## CONSTIPATION

It is called the "Father of Diseases," because it is the most common ailment through which the system is attacked. It is the result of the absorption of poisonous gases in the retention of decayed and effete matter in the stomach, liver, and bowels. It is caused by a torpid liver, not enough bile being secreted from the blood to produce Nature's own cathartic, and is generally accompanied with such results as:

Loss of Appetite, Sick Headache, Bad Breath, etc. The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but also as a tonic, and produce a regular habit of body without changing the diet or disorganizing the system.

My attention, after suffering with Constipation for over three years, was called to Simmons' Liver Regulator, and, having tried almost everything else, I concluded to try it. I first took a few pills, and afterwards reduced the dose to a teaspoonful, and it had done me so much good that I continued to take it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house, and would not be without it, but have no use for it, it having cured me. —Geo. W. Sims, Asst. Clerk Superior Court, Bibb Co., Ga.

The Louisville high school has fallen into the line of progress and added type-writing and stenography to its curriculum. The girls are also to be taught the art of cookery.

An Iowa girl who was voted the handsomest lady in the county fainted away three times in succession when the joyful news was brought to her. A different man caught her each time.

At Montgomery, N. Y., there was a frost on the 17th inst., so heavy that it could be scooped up with the hand after 8 o'clock in the morning. Ice formed on low lands, and the thermometer stood one degree below freezing point.

There are now in New England 191,000 people who can neither read nor write; in the State of Pennsylvania 322,000, and in the State of New York 241,000, while in the United States there are nearly 6,000,000 who can neither read nor write.

### The Grand Jury of Chesterfield county South Carolina, reports that miscegenation is making rapid strides in that region. On one plantation the white owner has been indicted for keeping colored concubines, and seven of his colored farm hands have been indicted for living with white women.

### Some of the most valuable curiosities of the Cosnola Cyprus collection in the New York Metropolitan museum were stolen recently, among them the famous gold armlets. The armlets were bands of soft, pure gold, an inch in width and very heavy. They were found in Cyprus with about 1,200 other gold and silver ornaments and diamonds, and were supposed to be over 3,300 years old. With them they discovered the official seal of Thotmes III. of Egypt, the Babylonian cylinders that are said to be 3,500 years old, and a gold armlet said to have belonged to the king of Paphos.

### Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are listless, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very bad, cheap whiskey, and which stimulate you for an hour, then leave you in worse condition than before. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at W. H. Green & Co's Drug Store.

### Their Business Booming.

Probably no one thing has caused such a general revival of trade at W. H. Green & Co's Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. ### The Cold Wave.

A cold wave struck us last night and for the first time this season overcoats and fires were in order this morning. The wave came from the Northwest. The lowest temperature reached this morning was at 3 o'clock, when it was 48, as reported by the Signal Office. The indications are that the atmosphere will be bracingly cool and pleasant for several days to come.

### Opera House.

The dramatic season of Wilmington for 1887 was opened at the Opera House last night by the appearance of the Florence J. Bindley troupe in a laughable farce entitled "Excitement." There was only a fair audience, but those who were present were delighted with the vivacious acting of Miss Bindley, who is one of the most youthful stars now on the American stage, as well as by the excellent support, which carried the play through without any of those disagreeable *hi's* which so often mar an otherwise creditable performance. To-night the troupe will appear in "A Heroine in Rags" with Miss Bindley, of course, as the stellar attraction, and it is hoped that they may be greeted with a crowded house. The Company is a good one, and well worthy the patronage of the theatre going public.

### Our Little Worries and Ills.

It is the little things of life, the worries of to-day and to-morrow, that make the crow's feet around our eyes. So the little pains of an hour or a minute break down the constitution. Look after the little ills. BRANDRETH'S PILLS cure dyspepsia, or indigestion, headache, pain in the shoulders, coughs, tightness of the chest, dizziness, sour stomach, bad taste in the mouth, bilious attacks, palpitation of the heart, inflammation of the lungs. Pain in the region of the kidneys, and a hundred other painful symptoms are the offspring of dyspepsia. One or two Pills every night is sufficient.

The cheapest place to buy your school books and school stationery is at Heinsberger's.

### On to Onslow!

We understand that the Wilmington, Onslow & East Carolina R. R. Company are now ready to put out the first eight miles of their road to contract. The line has not yet been definitely determined upon but it will run near Wrightsville, say within a mile or so of the Sound, and from that point a branch will be built which will run to the Sound and thence across to the beach.

The company will ask that the subscription made by the city, as declared by the result of the recent election, be issued in bonds, to be placed in the hands of some reliable trust company, under cover of an agreement signed by the city authorities and the company, to be paid out to the latter as fast as each mile is completed.

As regards any threatened injunction, the company say that they will welcome a suit of this nature just as soon as one can be instituted, and the sooner, the better, for the reason that the company want the validity of the bonds established by the Courts so that nobody can ever afterwards question them.

