

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00, Six months, \$2.00. Three months, \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertisers will report any and all failures to receive their paper regularly.

# THE DAILY REVIEW,

VOL. XI. WILMINGTON, N. C., MONDAY, JUNE 20, 1887. NO 145

Mrs. Grant has so far received from the publishers of General Grant's Memoirs nearly \$400,000. The work has a constant and large sale.

On the Battery, near the Barge office in New York, it is proposed to set up a large bronze tablet with the following inscription: "Here, at the White Hall, General Washington took refuge on the fourth day of December 1783, after his march from Fort Mifflin to Lancaster and Red Bank. Erected by the New York Southern Society in behalf of the citizens of New York, February 20, 1887."

The largest electric light in the world is that of the Sydney Light-house, Australia. It has a power of 150,000 candles and is visible for fifty miles. The light in the Palais d'Industrie has a 150,000 candle power. Mars has an electric light of 40,000 candles. The largest light in America is at San Jose, Cal. It is 24,000 candle power, and sheds a bright light over a radius of two miles.

In Russia it is said suicides are increasing in number every year. The proportion to the population is now greater in St. Petersburg than in any other European capital. Of late years even boys and girls from eight to six teen take their own lives, generally on the idea of cruel treatment of their parents. The causes assigned for this state of things are the wretched social conditions of modern Russian life and the pessimistic views and anarchist tendencies embraced by many in early youth.

There is now little doubt that 1887 will be the biggest building year that the country has ever known in railroads, factories and other houses. It is now estimated that 21,000 miles of new and 19,000 miles of old railway track will be laid this year—thus affording the iron furnaces and steel rolling and rail mills an abundance of work. The cost of these railroads is estimated at \$33,000,000 for the new and \$100,000,000 for the old roads—or say \$650,000,000 of capital needed for the rail roads alone.

In the lower part of Coffee county, Georgia, lives Mr. Stafford Davis, who is now 105 years old. He served thro, the war of 1812 and the Mexican war, but has never received a pension for his services and has never asked for one. When 39 years of age he married a Miss Lot, and now has children, grandchildren and great-grandchildren to the number of 275. In 1873 his wife died after 60 years of married life, and recently he led to the altar a blushing bride of 50 summers. Mr. Davis has been strong and hearty until this year, but is now quite feeble.

Six Constitutional amendments will be submitted to the people of Texas on August 4, the most important being the liquor prohibition clause and the elaborate article reorganizing the judiciary of the State. The liquor question throws into the shade all the others. The proposed amendment provides for State prohibition, except for "medical, mechanical, sacramental and scientific purposes." At the opening of the campaign the liquor men were in high feather, but lately they have become disturbed by the thorough organization of the Prohibitionists.

Of the thirteen islands constituting the Hawaiian group, eight are inhabited. The population of the islands has so steadily decreased in the little more than a century since Capt. Cook visited them that it is now estimated at about 90,000. Of these about one half are natives of the islands, the balance being made up of 17,000 Chinese, 2,000 Americans, 1,300 English, 10,000 Portuguese and handfuls of other nationalities. The trade of the kingdom foots up about \$13,000,000, \$9,000,000 being exports. More than 90 per cent of the trade of the islands is with the United States.

Though Shaken Like a Leaf. By the most trivial causes, weak nerves are easily susceptible of invagination, a term which also implies, in this instance, quietude. The nervous have but to use Hostetter's Tomcat Bitters systematically to overcome that superabundantness of the human organism, which is susceptible of all kinds of discomfort and heartily enjoy this system. The difficulty in this case, as well as in many other ailments, is imperfect assimilation, no less than inaction of the digestive and assimilative functions of the system. As the body reveals symptoms of its infirmity, it is the body's own system that is benefited. Persons afflicted with rheumatic, dyspeptic, indigestive, or other ailments, should also, use the Bitters.

### A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at W. H. Green & Co.'s Drug Store.

### The Verdict Unanimous.

W. D. Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing. Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at W. H. Green & Co.'s Drug Store.

Ger. brig A. M. Lotinska, Wilken, hence, arrived at Riga, Russia, June 13th.

Mattings, hammocks, bath towels, summer underwear and straw hats at Sol. Bear's.

The cheapest place to buy your school books and school stationery is at Heinsberger's.

This intensely hot weather has been hard on the little children, and many of them are quite sick as a result.

Dog Collars. Large assortment just received. Can buy a nice collar from 25 cents up, at JACOB'S Hdw. Depot.

Spirits turpentine and cotton have both declined in our market to-day, in consequence of dull and drooping markets in New York.

About 150 excursionists from points in South Carolina bordering on the W., C & A. R. R. arrived here yesterday morning and returned last night.

A number of young gentlemen in this city will give an excursion to Carolina Beach to-morrow on the Passport.

There will be refreshments, dancing and a good time generally.

A couple of female gipsies were arrested and taken to the guard house this morning for begging on the street. Word was sent to the sheriff, who ordered them to leave the city at once. It is said that there is a band of these vagrants in the vicinity of the city.

Take care of your eyes. An agency for the LeMare's celebrated Rock Crystal Spectacles and Eye Glasses is established in this place at Heinsberger's.

**Indications.**  
For North Carolina, fair weather, and stationary temperature.

**Knights of Honor.**  
Carolina Lodge No. 434. Regular meeting this (Monday) evening, at 8 o'clock. Full attendance is desired.

