Miss Livermore says there are 127 convicts now open to women. By the men won't have to work at all.

The largest landed proprietor in the world lives in Connecticut. He owns 2,000,000 acres of land, and his name is William Wadsworth.

The prohibition fight at San Antonio, Texas, is taking on graphic proportions. The prohibitionists, having been refused permission by Mayor Callaghan to hold a meeting in a public square, resolved to a lot owned by the General Government. The mayor then raised the police to break the gathering up. He is now standing trial before a United States commissioner for conspiracy.

The Emperor of Germany was recently the recipient of congratulations from all parts of Europe, but the Queen of Great Britain and Ireland and Empress of India promises to surpass him greatly in the number of congratulatory messages she receives on the occasion of her jubilee. In addition to the presents and messages from every European capital, there came addresses from subjects in all quarters of the globe, who aggregate in number over 315,000,000, and occupying about 9,000,000 square miles of the surface. Never before, perhaps, was so extensive a dominion subject to one crown.

A dispatch from Panama relates that a farmer living in Cundinamarca, while returning from a field lately, was stricken by an electric flame, which disappeared as quickly as it came. The victim's left eye was damaged, and the eyebrow was burned completely off. The hair surrounding his ears, a portion of his head and all the hair on his breast were burned off; all the brass buttons disappeared from his clothes his watch chain was cut in two, a small hole was bored through his watch case, the watch glass was shattered and his right side was burned. He suffered severely, but is recovering.

Atlanta, Ga., is to have another exposition in the fall, towards which the enterprising business men of that city have subscribed \$150,000. It is to be called the Piedmont Fair, and the Convention says "it will equal the Cotton Exposition in every respect and surpass it in many respects. Its buildings will be as large and its equipment much more complete. Its programme is more attractive and will bring larger crowds. The interest in the Piedmont region is a hundred times greater now than it was in 1881, and visitors from all sections of the North will be in Atlanta in large numbers to study the resources of this section epitomized at the exposition."

The Verdict Unanimous.
W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, Druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only half a dollar a bottle at W. H. Green & Co's Drug Store.

A Woman's Discovery.
"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. L. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at W. H. Green & Co's Drug Store.

Our Advice to You
In buying clothing for men, boys or children, do not allow yourself to be guided by glaring advertisements which promise to sell clothing lower than the Old Reliable. It is simply to draw your attention in hopes of selling you something at a larger profit. Why will men work hard all day for \$1.50, \$2 or \$3, then throw it away when that sum could be saved in from 10 to 30 minutes by trading with I. SHERER, whom we can recommend and who will deal honorably with you in every respect.

HEINSBERGER'S—Pianos and Organs.
SAM'L BEAR, Sr.—Notice of Removal.
FAMILY EXCURSION—To Carolina Beach.
MILK & NESTLE—Kenroy's Medical Discovery.

The moon changed yesterday morning. And where are you going on the Fourth?

The cheapest place to buy your school books and school stationery is at Heinsberger's.

Farmers say that rain is needed. Crops are growing well, but showers would help them.

The dust, blown by the strong South-west wind today, has been somewhat of an annoyance.

Dog Collars. Large assortment just received. Can buy a nice collar for 25 cents up, at JACOB'S Hdw. Depot.

Summer commenced yesterday, according to the almanacs. According to the thermometer it was midsummer on Monday.

The game of base ball between the Wilmingtons and the City Boys was a shut out for the latter. Only six innings were played, and the result was a score of 24 for the former and 0 for the latter.

Thomas Brown and James Brown, both colored, were brought before the Mayor this morning charged with disorderly conduct. They were found guilty and were required to pay a fine of \$10 each or go below for 20 days.

Carolina Beach. Keep cool and remember that the headquarters for bathing suits is at the Wilmington Shirt Factory. Suits made to order Ladies' a specialty. J. ELSBACH, Prop., 27 Market street.

