CONSTIPATION

Called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the stomach and bowels. It is caused by a torpid liver, not enough bile being secreted from the liver to produce Nature's own cathartic, and is generally accompanied with such results as

Loss of Appetite, Sick Headache, Bad Breath, etc.

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be tonic as well, and not produce any greater costiveness. To secure after its use a habit of body without changing a regular or disorganizing the system

My attention, after suffering with Constipation for two or three years, was called to Simmons' Liver Regulator, and, having tried almost everything else, concluded to try it. I first took a small quantity, as per directions, after each meal. I found that it had done me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it, but have no use for it, it having cured me."—Geo. W. Sims, Asst. Clerk Superior Court, Bibb Co., Ga.

A mud turtle with "1830" burned on its back was recently found in Horse Creek, Madison county, Ill.

A man in Maine has a hen which is sure death on a mouse. He claims that, in the often catches several a day.

Belle Boyd, the spy, is lecturing in Nebraska. Her subject matter is composed mainly of war reminiscences. She is almost 50 years old.

Ben Butler heads the list of money making lawyers of the country. His fortune is estimated at \$3,500,000 and his annual practice nets him \$100,000.

Dr. Parvater, of Vienna, says never smoke on an empty stomach, don't eat the pipe or cigar continuously in the mouth, never smoke a foul pipe, and quit coffee when smoking.

The tallest man in the country is said to be Henry A. Cooper, of Lockport, N. Y., who was born at York, Eng., in 1860. He is 8 feet 2 inches in height and weighs 350 pounds. His hand is 23 inches and his foot 17 inches long. He was brought to this country for exhibition.

One of the most successful temperance workers beyond the Mississippi is Miss Laura Winkler, of Iowa. She was born blind, but her earnest zeal is not impaired by any serious extent by her affliction. Miss Winkler's favorite field is the workshop. She visits factories during the noon hour and makes personal appeal to the workmen to abstain from alcohol.

There is something curious about the American silver dollar and half-dollars of the coinage of 1864. In the year 1864, something like 20,000 of the dollars were coined; but it is a singular fact, as is now known, that not one of them was in circulation. Yet the most valuable of all American coins are two 1864 dollars which are now in well-known collections. They are valued at \$2,000 each.

There is a bed of rock salt on the Rock Desert in California, supposed to have been deposited by the gradual evaporation of the inland sea that once stretched over that vast depression. The Southern Pacific railroad, in laying a track to the salt bed, was obliged to build the bed of the road on blocks of the beautiful rock crystals. This is the only railroad in the world that is ballasted with salt. The saline deposit is said to be fifty miles long, and the supply is inexhaustible.

Col. J. C. Andrews is known as "The Diamond King," of San Francisco, and his store is a "Diamond Palace." There are diamonds set in the store, and of the establishment. He reports wearing on ruby surroundings his left little solitaire blue chain dandruff-studded with diamonds on the left side of the crown under a massive gold tiara.

Some 500 excursionists arrived in the city yesterday afternoon from Smithfield, about 50 of whom are white. They are all having a good time. Some have gone to Carolina Beach, some to the Sound and others are enjoying themselves in the city. They leave this afternoon at 5 o'clock for their homes.

The receipts of cotton at this port today foot up 1,728 bales, against 349 bales for same date last year.

The wind has been from the East today, and rather high, and as it is very dry clouds of dust have been whirled through the streets.

The stalls in the three city markets here rented at auction this morning, but we have been unable to get the report. Messrs. Collier & Co. were the auctioneers.

Mr. F. W. Ortman, of the Club House, on Second street, advertises in this issue the first New River oysters of the season, which he will serve up in any style desired.

The steamer *Cape Fear* arrived yesterday afternoon about 5 o'clock. Capt. Tomlinson states that he saved most of the cotton that he threw overboard, though much of it is in a damaged condition. The extent of the loss cannot yet be accurately ascertained.

Lawu Party. This evening, at the residence of Mr. Samuel L. Yopp, corner of Sixth and Bladen streets, a Lawu Party will be given by the ladies of Grace Methodist Church residing in the Northern portion of city, in what is generally termed "Brooklyn," for the benefit of that church. This is a favorable opportunity for aiding a good cause.

Sultan Mule Hassan's favorite occupation is decapitating criminals with his own royal hand. When criminals are lacking, his Majesty, it is said, dispenses with supererogatory couriers.

