Travel on the Pike. The past season has been a lively one on the turnpike between this city and the Sound. The beautiful shell road has been alive with vehicles, of almost all classes and descriptions, from early morn to dewy eve and almost, during the Summer moonlit nights, from dewy eve to early morn. But few of our readers have any definite idea as to the ac-17,000. This is the number of vehicles which passed over the road during the year but does not express the number of passengers. This is not so readily ascertained, and is really to some extent a matter of conjecture. Mr. Haar, the Superintendent of the Road, estimates them three for each vehicle, while others say two. We are rather inclined to Mr. Haar's estimate as it is really an infrequent thing for one travelling on the pike to meet with a buggy containing less than two persons while it is seldom that a two-seated vehicle carries less than four, frequently, indeed carrying more than that number. Then, again, two different lines of wagonettes have been running, generally with full seats, daily throughout the Summer season. We do not, therefore, think Mr. Haar's estimate an excessive one. Figuring upon it, we find, therefore, that 51,000 pas sengers have gone over the shell road, from Wilmington to the Sound,

## during the past year. City Court.

There was a large docket again this morning for the Mayor's consideration, which was expeditiously disposed of in the following order:

I. B. Rhodes was charged with selling liquor on Sunday last. The prosecuting witness tried to make it appear that the defendant kept his bar open for a considerable time after being notified last Saturday night that it was midnight and that he sold liquor during the time. This was entirely disproved by an abundance of testimony and the defendant

was discharged. David Moore and Stephen Jones, both colored, were charged with fast driving and the testimony showed that in returning with their hose reels to their respective engine houses a few days since from the foot of Market street, where they ception. The event will be in honor had been called by an alarm of fire, they had a little race between Front and Second streets, for which they were fined \$5 each.

James T. Davis, colored, was guilty of very disorderly conduct near days.

Annie Williams, colored, and a denizen of the Hollow, was drunk and disorderly last night, for which she was required to pay a fine of \$20 or work 30 days on the public

Henry Riley, a young tramp, not more than 14 years of age, but who has visited this city professionally on a previous occasion, at which time he was escorted outside the city limits by the police, was brought up this morning on the same old charge of vagrancy. He had nothing to say in his defence and the sentence of the Court was that he be made to work 10 days on the public streets and then put on his travels.

In one case af assault and battery judgment was suspended for good and sufficient consideration. We suppress names for cogent reasons.

#### The Citizen's Meeting.

A correspondent elsewhere in this issue presents some sound views relative to the proposed meeting on Thursday in regard to a subscrip-Valley R. R. which we are sure will meet with attention. The meeting was called at 12 o'clock, that being general interest held there are usually called and to business men it is thought to be the most convenient one in the day. As we understand it, this meeting is merely a preliminary one, to set the ball in motion, and we suppose that measures will be adopted then looking to a mass meeting of our people gen- years old at 50c, 75c and \$1. erally, in some large hall, and at an hour when all can attend and where all who wish to speak on the subject may be heard. this is what we would suggest. The desire of those most earnest in their advocacy of the extension of the C. F. & Y. V. R. R. to this city is that everybody shall be fully posted as to the merits of the ques tion, for they believe, with much reason, that the more thoroughly the matter is understood, the more favorable will be the popular sentiment in behalf of the scheme.

The attention of our correspondent is invited to the fact that in the call, as published in the REVIEW, it was stated that a meeting of the citizens generally would be held and that it was expected that all who could do so would attend.
