VOL. XI. WILMINGTON, N. C., THURSDAY DECEMBER 1, 1887 NO 284

## DYSPEPSIA.

That misery experienced when we suddenly become aware that we possess a diabolical arrangement called a stomach. The stomach is the reservoir from which every nerve and tissue must be nourished. Every trouble with it is soon felt throughout the whole system. Through a dozen grapes no two will have the same predominant symptoms. Dyspepsia is of a mental power and a bilious temperament are subject to Sick Headaches; those, fleshy and phlegmatic have Constipation, while thin and nervous are abandoned to gloomy forebodings. Some dyspepsias are wonderfully fertile; others have great irritability of temper. Whatever form Dyspepsia may take, one thing is certain.

The underlying cause is in the LIVER.

and one thing more is equally certain, no one will remain a dyspeptic who will

Start the Liver to working, when all other troubles soon disappear.

"My wife was a confirmed dyspeptic. Some three years ago by the advice of Dr. Steiner, she was induced to try Simmons' Liver Regulator. I feel grateful for the relief it has given her, and may all who read this and are afflicted in any way, whether chronic or otherwise, use Simmons' Liver Regulator and I feel confident health will be restored to all who will be advised."—Wm. M. Kears, Fort Valley, Ga.

The first translation into English of a Hebrew novel will shortly appear. France first discovered that there were Hebrew novels worth translating, and has had them for some years.

An earthquake occurred in Ireland on October 28. The shock seems to have been confined at the southern part of the island, and was very severe. The rock at Cape Reikianeas, on which the lighthouse stands, has been rent asunder, and the house considerably damaged.

Mr. Edison has completed his phonograph, and unless he talks at random it is the most marvelous of his inventions. The phonograph will be about the size of a typewriter, and will work automatically by a small electric motor, which is noiseless and stops at the touch of a spring.

It is estimated that the railroads of the country spend \$35,000,000 per year on wooden crossties. The average length of service of a wooden crosstie is about six years. A Philadelphia mechanic has invented a hollow iron tie, which he claims is practicable, indestructible and of but a little more cost than the wooden ties now used.

Pope Leo XIII is very fond of agriculture, and has a passion for planting trees. One of his first works after his election was to plant the garden of the vatican with fruit trees and vines, and this year for the first time the grapes of the vatican garden are turned into wine. His holiness superintends the operation and gives the necessary orders.

Major Murayania is the leading newspaper man of Japan. Nine years ago he started Asahi Shimbun (which being interpreted, is Rising Sun News) at Osaka. It now has a circulation of 35,000, and an agent of the editor and proprietor is in this country to buy improved presses. It is partly illustrated, and sells for four-fifths of a cent.

The Jacksonville Times-Union claims that despite the yellow fever at Tampa the south-bound travel from Jacksonville was from 12 to 15 per cent greater during last month than for the corresponding month of last year, whilst the volume of travel to Jacksonville, by rail and steamer, is perceptibly larger. It says the outlook for the season grows brighter every day.

Governor Lowry, of Mississippi, in a recent interview, gives an encouraging report of the condition of affairs in that State. He says the people are better off than at any time since the close of the war. Taxes are light, the planting interests are in a most favorable condition and the white and colored races now work along together in the greatest harmony.

Thomas C. Hance, of Macedon, is the oldest voter in New York State. He has reached the age of 106 and, aside from being a little hard of hearing, retains all his faculties in as good condition as an ordinary man of 70. His oldest son is 81 and his oldest grandson is 55, while his oldest great-grandson is 33. When Mr. Hance was born the battle of Yorktown was yet to be fought.

Since the people of Ohio gave the emphatic indorsement of 23,000 plurality to Governor Foraker upon his "rebel-flag" telegram and the great snub issue, persons of a progressive and scientific turn of mind have expressed some desire to examine the statistics of illiteracy in that State. According to the census returns of 1880, there were in Ohio 131,847 persons, white and colored, above the age of ten who were unable to write, and 86,754 who could not read.

