**DR. SIMON'S LIVER REGULATOR**  
**FOR DYSPEPSIA, CONSTIPATION, BILIOUSNESS, HEADACHE, BRUISES, AND ALL AFFECTIONS OF THE LIVER AND BOWELS.**  
**RESTLESSNESS. A STRICTLY VEGETABLE FAULTLESS FAMILY MEDICINE.**  
**J. B. SEILIN & CO. PHILADELPHIA. Price, ONE Dollar.**

The majority of the ills of the human body arise from a diseased Liver. Simon's Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any other agency on earth. SEE THAT YOU GET THE GENUINE. nov 26 to 1st p d wly ch sat

So far as the Virginia Bond question is concerned we will merely say, How do Hugh do?

Gen. Jubal A. Early has sent Gov. Lee \$1,000 for the Lee monument fund, and this is not his first contribution.

Hon. George Bancroft is said to have aged greatly in appearance within the past year or two. He is enjoying fair health.

Egypt has 625,000 acres of land under cotton cultivation. The European consumption of Egyptian cotton is 425,000 bales.

Senator Turpie, of Indiana, who is to become the Ingalls of the Democratic side, speaks English, German and French and is now hard at work on Italian.

Quite a number of inquiries are being made from Southern manufacturers for textile, sawmill and planingmill machinery, and shop equipments of various kinds.

There is a rumor, perhaps a rumor for revenue only, that Adeline Patti has a cancer in the stomach. Grim disease knows better than to tackle her marvelous throat.

The largest boiler ever made in the United States has just been completed at Scranton. It is 35 feet four inches long, 10 feet 5 inches wide and 11 feet 6 inches high.

One of the largest cotton manufacturing factories in the country, 300 feet long and 75 feet wide, will soon be completed on the top of the Cumberland Mountains in North Carolina.

William H. Holmes is said by the Chicago Herald to be the most polished of all the anarchists in that city. He came to this country from England at the age of 5, and is now 37. He is a quiet, refined looking man, and is a follower of the passive resistance school.

Baron Hirsch's offer of \$2,000,000 for the benefit of Jews in Europe was made in a letter to the Czar, his object being the founding of primary schools in Russia. The Czar has accepted the offer. The money has been deposited in the Bank of England.

There is now only one grave question to be considered and that is, which has the greater authority, Judge Bond, of the U. S. Circuit Court, or the United States Supreme Court? That being satisfactorily answered we shall breathe more freely.

Washington Star: All accounts agree in representing the feeling among members of the Fiftieth Congress, without regard to party, as strongly favorable to a reduction of the Government revenues. So far, so good. But the sticking point comes just here, when we attempt to bring these gentlemen down to a statement of what they consider the right kind of a reduction and the right amount.

**New York Times:** One would suppose that the South offered a peculiarly promising field for an organization of the prohibition sentiment, which is really much stronger there than in most Northern States.

We have read, with a great deal of interest and pleasure, the President's message. It deals mainly with the tariff question and is plainly and unequivocally for a reduction of the tariff. It is the clearest exposition of that much mooted and very difficult-to-understand subject that we have ever read.

One of the most interesting of the annual reports coming from Washington is that of Secretary Lamar, who tells the story of the restoration to the public domain of 21,323,600 acres of land heretofore withdrawn from settlement for the benefit of railroad corporations, many of which had not fulfilled their agreements with the Government.

Nitro-glycerine and other high explosives show their dangerous character in unexpected ways. An employe of a chemical works in Michigan was killed by an explosion resulting from his efforts to drive a nail into a piece of scantling. The wood had become impregnated with nitro-glycerine and was practically dynamite in a new and, as it proved, most killing form.

**Indications.**  
 For North Carolina, slightly warmer, fair weather, with light to fresh Northeasterly winds.

**Masonic.**  
 Past-Master Samuel Northrop was presented with a Past-Master's Jewel by St. John's Lodge No. 1, last night. The presentation speech was made by Mr. Eugene S. Martin. It was felicitous and appropriate, and although taken entirely by surprise, was responded to in a most feeling manner by Mr. Northrop.

**A Runaway.**  
 The excitement at Front street market was a runaway by a mule attached to a cart loaded with turnips. The animal became frightened at a wheelbarrow and ran a couple of squares when he was caught by officer Kernold. There was no serious damage, but the turnips were scattered over the street in a promiscuous manner.

