

THE DAILY REVIEW.

VOL. XI

WILMINGTON, N. C., TUESDAY, AUGUST 30, 1887.

NO. 206

THIS PAPER
published every evening, Sundays ex-
cepted by
JOSH T. JAMES,
EDITOR AND PROPRIETOR.
SUBSCRIPTIONS POSTAGE PAID:
Per Annum \$4.00. Six months, \$2.00. Three
months, \$1.00. One month, 35 cents.
The paper will be delivered by carriers free
in any part of the city, at the above
rates, and at 10 cents per week
elsewhere. Subscribers will report any and all fail-
ures to receive their paper regularly.

PURELY VEGETABLE.
It acts with extraordinary efficacy on the
**LIVER, KIDNEYS,
AND BOWELS.**
AN EFFECTUAL SPECIFIC FOR
Biliousness, Sick Headache,
Dyspepsia, Constipation,
Yellow Fever, Jaundice,
Mental Depression, Colic.

PERMANENT MEDICINE

Household Should be Without It.
It is a safe and reliable remedy for all the ailments
of the liver, kidneys and bowels, and is
the only medicine that can be taken
without danger to the health.

THERE IS BUT ONE
SIMMONS' LIVER REGULATOR

See that you get the genuine with red "Z"
on front of wrapper. Prepared only by
J. H. ZEILIN & CO., Sole Proprietors,
Philadelphia, Pa.
PRICE, \$1.00.

The first advertisements known of
England were in the shape of small
bills affixed to the doors of St. Paul's
church.

The first book containing musical
characters was issued in 1496 from the
press of the celebrated "Wynken de
Worde."

An O'Neill, Neb. girl fell out of a
second-story window to the ground
and landed uninjured on her rub-
ber bustle.

The first record of a judge's salary
gives £13 13s. 4d. as the stipend of
John Littleton, judge of the king's
bench 1496.

The amount annually expended for
benevolent purposes in New York is
estimated at about \$7,500,000. There
are 330 charitable societies and institu-
tions.

Europe's annual expenditures for
armies and fleets is \$3,867,000. The
national debts incurred by war aggre-
gate \$94,113,057,655, on which \$1,000,-
000,000 is annually paid out for in-
terest.

An English statesman asserts that
not only do married men live longer
than bachelors but that the latter are
more criminal. He says that there are
30 criminals among every 1,000 bache-
lors, while among married men the
ratio is only 18.

The left leg of Howard Williamson,
a farmer of Mount Sterling, Ky., began
to harden early in the year, and has
gradually ossified until it is now said
to be like a piece of sculptured marble.
He suffers no pain from it.

The biggest wedding on the Euro-
pean tapis at present is that of Mlle.
Helen Betty de Rothschild with Baron
Stephen Gustavus van de Haar. The
bride has a fortune of six millions
sterling, which will be greatly increas-
ed at the death of her mother, so she
is decidedly a catch for the Belgian
bridegroom, who has no fortune.

The United States ship Powhatan,
the last of the old side wheelers, was
sold for \$18,255 at the Brooklyn navy-
yard recently to the Cromwell and
Middleton Railroad Company, and will
be used in future to carry coal up Long
Island Sound. The Powhatan was
considered a few years ago the best
ship in our navy, next to the Trenton.
For many years she was detailed on
special duty and carried fourteen guns.

People who complain of the noise of
the Sunday church bells in New York
would find it worth their while to spend
a few weeks traveling in Spain, which
is one of the most devout countries
under the sun. Ninety thousand bells
send forth their summons to prayers
from the steeples of 24,000 churches.
The weight of these bells amounts to
something like 95,000,000 of Spanish
pounds, and the value to about 10,000,-
000 francs.

The programme of the Piedmont Ex-
position, which will open at Atlanta,
Ga., on October 10, shows that Bir-
mingham, Anniston, Rome, Gadsden,
Duncan, Sheffield, Talladega, Talla-
paha and other mineral and manufac-
turing centres, with thirty counties and

seven railroad companies in the Pied-
mont region, will make elaborate col-
lective exhibits of agricultural and in-
dustrial products, minerals and woods.
These collective exhibits, with thou-
sands of individual exhibits, will make
the largest and richest exposition of
Southern resources ever seen.

