The question of nationality in the Catholic Church in the United States was considered at the recent. Baltimore council, and it was there decided that any attempt to nationalize any special district or institutions was not in accordance with the spirit and customs of this English speaking conntry, and

was contrary to the traditions of the Church The authorities in Rome have sanctioned this conclusion, and it was one of the topics that Cardinal Gibbons brought before the Vatican authorities and the Propaganda during his late visit to Rome The matter has, therefore, been carefully weighed. and a decision rendered that the Church

here shall be English speaking and as American as it can be made.

Some singular statements have been nade in the Deutsche Monatschrift con cerning the effect produced by different trades and industrial occupations upon

the general health Among these facts are those contributed by Prof. Hesse, of Leipsic, who points out the deplorable condition of the teeth of bakers, and who also asserts that he is frequently able to indicate the occupation of persons by the condition of their teeth. In

the case of bakers the caries is soft and rapidly progressive; the principal parts attacked are the labial and the buccal surfaces of the teeth, commencing at the cervix and rapidly extending to the grinding surface-the approximal surfaces not seeming to be attacked more than in other trades. Prof. Hesse be-

lieves that the disease is owing to the bonnet for twenty-five years. The teel-