**Have Returned.**  
 Rev. D. H. Tuttle and the other delegate to the Conference from this city returned last night, with the exception of Capt. W. M. Parker, who was attacked with a severe hemorrhage while on his way to the boat at Fayetteville, which compelled him to return to the hotel.—After being conveyed to the hotel he had several more hemorrhages before some of the delegates left at 3 o'clock yesterday afternoon. Capt. Parker's brother-in-law, Mr. W. E. Springer, left on this morning's train for Fayetteville, where he will arrive at about 1 o'clock this afternoon. We shall hear further news when he arrives, and we hope earnestly that it may be that Capt. Parker's condition has materially improved.

**LATER**—We are truly pained to announce that a telegram was received here just as we were going to press, which stated that Capt. W. M. Parker died at Fayetteville at 4 o'clock this afternoon.

**No Tidings Yet.**  
 No tidings have yet been received here of the three young men who it is feared were lost in Currituck Sound last Thursday night, Messrs. Thad. Branch, John Keeter and Chas. Barnitz. Mr. J. W. Branch, the father of one of the young gentlemen, had a letter this morning from Capt. J. H. Williams, of the *Stetson*. The letter was written from Elizabeth City and was dated Sunday and in it Capt. Williams says:

I am sorry to inform you that the three men are yet missing. On last Thursday evening Thad. Branch, Keeter and young Barnitz left the dredge to go to Powell's Point P. O. after the mail. They reached the shore all right, got the mail and left for the dredge between 6 and 7 o'clock. They were under sail and that is the last tidings we have heard of them.

It is possible they were blown on the lee shore. If such was the case the distance was about 15 miles. The Captain of the dredge, myself and three more men went ashore and searched the beach for miles, but found nothing of them, nor any part of the boat.

We enquired of all passing steamers, of a stray boat, but no tidings could they give us. We also went to the light house but could hear nothing there. Capt. McConnell is here with us and is trying in every way to hear something from the missing men. This is the best information we can give you at present. We will leave here to-morrow morning at 5 o'clock for the dredge. We are in hopes of hearing something of the men when we reach the dredge.

**City Court.**  
 There was a savage cutting affair in the Hollow last Monday night, and the investigation of the circumstances was the principal business for the Mayor's attention this morning. The following were the proceedings:

Sally Moore, colored, Oluf Olansen, William Welsh and Harry Jansen, were arraigned for an assault with a deadly weapon. The testimony showed that a German sailor had had trouble with the girl, Sally Moore, and that the three men named took her part, and with several others followed him into the street from Mrs. Bryson's, and there attacked him. Sally was the first to make an attack and she was followed by the others. In the melee, the victim of Sally's wrath was severely cut on the head, and was in a most pitiable condition this morning. The defendant, Oluf Olansen, was positively identified as the man who did the cutting. All the defendants were required to give a justified bond in the sum of \$200 each for their appearance at the next term of the Criminal Court, in default of which they were committed.

John Mitchell, a tramp, hailing from Liverpool, via New York, and Archie Henderson, a tramp hailing from Baltimore, had no visible means of support, and it was ordered that they be escorted outside the city limits, with the warning that if they were found here again they would have to work ten days in the chain gang.

**Success of a Wilmington Enterprise.**  
 The traveling agent of the Carolina Chemical Company and manager of the Carolina Chemical Concert Company, Dr. S. R. Twining, returned last night from a very successful business trip in the South. After a short respite from his labors he will again, in company with several other gentlemen, continue his arduous work of canvassing and advertising the company in this and adjoining States.

This Wilmington firm, the Carolina Chemical Company, promises to be one of the largest manufacturing interests of our city, as the merits of its medicine, under the Knobloch process of dry distillation, is meeting with rapid sale; in fact, so vast has been their success, that their present plant is not of sufficient magnitude to fill the orders promptly that are daily received, and work will be commenced in the near future to increase their facilities for the manufacture of their specialties, which are at present Pinola Extract, Cornina Chill Cure and Carolina Balsam. Aside from these medicines the company distills a superior pine oil for varnishes, which promises to take the lead of many other oils for the same use.

Over one thousand dollars' worth of orders have been filled up to the time of writing, for the Carolina Chemical Company's medicines, and many more are awaiting shipment. The company believes in advertising, and this their agent has done pretty thoroughly and judiciously, as is shown by the many orders that are being received from the places Mr. Twining has visited. A large amount of money has been already expended in printer's ink, and the company intend to layout many hundreds of dollars in the ensuing year in advertising and printing.