There is a big stir in Raleigh over the
drummers' license affair, and much
speculation is indulged in as to the de-
cision of the lower Federal Court at
which Judge Bond and Seymour will
preside, as well as that of the U. S.
Supreme Court, to which the case is
sure to be carried on appeal. The de-
cision in the Memphis case, however,
would seem to indicate that there is
very little to hope from the higher
tribunal. It is a matter of something
more than \$80,000 to the State. The
Raleigh correspondent of the Peters-
burg Index Appeal says:

Should it turn out that the decision
in the drummers' license case, to be
tried in the Federal Court here in No-
vember, is adverse to North Carolina,
it will cause the greatest dissatisfaction
throughout the State. It is claimed to
be the grossest injustice that our home
merchants have to take out license to
solicit trade when those of other States
can do so without the payment of any
tax whatever or at the slightest cost.
And yet this is the law in case of an
adverse decision, which now seems
highly probable, if not certain. It will
not be surprising if merchants in the
State refuse to obey a law which is so
manifestly unjust and discriminating.
At the time the legislature passed the
drummers' license law, of course, they
could not foresee the turn matters
have taken, or else it is fair to presume
it never would have been enacted. It
is hardly a question of doubt that
it will be repealed at the next session,
but this cannot be until January, 1889, and until then
the state treasurer has no discretion in the
matter and must demand the payment
of the tax, however oppressive and un-
just it be. It may be, however, that
the attorney-general of North Caro-
lina, in view of the peculiar hardship it
would work upon our home merchants,
will advocate the suspension of that
portion of the revenue law. If he does,
and the state treasurer should govern
his course accordingly, it is certain he
would be sustained by the representa-
tives of the people of all parties. It is
unquestionable that the drummers' tax
is unpopular, because it is looked upon
as an indirect way of taxing the citizens
of the state for many of the necessities
of life. It can safely be said that, how-
ever the decision may be rendered in
November, at the next session of the
legislature it will be decided that the
drummers' tax "must go."

They are having lively times now
down in Cuba and anarchy is threaten-
ed at Havana. Yesterday's New York
Herald furnishes the following account,
in the shape of a special from Key
West:

Advices received last night state that
the greatest excitement prevails in
Havana, occasioned by the recent acts
of Captain General Marin in taking
possession of the Custom House and
placing its officials under arrest.

The city is in charge of the regular
troops, and the situation daily becomes
more desperate, recalling the events at
tending the massacre of medical stu-
dents in 1871. A reign of terror pre-
vails, and it is expected that Havana
will soon be declared in a state of siege.
Already several conflicts have occurred
between troops and civilians, resulting
in the killing of some and the wound-
ing of others.

The Captain General has issued a
proclamation calling on the rioters to
maintain order, otherwise severe mea-
sures will be adopted to uphold the law.
Daily conferences are held with his
military chiefs and measures are being
adopted to prevent the general uprising
which is imminent. The colonels of all
the volunteer regiments were called to-
gether at the palace and ordered to dis-
arm their forces, otherwise they would
be held responsible for what might
occur.

The volunteers, who are opposed to
Marin and encouraged in their opposi-
tion by political leaders desirous of his
removal, have joined the rioters.

Several meetings have been held in
the Park, where cheers of "Viva Sala-
manca!" were given, supplemented
with cries of "Down with Marin!"

The city is placarded with calls for a
general mass meeting at the Park to-
night, requesting all to bring arms.
The call is believed to have emanated
from the volunteers, and serious trouble
is expected.

So far the Captain General controls
the situation with the regular troops,
which have been distributed throughout
the city, prepared for any emergency.
Artillery has been placed in command-
ing positions, while troops are station-
ed in towns adjoining Havana and kept
under arms, ready to move at a mo-
ment's notice. Those in Havana have
been quartered in barracks for several
days. The battalion of Isabel Segunda
and the forces of the Queen's regiment
are under arms at the Cabanas and
Castillo del Principe, and a company of
artillery are at the armory in Compos-
tela street. Orderlies are hurrying in
all directions, conveying secret orders.
The forces of the Orden Publico,
mounted and afoot, are distributed
throughout the city.

