## CONSTIPATION

Called the "Father of Diseases," because there is no medium through which disease so often attacks the system as by the absorption of poisonous gases in the intestines of decayed and effete matter from the stomach and bowels. It is caused by a Torpid Liver, not enough bile being secreted from the blood to produce a regular habit of body without changing the system with such results as

## Loss of Appetite, Sick Headache, Bad Breath, etc.

The treatment of Constipation does not consist merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after the use greater costiveness. To secure a regular habit of body without changing the system or disorganizing the system

"My attention, after suffering with Constipation for two or three years, was called to Simmons' Liver Regulator, and, having tried almost everything else, concluded to try it. I first took a small amount and afterwards reduced the dose to a teaspoonful, as per directions, after each meal. I found that it had done me so much good that I continued it until I took two bottles. Since then I have not experienced any difficulty. I keep it in my house and would not be without it, but have no use for it, it having cured me."  
—Geo. W. Sims, Asst. Clerk Superior Court, Bibb Co., Ga.

The temperance women of England have been getting up a jubilee memorial to the Queen, in the shape of a petition that the bar-rooms be closed on Sunday. It now weighs several hundred pounds and bears three-quarters of a million signatures.

Arlington, Ga. is pleased with its high license experiment. It fixed the whiskey license at \$800, and two men at once paid \$1,000 into the treasury. Of this 1,000 will be used in building a school-house, and the town feels rich with its balance of \$600 in bank.

Capt. Bill Kendrick, a temperance orator, who took part in the recent Prohibition campaign in Florida, told a Marion County audience on the Monday before the election that the majority for the dry ticket would be 187 in the county, and that is exactly what it turned out to be.

Mrs. Gen. T. R. Cobb, of Atlanta, Ga., has the original draft of the Confederate Constitution as it came from the committee who drafted it. It is said that Photographer Sarony, of New York city, owns the Constitution as finally adopted by the Confederate Congress.

The New York Tribune says: "Assistant Secretary of the Treasury Thompson, who is acting secretary in Mr. Fairchild's absence, is mentioned as one of the handsomest members of the Government. He has a young face, snow-white hair and a graceful manner."

A wax figure of Pranzini, the famous French murderer, has been added to the Chamber of Horrors in Mme. Tussaud's Exhibition in London. The clothes are like those worn by him on the morning of his execution, and the figure has been placed near the guillotine, which is an exact model of the one which sliced his head off.

The New York Times says: All signs point to a decline of railroad earnings next year, and to a falling off in general business corresponding to the decreased railroad construction and the shrinkage in real estate speculation. The railroad construction of this year was estimated at 12,000 miles, and the plans were made for that. Most likely it will fall short of this amount, but whatever is built this year is certain to be in excess of what will be built next year."

Where are They?  
Mayor Fowler received a telegram this morning, sent by Mr. J. A. Spain, mayor of Talbot, Ga., making inquiries for the family of Mr. James R. Davis, who is now critically sick at that place. Mr. Davis was formerly a well known printer here and married in this city. Any one knowing the whereabouts of his family would confer a favor by notifying Mayor Spain, of Talbot, Ga.

The receipts of cotton at this port for the week ended October 8, 1887, foot up 11,405 bales, as against 13,800 bales for the corresponding week last year; a decrease of 2,395 bales. The receipts for the crop year to date foot up 49,996 bales, as against 26,602 bales for the corresponding period last year; an increase of 23,394 bales.

Rock Crystal Spectacles and Eyeglasses.  
Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye, as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

Cotton.

## Good Luck.

A party of fishermen went out from Southport on Thursday last to try their luck at fishing on the briny deep. Success crowned their efforts and in a remarkably short space of time they had of trout and other fish about 3,000. Good work, and it made fish very cheap in Southport for a while.

## A Retrospect.

This is a pleasant anniversary for Bro. Bonitz of the *Messenger*, for it was just 19 years ago to-day, on the 8th day of October, 1868, that he issued the first number of the *Goldboro Messenger*. We remember the occasion well, and we remember, too, what a splendid career the *Messenger* had and what a splendid fight it made against the odious and tyrannical Canby constitution and the satrapy which was then in power in North Carolina. We remember, too, how eloquently Bro. Bonitz enforced in person the arguments of his paper and how a good hickory stick played a prominent part in the campaign. That was about the same time, we believe, that the editors of the *Journal*, Maj. J. A. Engelhard and a brother of the Editor of the *Review*, were conducting a similarly successful campaign in Wilmington.

Ah, well! And has it been 19 years since all this happened? Tempus fugit, by jingo!