### Farmers' Meeting in Pender.

We publish herewith the official report of the meeting of Pender county farmers at Burgaw on Thursday and the formation then of a County Agricultural Society.

A very respectable number of the leading farmers of Pender county assembled at the Court House in Burgaw on the 22nd, Sept., 1887, in accordance with previous public notice. The object was to organize a County Agricultural Society. The meeting was called to order by the temporary chairman, B. T. Williams Esq. At the request of the chairman Dr. S. S. Satchell explained the object of the meeting, and in doing so made to the farmers of the county some plain, practical remarks. His suggestions are carried out they will tend to the rapid advancement of agriculture.

The State Immigration Agent, J. T. Patrick, Esq., being present by invitation was called upon. He set forth the advantages of organization, as the most efficient means of advancing home industries.

A committee of one from each township was then appointed to nominate officers for a permanent organization.

In the absence of said committee John Robinson, Esq., the former commissioner of our State Agricultural Department, being present, was called upon for a speech. He pointed out some of the mistakes of the farmers, and told them how they could make farming profitable. He pledged the support of the State Agricultural Department.

D. B. Nicholson, Esq., Editor Clinton *Caucasian*, being present, was called out. He responded happily. While he did not claim to be a farmer, he showed deep interest on the cause of farming and made a good agricultural address.

The committee on permanent organization then reported, recommending the following gentleman as officers:

- Thomas J. Armstrong, Esq.,—President.
  - R. T. Williams, Esq.,—Vice President.
  - Robert I. Durham, Esq.,—Secretary.
  - R. N. Collins, Esq.,—Assistant Secretary.
  - R. H. Murphy, Esq.,—Treasurer.
- The following gentlemen were recommended as an Executive Committee:
- Grant Township—Luke H. McClanmy.
  - Holly—W. J. Player.
  - Holden—Pittigrew Moore.
  - Union—Dr. W. C. Murphy.
  - Columbia—A. C. Ward.
  - Caswell—James F. Moore.
  - Cainatuck—D. J. Corbett.
  - Lincoln—James F. Bell.
  - Rocky Point—D. H. Armstrong.
  - Messrs. G. F. Walker, John R. Bannerman and E. Mc. Moore were appointed a committee to draft a constitution. Reported, and a constitution adopted.

A committee was also appointed to prepare by-laws and regulations. On motion of R. N. Collins, Esq., it was ordered that these proceedings be signed by the President and Secretary, and forwarded to the DAILY REVIEW for publication, with a request that the *Star* and *Messenger* copy.

Adjourned to meet at Burgaw, at 11 o'clock a. m., on Saturday, Oct. 22nd, 1887. T. J. ARMSTRONG, Pres. R. I. DURHAM, Secretary.

### Good Words For Us.

Bro. Miller, of the *Shelby Aurora*, has some very pleasant things to say of our "City by the Sea." In behalf of the people of Wilmington we thank him. We copy his article here:

The city of Wilmington was founded in the year 1730. It has never grown to be a large city, its population now being only about 22,000. Still it has always been North Carolina's largest town, her metropolis; and as such Carolinians should all feel a deep interest in their chief city.

There were causes why Wilmington did not grow to the size and acquire the influence of Charleston and Richmond, the chief cities of South Carolina and Virginia. It is not our purpose to even mention these causes. The object we have in view is to speak a good word for Wilmington, and aid her in the new race she is beginning to run on the track of progress, with her sister cities by the sea.

For years past Wilmington has been laying the foundations of greater prosperity than ever in the past. She, years ago, secured her three great railroad lines, running North, East and West. Her river and ocean channel over the bar has, from six feet to sixteen, thus opening the way for large ships instead of small craft. The city has so far been beautifully planned and substantially built. It has been made very healthy by wise sanitary improvements. Good schools have been organized. Electric lights illuminate the city. She has her banks, her factories, her grain mills, her great saw mills, her reliable wholesale houses and first-class business men. All these things will convince any one that Wilmington's day of marked prosperity is just beginning.

We are told that the leading business men, in fact, all her people are becoming more closely united, more metropolitan, than ever before in her career. This means business for North Carolina's metropolis. Let them cultivate broad views; let them reach out into the interior of the State, and across the Atlantic, and bring in trade and traders. Let Wilmington have more boldness, and assert her right to rule, as the metropolis of the old North State, and she will find loyal subjects all over the State, from the seaboard across the Blue Ridge. This great State feels the want of a commercial and social head. Let Wilmington become in fact, what she is in form and name, this head. Every other State has a metropolis.

All our inland people, towns and counties should aid Wilmington in asserting her rights as the metropolis. Let the Legislature do the same, by protecting Wilmington from discrimination by railroads, and by extending to her maritime business every rightful advantage.
