

THE DAILY REVIEW.

VOL. XI WILMINGTON, N. C., SATURDAY, AUGUST 27, 1887. NO 204

THIS PAPER published every evening, Sundays excepted by JOSH T. JAMES, EDITOR AND PROPRIETOR. SUBSCRIPTIONS POSTAGE PAID. One year \$4.00. Six months, \$2.00. Three months, \$1.00; One month, 35 cents. The paper will be delivered by carriers free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. Subscribers will report any and all failures to receive their paper regularly.

BEST FAMILY MEDICINE
No Household Should be Without It, and by being kept ready for immediate use, will save many an hour of suffering and many a dollar in time and doctors' bills.

THERE IS BUT ONE **SIMMONS' LIVER REGULATOR.** See that you get the genuine with red "Z" on front of wrapper. Prepared only by J. H. ZEILIN & CO., Sole Proprietors, Philadelphia, Pa. Price, \$1.00.

Competition in the electric light business is proving a good thing for New York City. One company, which last year received 70 cents a light, is now offering to furnish some lights as low as 25 cents each. Some bids of other companies are even lower than this, and the highest price named is 60 cents.

President Cleveland says that he has no time to read or reply to the misrepresentations of the World, and has no fear that it will deceive the people as to the policy or course of the administration. The President is quite right, and his confidence in the people in this respect is becoming more justifiable every day.

A Canadian paper has been conducting a canvass on the annexation question. Of the 910 persons who expressed an opinion, 800 favored and 110 opposed annexation. Most of the answers came from Nova Scotians, who were almost unanimous in favor of annexation, and those from Ontario and Quebec gave a majority of nearly two to one that way.

Under the law the time allowed for the redemption of trade dollars will expire September 1. The amount redeemed up to date is a little over \$7,400,000. The number of these dollars, held in this country as estimated by the director of the mint in his report to Congress, is \$7,036,000. The slight excess in redemptions is accounted for by importations for China and Japan.

While the address of the so-called Republican party of Virginia is signed only by "William Mahone, chairman," observant Virginians, reversing the usual quotation, declare that the hand is in the hand of Mahone, but the voice is of John S. Wise, the son of the old Governor who hanged John Brown. John S. Wise is one of the few able politicians whom Mahone enlisted in his earlier fights who still clings to the fortunes of that astute and wily chieftain. He was elected Congressman at large by the Readjuster tidal wave which carried Cameron into the Governor's chair and Riddleberger into the Senate, and expects to be himself elected Governor in a similar reaction. The Washington onslaught on Governor Fitzhugh Lee, who defeated him at the last election, is said to be the unmistakable production of John S. Wise. Mahone is an organizer, a political demagogue, and one of the shrewdest of all shrewd politicians, but he has not the literary capacity and dash which this address evinces.

A Chinese Complexion. When observed in one of the Caucasian race, the yellowish or blue in the blood. Who would be yellow when he or she can exhibit the hue of health on cheek and brow through the aid of Hostetter's Stomach Bitters, an antacid and whose onset after complaint takes refuge to flight. Far upon the tongue, nausea, sick headache, pains under the right ribs and shoulder blade, an unpleasant odor about the mouth, are remediable with this benign alterative, which does not, like a potent cathartic, purgative, or like the mercurial, contaminate the blood. Not so eroded, loosed and regulated by this fine change of the respectable classes, not by start-up of the claims made for it with its performance in every instance when tested.

Electric Bitters.
This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood. Will drive Malaria from the system and prevent as well as cure all Malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded. Price 50 cents and \$1.00 per bottle at W. H. Green & Co.'s Drug Store.

Is Consumption Incurable?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made."
Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by the doctors. Am now in the best of health. Try it. Sample bottles free at W. H. Green & Co.'s Drug Store."

The Big Legged Boy.
It is never the REVIEW's intention to decry worthy objects of charity, but it wishes to call attention to the case of a young negro boy, about 18 years of age, who claims to hail from Charleston, and is a sufferer from the earthquake.

The fellow in question tells a pitiful tale and shows, when permitted, an awful looking leg, which he claims to be the result of a jump he took during the earthquake from the third story of a building in Charleston. He has visited a great many of the residences in this city and told his pitiful tale, and in nearly every instance has been given something to help him along.

A day or two ago he called at a residence and asked for money to buy something to eat. The lady pitied the fellow, and as she had no change in the house, cut a loaf of nice, hot lightbread and gave the boy a good lunch. He hobbled off and when, as he thought he was out of sight, threw the lunch over a fence into a lot he was passing. The boy evidently is only after money and uses his maimed leg to work upon the sympathies of the charitably inclined.

"Take Time by the Forelock."
Wilmington has, without doubt, been visited this Summer by more people from abroad than was ever known before, some of them have come here merely because cheap rates were afforded by the excursions gotten up, others have come on business principles, to look around and see if there was a chance to make the "almighty dollar" spent here return more profit than would accrue from the same amount expended elsewhere.