## Across the Mountains.

There is a movement on foot—and with every prospect of success—to extend the Carolina Central Railroad from its present Western terminus at Rutherfordton to Asheville, although as yet the matter has not been definitely settled. The citizens of Asheville and Buncombe county, as well as those residing along the line of the projected extension, are anxious that the road should be built to this city and have held many meetings looking to the attainment of that object. Colonel John M. Robinson, the president of the road, has written a letter in which he states that if the people of Buncombe county will subscribe \$100,000 to the stock, besides giving the road good terminal facilities at Asheville and guaranteeing an outlet from that city to other points, he will bring the road there.

The fact is that the people want the extension; Asheville would be greatly benefited thereby, and it is almost a necessity for the interest and prosperity of the road that it should be built through to Asheville. All these favorable considerations point almost unerringly to the early extension of the road to that point, but nothing has yet been officially determined in regard to the matter.

Sheriff Johnston, of Pender county, was in the city yesterday.

Mr. W. A. French, of Messrs. Geo. R. French & Sons, has gone to Boston on a business trip. Mrs. French is with him.

Mr. Charles L. Sanders, a member of Howard Relief Fire Engine Company, is very sick at the boarding house of Messrs. H. L. Vollers & Brother, on North Water street.

It was reported here yesterday afternoon and this morning that Mr. John Sheehan, the druggist, corner Fifth and Queen streets, had been stricken with paralysis. We are glad to know that the report is entirely untrue. Mr. Sheehan was in our office to-day and exhibited no evidence of paralysis. He had a severe chill yesterday afternoon but has recovered and is now in his usual health.

We learn from our neighbor of the *Messenger* that our clever young friend, Mr. C. E. Borden, has been temporarily assigned to the position of Superintendent of the Navassa Fertilizing Works, made vacant by the death of the lamented Col. C. L. Grafflin. Mr. Borden has been in the employment of the Navassa Company for the past twelve years as chemist, assistant superintendent and in other responsibilities. He is a zealous worker and is thoroughly capable and familiar with the various details of the works.

The Board of Aldermen, at their meeting night-before-last, violated the letter, if not the spirit, of the Inter-State Commerce bill. They had a long Hall and a short Hall under consideration and they decided in favor of the long Hall.

## The Century Co's War Book—Battles and Leaders of the Civil War Being a Complete History of the War, Written by the Most Distinguished Participants on Both Sides.

The Century Company announce that they are now issuing, in permanent book form, the articles on the civil war which have appeared and are now appearing in the *Century Magazine*, together with such matter for which space could not be found in the crowded pages of the *Century*. The events narrated will be placed so far as practicable, in chronological order, connecting chapters will be written, and the fullest and most authoritative statistics will be given, with the aim of making it virtually a well rounded and popular record of the war. The work will also contain the interesting series of papers entitled, "Recollections of a Private," with full accounts of naval battles, diplomacy, finance, familiar sketches of different phases of army life, and papers relating to the branches of the military service.

There will be nearly twelve hundred (1,200) illustrations, including portraits, battle scenes, maps, diagrams, etc., etc., by the best artists and engravers.

The mechanical features will be as perfect as art and skill can make them. It will be issued in thirty-two parts, thus placing it within the reach of all.

It is expected that the work will be issued at the rate of two parts per month, and will be sold only by subscription. W. F. Morse, 622 F street, N. W. Washington, D. C., is the General Agent for North Carolina. Col. M. Brown, 24 S. Second street, this city, has specimens of the work, and will, we have no doubt, push the canvass here with all possible energy. We congratulate the Century Company on having secured his services to present it to our people.

## Talk About Clothing.

Don't you know that an old stock of clothing or furnishing goods is not worth 50 cents on the dollar—in fact, are dear at any price? Persons desirous of purchasing new and fresh goods (no old, moth eaten stock) should visit the mammoth clothing establishment of S. H. Fishplate, on North Front street, where you will find nothing but well made, stylish fitting garments, all tailor made, at prices that other houses charge for ordinary made goods. Take his goods to your houses and compare price, style, fit and finish with other clothing houses and you will take his every time. He has an all wool business suit which he is selling at \$7, that equals any \$10 suit sold in this market; 1,000 children's suits, all wool, \$2 and up. A splendid fine all wool Fall overcoat at \$7, fit for any gentleman to wear. It will pay you to examine his stock before purchasing elsewhere, as he guarantees to give you perfect satisfaction or refund you your money.

## City Court.

The first case for the Mayor's consideration to-day was Frank Carter, a colored boy who was charged with disorderly conduct. He is very small, quite young, but the testimony showed that he was full and running over with wickedness. His sentence was 20 days in the chain gang.

Jane Hines, colored, was drunk and disorderly last night and demonstrated a first class ability to curse every thing and every body. She was fined \$20, with the alternative of 30 days in the chain gang.

August Renold, for an assault and battery, was fined \$5.

Frank Thomas, for allowing his cow to run at large, was required to pay a fine of \$5.