Chicago is trying the experiment of burning garbage and the refuse of the streets, and the result is said to be very satisfactory. Two fires are built under a large iron-lined pit with a grating for a bottom, and on this grating the garbage is dumped. The top of the pit is then closed and the fires lighted. The draft is not allowed to ascend through the garbage as it is consumed, and all organic matter carried by the smoke is entirely burned up before it is discharged from the chimney. There is no offensive smell.

It is said that Secretary Vilas has become almost a millionaire since he entered the Cabinet by the rapid development of mining land on the Southern shore of Lake Superior.

The only case for the Mayor's consideration this morning was that of William Merritt, colored, charged with fast driving. The plea that it was a strange horse that could not be held was considered good, and the defendant was discharged.

Indications. For North Carolina, fair weather, light to fresh Northeasterly winds, brisk to high on the North Carolina coast, with stationary, followed by slowly rising, temperature.

A Correction. In the report of the case of Gid Edwards, colored, charged with larceny before the City Court yesterday morning, there was a mistake. The judgment of the Court was that the defendant should give a justified \$100 for his appearance at the next term of the Criminal Court, instead of a fine of \$20 or 30 days.

Harbor Master's Report. The following were the arrivals of vessels at this port for the month of November, 1887, as taken from the books of Capt. Joseph Price, Harbor Master:

American—6 steamers, 5,526 tons; 1 barque, 382 tons; 13 schooners, 3,558 tons, making a total of 20 vessels and 9,466 tons.

Foreign—5 steamers, 5,220 tons; 17 barques, 7,880 tons; 4 brigs, 1,097 tons; 1 schooner, 111 tons, making a total foreign of 27 vessels and 14,258 tons, and a grand total of 47 vessels, aggregating 23,724 tons.

Personal. Mr. Henry W. Shaw is in the city to-day.

Mr. John H. Clark, of Clarkton, was in the city to-day.

Mr. W. W. Shaw, formerly of this city, but now of Durham, arrived in the city this morning.

Mr. Arthur Kirkland, secretary and treasurer of the Rocky Creek Lumber Company, of Chapman, Ala., is in the city, accompanied by his wife. Mr. Kirkland is on his way to the Western States on a business trip in the interest of his company.

Maj. C. W. McClammy, Representative-elect from the Third Congressional District, was in the city to-day. He left this afternoon for Washington, D. C., to be in readiness for the meeting of Congress, which will be on Monday next.

Death of Mrs. Wallace.

We regret to learn that Mrs. Mary Wallace, wife of S. D. Wallace Esq., whose serious illness we mentioned in yesterday's issue, died at 6.30 o'clock, yesterday evening, aged 71 years. She had been in feeble health for about three years, and about a week ago she took a violent cold which aggravated her disease, and superinduced bronchitis, which was the immediate cause of her death. She had been married more than half a century and had been the mother of seven children, three of whom, with her husband, survive her. She had also, for more than half a century been a consistent, professing Christian, and her deeds of unostentatious benevolence will only be known to those who have been recipients of her bounty.

## Opera House.

The appearance of Marie Prescott and her company at the Opera House to-morrow and Saturday nights, with a matinee on Saturday afternoon, will be an occasion of much interest to the theatre-going public. She is acknowledged to be one of the most accomplished actresses on the American stage, while her principal support, Mr. R. D. McLean, is a young and rising actor who has already won distinction in the profession. In speaking of the merits of Miss Prescott, the *Omaha Republican* says:

When supporting such grand old actors as Salvini, Miss Prescott was considered by press and public as the most artistic leading lady on the American stage, and in all their performances she justly shared the honors. Last night Miss Prescott demonstrated, realistically, that her support of others, in past years, confined to narrow limits the full scope of her histrionic ability and powers. She is an actress of strong force and pleasing manners, and above all the lady is possessed of a voice captivating in sweetness and charming in intonation.