And knowing as we do, that our merchants are prepared to compete in quality, quantity and prices, not only with the States adjoining us, but even with the Northern markets, when freights and other charges are considered, we see no good reason why the coming Fall trade should not be the most prolific ever known here. The reporter of this paper has conversed with a number of merchants from along the lines of the roads centering here, who came for the first time this Summer, and was assured by them that Wilmington was their preference as a trading market and that they had been convinced that they could do better here than at either Charleston or Richmond, and that in the future they should buy their goods in this city. This is all well for Wilmington and we are glad to see it. In the meantime, our merchants should use every means in their power to let these people know where they are, what they have to sell, and what inducements they have to offer. And right here, with becoming modesty and without any great blowing of our own trumpet, we will say that we honestly believe that the REVIEW is as much read by this class of people as any other paper published in the city, and that a good way for our merchants to attract their attention is to advertise in its columns. Now, gentlemen, "take time by the forelock" and send in your ads.

Rock Crystal Spectacles; and Eyeglasses.
Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye, as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

A Wilmington Enterprise.
The Champion Compress Company's new buildings are the most imposing of its kind, of any buildings in the South, and are now ready for the Fall business.

The Company's plant occupies more than an entire block and cover something over three acres of ground. It presents, on Nutt street, a frontage of 330 feet of solid brick wall, except a ten foot opening or gateway to the court between the buildings, and on Red Cross and Walnut streets the building extends 430 feet to their excellent piers.

By the arrangement of their water front they have splendid accommodation for loading at the same time four ocean steamships and four sailing vessels, besides piers on which eight steamers and lighters can discharge their cargoes of cotton.

The buildings have a storage capacity of 100,000 bales of cotton and handling capacity for 35,000 bales. While the court between the main buildings, which is 66 feet wide by 330 long, will be used by cotton graders and inspectors for working up the stock.

The machinery in use is the most complete and powerful of modern mechanism and the press has a "squeezing" capacity of 1,500 bales a day.—Every department is complete in itself and great care and judgment has been exercised as to details in expediting the handling of the staple. The Atlantic Coast Line's tracks run to the doors of the building on Red Cross street and the water facilities for steamboats and lighters are unsurpassed. The buildings are divided by brick walls and corrugated iron sliding doors, thus making each compartment separate and distinct. This arrangement was made in case of fire; for instance, if fire breaks out in either compartment it will be impossible for it to spread beyond the limits of the compartment in which it originates. Two fire hydrants with sufficient hose are in each compartment and the entire plant is illuminated with gas, each burner being supplied with an automatic lighter. Much hard and heavy work has been done this Summer and the entire plant is now in excellent condition and the immense press rests with its large iron jaws wide open waiting to embrace the new crop as fast as it arrives. The company's

GUANO ELEVATOR.
on the West side of the river is also in excellent condition and is ready for business. The building has a water frontage of 200 feet and runs back 420 feet. It is divided into bins and has a holding capacity of 10,000 tons. Vessels are discharged by a steam elevator which dumps its load into a car. These cars are on inclined tracks and are automatic in their operation, working somewhat similar to the cash system track used by Messrs. Brown & Roddick.

The Champion Compress & Warehouse Company have, by enlarging their heretofore extensive facilities, made preparations for an immense business this year and the indications now are that even with their increased facilities they will be somewhat pushed for room.

A gentleman who was in the city a day or two since informed a REVIEW reporter that he had spent a month at Morehead this season, and while there he heard a good many of the guests say they would spend the Summer at Carolina Beach next season. He says the former guests at Morehead, from points in Georgia, will all stop here next year, because of the shorter distance and superior advantages offered. Get that big hotel ready, gentlemen; you will need it.

What They Are Good For.
BRANDRETH'S PILLS are the best medicine known.

First—They are purely vegetable, in fact a medicated food.

Second—The same dose always produces the same effect.—other purgatives require increased doses and finally cease acting.

Third—They purify the blood.

Fourth—They invigorate the digestion and cleanse the stomach and bowels.

Fifth—They stimulate the liver and carry off vitiated bile and other depraved secretions.

The first two or three doses tell the story. The skin becomes clear; the eyes bright; the mind active; digestion is restored; costiveness cured; the animal vigor is recruited and all decay arrested.

Paints and Varnish. Best in city at JACOBI'S and at lower prices than you can buy elsewhere.

To the Public.

THE UNDERSIGNED, WHO HAS BEEN engaged in the Clothing and Gentlemen's Furnishing Business in this city for nearly twenty years, will within a few weeks remove to new, large and commodious quarters on North Front street, and he takes this opportunity of thanking his many kind friends and patrons for the liberal patronage he has so long received at their hands and to assure them that in the future he will use his best endeavors to please them and retain their valued custom. Respectfully,
I. SHRIER.

In a short time I will go North, not for the purpose of replenishing my stock, but to buy an

Entirely New and Elegant Line of Goods for the Fall and Winter Trade!

I have but a small part of last Winter's stock on hand now, having managed to clean it out last Winter and Spring, but I have a fair line of Summer goods in the way, which

Must and Will be Disposed of!

I do not want to carry a dollar's worth of old stock to my new quarters, if it can possibly be avoided. I have no room for it there and have determined to get rid of everything before I move.

My goods have been marked down to almost nominal prices, and I am offering

Extraordinary Inducements to Cash Buyers!

I will refuse no reasonable offer and I guarantee everything just as it is represented to be when sold. Come and see the goods and the prices, but do not buy unless you find it is to your advantage to do so.

I. SHRIER,
The Old Reliable Clothier, aug 18 114 Market Street.