All confidence appears to be gone.
Even the cable officials are suspected,
and military are placed in charge to
prevent despatches being sent of what
is transpiring. All the important des-

patches between the officials in Havana
and the authorities in Madrid are
brought here by special messengers for
transmission; the replies being also sent
to this office.

Those acquainted with General Marin
state that he will carry out his policy of
purifying the public service regardless
of consequences, and already a feeling
of uneasiness permeates every branch
thereof.

Alejandro Gonzales Olivarez, the In-
tendente General of the Customs of the
Island of Cuba, has resigned and he
sailed yesterday for Spain. Four cus-
toms officers and several other em-
ployees passed through here last night
en route also for Spain.

A Sound Legal Opinion.

E. Bainbridge Munday, Esq., County
Att'y., Cay county, Tex. says: "Have
used Electric Bitters with most happy
results. My brother also was very low
with Malarial Fever and Jaundice, but
was cured by timely use of this medi-
cine. Am satisfied Electric Bitters
saved his life."

Mr. D. I. Wilcoxson, of Horse Cave,
Ky., adds a like testimony, saying: "He
positively believes he would have
died, had it not been for Electric Bit-
ters."

The great remedy will ward off, as
well as cure all Malarial Diseases, and
for all Kidney, Liver and Stomach Dis-
orders stands unequalled. Price 50c.
and \$1. at W. H. Green & Co's

Don't Experiment.

You cannot afford to waste time in
experimenting when your lungs are in
danger. Consumption always seems,
at first, only a cold. Do not permit any
dealer to impose upon you with some
cheap imitation of Dr. King's New Dis-
covery for Consumption, Coughs and
Colds, but be sure you get the genuine.
Because he can make more profit he
may tell you he has something just as
good, or just the same. Don't be de-
ceived, but insist upon getting Dr.
King's New Discovery, which is guar-
anteed to give relief in all Throat,
Lung and Chest affections. Trial bot-
tles free at W. H. Green & Co's. Large
bottles \$1.

LOCAL NEWS.

C. W. LATES-Cotton is Coming In
FENNEL & DANIEL-Telescopes
HEINSBERGER'S-New Check Books

Don't forget the moonlight excursion
to night to Carolina Beach.

This "cool spell in August" has con-
tinued longer than it generally does.

Rice birds are selling for 30 to 35
cents a dozen and they are getting fat.

The pile of shavings and dirt on
Dock street, referred to by the REVIEW,
has been removed.

At 3 o'clock this afternoon the ther-
mometer stood at 67, just one degree
above Summer heat.

The colored excursion to Raleigh,
which left here last night on the C. C.
R. R., was poorly attended.

The second excursion for the pleas-
ure of the poor, under the auspices of
the Messenger, was given to-day.

You will find hoes, forks, shovels,
spades, scythes, swaths and farming
tools of all kinds at JACOBI'S Hdw.
Depot.

Capt. Snell, of the steamer Louise,
carried another large moonlight excu-
sion party from Southport to Fort Cas-
well last night.

There were heavy rains last Sat-
urday, and yet the streets are now dry
and dusty. This goes to show what a
splendid dry climate ours is.

The Summer absentees are returning
to the city somewhat faster than they
left. The cool weather has something
to do with it, but the near approach
of the business season has the greatest
effect.

Deputy Sheriff Collins, of Pender
county, arrived in the city this morn-
ing with a colored youth, who was com-
mitted to jail to await the charge of
larceny, at the next term of Pender
county Court.

The Postoffice Department has begun
the issue of the new postal laws and
regulations. There are about 60,000
copies to be distributed, and it is not
expected that the distribution will be
completed before September 10.

There is said to be a typographical
error in spelling the word "trust" on
the back of the new five-dollar silver
certificates. There is an "a" for a "u,"
making it "trast." It will be found
right over the letter "t" in the word
"States." People who have five-dollar
silver certificates can look the matter
up. Lacking the aforesaid V, we are
not in a condition to make the investi-
gation.