Mr. James Skelden, superintendent of Low Moor furnace, in Augusta county, says that iron can be produced in Virginia cheaper than in Alabama. In May last the production for seven days was 2,493 tons, and the yield from virgin ore over 43 per cent. of metallic iron. The company makes its own coke, having one hundred and fifty five ovens in operation, and consumes, helping another Virginia industry eight hundred and twenty-five tons of Peachontas coal daily.

A test of a fire-proof paint was made at Rockaway Beach last week. On the line of the New York and Rockaway Beach railroad is a trestle four and three-quarter miles in length. At the Hammel's station end some 200 feet had been painted with the fire-proof paint, and to thoroughly test the efficiency of the mixture J. E. Winslow, superintendent of construction, caused the fire-box of an engine to be dumped on the trestle. Live coals covered the ties and lodged on the chords of the bridge and settled in between the timbers. The burning coals grew dull and finally cooled without burning the wood work.

Brace Up. You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very bad, cheap whiskey, and which stimulate you for an hour, then leave you in worse condition than before. What you want is an alternative to purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at W. H. Green & Co's Drug Store.

Their Business Booming. Probably no one thing has caused such a general revival of trade at W. H. Green & Co's Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Wanted to Teach. In an examination of applicants for teachers' certificates at Burgaw, recently, the following answers were given to the questions propounded to an "intelligent" and "educated" man and brother, who aspired to the proud privilege of teaching the young idea how to shoot:

Question—When was Pender county established? Answer—In 1832.

Question—After whom was it named? Answer—After Gen. Pemberton.

Question—And how does it rank with the other counties of the State? Answer—Has the fine Court House in the State and produces tar, pitch and turpentine and other tropical fruits.

A Handsome Turnout. The turnout of the Carolina Chemical Concert Company appeared on the streets this morning and attracted much attention. It consists of a large wagon, with seats upholstered in red plush with a Brussels carpet on the floor and a platform which can be extended in the rear. It was drawn by two powerful bay horses, with Mr. Ed Jones as driver. The wagon was designed by Prof. Twining, the Manager of the Concert Company, and was built by Mr. Thos. Ransley, and the running gear was made by Mr. R. P. McDougal. The entire outfit was made up here at home. The company will drive four horses, although but two appeared in harness to-day. The first entertainment will be given here to-morrow, after which the company will take to the road.

Auditor and Finance. The Board of Audit and Finance met yesterday in regular session. Present: R. J. Jones, Esq., Chairman, and Messrs. W. I. Gore and John W. Hewitt.

The action of the Board of Aldermen in contracting with R. P. McDougal for two wagons, complete, at \$80 each, was concurred in. Also, the action of the Board in repealing the ordinance licensing dance houses. Also, in the matter of compensation to the First National Bank for placing \$130,000 of city bonds, allowing 4 of one per cent. and expenses.

A communication from police officer Knudt, setting forth that he had been robbed of his watch and chain while trying to stop a row in a sailor's boarding house on Nutt street, besides having been beaten and having his clothing torn, and asking that he be allowed remuneration (\$15) for the watch and chain, was allowed, on the Mayor's recommendation, which stated that "officer Knudt is efficient in the discharge of his duty, and I commend his action, and recommend his petition."

Bills for current expenses, amounting to \$716 69 were audited and approved and the Board adjourned.

The Fire Department. A meeting of the officers of the various fire organizations in this city was held last night in Rankin Hall, with Chief Oldenbuttel presiding.

On motion of Foreman Morrissy, of the Cape Fear Company, it was agreed to allow the company that connected first to the hydrant the control of the pipe, in all cases; and that the company first to lay hose shall be entitled to attach their engine to the hydrant and "play" on the fire; unless said engine shall not arrive in ten minutes, when the chief will use his discretion as to which engine shall be attached to the hydrant.

It was ordered by the chief that no two engines shall attach to the same hydrant.

On motion of Assistant Chief Newman, Mayor Fowler will be requested to instruct the police to ring all of the church bells and fire alarms at each and every fire; also, that the Mayor be requested to instruct the police to compel all vehicles to keep out of the path of the fire engines, hose reels and firemen during a fire. In case of violation of these instructions, the driver of the vehicle to be arrested.

It was also ordered that three strokes of the bell shall signify that the fire is out or that it is a false alarm and that a general call for the entire fire department shall be signified by twelve strokes.

