JOSH. T. JAMES. Editor & Prop.

WILMINGTON. N. C.

WEDNESDAY MAY 18 1887. Entered at the Postofice at Wilmington, N. C. as second-class matter.

A correspondent of the S atesvil e Landner k has made some very interesting deductions as to the population of this State and the United States, derived from the census returns of each decade from 1790 to 1880 He sums up

as follows: It will be noticed that the ratio of increase in the country at large has been nearly uniform up to the war period. when it fell off about one-third of the average ratio, and that North Carolina's ratio of increase has been very irregular and small particularly from 1830 to 1840 when it was virtually at a stand still; and then again during the war period, when it tell to lone-half, of the Stare's average up to that time; but it will also be noticed that during the last decade her increase bounded upward to the full average of the country at large It the same ratio of increase continues, the population of North Carolina will in 1930 reach 5,000 000-a population greater by 1,000 000 than that of the whole United States in 1790. These figures are very suggestive and 'it may weil be questioned whether immigration should be solicited or not. Those who are disposed to look into figures and will calculate for the probable popclation of the United States in 1930 (or nalf a century from last census) will find that at the average rate of the past it will reach at least 190,000,000, and at the end of a century from 1880 will reach 600,000,000, a number that may be troublesome to manage under one

We gave, a lew days since, Senator McPherson's emphatic opinion as to Cleveland's renomination and reelection and now the Washington Star gives more elaborately his views on the political situation. In reply to a anestion as to whether the Democrats can carry New York in the next elec tion Senator McPnerson said:

"The situation, on account of the labor vote, is very uncertain. No one 1887. knows what they will do If they nominate an independent ticket it cannot be predicted what will happen. Mr. Cleveland is immensely popular with he people. I would not be surprised if he got a lare vote from the workingmen throughout the country. There is a wonderful shifting of parties going on at present Men are changing all the time from one party to another. There is a large draft from both parties into the labor party. There is a large draft from both parties into the prohiion party. A great number of Repub icans they call mugwumps are allying hemselves with the Democratic party, and discontented Democrats, who are disappointed because they did not get all the offices, are going over to the Republicans. There is a general shitting bout; a constant change going on. You cannot look for men to remain in he same party lines. There is a change, a transformation in progress Meanwhile Mr. Cleveland is gaining strength. His popularity is growing all the while. He has an immense following. He is drawing from all parties, and the great mass of the people will go with him. The best possible thing for the Democratic party to do is to renominate him; the best possible thing for the people of the United States to do is to elect him There is no other man who occupies the mation, rheumatic, neuralgic, sciatic position he does. The party will re sudden, sharp and nervous pains, cough | nominate him and the people will reelect him If the labor party put an independent ticket in the field it will probably be as it was with Mr. Hewelt in the election of Mayor; men, regardless of party, will turn in and elect him. There is no man in public life to-day who is as popular throughout.

Facts Worth Knowing.

to elect him."

non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with douches, snuffs, powders, syringes, astringents or any similar application, thoroughly reach the affected surfaces and should be abandoned as worse than failures. A multitude of persons who have for years berne all the worry and by Ely's Cream Balm.

"Over and Over Again."

Repetition is sometimes the only way to impress a truth upon the mind. Accordingly take notice that Dr Pierce's "Pleasant Purgative Pellets," (the original Little Liver Pills) continue to be wonderfully effective in cases of sick and nervous headache, constipation, indigestion, rush of blood to the head. cold extremities, and all ailments arising from obstruction of the bodily functions. Their action is thorough yet gentle, and the ingredients being en-tirely vegetable, they can be taken with impunity into the most delicate stom-ach. All druggists.

Job Printing.

THE REVIEW JOB PRINTING OFFICE is prepared to do all kinds of Job Printing as neatly, as cheaply and as expeditionaly as it can be done electrhere. Send indivour work

The first morning after using it my flesh (In returning thanks to you for my mirace. lous cure of eczema or salt rheum, deem it advisable to give you a detailed account of my case, and as there is, and alway- will be a prejudice against a vertised remedies you have my consent to publish this testivonial, and all inquiries, by letter er in person, I vill cheerfully answer. I do this that people who go on year after year paving out la ge sums of money to ir competent physicians and re premature grave, as was nearly my case, may

be induced to make trial of the wonderful CUTICURA 6 EMEDIES At the age of three months a rash made its appearance on my face. A physician was called he said teething was the cause, he pre scribed some cooling medicine, but the sories spread to my ears and head. Another M D was called He professed to know all about the care, called it "King's Evil", and prescribed guppswder, brimstone, and lard max ed into a sarve but the decase continued ed into a sa ve, but the d sease continued. They could not do anything with it. Another prescribed borax water and flour; an ther, lineeed poultices. None of them did me any good at all, but a'e me worse The dis-ase continued unabated; it spread to my arms and legs, fil. I was laid up entirely, and from continual sitting on the floor on a pillow my limbs contracte so that lost all control of them, and was utterly helpless My mother would have to lift me out and into bed. I could get around the house on my hands and feet, but I could not get my lothes on at all, and had to wear a sori of dresslig gown My hair had all matted dow or tallen off, and my head, face and ears were one scab, and I had to have a towel on my h ad all tre time in the summer to keep the fles off. y parents consulted a prominent physician and surgeon here in thicago (the other physicians tefore men tioned were of tundas and Hariton Cana da . he said he could do nothing for me, that he chances were that I would grow out fit in time. He want d to cut the sinews of my legs so that I could walk, but I would not let

him, for if I did yes better I would have no c nirol of them the disease continued in this manner until I was seventeen vears o d, and one day in Januory 1879, in the nicago Tribune, I read an account of your medicines. They described my case so exactly that I th ught, as a last

resort, to giv : them a trial. When I fir t applied the CUT CURA, I was all raw and theding from scratching myself, but when I applied it I went asleep almost im

had no skin only on the end of my tose was a pink color. Next day it was kind of white, and I could place my bands on the sores without it being painful. In about two weeks f could stand stra'g t, but not wa'k, I was so weak, but my sores were nearly well. Then I commenced the use of the UTICURA RESOL-VENT, and in three days I was worse than ever. I was one mass of pimples from the tor of my he ad to the soles of my feet; t say the were painful would no do instice othe case In from two to four days they burst and is post pure and the skin white, and so near as can judge I was cared in atout six to eight weeks, and up tothi date (i e f om Januar 1879 to January, 1887) I have not be neck in any way, or have had the least signs or the disease reappearing on me I have an excellent appetite, have the very best of health, My imos are straight, suppre and a rong. I have been exposed to all toris of weather without the least signs of the disease yet. The

only difference I find in myself is that my stin is floer, softer, and not so liable to get chapped as is other persons No doubt many persons will not believe this almost faiprobable story many will think it grossly exaggerated. I don't blam them a bit if they do. but to satisfy themselve, they can call or write to me and flad out if what i have written above is true or not. There are many persons who can testily to the wonder ful cure I have received by your OT CURA

RAMEDI S Gentlemen, let me again thank you for my 3,732 Dearborn St. Chicago, I.t., Jan. 3, W.
