

THE DAILY REVIEW.

VOL. XI. WILMINGTON, N. C., FRIDAY, JULY 29, 1887 NO. 179

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID: One year \$4.00, six months \$2.00, three months \$1.00; one month 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. All communications will report any and all tallies, and be received their paper regularly.

Lieutenant Felix of the French navy, who died of brain fever a few weeks ago in the Congo, where he was engaged on a special mission on behalf of the French government, was the favorite son of the great tragedienne Rachel.

John Ryan, a millionaire merchant of Albany, Ga., last week surprised his two sons, Sam and John F., by presenting them with his store and present worth \$335,000. The young men were entered clerks in the establishment.

The academy of fine arts of Perugia, Italy, has conferred an honor by diploma on Miss Louise Lawson, a young American artist, who has for several years been studying sculpture at Rome. One of her best works is the Rhodan Boy, now on exhibition in New York.

The forthcoming novel of Augusta J. Evans Wilson, "At the Mercy of the Gods," has nothing to do with the title and times of the Roman emperors. The title is merely one of the lady's whims. Mrs. Wilson is living quietly in Asheville. She is wealthy, and has written little since 1875.

Peter Slaughter, colored, was convicted of murder of Alfred Lee, a fellow laborer, in the Calypso county court last Saturday, and sentenced to hang on the 30th of next September. Slaughter claimed that Lee had conspired him, and that he had to kill him to break the spell.

Collis Farbing of Bedford, Ohio, while walking through the new court house at Tiffin with a party of friends suddenly stepped up to the marriage record and dared any young man to take out the papers to make her his own. The challenge was accepted by a young man and the knot was tied the same evening.

The oldest working blacksmith now living is a colored man known as Ozon, Arkansas, as Governor Pickens. He was born in South Carolina in 1787, sold on the block in New Orleans and taken to Arkansas in 1842. Though a centenarian, he supports himself by work at the anvil.

According to an old custom George W. Childs is acting, during the summer, as sexton at the little Episcopal Church at Elberon, N. J. He seats visitors who have no pews of their own and also passes the contribution box. Mr. Childs is very proud of his office and will not accept any other in the gift of the little church.

Six Scotch ballies came to present an address of congratulation to Victoria. They asked what they had to do on entering the queen's presence, and were told they should kiss hands. Thereupon Ballie No. 1, as he solemnly stalked past the throne, raised his hand to his mouth and blew her majesty a kiss. The remaining five followed suit till the queen had a fit of the heartiest laughter she had enjoyed for a long time.

William M. Diarmid, of Sonoma county, California, claims to be the oldest living printer and newspaper writer in the United States. He was born in Edinburgh in 1792, apprenticed as a printer when fourteen years old, came to this country in 1836, worked on various papers in New York and Cincinnati until 1878, when he went to California, and until a year ago wrote for the press.

The Comstock vein has been worked 27 years, and it is estimated that the average has been one man killed in the drifts for each week the mine has been worked—that is 52 times 27—a total of 1,404 men sacrificed in the struggle for the precious metals in this lode. And these are generally strong and brave, and they would not be there. Fire, gas, dead air, falls, caves, breaking machinery, are the varied methods by which this army of men have crossed to the other side, and yet every precaution is taken to protect them.

In treating a negro in Leipsic for an ulcerated affection it was found necessary to replace portions of the skin with pieces taken from one or two white persons. These latter pieces gradually grew darker in color, and finally as black as the patient's own skin. This singular fact led to an experiment being made of transplanting portions of black skin on a white patient, and it was found that in a few weeks these began to grow pale. In less than fourteen weeks they had, in fact, grown so white as not to be distinguishable from the patient's natural skin.

Laid to Rest.
The funeral service over the remains of Mr. Geo. P. Lamb took place yesterday afternoon at St. John's Church, and from thence they were conveyed to Oakdale Cemetery, where they were laid to rest. The pall bearers were Col. John L. Cantwell, Col. F. W. Foster, Maj. D. O'Connor and Messrs P. Heinsberger, L. Brown and L. McDermott.

The Cotton Crop.
In conversation with a prominent railroad official this morning, he informed us that every indication now pointed to an unprecedented large cotton crop, and that the transportation facilities of the railroads leading into the city would be heavily taxed to forward the same to market. The crop is now so far advanced towards maturity that with ordinary susceptible weather from now until picking time begins, an immensely large crop is assured.

The Grange Encampment.
The Grange Encampment at Mount Holly, on the 10th, 11th, 12th and 13th of August next, promises to be a grand affair which will undoubtedly attract a large throng of visitors. Cheap excursion rates will be fixed on the railroads, so as to allow the multitude to attend at the smallest possible cost, and six excursion trains will be run daily from Charlotte to Mt. Holly and return. These will be run on the 9th, 10th, 11th and 12th proximo. It is expected that quite a number from this city who are interested in agriculture, horticulture, &c., will attend.

Base Ball.
The game of base ball at the Seaside grounds yesterday afternoon, between the Wilson and Wilmington nines, resulted in a most pronounced victory for the latter, in a score of 13 to 3. The visitors labored under serious disadvantages in consequence of having two of their best players injured, but it is evident that the home team did their level best. Our boys had become so accustomed to defeat that a victory seemed like a bare possibility, but not a probability, and they were much cheered and encouraged by the result. The Wilson team, with nearly all the other excursionists, returned home last night, and we are glad to know that all were highly pleased with their visit to our city.