These rules to go into effect on the 25th of September.

A Home Enterprise. Mr. A. H. Morris, of Teachey's, N. C., a gentleman well known in this city, commenced gathering and shipping roots and herbs about eight years ago. While in this business he received a communication from an eminent physician of New York, in which he described certain roots and herbs and stated that if Mr. Morris could find them in this section he would prove a benefactor to the human race. Mr. Morris would not trust his own judgment, but submitted several samples to the physician and received from him the gratifying assurance that he had the right things. He was instructed by other eminent physicians how to distill these herbs and two years ago he commenced the distillation in a small way. Since then the business has rapidly and wonderfully improved until it is now in the hands of a duly organized company, with largely increased facilities.

A few months ago Mr. Morris described its virtues to some of our most intelligent business men, and the result was that Messrs. R. W. Hicks, R. S. Love, C. S. Love, George Love and A. H. Morris made application for and were granted a patent for the medicine, which they have named the "Elixir of Life." It has effected several wonderful cures in our city, the certificates of which can be seen on application to Mr. George Love, the manager. The company have now excellent facilities for the manufacture of this medicine, which is carried on at Teachey's, in Duplin county, 38 miles from Wilmington.

Board of Aldermen. A special meeting of the Board of Aldermen was held yesterday afternoon to consider a proposition from the committee on Markets, relative to the renting of the stalls. All the members of the Board were present with the exception of Alderman Fishblate.

Alderman Hall, as chairman of the committee, said that the meeting had been called at his request, to see if some arrangement could not be made with regard to renting the stalls, so as to avoid the difficulties and unpleasant feelings that had heretofore attended the annual renting.

The ordinance requiring the stalls to be rented to the highest bidder on the 20th of September, was read. Alderman Hall said that every year there were men present at the bidding who would run the price of stalls up, and if they bid them off would sub-let them if they could, and failing, would throw the stalls back again upon the city. If the same course was followed, the same parties would probably bid in the stalls again and pursue the policy they had heretofore done. He asked that the committee be given the right to accept or reject all offers.

City Attorney Cutlar said the plan heretofore pursued did not work well; the best plan would be to rent the stalls by the month; the rent payable in advance. It would be better to turn the market houses over to the market committee and let them rent on the best terms they could, and take security or not, as they saw fit.

Alderman Dudley said that this was just the trouble the committee five years ago had to contend with, and was the reason why the premium system was adopted. He was in favor of reenacting the same system; it worked well when the ordinance was carried out; but it was not enforced in some instances.

Alderman Price made a motion to amend the ordinance so as to allow the committee to make engagements with present tenants. The motion was seconded by Alderman Sampson.

Alderman Pearsall objected to the committee having so much latitude. He suggested an amendment requiring tenants to pay monthly in advance and in default be liable to ejection.

Alderman Dudley asked if it would not kill the old ordinance. The Mayor said that it would.

Alderman Hall asked that the motion be amended so that the city attorney be added to the committee, and that they should be allowed to compromise or arrange the suits now pending.

The amendment was accepted, and the motion of Alderman Price as amended was adopted.

Alderman King called the attention of the board to the condition of the Opera House, the windows of which needed repairs, and asked that the committee be empowered to make them. He had objection to asking a specific amount, because contractors would be likely to take advantage of it. He wanted to have the work done as cheaply as possible.

The motion was agreed to, and there being no other business the board adjourned.

A Ducking. A party of young men, three in number, started over the river yesterday to kill rice birds. They got near the other side, when the canoe they were in capsized, and precipitated them into the water. They lost their grub and ammunition, and got no birds, only three ducks.

Incendiary Attempt. Mr. F. J. Lord noticed early this morning that a plank had been torn from the side of a building belonging to him, on the corner of South Water and Ann streets, and occupied by Messrs Fowler & Green as a manufactory of stocks for woodware. He sent a carpenter to repair the damage and the man found, when he began the work, that some scoundrel had placed a lot of matches under some carefully arranged pieces of bark and had tried to ignite it, but fortunately failed in doing so. There is no clue to the incendiary.

City Court. The first case called this morning was that of Isabella Hurst, for disorderly conduct, continued from yesterday. She was discharged.

Amanda Smith and Thos. Yong were next arraigned for disorderly conduct. They were discharged.

