

# THE DAILY REVIEW.

VOL. XI.

WILMINGTON, N. C., TUESDAY, JUNE 14, 1887

NO. 140

The ladies of Nashville, Tenn., have formed an association for the purpose of erecting a monument to the Confederate dead of Tennessee. Nearly \$8,000 has already been subscribed.

The Savannah Times says that for some time past it has been quietly rumored that a filibustering expedition was being planned in Savannah against some Central American country. The details of the scheme were kept as quiet as possible, and scarcely any one could be found who knew the slightest thing about the project. A few days ago, however, information was sent to Secretary Bayard that an invasion of Honduras was being planned in this city. The Secretary of State at once communicated with Gov. Gordon. The Federal Government has not yet taken any further action.

Mr. Smith told us that he has a very fine ebony stick at home that he brought with him from Mexico when returning from the war; so that he is in possession of probably the oldest walking stick in the State—*Gol sboro Argus*.

Mr. Smith's walking stick is a veritable baby alongside of one owned by Mr. J. K. James, of Pender county, whose grandfather's grandfather brought it from Wales with him something like one hundred and fifty years ago, about the time that Wilmington was first laid off as a town. It is a substantial ivory headed cane, with a silver band near the top, and is an heirloom, in the family, having been handed down from father to son for five generations.

### Wonderful Cures.

W. D. Hoyt & Co., Wholesale and Retail Druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by the use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by W. H. Green & Co.

### Personal.

Mr. N. H. Frohlichstein, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.

Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee. Trial bottles free at W. H. Green & Co's drug store.

### LOCAL NEWS.

**INDEX TO NEW ADVERTISEMENTS.**  
F. C. MILLER—Garden Seed  
HEINSBERGER'S—New Goods  
C. W. YATES—"In Ole Virginia"  
WANTED—An Honest Young Man  
MILLER & NESTLE—Kennedy's Medical Discovery

The revenue from dog licences promises to be quite an important item this year. The call for badges for canines has been greater thus far than on any previous year, and still they come.

Workmen are busy in remodeling the interior of the "Journal" building, on Princess street, for the accommodation of the Messenger Publishing Company, who have finally decided to locate there.

Between 5 and 7 o'clock p. m., on a pleasant June day, on Front and Market streets, Wilmington can show more pretty girls to the square inch than any other city in the United States.

The indications issued to-day do not point to a change in either wind or temperature. There are lots of people waiting for Southerly winds and a warmer atmosphere to go down on the coast for bathing and fishing.

### Indications.

For North Carolina, fair weather and stationary temperature.

The event of the week is the excursion to be given by the members of St. Thomas' Congregation, on Thursday, to Carolina Beach, and many are looking forward to the day with pleasurable anticipations. The excursions given under the auspices of this church are always among the most delightful of the season and there is every reason to believe that the one now projected with from in no way inferior to any of its predecessors.

Are you going to build, repair or paint? Then buy your material from JACOB'S Hdw. Depot. He will supply you with the best and save you money.

**Personals.**  
Mr. John D. Shaw of Rockingham, is in the city to day.

Mr. Jas. A. Lockhart, a prominent lawyer of Wadesboro, is in the city on business connected with the railroad assessments.

Mr. J. P. Teller, representing the Sibley Manufacturing Company, is in the city to make a test of the new fire steamer which recently arrived here for the Cape Fear Steam Fire Engine Company.

### City Court.

John Devane and John Littleton—two colored boys, both of whom have bad reputations, were brought before the Mayor this morning charged with disorderly conduct. In the case of the former a fine of \$2 was imposed, while the latter was sent below for 24 hours. James Shelley, who was sent below yesterday morning for using contemptuous language before the Court, was released this morning.

Preparatory to making some changes in his business before the Fall season, Mr. Sol Bear advertises in this issue some lines of his large stock which he assures us he has decided to close out. Examine his advertisement and you will find for sale some article you need.

### Temperature and Rainfall.

Capt. A. W. Greeley, Chief Signal Officer, reports as follows for the South Atlantic States, on the normal rainfall and temperature for the week ending with Saturday last:

Charlotte—11 excess in temperature and .93 deficiency in rainfall.  
Hatteras—6 excess in temperature and .75 deficiency in rainfall.  
Charleston—4 excess in temperature and .33 deficiency in rainfall.  
Augusta—31 excess in temperature and .70 deficiency in rainfall.  
Savannah—7 deficiency in temperature and 1.09 deficiency in rainfall.  
Jacksonville—7 deficiency in temperature .07 excess in rainfall.  
Wilmington—1 deficiency in temperature and .35 deficiency in rainfall.

