stered at the Postoffice at Wilmington, N. C. as second-class matter.

Wi tord Woodruff, who as president of the Twelve Apostles has become the head of the Mormon Church, is a polygamist who for two years has been a lugitive from justice. If the church were really in sympathy with the anti polygamy articles of the constitution which its members have framed and which they promise to support, it would not have put Woodruff as the successor of Taylor. The selection of his man is additional proof that the ew constitution does not represent he real attitude of the church-whose members constitute four-fifths of the population of Utah -toward the aboli ion of polygamy.

A decided difference of opinion exists mong the members of the Marine Sand in Washington regarding the originality of the Boulanger March --Joseph St. George, one of the members of the corps, is positive in his assertion that the first half of the march is stolen, with slight variations, bodily from the "Margherita Polka" Mr. St. George is an Italian He says he was living at Naples when the polka was first given to the public nearly twenty years ago. He was struck by the similarity of the two pieces as soon as the score of the march met his eye. He mentioned this a friend of his in Naples had, or could Harper's Bazar. secure, one in that city. His triend, he says, has been communicated with, but it will be several weeks yet before his reply is received.

St. George's Church, the largest Episcopal church in New York city. and of which the Rev. Mr. Rainstord is the pastor, has just revived the old ecclesiastical office of deaconess, after it had disappeared from the church for centuries. The person so honored is Miss Julia Forneret, a Canadian lany of the utmost zeal and devotion. Miss Forneret will engage in mission work connected with St. George. An account says: "The visitation of the sick, inquiry into the needs of the poor, a helping hand for the myriad ailments which run from basement to garret, in crowded tenement houses of the city, s what Deaconess Ferneret has embraced as her life work. It is certainly a new and distinct departure in the Episcopal Church to consecrate and employ desconesses in its labors. Miss Forneret enjoys the honor of reviving in her person this apostolic privilege of her sex. Mr. Rainsford is hopeful that other pious ladies will soon tollow in the footsteps of such praise worthy ex

One of the most prodigious engineering projects now on the tapis is that for tunneling the \*Rocky Mountains under Tray's Peak which rises no less than 14,441 feet above the level of the sca It is stated that at 4 441 feet beow the peak, by tunneling from east to west for 25,000 feet direct, communication could be opened between the valleys on the Atlantic slope and those on the Pacific side. This would shorten the distance between Denver in Color. ado and Salt Lake City in Utah, and consequently the distance between the Missouri River, say at St. Louis, and San Francisco, nearly 300 miles, and there would be little more required in the way of ascending, or descending. or tunneling mountains. Part of the work has already been accomplished The country from the Missouri, to the foot of the Rockies rises gradually in rolling prairie until an elevation is reached of 5,200 feet above the sea level. The Rockies, themselves rise at various places to a height exceeding 11.000 feet. Of the twenty most famous passes, only seven are below 10,000 feet, while five are upward of 12,000, and one is 13,000 feet. The point from which it is proposed to tunnel is sixty miles due west from Denver, and, although one of the highest peaks, it is by far the narrowest in the great backbone of the American continent.
