A new instrument has been invented
for the blind. It is a printing press
which will enable the blind to print the
raised letters now universally used by
them.

A dispatch from Rome to the London
Chronicle says: "The Rev. Dr. Mc-
Glynn, of New York, has again in-
formed the Vatican that he refuses to
come to Rome."

Cardinal Manning has expanded into
an article for the Tablet his recent let-
ter on the Knights of Labor. They
represent, he says, the right of labor,
and the rights of association for its de-
fense, and it is the church's office to
protect the poor and to protect their
labor, which has built up the human
commonwealth.

A pretty novelty in Washington en-
tertainments will be introduced by
Mrs. Whitney this month, when she
will hold her Wednesday afternoon re-
ceptions in the farm home at "Grass-
lands," to which the callers will drive
out, and have strawberries and cream
served in the wide rooms of the hospi-
table farm house.

Great precautions have been taken to
secure the safety of the French crown
jewels while exhibiting before the sale.
They rest in the showcase which was
used in the exhibition in 1878. This
case is placed on a trap-door, by which
the whole thing can be lowered into a
strong room made of thick masonry.
The sale is now in progress.

At a lady dress ball in Paris the
great success of the evening was ac-
corded to a group of "earthquakers," a
party of young men who were attired
in overcoats, crush-hats and night-
gowns, while each of them carried a
black leather handbag. The realism
and appropriateness of the disguise
called forth much laughter and ap-
plause.

Jarlen, on the southwest coast of
Norway, was formerly one of the rich-
est herring fishing grounds, but about
twenty five years ago the fish suddenly
and completely disappeared from the
coast. Last month, however, enormous
schools of the fish again appeared in
their old haunt, and the quality is just
the same as it was before the exodus.
The migratory habits of the herring
are a puzzle to fishermen.

Krupp, the great gun maker of Essen,
is now at work upon a gun of 139 tons.
Its length is 52 1/2 feet, and its calibre 15 1/2
inches. It will throw a steel shell 3
feet 9 inches long, weighing 1,630
pounds, and another shell 5 feet 2 in-
ches long, and weighing 2,314 pounds.
Since 1868 the penetrating power of
projectiles has increased tenfold. Now
a Krupp gun will pierce an armor plate
of a thickness three times as great as
the bore of the gun.

Catarrah, Hay or Rose Fever.
The cleansing, soothing and healing
properties of Darby's Prophylactic Fluid
are experienced in the treatment and
cure of Catarrh and kindred com-
plaints. The Fluid soothes and heals
the inflamed membranes and removes
the offensive odor that characterizes
the disease. Should the inflammation
have reached the throat use the Fluid
as a gargle to allay the inflammation
and to disinfest.

WILMINGTON, N. C., THURSDAY, MAY 5, 1887

NO. 106

Greatly Excited.

Not a few of the citizens of Wilming-
ton have recently become greatly ex-
cited over the astounding facts, that
several of their friends who had been
pronounced by their physicians as in-
curable and beyond all hope—suffering
with that dreaded monster Consumption—
have been completely cured by
Dr. King's New Discovery for Con-
sumption, the only remedy that does
positively cure all throat and lung dis-
eases, Coughs, Colds, Asthma and
Bronchitis.

Wonderful Cures.

W. D. Hoyt & Co., Wholesale and
Retail Druggists of Rome, Ga., say:
We have been selling Dr. King's New
Discovery, Electric Bitters and Buck-
len's Arnica Salve for two years. Have
never handled remedies that sell as
well or give such universal satisfac-
tion. There have been some wonder-
ful cures effected by these medicines in
this city. Several cases of pronounced
Consumption have been entirely cured
by the use of a few bottles of Dr. King's
New Discovery, taken in connection
with Electric Bitters. We guarantee
them always. Sold by W. H. Green &

The capital stock of the Carolina Oil
& Creosote Company is \$500,000 in-
stead of \$400,000 as we stated yester-
day.

The latest news from young Mr
James who was wounded at the rail-
road celebration at Clinton is that he is
gaining in health and is now able to
sit up.

It hardly seems possible that a quar-
ter of a century has elapsed since the
battle of Williamsburgh, Va., was
fought, yet such is the fact, as that
action took place on May 5th, 1862.

One of the passenger cars for the rail-
road from the Cape Fear River to
Myrtle Grove Sound was shipped to-
day. It was built by Messrs. Burr &
Bailey, of this city, and is a neat and
substantial, though plain, carriage.

Mr. John R. Melton drove up Market
street this forenoon with a lot of the pret-
tiest beef cattle seen here since the war.
It attracted general attention along the
line of the street. These beeves were
raised in New Hanover and Pender
counties. Some of it will be sold to-
morrow at Mr. Melton's stalls in the
Front street market.

Dogs, Poultry and Cage Birds.
From the Associated Fanciers, 237
South Eighth street, Philadelphia, we
have received three valuable little
books, relative to the treatment, re-
spectively, of dogs, poultry and cage
birds. They each contain a mass of
very valuable matter and will be sent
postpaid for 15 cents each.

