WEDNESDAY, AUGUST 17, 1887 ntered at the Postoffice at Wilmington, N. C. as second-class matter.

Dailey reports of mortality show that Asiatic cholera is spreading thro' the coast towns of Southern I:aly Most of the towns from which reports are received are on the Eastern coast of Sicily, but from Messina the disease appears to have been carried Northward o Naples and to several piaces in the neighborhood of that city. Last year

the first cases were found at Brindsi and the disease was carried Northward along the West coast of the Adriatic to Venice and thence into Hungary. This year its path will probably be on the other side of the peninsula. It is believed that Naples will not be scourged sanitary improvements have recently been made in that city, especially with regard to the water supply.

The Democrats in Kentucky did not ose so much in the Legislature as the falling off of their majority on the State ticket would indicate. In the last Legslature the Democrats had 35 members of the Senate and 79 members of the House. In the Legislature of 1887 they Courier Journal reports, 31 members of the Senate and 70 members of the House, a loss of 13 on joint ballot. The Republicans had in the last Legisin the House. In the next Legislature the Democratic figures give the Republicans 7 members of the Senate and 26 members of the House, a gain of ten on joint ballot. The returns on the State ticket have not yet been made public. The Democrats are in no burry.

Dr. A C. Robinson, of St Louis, thinks the American custom of going to man European spas and sanitariums in search of health is reprehensible. There are more and better mineral springs in any one of the United States than can be found in all Germany. A few years Press. ago a well known grain operator. broken down in health, went to Carishad. He sought the advice of the most patient where he was from "I live in St. Louis, Missouri," was the reply. Ah, yes, said the old doctor, "you live, then, but a short distance from the great Hot Springs of Arkansas, the grandest health resort in the world. would advise you to go back at once to America and try the Hot Springs. Ca 1sbad is not for you." The patient came home, went down to Hot Springs for a month, and came back as good a man sale by W. H. Green & Co. as when he was 21 years of age.

Hon. Frank Hard, of Ohio, is very lecided and pronounced in his opinion as regards the next campaign. He was interviewed at St. Paul. Minn., by a correspondent of the New York Herald and the result is published in that paper.

Denrocratic Convention will find it in- destroying all poisonous matter. cumbent upon itself to adopt the planks | Chafing, bruises, humors, eruptions, of the Ohio Democracy in regard to the form of the existing tariff laws, and this will be the sole issue , between the Salt Rheum and Erysipelas, are speedwo parties as far as our standard bearer is concerned. Undoubtedly it will be Cleveland, for under no circumstances will Governor Hill, of New York, be opposed to him. There is an understanding between both of them to this effect, and the e is no opposition in any quarter now. It has been my observation that a man who is weak with the politicians is universally strong with the people, and the efforts made by the incumbent of the White House in the direction of an honest administration of affairs have not been in vain.

"It makes no difference who is nomnated by the Republicans-Blaine, Sherman, Depew, Sheridan or any of the others whose names have been mentioned in connection with the Presidency-Cleveland will defeat any

candidate in opposition to him. Considerable stress has been laid upon the strength of Blaine as regards the Irish vote, but he is not so strong with this element as he was two years ago; and, besides, means will be taken Homes in North Carolina, not considered necessary in the last election. Now that we know where the element of strength is supposed to be, we will devote our energies to weak-ening it, and with good grounds for sue Only 20 Hours Ride from

"During my recent visit to New York I talked with a number of business men who are Republicans, and from the tenor of their remarks I should say that nine-tenths of them would support Cleveland at the polls, and principaily because there has been no serious interruption in the business of the country since the advent of the new administration.'