The Lawn Party.
It is to be deeply regretted that there was not a larger attendance at the lawn party at the City Hall Park last night, gotten up by the ladies for the benefit of the Cornet Concert Club. There was a fair attendance but the park should have been thronged. Gallant acknowledgment of the efforts of the ladies demanded it and the excellence of the Club, as a musical organization, warranted it. The ladies looked their loveliest and the music of the Club was rendered in their own superb style.

Personal.
Our genial friend, Edwin W. Kerr, Esq., of Clinton, was in the city yesterday. We regret to learn that Mr. John T. Pleasants, the accomplished Associate Editor of the Messenger, is sick and confined to the house. Mr. Thos. S. Radcliffe is in the city for a few days' visit at his old home. Since we saw him last he has traveled extensively in Europe and the North. Mr. DeWitt C. Loye has returned to the city after a three weeks visit to friends at and near Poughkeepsie, where his family will remain for the balance of the Summer.

For Gunners and Farmers.
Owing to a new regulation of the New York Cotton Exchange, on and after September 1st, 1887, cotton buyers in all interior towns will deduct from bales weighing under 400 lbs. 14c. per pound; under 350 pounds, 12c. per pound; and packages less than 300 pounds are not considered bales and are therefore unmerchantable. The gunners and farmers will do well to note this fact in putting up their cotton, and they will also find it to their interest to increase the general average of their bales, as the heavy weight bale from the southwest is, in addition to the superior staple, an additional inducement for northern and European spinners to give their orders to that section.

Change of Base.
MY FRIENDS AND THE PUBLIC ARE respectfully notified that I have removed my shops to Chestnut street, between Front and Water. All orders for work in my line, including repairing, &c., will be done promptly and faithfully. R. F. RISING, Jan 31st.

Self-Sustaining Policies.
THE MUTUAL LIFE INSURANCE CO. OF New York is the only Company in the United States which has in force policies that are self-sustaining. For life insurance that will be cheapest and safest, apply to the Mutual Life, the oldest and largest company in the United States. M. S. WILLARD, Agent, 214 North Water St. July 16.

The Esther Lyons Dramatic Company are booked at the Opera House for one week in September. They will be accompanied by a full band of music.

The Sunday School of the First Baptist Church will meet hereafter, until further notice, at 9.30 a. m. instead of at 4 p. m., as heretofore. The change will go into effect next Sunday morning.

Attention is invited to the advertisement of the Acme Manufacturing Company, as it appears in this issue. The fertilizers have already established for themselves a high reputation, and the matting is becoming more widely known each day. It is sold extensively now in other States.

The quality of grapes that are shipped from this State to the Northern markets is annually increasing, and successful growers and shippers say that there is much money in this branch of horticulture. It so, our farmers should learn more about growing grapes for Northern markets. Captain S. W. Nobles, of this city, one of the largest growers in the State, will deliver an address at the Mt. Holly Grange and Farmers' Encampment next month on this subject.

Indications.
For North Carolina, local rains in Southern portion, fair weather in Northern portion and stationary temperature.

Painful Accident.
We regret to learn that John G. Norwood, the well known carpenter, and one of the most highly esteemed of our colored citizens, met with quite a severe accident on the turpentine, on Tuesday last. He was driving from his summer residence at Greenville to the city, when the horse ran away, throwing him out and fracturing his thigh bone, near the hip. He was taken back to Greenville where at last accounts he was resting comfortably.

Wanted!
10,000 lbs. WOOL, WASHED AND Unwashed
5,000 lbs. Eceswax.
5,000 lbs. Cow Hides.
For which the highest market price will be paid. Consignments solicited. Reap'y. SAMUEL BEAR, JR. No. 10 Market St. July 28th.

Grain Cradles, Grass Blades and Snaths, LAWN MOWERS, &c.

Ever Known in Wilmington
Mr. I. Shrier, desiring to close out every dollar's worth of clothing, gents' furnishing goods and to make quick work of it, will sell out his entire stock regardless of cost. The real cost or actual value of the goods will have nothing to do with the low prices; his main object is to open up in the large and handsome store in the Purcell building with one of the largest and finest stocks of custom made clothing. All goods on hand will be slaughtered off. Read a few of the slashing prices in children's suits: For \$1 worth \$2.25, some at \$1.50 worth \$3; a very handsome suit for \$1.50 worth \$4. On suits the price will be reduced \$3, \$5, \$8 and \$10; in furnishing goods 15, 25 and 33 per cent. Remember this is no sensational humbug scheme. Don't miss the opportunity of getting a bargain of the well known I. Shrier, 114 Market st.

The Acme MANUFACTURING CO.,
MANUFACTURERS OF Fertilizers, Pine Wool and Pine Wool Matting. WILMINGTON, N. C.

THE REPUTATION OF OUR FERTILIZERS, the ACME and GEM, is now established, and the results of three years' use in the hands of the best farmers of this and other States fully attest their value as a high grade manure. The MATTING, made from the leaves of our native pine, has already gained a popularity for comfort and durability equal to any wool carpet, and the demand for it is daily increasing. It has virtues not found in any other fabric. The FIBRE or WOOL is extensively used for upholstering purposes, and as a filling for mattresses is almost equal to hair, being light, elastic and proof against insects. Certificates from reliable parties using our goods can be seen at our office, or will be mailed upon application. July 29th

Do You Know It?
THAT YOU CAN BUY Pianos, Organs, Novels; Blank Books, Paper, Envelopes, Inks, Pens, Pencils, Slates, Muclage, Gold Pens, Spectacles, Albums, Bibles, Testaments, Looking Glasses, Fancy Goods, Base Ball Supplies, Frames, School Books, very cheap at