Resigned.

Capt. John H. Daniel, after a service
of 11 years in the Hook & Ladder Com-
pany, three of which were as its fore-
man, has resigned and is no longer a
member of the Fire Department. He
has been a faithful, energetic and effi-
cient officer, who by long and good
service is justly entitled to his retire-
ment.

City Court.

John Roan and Edward Dixon, both
colored, were brought before the Mayor
this morning charged with an affray.
An investigation of the case cor-
roborated by the statements of both de-
fendants, showed that they were not
really guilty of an affray, but were
guilty of disorderly conduct, for which
they were required to pay a fine of \$5
each.

Personal.

Capt. A. Garrison, for several years
the commander of the steamer D.
Murchison, and well-known to many
of our people, is in the city to-day.

Mr. A. B. Felgmaker, senior mem-
ber of the Organ Manufacturing Com-
pany of A. B. Felgmaker & Co., Erie,
Pa., is in the city engaged in putting
up the new pipe organ for St. Paul's
Lutheran Church, which was built by
that firm.

Mr. F. E. Morton, who has been
several weeks in our city engaged in
his profession of a tuner of pianos and
organs, left last night for Raleigh, and
will be absent about a month. Mr.
Morton is recommended as a reliable
and careful workman, who has learned
all the intricacies of his calling at a first
class establishment.

A Fearful Tragedy.

One of the most remarkable and in-
comprehensible tragedies that ever oc-
curred in this or any other city, by
which three boys were instantly killed,
and two others were seriously wounded
at one discharge of a double barreled
shot gun, took place at the upper com-
press at a few minutes after 6 o'clock
this morning. The parties were all
colored, the youngest of whom was 12
and the oldest about 20 years of age.
If the shooting was premeditated it was
one of the most cruel, crafty and cunningly
devised murders that ever stained
the annals of crime; and if it was
accidental, it was one of the most re-
markable casualties ever recorded. The
person in whose hands the gun was
held that did the shooting is Grant
Best, about 17 years of age. The boys
shot are Edward Smith, aged 13 years,
killed; Charles Baker, aged 13 years—
killed; Aleck Filyaw, aged 12 years,
killed; Edward Filyaw (brother of
last named), aged 19 years, supposed
to be fatally wounded, and Ben
Croly, aged 14 years, shot in the face,
seriously. George Best, a brother of
Grant, was in the party, but was not
injured. We saw Grant Best at the
guard house this morning, and in reply
to our interrogatories, he stated, in
substance, that he went to the Upper
Compress this morning to go with the
other boys across the river, to mind
birds on the rice fields; that is, to
frighten them off by firing blank car-
tridges at them. He had borrowed a
gun, upon which there was no cap and
which he thought was not loaded, al-
though the tube was stopped up. When
he reached the Compress there were
five boys seated in a row upon a log
on the wharf. He told the boys that
he had a gun, but that it was stopped
up, upon saying which he raised the
gun for the purpose of blowing in the
vent of the tube, and while in the act of
putting his mouth to the vent, the
hammer fell and the piece exploded.
He saw the boys fall and he
dropped the gun and ran to
them, but two were dead and the other
died almost instantly, after making
an ineffectual effort to speak. Grant
then ran as fast as he could and called
two physicians and then went to the guard
house and told the janitor that he had
killed three boys and gave himself up.
He said that he was friendly with all
the boys, and he seemed to deeply de-
plore the shooting.

It seems that the wounded boys ran
immediately to their respective homes
after being shot, where they received
surgical assistance. The weapon used
was an ordinary double-barreled fowl
ing piece, which was loaded with buck
shot. All the boys were shot about the
face, head, shoulders and chest.

There were some rumors—but of
course they were mere street rumors—
to the effect that Best had had a quarrel
yesterday with the other boys and had
declared his intention to get even with
them. The truth or falsity of this will
be brought out at the inquest this
afternoon.

The Coroner was notified and a jury
were summoned who began to hold the
inquest at 4 o'clock this afternoon.
They had not concluded their investi-
gations when we went to press.

This Morning's Fire.

At about 3:15 o'clock this morning
fire was discovered among the outbuild-
ings on the premises of Mr. E. Peschau,
German Vice Consul, corner of Fifth
and Mulberry streets. The alarm was
immediately sent out from box 16, lo-
cated on the corner of Seventh and
Mulberry streets, and the firemen and
many of our citizens rushed with all
possible speed to the scene, but owing
to the unseasonable hour, the flames
had gotten under such headway before
their arrival that the stables and wash
house were totally destroyed, and the
kitchen was so badly damaged that it
will have to be entirely rebuilt. The
stable contained two horses, a buggy,
a family carriage and the necessary har-
nesses, all of which were destroyed. Mr.
Peschau's dwelling was considerably
scorched on its Eastern end. The
flames spread to the stable of Mr. E. P.
Covington, which, together with a
buggy it contained, was destroyed. It
is hardly known in which of Mr. Pes-
chau's buildings the fire originated or
what caused it. When discovered the
fire was raging both in the stable and
wash-house, and had gotten under such
headway that it was impossible to save
anything. Even the poor horses, which
were a fine team and valuable, were
doomed. The estimated loss will reach
not far from \$1,000, which is fully cov-
ered by insurance.

