ures to receive their paper promptly.

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., WEDNESDAY, JUNE 15, 1887 NO. 141

Wonderful Cures.

W. D. Hoyt & Co., Wholesale and Retail Druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by the use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by W. H. Green & Co.

Personal.

Mr. N. H. Frohlichstein, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.
Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee. Trial bottles free at W. H. Green & Co's drug store.

INDEX TO NEW ADVERTISEMENTS.

F. C. MILLER—Garden Seed
HEINSBERGER'S—New Goods
C. L. TAYLOR—"In the Virginia"
MILLER & NESTLE—Kenedy's Medical Discovery

...
This is cool weather for the time of year
Four bales of cotton were received at this port to-day.
Last Sunday's Charlotte papers have not yet come to hand.
Steamboatmen report about five feet of water on the shoals in the Cape Fear, with the river falling rapidly.
Now is the time when newspaper wits—so-called—indulge in funny sayings about the harmless cucumber.
Paints and Varnish. Best in city at JACOB'S, and at lower prices than you have to pay elsewhere for more common goods.
There was an unusual quietude at the City Hall this morning, with no cases for the Mayor's consideration. People seem to be on their good behavior.

Indications.

For North Carolina, fair weather, slight changes in temperature.
All the boats of the Carolina Yacht Club, which were brought here for the race in the Cape Fear during the time of the military encampment, have been returned to the Sound at Wrightsville.
Railroad Assessors.
Messrs. M. C. Guthrie, D. P. High and H. A. Bagg, Chairmen respectively of the Boards of Commissioners of Brunswick, Columbus and New Hanover counties, assembled at the Court House this morning to appraise and assess that portion of the Wilmington, Columbia & Augusta Railroad which lies within those counties.
Mr. H. A. Bagg, of New Hanover, was in the Chair and Capt. D. P. High, of Columbus, was made Secretary. Mr. W. A. Riach, General Auditor of the Atlantic Coast Line System, represented the interest of the Railroad Company.
There are 65 miles of this road in the State on the main line, and 7 1/2 miles of side track, distributed as follows: New Hanover, 1 1/2 miles main line and 280 100 side track; Brunswick, 11 1/2 miles main line and 89 100 side track; Columbus, 5 1/2 miles main line and 356 100 side track.
After examining the reports of the railroad company and hearing such testimony as was deemed sufficient, it was ordered by the Board that the valuation of the railroad track, including side tracks, be \$390,000 for that part of said railroad which lies in the State of North Carolina, and that the rolling stock, depots &c., be valued at the sum of \$120,000 for such part of that property as is in said State.
The property, including main line, side-tracks, depot buildings, warehouses, rolling stock &c., was valued at \$6,000 per mile.
And it was further ordered that the Secretary furnish a copy of such valuation to the chairmen of the Boards of Commissioners of New Hanover, Brunswick and Columbus counties, and also to the Mayors of the City of Wilmington and the towns of Whiteville, Fair Bluff, Chadbourne and Cerro Gordo; and it is further ordered that a copy of all reports and proceedings, together with papers, be forwarded to the Auditor of the State.
The REVIEW JOB OFFICE is the place to get good work at moderate prices.

Down the River.

An excursion will be given to Carolina Beach to-morrow under the auspices of the congregation of St. Thomas' Church. Preparations have been made to make it a pleasant occasion to all who may attend. There will be music, dancing and refreshments, with sunbathing and fishing for those who may desire them. The *Passport* will make two trips during the day, one at 9 a. m. and the other at 3 p. m.

Fourth Street Bridge.

The work of tearing down Fourth street bridge, preparatory to putting up a new substantial iron structure, was commenced this morning. The carriage way was the first to receive attention and that was soon put in such condition as to prevent the passage of teams or carriages. The footway for pedestrians has not yet been touched, but vehicles, for the present, will be compelled to cross at Sixth street. It is expected that the work of putting up the iron bridge will be pushed as rapidly as possible to completion, so as to cause as little inconvenience to the public as possible.

A Correct Account.

It seems that the account published by us on Monday of an attempted outrage on South Front street was not correct. The gentleman on whose premises it occurred assures us that it was exaggerated. He says that the young lady was not confronted by the man at all and that she was not near enough for him to touch her. She had occasion to go into the yard in the rear of the premises and discovered a dirty, repulsive looking colored man lurking in some bushes. As soon as she saw him she screamed and ran towards the house and at the same time the man, who was evidently as much frightened as she was, made a bolt for the fence, which he scaled, and then vanished. It is thought that the intruder was there for the purpose of stealing chickens, a number of which were in the yard and among the shrubberies. And this is all there is in it.

A Novel Craft.

Mr. Norwood Giles has recently had completed a boat which is a novelty. It is a dugout canoe, fitted in yacht style with rudder, mast, sail, centre board and thwart. The tree from which it was built was curled cypress—a rare wood—and the canoe is 12 1/2 feet long and 3 feet beam. The timber grew on the banks of the Cape Fear, where it was cut and given a rough shape and then floated to this city, where it was finished under the supervision of Mr. Giles. All the work has been done with an ordinary turpentine "puller," inside and outside, and it is all of one piece of wood with the exception of the thwarts and mast bench. The inside is painted a light lead color while the outside is simply varnished, without any paint, and the finish is as pretty to look upon as mahogany. We have seen many curled cypress before. It takes an elegant finish and it is reported to last a long time.

Fourth of July.

