

THE DAILY REVIEW

VOL. XI. WILMINGTON, N. C., TUESDAY, SEPTEMBER 6, 1887 NO. 212

A plague of ants is reported from Nancy, in France. The insects were of immense size, some having wings. They fell in such large numbers that the inhabitants thought they were having a repetition of one of the Egyptian plagues. The thick black flakes kept falling for an hour, and every part of the city was covered. It is supposed that the visitation was the forerunner of a violent storm which swept over the city the next day.

About a year ago a young man named Saunders, living in Huntingdon, England, stabbed his sweetheart in the chest with a sword-cane. The girl apparently recovered, but she has always insisted that a piece of the weapon must have broken off and remained in the wound. Prof. Humphreys, of Addenbroke's Hospital, Cambridge, has just succeeded in extracting from the girl's body a piece of the blade more than six inches long. It was taken out from her back, broken end first, showing that it had turned completely around since she was stabbed.

Personal.
Mr. N. H. Frohlichstein, of Mobile, Ala., writes: I take great pleasure in recommending Dr. King's New Discovery for Consumption, having used it for a severe attack of Bronchitis and Catarrh. It gave me instant relief and entirely cured me and I have not been afflicted since. I also beg to state that I had tried other remedies with no good result. Have also used Electric Bitters and Dr. King's New Life Pills, both of which I can recommend.
Dr. King's New Discovery for Consumption, Coughs and Colds, is sold on a positive guarantee. Trial bottles free at W. H. Green & Co's drug store.

Wonderful Cures.
W. D. Hoyt & Co., Wholesale and Retail Druggists of Rome, Ga., say: We have been selling Dr. King's New Discovery, Electric Bitters and Bucklen's Arnica Salve for two years. Have never handled remedies that sell as well, or give such universal satisfaction. There have been some wonderful cures effected by these medicines in this city. Several cases of pronounced Consumption have been entirely cured by the use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by W. H. Green & Co.

Scuppernon grapes are scarce and sell for 40 cents a peck.
Plenty of good meats in market this morning, but everything else was scarce.

Rice birds are fat now, but they are still scarce and high. They were selling this morning at 35 cents a dozen.

The steamship *Regulator*, Captain Ingram, arrived from New York this morning at 11:15 o'clock. Miss Katie Lord and Mr. Walter Burgwyn were passengers.

The British steamship *Huy Green*, 1,209 tons, arrived this morning from Madeira, consigned to Messrs. R. E. Heide & Co. This is the first British steamship of the season.

Our Wilmington delicacies are appreciated at the North. Mr. J. W. Gay shipped this morning a lot of rice birds from Orton plantation to Col. K. M. Marchison, in New York.

Indication.
For North Carolina, warmer and fair weather and light to fresh variable winds.

City Court.

Chas. Shepard, George Couley, alias "Frenchie," and James Davis were arraigned for disorderly conduct. They were found guilty and a fine of \$20 or 30 days' imprisonment was imposed on each.
The case of Sarah Frisar, alias "Black Sarah," and Mary Davis, charged with disorderly conduct, were continued.

Rock Crystal Spectacles and Eyeglasses.

Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye, as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

A Pretty Thing.

A pretty thing in nautical matters is to be seen at Mr. John Smith's place, on North Water street, opposite the Produce Exchange. It is in the shape of a full-rigged ship, under full sail, enclosed in a glass case. She rests in a sea made of putty, a good imitation and is accompanied by a pilot boat near at hand and a steam tug is seen just coming out of port. It cannot well be described here in detail but must be seen to be fully appreciated. It is a beautiful piece of work and was made by a German by the name of Crook, who did all of the wood work with a pocket knife.

An Enquiry.

What has become of the matter of the proposed macadamized road to the National Cemetery? This is the question propounded by a great many citizens, and all of the farmers who travel by that road, to and from the city. The National Cemetery is situated some little distance beyond the eastern boundary of the city, and on the banks of a stream of water, but the road leading thereto is worse than bad. We think it the duty of the government to build a good road to the last resting place of the soldier, so that those of our citizens who desire may visit their graves.

Centennial of the Constitution.

A hundred years ago, September 17, the Constitution was adopted by the Convention sitting in Carpenters' Hall, Philadelphia. The September *Wide Awake* celebrates the event with a paper by Annie Sawyer Downs, setting forth in brief the situation out of which the Constitution came; with engravings and portraits. This paper is so important as a very short and easy statement of one of the greatest achievements in history that we should be glad to print it entire. For contrast, skipping some bits of poetry Lucy's High Tea, by Sophie May, comes next—a little story for very little girls, which every reader of whatever age will find more than delight in. There are the usual eighty pages; Charles Egbert Craddock's story, and a great deal more. The publishers offer to send a specimen copy (back number of course) for five cents. D. Lothrop Company, Boston.