The REVIEW JOB OFFICE is the place
to get good work at moderate prices.

Praiseworthy.

At the meeting of Hook & Ladder
Company No. 1, held last Tuesday
night, it was voted unanimously to
grant a pension of \$10 per month to the
widow of the late Capt. Jack Griffith.
Capt. Griffith was for many years fore-
man of the Company, was a most effi-
cient fireman, and maintained a lively
interest in the welfare and efficiency of
the organization as long as he lived,
and this action of the Company is but a
slight token of the esteem in which he
was held.

Election of Officers.

The Fifth Ward Hook & Ladder
Company held a meeting last night and
elected the following officers to serve
for the ensuing year:

President—J. P. O'Sullivan.
Vice President—B. R. King.
Secretary—J. G. Swann.
Treasurer—W. F. Melton.
Foreman—Tony Destatener.
First Assistant—R. A. Biddle.
Second Assistant—A. M. Williams.
Axemen—Wm. F. F. Newton, J. L.
Mann, J. E. Hewitt, Wm. T. Harker.
Truck Master—J. P. Quinn.

St. Mark's Vestry.

At a meeting of the Vestry of St.
Mark's Episcopal Church, colored, held
last night, the following were elected
officers to serve for the ensuing year:

Valentine Howe, Senior Warden; H.
D. Sampson, Junior Warden; Henry
E. Green, Treasurer; Allen E. Jackson,
Secretary.

The delegates to the annual Con-
vention elected are: J. G. Norwood, A.
E. Jackson, John H. Davis, John T.
Howe, Alternates—J. J. Geyer, Jas.
H. Lane, Thos. Scott and Robert Mc-
Donough.

Credit to Whom Credit.

WILMINGTON, N. C. May 4th 1887.
EDITOR REVIEW: I hasten to thank
you for your kind words in your paper
of to-day concerning the Carolina Oil
and Creosote Works, and to do justice
to Messrs. Ludwig Hansen and An-
drew Smith (patentees) to whom credit
is due for the success of the Creosote
Works located in this city. These
gentlemen have labored for years on
this important matter and by the most
energetic industry and intelligent work
have constructed the plant up to its
present proportions. Wilmington owes
a debt to these gentlemen which it will
be very hard to pay for locating these im-
portant works in this city.

Very Truly Yours
W. P. CANADAY.

We cordially endorse Col. Canaday's
remarks relative to Messrs. Hansen
and Smith. The omission of their
names from the article was an over-
sight, which we regret.

An Act of Appreciation.

Capt. H. C. Brock, Chief of Police,
was treated to a most agreeable sur-
prise last night by the members of
the force under his command, in the shape
of a gold-headed ebony cane. Sergeant
Pugh was entrusted with the selection
of the cane, which was the best that
could be found in the city, and upon
the head of which he caused to be en-
graved the legend:

"H. C. Brock, Chief of Police, From
Wilmington Police Force, 1887."

The presentation was made at 7:45
o'clock last night at the City Court
Room, when all the police were pre-
sent, through Mayor Fowler, who said
that it was a testimonial of the esteem
in which their Chief was held by the
police force, and also of their appreciation
of the fairness and courtesy with which
he had always treated those under his command.
The matter had been kept entirely dark
from Capt. Brock, and he was conse-
quently taken completely by surprise,
but he was equal to the emergency and
in a graceful manner thanked the men
for the present, which he should value
as a testimonial of their kindly feelings
towards him.

Work at the ground for the encamp-
ment is progressing fairly and
everything will be in complete order
for the troops when they shall arrive.

It is Your Loss.

When you neglect to take advantage
of the extraordinary big value for little
money at SHRIER'S. When you can
save \$2, \$3, \$5, and frequently \$10 on
a suit of clothes. It certainly pays
people to investigate, and those who
fail to trade with SHRIER are certainly
not doing justice to their families.
"by then be so foolish throwing your
money away elsewhere that you can
quickly save by trading with the OLD
RELIABLE? And with such savings
purchase other necessities for yourself
and family. Just think of it and trade
with I. SHRIER.

Pianos and organs can be bought
cheaper at Heinberger's than at any
other house in the State.

From the District Attorney of Westchester Co., New York

WHITE PLAINS, N. Y. April 10, '86
I have received many letters in re-
ference to my testimonial, lately pub-
lished commending ALLOCK'S POROUS
PLASTERS.

I cannot spare the time to answer
them in writing, therefore would again
say, through the press, that I have
found ALLOCK'S POROUS PLASTERS
invaluable as chest protectors and
shields against coughs and colds. Far-
thermore, I have found ALLOCK'S
PLASTERS unequalled for pains in side,
back and chest. NEISON H. BAKER.