The next regatta of the Carolina Yacht Club will be sailed over the Wrightsville Course on the Fourth of July next. It is intended that this shall be the most notable and interesting regatta ever sailed by the Club, and to this end some very valuable prizes will be offered. The first prize for yachts of the first class will be a solid silver pitcher, purchased by Mr. Geo. W. Kidder, and valued at \$250. Two more prizes, whose aggregate value will be \$350, will be donated by prominent citizens, who take much delight in aquatic sports. The latter prizes have not yet been selected, but it is entirely safe to say that they will be beautiful in design, excellent in workmanship and valuable in material. The aggregate value of prizes to be competed for amounts to \$600, and this fact ought to stimulate every yachtsman to do his utmost to win the race and, consequently, one of the prizes. We hope to see the Sound alive with craft of all sorts and descriptions on that day, from the last sailing yachts of the fleet to the humble bateaux and dugout, and we hope to see Wrightsville thronged with spectators as it never has been to witness the exciting sport.

Stoves. Our line of cook stoves includes a variety of standard patterns, embracing the very latest improvements. We will not only satisfy but save money to every customer who buys a stove from us. JACOB'S Hdq. Depot.

Tand From Under.

New York speculators in coffee have come to grief, and many prominent firms have failed in consequence of the sharp decline in the price of that berry. The advance was altogether for speculative purposes, and we are not mourners at the result. The same remarks will also apply to Chicago speculators in wheat, who have also come to deep grief in consequence of the sharp decline in that article of food.

The Carolina Central.

We gave yesterday the proceedings of the noon session of the Board of Appraisers and Assessors, in the matter of the Carolina Central R. R. At the afternoon session the chairman asked for information as to the side track on Nut street, connecting with the Wilmington & Weldon Railroad.
The Superintendent, in reply, said that this track did not belong to the Carolina Central; it was laid by the Wilmington & Weldon Company, and was entirely in their control.
The amended statement of the Superintendent was submitted, showing 264 miles of main track, 15 miles and 2,740 feet of side-track, thirty-four warehouses and four offices inside the right of way.
After further consideration of the matter the Board adopted the following:
Ordered, by the Board of Appraisers and Assessors for the Carolina Central Railroad, that the value of said railroad track, as defined in section 45 of the Act to provide for the assessment of property and collection of taxes, be assessed at \$1,000,000, and that the value of rolling stock as defined in sections 46, 47 and 48 of said Act, be assessed at \$300,000. The Board find that the aggregate value of capital stock is nothing and that there is nothing to be deducted from the above valuation. The Board further find that the entire length of the railroad is 264 miles and 2,905 feet; of which there are in New Hanover one mile and 528 feet; in Brunswick 11 miles 506 feet; Columbus, 9 miles, 428 feet; Baden, 34 miles, 473 feet; Robeson, 30 miles, 3,494 feet; Richmond, 32 miles, 3,592 feet; Anson, 27 miles, 2,545 feet; Union, 23 miles, 2,770 feet; Mecklenburg, 23 miles, 484 feet; Gaston, 17 miles, 3,320 feet; Lincoln, 15 miles, 3,106 feet; Cleveland, 21 miles, 1,460 feet; Rutherford, 16 miles, 124 feet; and that the proportion of the aforesaid assessments per mile is \$4,536.
It is further ordered that the Secretary of the Board forward a copy of this order to the chairmen of the County Commissioners of the above named counties, and to the mayor of each city or incorporated town through which said railroad runs, and a like certificate, together with all the reports of the railroad officers and other papers and evidence which form the basis of the above valuation, to the Auditor of the State.

"Errors."

EDITOR DAILY REVIEW: In yesterday's *Review* there appeared an editorial headed "Errors" which was, I suppose, intended as an apology for the numerous typographical and other errors which appear in the columns of that paper from time to time. Such an apology may have been called for, but as a practical printer, I object to having the odium of such mistakes cast upon the compositor. The writer says: "What a printer should do is to make sense of copy. If he does not do that it is inexcusable and he shows himself to be a poor workman—a bungler." This is the printer's duty to follow copy strictly, *verbatim, et literatim et punctuatum*. Or, as the old maxim of the printing office of my boyhood was: "to follow copy if it goes out of the window." If a printer is to be called a "poor workman—a bungler" for following copy what is to be said of a writer who cannot express his own ideas on paper in such shape as not to need fixing up by the printer? I grant that the printer who neglects to correct errors marked on the proof is a bungler and should be severely censured, but until printers are paid the combined salaries of editor, proof reader and compositor, should they be expected to perform their duties? I have seen revise after revise taken for writers, each one containing so many alterations that when at last the matter was allowed to go in the paper the writer could hardly recognize it as his original article. A printer should be nothing more than a mental machine, with no ideas and no discretion of its own, but should respond promptly and correctly to the touch of its operator—the writer. There is, I am proud to say, printers who are competent, and often do for copy and work for employers that recognize the fact and appreciate it, but it is not the compositor's duty to do. The writer should fix his copy as he would have it appear in print, the printer should set it up as written and given to him, the proof reader should find and mark the errors and then the printer should be held accountable for their correction.

Quarantine Notice.

QUARANTINE WILL BE ENFORCED from May 1st to November 1st, on all vessels from ports South of Cape Fear.
Regulations governing vessels in Quarantine may be obtained at the office of the Quarantine Physician.
Due notice will be given to pilots of any extension of Quarantine to other ports, which may become dangerous on account of prevalence of cholera or other infectious disease.
On entering the port, vessels subject to Quarantine will display a signal flag on the yard arm, and come to anchor at the station opposite Deep Water Point, and not depart thence without the written permit of the Quarantine Physician.
