

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., THURSDAY, JUNE 9, 1887. NO 136.

It is stated in a recent article in Nature that a medicinal plant is found in India which destroys the power of tasting sugar. This plant, the gymnema sylvestre, grows in the Deccan and in Assam and on the Coromandel coast. By chewing two or three leaves of it a person may extinguish his susceptibility to sweet savor. Morbid cravings for sweets that injure digestion may thus be corrected. As the gymnema is said also to extinguish the power of enjoying a cigar, great benefit may probably be obtained from it by intemperate smokers. Candy and cigarettes being the bane of the small boy, prudent parents may be expected to stock themselves promptly with gymnema sylvestre.

What position will the Democratic party take on the tariff question? Will it be vague or definite? If one tending to the theory of Carlisle, Morrison and others can it hope for Southern support?

What will the party do on the pension question? Are bumpers and sons of veterans to be made gentlemen of ease at the expense of the laboring man?

How will it handle the labor question? Will it give the South a guarantee of a respectable recognition? Will it permit Carlisle and Morrison to offer some evasive suggestion about the revenue, and bring about defeat? Will it commit suicide?—*Charlottesville Observer.*

No. Not as long as Col. Charles R. Jones' disastrous fate is before their eyes.

Don't Experiment.
You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottles free at W. H. Green & Co.'s. Large bottles \$1.

A Sound Legal Opinion.
E. Bainbridge Munday, Esq., County Atty., Clay county, Tex., says: "I have used Electric Bitters with most happy results. My brother also was very low with Malarial Fever and Jaundice, but was cured by timely use of this medicine. Am satisfied Electric Bitters saved his life."
Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "He positively believes he would have died, had it not been for Electric Bitters."
The great remedy will ward off, as well as cure all Malarial Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled. Price 50c. and \$1. at W. H. Green & Co.'s.

Auction Sales of Unclaimed Freight
MILLER & NESTLE—Kennedy's Medical Discovery
Peaches only 20 cents a dozen!
The farmers say that they want rain now.
Fresh water fish, they say, are biting beautifully now.
The shell road is full of vehicles these fine afternoons.
Manilla cherries were selling in market to-day at 10 cents a quart.
What in the world has become of all of the big Sampson blues this year?
The sentiment in favor of the Onslow road seems to be almost unanimous.
Steamboatmen report about five feet of water on the shoals in the Cape Fear.
Dan. barque Herman, Christiansen, sailed from Dunkirk for the port June 5th.
Mattings, hammocks, bath towels, summer underwear and straw hats at Sol. Bear's.
Newbern is also striking out for Onslow and if we are not in a hurry will get there before us.
Mr. Cronenberg was at Carolina Beach yesterday with his camera and got a number of fine views.
The prospects are favorable for a large attendance at the Opera House to-night to hear the music given by the Acme Singing Association, for the benefit of Grace M. E. Church.
The pilot boat *Oriental* was off Carolina Beach yesterday and sailed in to within a few hundred yards of the shore. She was included in one of the views taken by Mr. Cronenberg.
Headquarters for base ball supplies is at Heinsberger's.

It has been warm to-day, it is true, but the elegant breeze which has prevailed has tempered the heat wonderfully.

The Board of Aldermen will probably take some definite action on the railroad petition at their meeting in July, but hardly before then.

The annual meeting of the Homestead and Loan Association was held on Tuesday night but was adjourned to a later date without the transaction of business.

The hot wave is here in all the majesty of its intensity and power. It hits and with everything that comes in its way, and blessed is the poor mortal who can find a shady place and keep it, which we cannot.

At 3 o'clock this afternoon the thermometer in this office registered 90 degrees, which makes it the warmest day of the season thus far, although not the most uncomfortable. Yesterday bore off the palm in that line.

Wilmington is not specially in need now of a costly sewage system. The old sand hills continue to do the work and in general they do it well. One hundred thousand dollars would be a better investment on the earth than in it.

Preparatory to making some changes in his business before the Fall season, Mr. Sol. Bear advertises in this issue some lines of his large stock which he assures us he has decided to close out. Examine his advertisement and you will find for sale some article you need.

PERSONAL.
Mr. C. S. Ellis formerly of this city, but now in business at Savannah, Ga.; Mrs. Knapp, wife of Rev. Dr. Knapp, Rector of the Episcopal Church at Grand Haven, Mich.; Mrs. Finch, of Bristol, Tenn.; Mrs. H. P. Russell, of Savannah, Ga., all children of the late Capt. C. D. Ellis, and Mr. C. D. Russell, grandson of the same, are in the city, having arrived in season to attend the interment of the remains of the aged couple, which took place on the 7th inst.

The Excursion Yesterday.
The excursion to Carolina Beach yesterday, by the Germania Cornet Band and their guests, was one of the most successful and enjoyable affairs on record here. There was a large crowd and every one present seemed to get a pretty good quota of pleasure and fun out of the occasion. So large was the number that on the return it required two trips of the train to convey them all from the Beach to the Pier. The boat returned to the city about 8 o'clock.

The Climate.
We have heard much complaint regarding the intense heat to-day, but when we know that on yesterday, notwithstanding the heat, Wilmington was several degrees cooler than any of our neighboring towns and cities, we do not think that there is much reason to complain. The fact is, Wilmington possesses one of the finest climates in the world, although the weather some times gets on a "rampage," and makes it uncomfortably warm here for a few days.

City Court.
Robert Morris, colored, whose case was continued yesterday, was discharged by the Mayor this morning.
H. C. Green, Martha Mashburn and Millie King, all colored, were charged with disorderly conduct at Fourth street market. They were fined \$5 each, but the fine was subsequently remitted in the case of Millie King.
Charles Drake, colored, disorderly conduct. Case continued.
Joe Nichols, colored, bathing within the city limits. Judgment was suspended upon a promise of good conduct in the future.