## The Last of Earth.

The obsequies of the late Mr. E. J. Thorpe took place at St. James Church yesterday afternoon, Bishop Watson, assisted by Rev. Dr. Carmichael, officiating. A large concourse of people were assembled to pay the last sad tribute of respect to the lamented dead. The services were deeply impressive. The choir of St. James, with which the deceased had been intimately connected for several years as the organist of the church, wore badges of mourning as they sang the hymns appropriate to the solemn occasion. The United States Benevolent Association of which the deceased was a member, together with many of the clerks and employes of the Atlantic Coast Line, attended his funeral. The pall bearers were Capt. J. F. Divine and Messrs. J. H. Hardin, H. W. Malloy, R. H. Grant, B. Gleaves, Horace M. Emerson, and A. H. Holmes. At the conclusion of the impressive ceremonies at the church, the remains were conveyed to Oakdale Cemetery for interment.

## A Good Movement.

The pastors of several of the churches of this city united, several weeks ago, in extending an invitation to Rev. R. G. Pearson, the noted and most successful evangelist, to visit this city and conduct a series of meetings here at as early a date as practicable. The distinguished divine has accepted the invitation, but such are the engagements pressing upon him that he will not be able to come here until some time in March next. He is one of the most eloquent pulpit orators in the country, and at the meetings which he has conducted at Raleigh, there was no church or other suitable building in the city large enough to hold the people who flocked to hear him, and hundreds were turned away from the door nightly. His efforts there have been crowned with the most pronounced success, and many souls have been converted to God under his ministrations, but he has labored under the great disadvantage of not having room enough for the congregations who wanted to listen to him.

This important matter is receiving the earnest consideration of the clergymen of this city, and to avoid any such difficulty as has been experienced at Raleigh, they have taken the subject in hand thus early, and it is now proposed to build a tabernacle—a temporary structure—on the vacant lot on Fifth street, between Chestnut and Mulberry, with a seating capacity which shall accommodate from 3,000 to 4,000 persons. The proposition, we are glad to learn, is meeting with general favor among the Christian people of the city and many persons have already signified their willingness to subscribe liberally to the furtherance of the movement. It is also proposed to select singers from the churches that will be represented in the movement, who, under the direction of a competent precentor, shall furnish music worthy and suitable to the occasion.

## Cotton.

The receipts of cotton at this port for November, 1887, foot up 41,679 bales, as against 35,489 bales for the corresponding month last year; an increase of 6,190 bales. The receipts for the crop year to date foot up 124,180 bales, as against 89,183 bales for the corresponding period last year; an increase of 34,997 bales.

## Exports Foreign.

Br. steamship *Corn Marth*, Hurrell, cleared late yesterday evening for Bremen with 4,873 bales cotton, valued at \$229,500, shipped by Messrs. Alex. Sprunt & Son. Ger. brig *Atlas*, Dade, cleared to-day for Bridgeton, Barbadoes, with 170,012 feet lumber and 171,450 shingles, valued at \$3,870.47, shipped by Mr. E. Kidder's Son, making a total of exports foreign amounting to \$233,370.47.

## Criminal Court.

Arguments were heard yesterday afternoon on a motion for a new trial of Stephen Freeman, charged with rape, and the motion was overruled. The Solicitor then prayed the judgment of the Court which was that the prisoner be hanged on Thursday, the 22nd day of December next. The defendant's counsel then gave notice that an appeal would be taken to the Supreme Court, pending the decision of which the condemned will be confined in the county jail.

The court adjourned for the term at 1 o'clock this forenoon. The following were convicted and sentenced during the term to imprisonment: Cain Hines, larceny, three years in the penitentiary.

Wm. Beatty, larceny, three years in the penitentiary.

James Darbs, larceny, three years in the penitentiary.

John Smith, larceny, three years in the penitentiary.

Aaron Vann, embezzlement, two years in House of Correction.

Wm. Johnson, assault and battery, 90 days in House of Correction.

Geo. B. New, wilful abandonment, 30 days in House of Correction.