**City Court.**  
Josh King and Steve Ballard, both colored, were brought before the Mayor this morning for fighting in the Market House alley, and were required to pay \$5 each or go below for 10 days.

Bennie Shaw, a ten-year old colored boy, was found sleeping in the street, which seems to be his custom, and was sent below for five days.

**Stoves.** Our line of cook stoves includes a variety of standard patterns, embracing the very latest improvements. We will not only satisfy but save money to every customer who buys a stove from us. JACOB'S Hdw. Depot.

### The Cornet Concert Club

will give an excursion to Lake Waccamaw on next Wednesday, the 22d inst. A special train has been chartered and will leave at 8.30 a. m. Every arrangement has been perfected, to make it a very enjoyable affair. There will be music for dancing, a base ball game, excursions on the lake, fishing, bathing and concerts by the club. Prices for the excursion will be 50 cents for adults and 25 cents for children under 12 years of age.

### About Thermometers.

There are thermometers and thermometers. Some are good, some bad and some indifferent. But few record the same degree of temperature. They have been frequently consulted today and according to the record displayed have been the feelings of those who consulted them. The heat has been the absorbing topic of conversation and yet it has not been so very hot after all. Those who have been able to keep out of the sun and have not been compelled to stir around very actively have not found the temperature so absolutely insufferable. The question is, however, what has the temperature been to-day? At one place on North Front street 95 degrees was recorded at 12 o'clock, while on Market street in one place it was 99 and at another, on the same side of the street, and not a dozen doors distant, it recorded 92. At this office it stood at 94 at 3 o'clock and we think that this is a fair indication.

There is one thing about taking the temperature which not many seem to understand. Don't put your thermometer in the door or the window where the wind, fresh from the hot streets and hot buildings, will play upon it but somewhere out of the wind and out of the glare of the sun. This is the only way to get at the temperature correctly.

### At Roanoke College.

The address before the Literary Societies of Roanoke College, at Salem, Va., was delivered on Tuesday night the 14th inst., by Hon. A. M. Waddell, of this city. His subject was "The World We Live in," and the substance of his remarks, as given in the Salem (Va.) Times-Register, of the 17th, were as follows:

The address began with a reference to the repeated invitations the speaker had received to come to Roanoke College, which he had heretofore been unable to accept; and, after some pleasant remarks which put the audience into a good humor, he said he proposed to review some of the phenomena of the universe as interpreted by modern science. Except in science, he said, nothing new was ever said or done. He gave some amusing illustrations of unconscious plagiarism, and then proceeded to show some of the absurd results of the doctrine of evolution when pressed too far. But for the grand and ennobling triumphs of science we cannot be otherwise than grateful. Almost everything of practical use to man had been given to him by science. He then proceeded with his theme.

The *microcosmos* was first discussed. The revelations of modern chemistry and the most recent uses to which steam and electricity have been applied, the history of the spectroscopy, and the final discovery, by means of that wonderful instrument, of the Bessemer process of converting iron into steel, and other similar achievements of science in this age, were dwelt upon.

Then the wonders of the sea and its place in the economy of nature were taken up, preceded by a tribute to Prof. Maury as the one man whose name is forever linked with the science of the great deep. This subject was treated at some length.

Then the speaker passed to a discussion of the *microcosmos* in the light of modern astronomical science and portrayed the wonders of the heavens—the measureless magnitudes of distance, the immensities of space, and the beautiful harmonies of God's creation; and after the audience had been led to consider these mind-expanding subjects for some time he closed his address with De Quincey's translation of that sublime conception of Jean Paul Richter. (wherein God calls up from dreams a man into the vestibule of heaven and shows him the glory of his house) which is unsurpassed for its sublimity in the literature of any language. The address embodied the best results of modern science, and was well received by the audience.

### Our Advice to You

In buying clothing for men, boys or children, do not allow yourself to be guided by glaring advertisements which promise to sell clothing lower than the Old Reliable. It is simply to draw your attention in hopes of selling you something at a larger profit. Why will men work hard all day for \$1.50, \$2 or \$3, then throw it away when that sum could be saved in from 10 to 30 minutes by trading with I. SHIRER, whom we can recommend and who will deal honorably with you in every respect.

Headquarters for base ball supplies is at Heinsberger's.

### A Good Idea.

A movement is on foot looking to the further efficiency of the fire department, by clothing the firemen, under certain circumstances, with police authority, and farther, to furnish them with a quantity of rope to be drawn around a building in case of fire at such a distance that they may have plenty of room to work, and at the same time exclude all others outside the line. This plan, if adopted, will work advantageously in case of fire, giving the firemen plenty of room to work unmolested and keeping all others out of the way.

Property is frequently destroyed which otherwise might have been saved by the collecting of the crowd, who hinder those who are at work, and it sometimes happens that the lives of firemen are imperilled through this same cause. We think the idea is a good one, and hope to see it adopted.

Preparatory to making some changes in his business before the Fall season, Mr. Sol. Bear advertises in this issue some lines of his large stock which he assures us he has decided to close out. Examine his advertisement and you will find for sale some article you need.

You will find hoes, forks, shovels, spades, scythes, swaths and farming tools of all kinds at JACOB'S Hdw. Depot.

### NEW ADVERTISEMENTS.