Audit and Finance.

The Board of Audit and Finance, at their regular meeting yesterday afternoon, audited and approved bills for current expenses amounting to \$5,915.14; bonds, \$4,200; coupons, \$702. Seven bonds and forty-five coupons, redeemed and cancelled, were burned in the presence of the board.

A communication from Mr. J. I. Macks, attorney for the Ganewell Fire Alarm Company, was read. It was in relation to the proposed purchase by the city of the fire alarm system now in use, and offering, as additional inducements, that the city authorities give a note for the purchase money, which cannot be negotiated, but be only payable to the said company; and that a provision be inserted in the note that in case the city desires to renew the said note, it may do so for a further term of two years, at the same rate of interest. Laid on the table.

The Board approved of the increase in salary of the Superintendent of Lights, voted by the Board of Aldermen, from \$50 to \$75 per month, to take effect August 1st.

A communication was received from the Clarendon Water Works Company, offering to furnish gratuitously a supply of water for the three drinking fountains to be erected by the city, on condition that the mechanical construction of the fountains shall be subject to the approval of the Water Works Company; the water mains to be paid for by the city, and that ordinances be passed and enforced to restrict the use of water to the legitimate purpose of a drinking fountain—that is, to prevent the water being carried away in vessels &c., or diverted to other uses.

The Board has approved the appropriation of \$550 for the purchase of three drinking fountains.

Grandest Outfitting Establishment in the South.

I. Shrier, on the completion of his new store in the Parcell House building, will add a full line of shoes for men, boys and children. Men's, boy's and children's hats and caps. Gent's turkish goods of every description. Also, trunks, valises, umbrellas, &c., &c., which will be sold at the very lowest figures. The Fall and Winter display of men's, boy's and children's clothing will be positively the largest and finest in Wilmington.

Board of Aldermen.

The Board met yesterday afternoon in regular monthly session.

Mayor Fowler stated that Mr. Geo. H. Chadbourn, President of the First National Bank, was present and desired to address the Board.
Mr. Chadbourn said that he appeared in behalf of the bank; he read the tax laws of the State as enacted by the last General Assembly and argued that an unjust discrimination was made therein against National Banks, in requiring the listing for taxation of the shares of both resident and non-resident stockholders. He said that the Board of County Commissioners had been applied to for relief and that the chairman of that Board had written to State Treasurer Bain in regard to the matter; but the only answer received was that the law was explicit. He had listed, under the law, all the stock, both of residents and non-residents, but had entered his protest against it. All he asked of the Board was to be allowed to list on the same terms as State banks.

The Mayor said it was evident that the law made a discrimination against National Banks, and on motion of Alderman King the matter was referred to the Finance Committee with power to act.

Alderman King, from the committee on Public Buildings, reported that the contracts for repairing the city court room and building a new guard house had been awarded to Mr. Post.

Alderman Pearsall reported that the committee on Streets and Wharves had contracted with R. P. McDougall for two wagons, to cost \$80 each. Approved.

Alderman Dudley, from the committee on Hospital, reported that managers of that institution were put to a great deal of inconvenience by the delay experienced in having to await the action of the Board of Audit and Finance in signing warrants and desired to bring the matter to the attention of that Board.

In reply to a question as to the proposed city fountains, the Mayor said that the Board of Audit and Finance had approved of the appropriation for that purpose.

The Mayor said that the First National Bank had just placed \$130,000 of city bonds without compensation therefor. He suggested that the bank should be remunerated for its services, and a commission of one per cent. be paid.

Alderman Pearsall moved that the bank be paid one-fourth of one per cent. and expenses. Adopted.

Petitions for permission to erect buildings were received from Mary H. Blocker and D. J. Reeves.

The Mayor suggested that the ordinance licensing dance houses be repealed. He regards them as a great nuisance.

A resolution offered by Alderman Walker to repeal the ordinance was adopted.

Mayor Fowler said there was a great deal of building going on and it was necessary to have a regular city surveyor.

On motion of Alderman Price, Mr. Chase, Superintendent of the Clarendon Water Works, was elected City Surveyor.

A communication was received from Little Columbia Fire Co. No. 5, asking for repairs to their engine house. Referred to the Committee and Chief of the Fire Department.

Alderman Pearsall offered a resolution, which was adopted, that the Chief of the Fire Department be requested to adopt some signal by which, in case of an alarm of fire, notification will be given the public when the fire is out, and when the alarm turns out to be false.

On motion of Alderman Dudley the Chief of the Fire Department was requested to make monthly reports to the Board.

A Fact to be Remembered.

Do not be deceived by misrepresentation. Ask your druggist for ALLCOCK'S POROUS PLASTERS and let no explanation or solicitation induce you to accept a substitute.