The works of the Carolina Chemical Company are in the eastern part of the city, and almost directly opposite Bellevue Cemetery. They are under the management of Mr. Paul M. Knobloch, a skilled pharmaceutical chemist, the son of the inventor of these popular medicines, in embryo, who gives the most minute attention to every portion of the distilling process. The greater part of the apparatus for manufacturing these remedies is under ground, so there is no chance for infringing on the wonderful patent. A special watchman is also installed there during the day and night, to prevent any trespassing on the premises.

These medicines are sold at fifty cents a bottle, and are useful for many of the maladies of mankind. We bespeak for the Carolina Chemical Company a universal and well deserved success in bringing into utilization some of the many medicinal herbs, barks etc., of the South, to the relief of suffering humanity.

**The Jahrmarkt.**  
 The "Jahrmarkt" will open to-night at the City Hall. The ladies who have the matter in charge were busy as bees this forenoon in arranging the booths and tables for the occasion. There is every indication that the affair will be interesting, entertaining and amusing, as stalls and tables will represent different nationalities and those who attend them will be dressed in the costumes of the country represented.

**Death of Mrs. Atkinson.**  
 It is with great regret that we announce the death of Mrs. Josepha G. Atkinson, which occurred this morning in Baltimore, at the residence of her son, Dr. Robert Atkinson, with whom she has resided for a number of years past. She was the widow of the late lamented Bishop Atkinson, whose remains now repose under the chancel of St. James' Church, where Mrs. Atkinson will also be laid to rest by his side. The body will be brought here to-morrow and the interment will take place on Friday.

Mrs. Atkinson was of advanced age. She resided in Wilmington for many years of her married life and her labors here as the worthy helpmeet of her venerable and beloved husband is known of all. She was the mother of Col. John Wilder Atkinson, of this city; Dr. Robt. Atkinson, of Baltimore, and Mrs. Buel, wife of Rev. D. H. Buel, of Asheville.

School shoes for children, best in the city, at Geo. R. French & Sons.

**The Opera House.**  
 The Marion Fleming Combination will appear at the Opera House next Friday and Saturday nights in a musical and witty extravaganza entitled "The Brook," in which they will depict the pleasures of a jolly picnic. It is a fine company who will present a play brimming full of fun, and they will be greeted undoubtedly by the overflowing house that their merits deserve. Box sheet open to-morrow morning at Heinsbergers.

**Old Brain.**  
 We are told that portions of Waccamaw township in Columbus county are infested with bears to such an extent as to cause great annoyance to the people. Their ravages have been committed mainly near here Waccamaw River enters Green Swamp. They have carried off considerable quantities of stock and although the hunters have killed eleven bears in that vicinity within the last month, the depredations of these animals continue. It would be a good place for some of our local Niurods to go and try their skill.

## NEW ADVERTISEMENTS.

### Hedrick,

Says that he has been busy this season, because he has sold Dry Goods and Notions cheaper than ever before. He does not believe in letting goods get old by remaining on the shelves, when he can send them humming out of the door with just enough profit to keep him from starving. He says by selling goods on this plan, he can continually be putting New Styles and Fresh goods before the people all the time. Just so. They show us that they appreciate it by keeping us on our feet. We have no time to loiter. Make us warm in cold weather by keeping us busy. We don't expect everybody to buy. Make us show you our goods, for we have got them to show. We only propose to name a few prices to-day. You said we gave you some positive bargains last week, but look at this. Black goods are always reasonable. Not the kind of goods you look for down prices on. But here they are:

- A 40-inch Black Wool Cashmere reduced from 75c to 50c.
- A 40-inch Black all Wool Cashmere, (Lupins) cheap at \$1, reduced to 80c, only a small quantity left.

Plaids and Stripes are "Quite English You Know," and they are all the go this season, nothing prettier for a lady to wear, very neat and stylish. We have a few pieces of these Plaids and Stripes left, all wool, 38 inches wide, at 60c., imported goods, and very cheap. Come down and see any and everything in the Dress Goods line, and all have been marked down. They must go. Braid and trimmings to match.

### HOSIERY—

We have left about 25 dozen Black Ribbed Hose for Children, worth 25c., for 12c. No large size accounts for the price. From 5 to 7 inches in size. Ladies' Fine Black Cashmere Hose at 75c., worth \$1. Fleeced Hose, colored and black, at all prices. Come down and see the largest line in the city.

### Eiderdown and Jersey Flannel.

**J. J. Hedrick,**