Eighty three dogs have been killed by the police since the 10th inst. up to this morning. The returns of to-day are not in, but they will probably increase the number. To this number should be added 725 that have been supplied with badges, making 808 that have been provided for.

Preparatory to making some changes in his business before the Fall season, Mr. Sol. Bear advertises in this issue some lines of his large stock which he assures us he has decided to close out. Examine his advertisement and you will find for sale some article you need.

Indications.
For North Carolina, local rains, and slight changes in temperature.

Removal.
Mr. Samuel Bear, Sr., has removed his business to No. 10 Market street, four doors below the old stand, where he will be pleased to see his customers and friends. Mr. Bear has had the place nicely fitted for his reception and is in snug and comfortable quarters, with a handsome stock of goods.

Printer's Bill.
In the Eastern portion of the city, within an area of a fourth of a mile, whose centre is at the intersection of Mulberry and McRae streets, there are 17 persons who can go to the case and set type, and 15 of this number are practical and experienced printers.

U. S. District Attorney F. H. Busbee is in the city to-day on official business. We regret to learn that Col. Alfred Rowland, Congressman-elect from this district, is quite sick at his residence in Lumberton. The *Robesonian* says that he has not visited his office in that town since his return from St. Louis and that he has left the house but once, and then against the advice of his physicians. It will be several weeks yet, they say, before he will be able to leave his room.

The Excursion To-Morrow.
A number of young gentlemen of this city will give a family excursion to-morrow to Carolina Beach. It will be a pleasant, sociable affair and it is confidently expected that there will be a large attendance, especially of the young folks. There will be refreshments for sale and the harpers will furnish the music for dancing. The affair is in the hands of experienced, competent gentlemen, who will see that everything possible is done for the comfort and enjoyment of their guests.

Vocal and Instrumental.

The concert—vocal and instrumental—at the Opera House on Friday night will be grand musical treat. Those who are to participate are in active rehearsal for the occasion and there can be no doubt of the excellence of the entertainment. There will undoubtedly be a crowded house. The box sheet will be open at Heinsberger's to-morrow morning.

Death's Doings.

Mr. William Hayes, formerly a bookbinder in the employ of Messrs. Jackson & Bell, previous to which he had worked at the *Spar* book bindery, of this city, died yesterday at the residence of his sister in Baltimore, Md. We have no particulars as to the cause of death or how long he had been sick. Mr. Hayes was a quiet, unobtrusive citizen who had the respect of all who knew him.

The Excursionists.

About 75 excursionists arrived here last night, from along the line of the Carolina Central Railroad. Although the excursion train started from Ruthersfordton, there were no excursionists from West of Shelby. Several ladies and children were among the number. Some of them went to the Sound to-day and some went to Carolina Beach, while quite a number remained in the city. They will return to their homes on the 24th inst.

In Hymen's Bonds.

Mr. Walter Smallbones and Miss Isabella Clayton Reston were united in marriage at St. James' Church at 8 o'clock this morning, the pastor, Rev. W. H. Lewis, officiating. On account of a recent family bereavement the wedding was quite private, although there were a goodly number present to witness the impressive ceremony. Upon the conclusion of the marriage ceremonies and after receiving the congratulations of friends, the happy couple were conveyed to Front street depot, where they took the Northern bound train for New York. Thence they will sail on Saturday next on the steamship *Etruria* for Liverpool and a prolonged European tour, mainly spent in England. They expect to return to this city sometime during the month of September next.

In Perspective.

The city of Wilmington never looked more attractive than at present. Her streets, lined with beautiful trees, clothed in fullest and richest verdure, furnish a picture of rare loveliness. To the lover of the beautiful and pictures que who would enjoy a rich feast, we would say, stand at the intersection of any of our principal streets, East of Front street, and cast your eyes in either direction and you will behold a perspective such as no painter can put upon canvass. Your immediate surroundings, with the many buildings, may look monotonous and garish under the rays of the hot sun, but casting your eyes in the distance, where the houses seem last in the dense, umbrageous foliage, with here and there a roof peeping up through the trees and the tall church spire reaching Heavenward as if from the midst of an almost interminable forest, and you have a scene of rapture for the artist's eye.