W. M. Gorin, who was ordered to leave the city yesterday by 4 o'clock, failed to do so. He was brought before the Court and ordered to be closely confined for 20 days.

David Bryant, charged with throwing stones on the streets, was fined \$5 or 10 days below.

A Hint to our People. Mr. Thomas A. Darby, one of our Wilmington boys who went South ten or twelve years ago, and who located in Florida, is now Manager of the Palatka Milling Company, located at the town of that name, which is at the head of deep water navigation on the St. John's River. Mr. Darby had occasion to write us a few days since and chose to do so on a sheet of paper used by the Palatka Board of Trade. This paper is arranged as to make an attractive advertisement in itself. On one page there is a map of the town, showing its location on the river and the various railroad lines which centre there, and another page is filled with descriptions tersely and paragraphically presented, of the advantages and facilities the town possesses and the inducements it holds out to settlers.

Wouldn't it be a good idea for the Water street merchants of this city, as well as the Produce Exchange, to use some such paper as this?

Personal. Capt. T. J. Southerland has returned to the city from Philadelphia.

Lieut. Gov. Stedman returned to the city last night from New York.

Mr. Willie White Harriss is now at Monroe in the cotton market there.

Mr. W. M. Cumming has gone to Fayetteville on a visit to friends in that ancient town.

Rev. D. H. Tuttle left here this morning on a visit to his parents in Caldwell county.

Hon. Daniel L. Russell has returned from New York, where he has been for nearly a month.

Mr. Thos. C. Craft has returned from his visit to the furniture markets of the North and East.

Rev. Dr. Yates has returned from Lincolnton considerably improved by his brief residence there.

Mr. W. E. Thigpen, of Chadbourne, was in the city to-day and paid us a pleasant visit this afternoon.

Mr. Horton Freeman, formerly of this city but now of Portsmouth, Va., is in the city on a visit to his parents.

Dr. W. J. H. Bellamy, who attended the Medical Congress in Washington City, and went thence to New York, has returned to the city.

We are glad to be able to state that Mr. E. H. Sneed, who has been quite sick for some time past, has so far recovered as to be able to appear at his place of business to-day.

Greensboro Patriot: Mr. J. R. Pad-dison, a young man who moved to Mt. Airy about 16 months ago and engaged in general merchandising, by hard work and close attention to business is now one of the leading merchants of the town. He occupies a building 23x75 feet, two stories and basement, and carries an average stock of about \$4,000. He carries the largest and best selected stock of ladies' fine dress goods and ladies' misses' and children's shoes in town.

Dog Collars. Large assortment just received. Can buy a nice collar from 25 cents up, at JACOBI'S Hdw. Depot.

PLEASE NOTICE. We will be glad to receive communications from our friends on any and all subjects of general interest but the name of the writer must always be stated to the Editor. Communications must be written on one side of the paper. Personalities must be avoided. And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so set in the editorial columns.

The time of the Criminal Court today was occupied with a long list of petty cases, which we have thought scarcely interesting enough for the space required to publish them.

Jim Wilbert, the murderer, has not yet been apprehended. He passed Lake Waccamaw this morning at 8 o'clock, according to a dispatch received here by Mayor Fowler. Officers Burlington and Woebe were not far behind and will probably overhail him before he reaches the South Carolina line, unless he takes to the swamps.

Are you going to build, repair or paint? Then buy your material from JACOBI'S Hdw. Depot. He will supply you with the best and save you money.

Capt. Brock Dead! It is with great regret that we chronicle here to-day the death of that genial and estimable gentleman, Capt. H. C. Brock, for so many years past the efficient Chief of Police of this city. He died this morning at 11:30 o'clock, at the residence of his brother, at Doylestown, Penn., where he had been on a visit to his relatives. He left here yesterday a week ago with the excursion party for Philadelphia and was apparently then in perfect health.

We do not know Capt. Brock's age, but we think that it must have been about 60 years. He has been long a resident of this city and for many years was a passenger conductor on the Wilmington & Weldon R. R. The cause of his death is unknown here but is thought to have been paralysis. The first intimation of his sickness was received here yesterday morning and his wife and children left last night for Doylestown, where they could not have arrived before 4 o'clock this afternoon. The interment will probably take place at Doylestown.

Indications. For North Carolina, light local rains in Southern portions, fair weather in Northern portion, slight changes in temperature, and light to fresh Easterly winds.