## Magazine of American History.

The completion of the Eighteenth Volume of the *Magazine of American History*, with its December issue is an event of interest. The contents of the holiday issue are most agreeably diversified. "Our Country Fifty Years Ago," by the Editor, presents a series of incidents in connection with the journeys of Lafayette in 1824 and 1825. "Stephen A. Douglas and the Free Soiler," by A. W. Clason, is a readable contribution; "Aaron Burr: a Study," by Charles H. Peck, is concluded; "The Apotheosis of the Plutoer" is by W. M. Dickson; "A Winter's Work of a Captain of Dragoons," by General P. St. George Cooke, of Detroit; "Notes from Harvard College," by Rev. Henry C. Badger, furnishes data upon the physical basis and intellectual life of Harvard; "The Treadmill in America," by Professor Oliver P. Hubbard, clears away some serious errors; the "Prototype of Leather Stocking," by Henry H. Hurlbut, of Chicago, treats of one of Cooper's characters; and "Christmas," by Gilbert Nash, is an exquisite poem. "Baby Grace" is a sad little Christmas story in verse; and "Thanksgiving" is an amusing item of statistics. Price, \$5 a year. 743 Broadway, New York City.

## The Laws of Nature Teach Economy.

Follow them and you will not regret it, and will always have the wherewith to supply your necessities. Commence this week and start an interest saving fund. We will assist you if you'll come to select a suit or an overcoat for yourself or boys. We will save you on a \$4, \$5, \$8 or \$10 purchase from \$1 to \$3, and on a \$12, \$15, \$20 or \$25 or overcoat \$5 to \$10. Try us, then; put your savings in the Saving Bank, and then you lay the foundation stone of your future prosperity. The only sure road to success is by industry and economy. Trade where reliable goods are sold at bottom prices all the year round. I. Shrier, who has been known to you for nearly twenty years, will sell you reliable goods at the very lowest prices, whether you know goods or not, and who has no desire to hold on to a dollar spent in his store for goods you are not satisfied with. Again we would advise you to trade with I. Shrier, the Old Reliable Clothier, on Front street, next door to McIntire's dry goods store. Sign of the golden arm.

## PLEASE NOTICE.

We will be glad to receive communications from our friends on any and all subjects of general interest, but

The name of the writer must always be furnished to the Editor.

Communications must be written on one side of the paper.

Personalities must be avoided.

And it is especially and particularly understood that the Editor does not always endorse the views of correspondents unless so stated in the editorial columns.

This is the first day of December, 1887, and there is not a shadow of doubt, if the weather is any indication of the season, that Winter has actually begun.

## Meteorological Summary.

The following meteorological summary for Wilmington was furnished by Mr. O. P. Chaffee, signal officer in this city:

Mean barometer for the month 30.94 inches; highest barometer, 30.35 on the 30th; lowest 29.62 on the 19th; mean temperature, 51.9; highest for the month, 73.8 on the 27th, and lowest 26.0 on the 21st. The total rainfall for the month was 1.04 inches. The highest velocity of the wind, 23 miles an hour on the 20th. There were 19 clear, 9 fair and 2 cloudy days, and 7 during which rain fell.

## An Important Paper.

The following paper, which had been signed by many of our merchants and business men, was on the table of the Produce Exchange to-day:

To the Produce Exchange and Chamber of Commerce, Wilmington, N. C.:

GENTLEMEN:—We, the undersigned, most respectfully and earnestly ask that your bodies use their influence in endeavoring to get the several railroads leading to this city for one first class fare, at least one day in each week, said tickets to be good for 48 hours, and to be used only on local passenger trains. If the tickets, good for 48 hours, cannot be secured, then we ask that the effort be made to secure it, good for 24 hours.

## Rock Crystal Spectacles and Eyeglasses.

Advice to old and young: In selecting spectacles you should be cautious not to take more magnifying power than has been lost to the eye as in the same proportion that you pass that point of increase, will cause you further injury to the eye. Using glasses of stronger power than is necessary is the daily cause of premature old age to the sight. You can get the best at Heinsberger's.

See the Othello Range at Jacobi's Hdw. Depot. It is unequalled as a baker; it is finely finished; has a reversible grate for either coal or wood. Can be changed in a second by the most inexperienced. Just the stove for Winter use.