Lippincott's Magazine.

The July number of *Lippincott's* is largely given up to the brilliant young Southern writers who have recently been celebrated in *Harpur's Magazine*. Julia Magruder, Amelie Rives, Thomas Nelson Page, Robert Burns Wilson, and Charles Washington Coleman, Jr., all figure among its contributors. Miss Magruder contributes the complete novel of the number, "At Anchor," a bright, vivacious sketch of life on a Southwestern farm. Miss Rives has one of her wonderful short stories, "The Farrier Lass of Piping Pebworth." The fourth of the series of essays on college life deals with the University of Virginia. There is also a bitter and amusing attack on West Point, its methods of instruction, its system of promotions, etc. Lucy C. Lillie, under the title "The Mistress of the White House," gives a gossipy, readable account of the most prominent ladies who have occupied that position, and concludes with a personal sketch of Mrs. Cleveland. "The Unpopular Kitchen," discusses the servant-girl question with some recognition of the servant girl's rights. The poetry of the number is unusually good. The departments are as bright and readable as ever.

You will find hoes, forks, shovels, spades, scythes, swaths and farming tools of all kinds at JACOB'S Hdw. Depot.

Closing Exercises.

The closing exercises of Misses Burr & James' School were held last evening in the School Room next North of St. John's Church and as is usually the case at all such representations of that school the room was crowded to excess by a delighted audience who expressed their pleasure in frequent and earnest applause.

The programme was faithfully carried out and there was no delay in the exercises but pieces followed pieces in rapid succession, keeping the audience well pleased and in great good humor.

Where all did so well it would be invidious to discriminate and besides we were compelled to leave before the exhibition was over, consequently we cannot go into details. We witnessed enough though to satisfy us that the enviable reputation hitherto acquired by the accomplished principals of this institution of learning was fully sustained by the public exercises of last evening.

They were pure, chaste and refined and reflected great credit upon pupils and principals alike. The Rev. Dr. Car michael, Rector of St. John's, distributed the prizes. The reverend gentleman was in one of his happiest moods and in his address to the audience and to the pupils mingled wit and pleasantry with weighty words of wisdom. He paid a high compliment to the efficiency of the school and to the ability displayed by the principals and assistants in the discharge of the duties of their laborious profession, which was eminently their due, and we were glad to hear the Director so express himself.

The exercises closed about 11 o'clock and everybody returned home with a satisfied feeling of having spent a most delightful evening.

Stoves. Our line of cook stoves includes a variety of standard patterns, embracing the very latest improvements. We will not only satisfy but save money to every customer who buys a stove from us. JACOB'S Hdw. Depot.

Though Shaken Like a Leaf.

By the most trivial causes, weak nerve are easily susceptible of invigoration, a term which also imports, in this instance, quietude, the nervous have but to use Hostetter's Stomach Bitters systematically to overcome that super-sensitiveness of the human sensorium, which is subversive of all bodily comfort and mental tranquility, and which reacts most hurtfully upon the system. The difficulty underlying this, as well as many other ailments, is imperfect assimilation, no less than incomplete digestion of the food. In the discharge of both the digestive and assimilative functions, the Bitters are the most potent, the most reliable auxiliaries. As the body remains vigor and regularly by its aid, the brain and nervous system are also benefited. Persons subject to the influence of malaria, dyspeptic and rheumatic invalids, and persons whose kidneys are inactive, should also, use the Bitters.

Preserve Your Sight!

There is Nothing in the World More Precious.

THE EYE ABOVE ALL OTHER ORGANS displays the infinite power of the Creator. It is the most delicate Organ, the preservation of which requires the greatest care. Too often man, naturally careless, neglects it and only perceives his folly when it is too late and nothing is left to him but bitter regret. Therefore, if an article destined to preserve and strengthen an organ of such absolute necessity, can be obtained, it should be regarded as a great blessing.
