ing to Others. At Mill Grove, Ind., lives John Snider, the "Walking Man." In 1884 he felt muscular and nervous exhaustion, a strange restlessness, general uneasiness, and the only selief he could get was by constant walking For twenty-eight months he has tramped in a circle around and around his house, resting only four hours each day, and it is estimated he has covered more space than the circumference of the globe. He has at tracted universal attention, been visited by hundreds of curiosity seekers, and has really become a public character. His nervousness has shown itself in walking; other people's nervousness acts in other ways. Sometimes the person is rest has nervous headtrembles, aches, a sinking at the pit of the stomach a loss of appetite, inability to sleep, forebodings, and general exhaustion. At other times irritability, peevishness and faultfinding are felt and life is a fearful When these things come on something must be done, for this nervousness will lead to insomnia, insanity, or death. Many people take morphine, opium, or narcotics; but they only deaden the nerves for the time being. What people need is to assit Nature a little, and Nature itself will restore the nerve-tissue and bring health and strength. The best researches of modern scientists have proven that there is nothing for this purpose equal to pure spirits, and no spirits so reliable and valuable as Duffy's Pure Malt Whiskey. An authority on this subject, being no less than the well-known Dr. Caldwell, who treats

only nervous diseases, says: In typhoid and nervous exhaustion I know o no remedy to approach or equal Duffy's Pure Malt Whiskey to bridge over a crisis or mend the broken cup of health in an emergency of immediate danger. This may be said of alcoholin general, were it not the fact that many of our whiskies are so sophisticated. These impurities are in the Duffy's Pure Malt Whiskey entirely absent, thus affording a pure and safe stimulant

JOHN D. CALDWELL, M. D., Neurologist, 90 N. Charles st., Baltimore, Md. All people have nervous exhaustion a

times, but only those who are careless per mit it to continue. When it does continue it runs into the worst known troubles. which make life a builden and death a relief. People who allow this are alone to blame, for it is comparatively easy to overcome, and can be absolutely controlled. By the use of the pure stimulant (but not intoxicant) above named, these fearful things may be avoided, and health and happiness succeed to sickness and misery.

Mr- Mulhall proves from the census returns that between 1841 and 1881 the number of farms in Ireland was reduced from 862,516 to 499,108, and the number of houses from 1,-328.839 to 915,108. The disappearance of 327,400 farms and 414,731 houses in forty years he considers a conclusive proof of evictions. These figures he brings down to 1886, proving that during the Victorian reign 480,000 families, representing over 3,000,000 of population, have been The Government returns shows that 4,186,000 persons have emigrated Mr. Mulhall's estimate, three-fourths of these were evicted peasants.

Last October, at the Richmond Convention of the Knightsof Labor, a membership of one million men and women was credited on the books of the general secretary. This year, by way of contrast, but little over 500,000 will be claimed. The Philadelphia correspondent of the New York Tribwne says: "Revelations from the inside show that an amazing state of demoralization exists within the general headquarters here. Heated squabbles between the members of the general execu tive board are reported to be of daily occurrence and open ruptures are threatened. The large corps of clerks and assistants employed in the tablishment are said to be on the very verge of mutiny, and their dislike of the general officers who have control over them is a subject of constant comment."

The Cincinnati Chamber of Comnerce has been thrown into a fever of excitement by the application of a bootblack for a place among the capitalists. His application has been made in due form, having been proposed and seconded by regular members in good standing. The applicant is the official, bootblack of the Chamber of Commerce, and by his strict honesty and good judgment has made himself a general favorite with the members. says that he is able to buy a certificate and pay his dues, and that he seeks membership solely to benefit himself personally and financially He has friends who will stick to him and push his election, though a large number of the members are much horrified at his audacity and will try to put down his presumption with a shower of black balls.

In summing up the industrial development of the south since 1879-80, the Record shows that 15,000 miles of railroad have been built, costing together with improvements to old roads over \$600,000,000. The assessed value of property has increased upwards of 1,000 millions, and since 1879 the cotton crop alone has sold for \$2,500,000,000 or an average of \$300,000,000 a year, and the total value of southern agricultural products being over \$700,000,000 a

The Raleigh correspondent of the Petersburg Index-Appeal furnishes the following bit of interesting information:

A considerable sensation exists here over the unexpected probability that one of our most worthy citizens is to become the possessor of considerable wealth by the death of a gentleman in Texas, whose real name has, until recently, been somewhat a mystery.