The cheapest place to buy your school books and school stationery is at Heinsberger's.

### Some Testimony.

Several gentlemen from the North were in the city last Sunday, at the Orton House, and went down that afternoon on the *Passport* to Carolina Beach and we understand that they were loud in praise of the resort and were emphatic in saying that it was the prettiest piece of beach on the Atlantic coast.

And this reminds us that a reverend gentleman of this city said to us a few days since that he had been at some of the most famous watering places in Europe, as well as in this country, and that Carolina Beach, for its natural advantages, surpassed them all.

### Railroad Assessors.

The meeting of the Chairmen of Boards of Commissioners of thirteen counties in the State, for the purpose of making the assessment on the C. C. R. R. as required by the law passed at the last session of the Legislature, was held at the Court House to day, and was called to order at noon by Mr. H. A. Bagg, Chairman of the Board of Commissioners of New Hanover county. The following counties were represented by the chairmen of their respective Boards of Commissioners: Anson H. M. Ledbetter; Brunswick, M. C. Guthrie; Bladen, W. J. Parker; Columbus, D. P. High; Cleveland, J. T. Bostic; Gaston, Jacob Kizer; Lincoln, Caleb Molz; Mecklenburg, T. L. Vail; New Hanover, H. A. Bagg; Richmond, Peter McRae; Rutherford, A. L. Rucker; Robeson, J. L. McLean; Union, W. A. Austin.

The railroads were represented by Maj. J. C. Winder, General Manager of the Seaboard System and Col. L. C. Jones, Superintendent of the Carolina Central Railroad, and by Hon. C. M. Stedman and Mr. John D. Shaw, of Richmond county, as Attorneys. The legal interests of Robeson county were watched by Mr. T. A. McNeill, of Lumberton; Mr. J. A. Lockhart, of Wadesboro, attended to the interests of the Board of Assessors, and Hon. D. L. Russell appeared as counsel for New Hanover County, so that all the legal interests involved will be adequately guarded. After a short session of one hour, which was mainly devoted to perfecting arrangements for the work before them, the Board took a recess until this afternoon.

Two distinct earthquake shocks were felt in this city last night. They occurred between the hours of 11 p. m. and midnight, and were felt by several. The first shock was the more severe.

### Wilmington Light Infantry.

"We fire no more! The whole line! Charge bayonets! Rush onward, and drive the red coats to where the d—d drove the hogs!" is what General Lafayette is reported to have said at the battle of Yorktown, which established the independence of the thirteen colonies. The same spirit of aggressive enthusiasm seems to pervade the ranks of the Wilmington Light Infantry, and we are glad to see the genuine *esprit du corps* with which each member of this gallant and honored organization is actuated. Last night the company held a regular meeting—the first since the encampment—at which there was a large attendance and all seemed animated by a military enthusiasm which was gratifying and spoke heartily for the future of the corps. Twenty new members were enrolled and five applications for membership were received. The company now numbers eighty men, rank and file, which it is proposed to increase to one hundred.

A communication from the Fayetteville Independent Light Infantry was read at the meeting last night, which expressed in most hearty terms the appreciation of their cordial treatment while here at the encampment and their enjoyment of that pleasant occasion. After the reading of the communication a unanimous vote of thanks was tendered to Mr. M. Bellamy for the use of the encampment grounds, and also to the citizens whose contributions made the encampment such a complete success.

The anniversary of the company, which was on the 20th of May, but the celebration of which was postponed on account of the encampment, will be celebrated on Friday, the 24th inst. On that day there will be a target practice, when, in addition to the company medals, two additional prizes will be competed for—one, offered by Dr. W. E. Storm, Surgeon of the company, for the best shot, and the other contributed by the members of the Infantry for the second best shot—and for which all members will be entitled to compete.

Capt. Daniel and Lieuts. Harris and Morrison were appointed a committee to make arrangements for an excursion to Carolina Beach, and Lieut. Morrison, Surgeon Storm and Private Dingelhof were appointed a committee to select the prizes.