Accidentally Hurt.
As one of the daughters of Mrs. Hettie Donnelly was passing along on the sidewalk near Cape Fear Academy yesterday afternoon, she was stricken violently with a base ball which had been carelessly thrown by a young man, and for a time was rendered senseless. Proper restoratives were administered and the young lady was able to proceed to her home. It was entirely unintentional on the part of the young man who deeply deprecates the accident, but, in view of this and the possibility of similar accidents in the future, the Mayor has very properly issued a stringent order, prohibiting ball playing on the streets, and the police have been instructed to see that the order is obeyed.

Audit and Finance.
The Board of Audit and Finance met in regular semi-monthly session on the 6th inst. Present, Messrs. R. J. Jones, William Calder and J. F. Maunder.—The tax ordinance for 1887, as passed by the Board of Aldermen, was approved as was also the action of the latter in regard to the tax on dogs. The chairman reported that the Wilmington & Weldon Railroad Company had agreed to the proposition of the city to build the abutments for Fourth street bridge, and the contract for the construction of the bridge had been signed on the part of the city with the Smith Bridge Company, of Toledo, O. Bills for current expenses, amounting to \$5,931.19, were audited and approved.

For the Ladies.
Bright girls who make their own dresses are at work on cheap and pretty gowns of blue batcher linen, trimmed with folds and bands of white, which are sometimes elaborately embroidered in blue.
The new designs for handkerchiefs are exquisitely dainty. One has a border consisting of seven waved lines in the finest hemstitching, alternating with regular rows of worked dots. Another has the little star-like "pixie" to form a narrow border in needlework, beyond which is an equally narrow edging in real valenciennes.
The huge puffed sleeves that are beginning to be used so universally here are not so conspicuously worn in London or Paris. They are reserved principally for house and carriage wear.
Low-cut shoes of red velvet or satin are ornamented only with a tiny bow or pompon, and look charming on a pretty little foot. High red-buttoned boots are worn entirely plain.
The "Graciella" is a coquettish little bonnet made of flery red tulle, with a border of real coral beads.
A new French material, called "Trouville cloth," has been introduced for bathing dresses. It comes in all colors and is very light and clinging.
A hat far one of the Summer's beauties is of the finest white Panama, trimmed voluminously with rose pink tulle. In front there is a high bouquet of wild roses and white lilacs, with the most feathery touches of green put in very judiciously.

Knights of Pythias.
We learn that the two Lodges of the above order located in this city are a ranging for a public installation of their officers for the ensuing term, when the officers of the Grand Lodge are expected to be present, and an address will be delivered by one of our eloquent young speakers. This order has been in existence for 23 years, during which time it has paid out for the benefit of its sick members, and in aid of the widows and orphans of deceased brothers, more than \$2,000,000. The Endowment Rank was instituted some years after the order started to afford members an opportunity of securing life insurance at cost, and has been the means of paying to the families of those insured in it the sum of \$3,000,000. In all probability a large number of those so insured would have died without insurance, except for the influence of the order, and the relief given to otherwise destitute widows and orphans is incalculable. The two lodges here, we are glad to know, are in a flourishing condition, both as to membership and finances. The public installation will probably take place in the first week of July, before which time we will endeavor to procure the details of the celebration.

The Dentists.
The North Carolina Dental Association met in regular annual session at Morehead City on Tuesday. There were present on that day: Drs. B. H. Douglass, H. Z. Herring, J. F. Griffith, J. H. Durham, J. H. Freeman, A. M. Baldwin, E. Matthews, E. L. Hunter, T. M. Hunter, S. P. Hilliard, J. W. S. Spurgeon, J. E. Wyche, J. R. Woodley, B. F. Smathers, J. E. Shields, C. L. Alexander, H. Snell, J. G. Queen, Wm. Lynch, A. O. Daniels and Z. W. Selby.
Five others, applicants for membership, were admitted. These were: Drs. J. W. Griffith, Wm. Lynch, J. E. Shields, J. E. Wyche and A. M. Baldwin. Beside these there were a number of applications still pending before the Board of Examiners.
Dr. J. R. Woodley, of Norfolk, representing the Virginia Dental Association, was present and was invited to a seat with the body.
Drs. Turner, J. W. Hunter and Bland were sick and unable to be present and resolutions of sympathy on behalf of the Association were wired to them.

Our Advice to You.
In buying clothing for men, boys or children, do not allow yourself to be guided by glaring advertisements which promise to sell clothing lower than the Old Reliable. It is simply to draw your attention in hopes of selling you something at a larger profit. Why will men work hard all day for \$1.50, \$2 or \$3, then throw it away when that sum could be saved in from 10 to 30 minutes by trading with I. SHIEK, whom we can recommend and who will deal honorably with you in every respect.
The REVIEW JOB OFFICE is the place to get good work at moderate prices.

For Salt Water.
The rush to the seaside now is very great. The *Passport* carried down a large crowd this morning, the occasion being the First Baptist Sunday School excursion to Carolina Beach and a large number also went down this afternoon. In fact, more presented themselves at the boat than could be accommodated and some two-score were left. This was not because there was not room enough on the boat going down but that the boat would be crowded to her capacity, and to the limit allowed by law, on the return trip. Capt. Harper explained this to some of the disappointed ones as the boat left her dock. If the rush continues a larger boat, or an additional boat, will be needed to accommodate the demand.

Notice.
To WHOM IT MAY CONCERN—The Fish Barque *NORDSOEN*, Capt. J. Nyholm, is ready to discharge cargo of Rainin. Lay days to commence on the 9th inst. J. NYHOLM, Master June 9th.
HEIDE & CO., Consignees.