Indications.
For North Carolina, fair weather,
easterly winds and a slight rise in tem-
perature.

Whereabouts Unknown.

Mr. S. VanAmringe, Clerk of the
Superior Court, has a letter for delivery
addressed to "J. N. Ballantine, or,
Ballantine Family, of New Hanover."
He sent it to the Postoffice and it was
returned to him, as the parties could
not be found. If we are not mistaken
there was a family of this name here
many years ago but it seems that no
traces of them can be found now. Any
one who may know their address will
probably be doing them a favor by
sending it to Mr. VanAmringe.

The cheapest place to buy your school
books and school stationery is at Heins-
berger's.

New Cotton Regulations.

A number of papers in the South, the
DAILY REVIEW among the number,
recently published what purported to
be new regulations as to the baling of
cotton, adopted by the New York Cot-
ton Exchange. It was a floating para-
graph and was but partially correct, as
it is now given out by the Superinten-
dent of the Exchange that while no
merchant can be compelled to accept a
bale weighing less than 300 pounds,
there will be no reduction made in the
price of cotton for bales of less weight
than 400 pounds, as was stated to be
the case in the paragraph alluded to.

The Freshet.

The water is still very high in the
Cape Fear but it is running off rapidly.
Capt. Robeson, of the steamer A. P.
Hurt, reports that it had fallen about a
foot and a half when he left Fayette-
ville yesterday. The magnificent crops
on the bottom lands along the river are
now under water. There was no time
to cut the corn and carry it off. It is
impossible as yet to say how great the
damage will be. The rise was a sudden
one and the fall will probably be rapid,
but this will depend upon a contin-
gency. If there are no further rains in
the interior the water may run off be-
fore the crops are entirely ruined, but if
another freshet should come right be-
hind this, then the corn will all be ir-
retrievably destroyed. We may be able
to give the percentage of loss in to-
morrow's issue.

A Home Enterprise.

An enterprise recently established in
this city and to which we have occa-
sionally alluded, is known as the Caro-
lina Chemical Company. The works
are located in the Eastern suburbs of
the city, on the old mill tract near Belle-
vue Cemetery, and ample capital has
been subscribed to back up the under-
taking. Medicines are made there un-
der what is known as the "Knobloch
Process of Dry Distillation" discovered
and perfected by the late Prof. C.
A. Knobloch, in 1879, and which is
now the exclusive property of this com-
pany. The medicines made by this
process are extracted from plants and
barks grown in this section of the
State and are the results of years of
experience and of careful investigation.
The members of the company are all
representative business men of this
city.

The company will start out next week
an expedition which is to introduce
these medicines into various parts of
South Carolina and Georgia. It will
go overland. They have purchased a
magnificent wagon which will stop at
towns and villages on the route, where
entertainments will be given and at
which the virtues of the medicines will
be set forth by lecturers thoroughly
qualified to make them known.

**How to Overcome the Dan-
gers of Exp sure**

Francis O'Reilly, the well-known
livery man, No. 18 Prince Street, New
York, says of ALLCOCK'S POROUS
PLASTERS:

"For the last forty-two years I have
been engaged in the livery and hacking
business. I am greatly aided by my
four boys. We are much exposed to
the weather, and we have found ALL-
COCK'S PLASTERS of very great service.
We use them as chest protectors, plac-
ing one on the chest and one on the pit
of the stomach. They not only ward
off the cold, but act as a tonic."

We are frequently affected with rheu-
matism, kinks in the back, and pains
in the side; but one or two of ALL-
COCK'S PLASTERS quickly cure us. My
wife and daughter have been using
ALLCOCK'S PLASTERS for weak back
and think the world of them. I have
now been using them twenty years,
and always have a box in the house."

We would advise all our readers in
need of shirts, to stop at the Wilming-
ton Shirt Factory and get the best
white shirts in the land at 75 cents.
J. ELSBACH, Prop., 37 Market street.