It was decided to secure new uniforms for the command as soon as practicable, and, in this connection, we are reminded that the company flag is "tattered and torn," and while it should be sacredly preserved in honor of its glorious past, a new one should be secured for parade purposes. It would be a good plan to have the new flag made by the time the new uniforms are completed. The company absolutely needs a new flag, as any one can know who has seen that which they now possess; and which fact suggests the query: Cannot the accomplished ladies of this city go to work with their nimble and skilful fingers and make a flag? We believe that they can and that, when completed, it will be a thing of beauty and will reflect honor upon the fair daughters of Wilmington and will be preserved and honored by the company. We are in favor of home-made goods when we can get them, and we begin on a flag for the Light Infantry, and call upon the ladies of the city to show their skill, patriotism and pride in the Infantry by making a banner, so that we may not have to pay tribute to some Northern manufacturer. There are enough gentlemen to supply the necessary funds and the ladies may take their needles and thimbles and go to work.

There is a camp meeting in progress in the Northeastern section of the city, under the auspices of one of our colored churches. The services are kept up nearly all night, and cause considerable annoyance to those who would like to sleep.

### Base Ball.

The Wilmington base ball nine will leave on to-night's train for Charlotte, where they will play three match games on the 15th, 16th and 17th inst. with the team of the latter city. The home team will labor under serious disadvantages, as they are short of one important player, but they propose to make a good fight, and do the very best they can under the adverse circumstances.

Mattings, hammocks, bath towels, summer underwear and straw hats at Sol. Bear's.

You will find hoes, forks, shovels, spades, scythes, swaths and farming tools of all kinds at JACOB'S Hdw. Depot.

### Painful Accident.

As the steam yacht *Louise* was coming up the river this morning, the hat of one of the passengers blew off, when Capt. Snell stopped the boat and started back to recover the lost article. In backing, however, the action of the water on the propeller threw the wheel out of Capt. Snell's hands, and in its rapid revolutions three or four of the spokes struck him on the arm causing painful bruises, but, fortunately, breaking no bones.

### Base Ball Yesterday.

In the match game of base ball played yesterday afternoon between the Clarendon Club and the Seaside Club both of this city, the game was won by the Seaside Club by a large score. It was played only to see if the Seaside could shut the others out, which they failed to do. The Clarendon Club played well. Their fielding was excellent and would have done credit to much older players Willard, Munson, Keen, Wright, Furlong and Robinson played as if they were experts in the art of ball playing. The Clarendon Club will play a game on Wednesday against a club of their own size, which promises to be very exciting.

### Testing the New Engine.

The new steamer for Cape Fear Steam Fire Engine Company No. 3, which arrived here a few days since, was tested in the usual manner at Market Dock this afternoon. The engine was placed on the North side of the ferry slip and the hose was led across Market street and down South Water Street. A stream was played through the hose in 6 1/2 minutes after fire was put to the fuel. The test was not completed at the time of closing our report but the workings of the engine, with its power to throw water, were satisfactory.

### Brunswick Items.

A friend at Wmabow gives us some items of interest from Brunswick county.

He says that Saturday last was a big day with the people at Shallotte for on that day Sheriff Taylor sold under execution the surveying instruments and camp equipage left by the surveyors of the late South Atlantic & Northwestern R. R. The surveyors had got supplies from several of the merchants and did not foot the bills. Hence the attachments and sale. There was a large crowd present and the articles sold well. This, it is supposed, winds up the railroad enterprise in that county, for the present at all events. Many are sorry that the project has come to grief and some, it is said, are glad.

Our friend tells us that there has been so much rain of late that the crops are well in the grass. He says that the crops in Shallotte, Lockwood's Folly and Waccamaw townships are very fine—better, in fact, than in many years past. The farmers have gone to work with a will and are determined to bring the old county to the front again—Money is scarce and the people are economizing and as one evidence of this fact there are not half the mortgages in the county now that there were a few years ago.

Paints and Varnish. Best in city at JACOB'S, and at lower prices than you have to pay elsewhere for more common goods.

### NEW ADVERTISEMENTS.

WANTED—AN HONEST YOUNG MAN for a permanent position, with an old established firm as their representative in his own State. Salary increased with experience. References required. AM MANUFACTURING HOUSE, 12 Barclay St., N. Y. June 14 11
