad tracks and a
passenger tells us that the engine
wheels, after passing over them, look
as though they had been bathed in
oil. They are a fearful plague, and
one that this section has heretofore
happily escaped.

Base Ball.
The Wilmington Base Ball Associa-
tion held a meeting last night and per-
fected an organization for the season
by the election of the following officers:
President—E. S. Latimer.
Vice President—F. H. Stedman.
Secretary and Treasurer—A. M.
Waddell, Jr.
Manager—J. M. Cronly.
Directors—E. S. Latimer, A. G. Ric-
aud, F. H. Stedman, H. M. Emerson,
S. H. Fishlake, Albert Gore, A. M.
Waddell, Jr., B. G. Empe and J. M.
Cronly.

There was a full attendance and much
enthusiasm prevailed, which is an in-
dication that, after many delays, Wil-
mington has awoke to the importance
of being represented in the game dur-
ing the season of 1887. A committee
of five was appointed to receive addi-
tional subscriptions to the stock and
they have called upon many of our citi-
zens to day with that object in view.
We hope to chronicle some hotly con-
tested games in our city during the
summer.

Literary.
The *May Magazine of American His-*
tory is filled with valuable papers cov-
ering a wide range of topics. "The
White House and its Memories," by
Mrs. Lamb, introduces the reader into
each Presidential home and household
since we had a country of our own,
with illustrations of the houses occu-
pied by President Washington in New York
and Philadelphia, the old White House
before it was burned by the British,
and portraits of nearly all the ladies
who have presided over the execu-
tive mansion, from Martha Washing-
ton to Mrs. Cleveland. "Republican-
ism in Spanish America," is a thought-
ful essay by Hon. William L. Scruggs,
late minister to Colombia. "The
Wabash Country prior to 1800," by I.
R. St. Louis. "Canada During the Vic-
torian Era," Part I, by J. G. Bourinot,
Clerk of the Canadian House of Com-
mons, is the best review on that theme
ever published. "When Did Ohio
Become a State?" by Wm. Waddell,
Jr. "Harvey Birch and the Myth of
Epoch Crosby," form a notable article
by Guy Hare art, of Searsdale. Price,
\$5 a year in advance. Published at
743 Broadway, New York City.

"Outing" Growing Popular.
To take an "outing" is English, you
know, and the thing is growing popular
over here. Sma'l parties now go for a
tramp of a Sunday, or go boating, or
bicycling, or fishing as regularly as if it
were part of the weekly life. So it is a
part and a good part. It ought to be
encouraged. Whenever overcome by
fatigue or dizziness on your trips take
a few of BRANDRETH'S PILLS. They
keep the blood in good order, the head
clear and steady, and the nerves under
mental control.

There are now 58 actual members of
the Produce Exchange of this city, and
there are 26 applicants for membership
on file awaiting action.

There is a pond of water at the inter-
section of Princess and Sixth streets,
which is hardly conducive to the good
health of the neighborhood, and to
which the attention of the authorities is
invited.

Exports Foreign.
The exports foreign from this port for
the month of April, 1887, as taken from
the books at the Custom House, were
as follows:
Rice, 30,392 barrels, valued at \$33-
161; tar, 2,625 barrels, valued at \$3-
400; lumber, 161,000 feet, valued at
\$2,137; shingles, 30,000; valued at
\$184; making a total of exports foreign
for the month amounting to \$38,882.

Last Night's Entertainment.
The entertainment last night, at the
City Hall, gotten up for the benefit of
the Union Graded School, was a pro-
nounced success in every particular.
The Hall was crowded with a large
gathering of our best people, who were
delighted with what they saw and
heard. The exercises consisted of a
calistheatic drill and march by the
pupils and a bird concert. In the first,
which was by the pupils of the school,
the movements were in perfect time
and were beautiful and graceful. In
fact the precession and apparent ease
with which the exercises were con-
ducted were in appearance like some
perfectly constructed machine. The
movements were executed without any
leader to guide them and were so per-
fect that the pupils were rapturously
applauded. The bird concert was an
attractive feature of the occasion.
Several ladies loaned the use of their
canaries and mocking birds for the
time and when a tune was begun on
the piano these feathered warblers made
the hall ring with their melodies. It
was unique as well as pleasant to hear
the little songsters pour out their notes,
as if in competition with the piano.
The entertainment was given under
the supervision of Prof. Noble, assisted
by the teachers of the school and lady
friends, all of whom have just reason
to be gratified at the success that
crowned their laudable efforts.

See JACOB'S large and fine assort-
ment of fishing tackle. He can surely
please any fisherman with his assort-
ment.