The receipts of cotton at this port to-
day foot up 110 bales.

The farmers in this section have
about finished pulling fodder.

School Books and School Stationery
you can buy cheapest at Heinsberger's.

The receipts of cotton on this date
last year were 10 bales. To-day they
foot up 110.

Hon. Daniel L. Russell is still in New
York and hence we have not been able
to glean anything new relative to the
W. O. & E. C. R. R.

Smoking tobacco is said to be one of
the best barometers in the world. It
was cloudy this afternoon but the to-
bacco was very dry and crisp. That
means no rain. Let's see what the re-
sult will really be.

Steamship Benefactor, from New
York, arrived to-day at 2:30 o'clock
with a full cargo. Capt. Chichester
reports that the gas and bell buoy at
Cape Hatteras is turned upside down
and has been in this position for ten
days.

It Pays.

Mr. A. F. Lucas says that the apple
cider made by him sells like wildfire
since the little notice of it which appear-
ed in the REVIEW. One of our sub-
scribers in South Carolina sent in his
first order for five barrels. Mr. Lucas
has been compelled to make addi-
tions to his plant to keep up with his
orders. This is another instance of the
benefits of advertising in the DAILY
REVIEW.

City Court.

The Mayor had a small docket this
morning.

The first case called was that of two
white men, charged with assault and
battery, continued from yesterday.
For the want of sufficient evidence, the
case was dismissed.

Robt. McEroy was arraigned on a
charge of larceny, was found guilty and
was required to give bond in the sum
of \$100 for his appearance at the next
term of the Criminal Court.

Persons.

Mr. J. R. Kenly and family returned
from the Rocks this morning.

Mr. M. Cronly has returned to the
city from a visit to the Western part of
the State.

Messrs J. H. Tiekin, Wilkin Rod-
dick, M. H. Curran, H. C. Canady and
A. LeG. Wilkinson arrived on the
steamship Benefactor from New York
to-day.

Mr. B. G. Empe, of the firm of
Thurber, Gore & Co., of Chicago, and
B. G. Empe & Co., of this city, is here
and will probably remain during the
cotton season.

Mr. Walter Smallbones and his wife
were passengers on the steamship
Umbria, which arrived at New York
on Sunday, and are expected here to-
night. They had a rough time in the
passage over. The Umbria was struck
by a cyclone last Friday when off the
Banks, and about 600 miles Northeast
of Sandy Hook. An enormous wave
struck the ship at the same moment
that the wind took her and for four
hours there was a fearful gale. Had a
less seaworthy boat than the Umbria
been there she might have gone to the
bottom.

At Wrightsville Yesterday.

The regatta at Wrightsville yesterday
afternoon was won by the Lillian
Florence, Capt. H. M. Bowden, the
Glide coming in second. The other
yachts contesting were the Hermit,
Mable, Louie and Sprite.

The regatta was followed by a tub
race in which there were nine partici-
pants, three of them young ladies. All
but one of the tubs, that in which was
Master E. S. Burr, upset during the
race and hence the prize, a big water-
melon, was awarded that young gentle-
man.

**Rock Crystal Spectacles and
Eyeglasses.**

Advice to old and young: In select-
ing spectacles you should be cautious
not to take more magnifying power
than has been lost to the eye, as in the
same proportion that you pass that
point of increase, will cause you fur-
ther injury to the eye. Using glasses
of stronger power than is necessary is
the daily cause of premature old age to
the sight. You can get the best at
Heinsberger's.

Paints and Varnish. Best in city at
JACOBI'S and at lower prices than you
can buy elsewhere.

Are you going to build, repair or
paint? Then buy your material from
JACOBI'S Hdw. Depot. He will supply
you with the best and save you money.

It will be glad to receive communication
from our friends on any and all subjects
of general interest on
The name of the writer must always be
given to the Editor.
Communications must be written on
one side of the paper.
Personalities must be avoided.
and it is especially and particularly un-
sued that the Editor does not always endorse
the views of correspondents unless so in-
dicated in the editorial columns.

NEW ADVERTISEMENTS.
