

# THE DAILY REVIEW.

VOL. XX. WILMINGTON, N. C. THURSDAY, FEBRUARY 2 1888 NO 27

THIS PAPER published every evening, Sundays excepted, BY JOS. T. JAMES, Editor and Prop. SUBSCRIPTIONS, POSTAGE PAID: One year, \$4.00 Six months \$2.00 Three months \$1.00 One month, 35 cents. The paper will be delivered by carriers, free of charge, in any part of the city, at the above rates, or 10 cents per week. Advertising rates low and liberal. Subscribers will please report any and all failures to receive their paper regularly.

**TORPID LIVER**  
Is known by these marked peculiarities:  
1. A feeling of weariness and pains in the limbs.  
2. Bad breath, bad taste in the mouth, and a feeling of fullness.  
3. Constipation, with occasional attacks of diarrhoea.  
4. Headache, in the front of the head; nausea, dizziness, and yellowness of the skin.  
5. Heartburn, loss of appetite.  
6. Distention of the stomach and bowels by wind.  
7. Depression of spirits, and great melancholy, with lassitude and a disposition to leave everything for to-morrow.  
A natural flow of bile from the Liver is essential to good health. When this is obstructed, it produces

**BILIOUSNESS,** which, if neglected, leads to serious diseases. Simmons' Liver Regulator exerts a most beneficial influence upon every kind of biliousness. It restores the Liver to proper working order, regulates the secretion of bile and puts the digestive organs in such condition that they can do their best work. After taking this medicine no one will say, "I am bilious."

"I have been subject to severe spells of Congestion of the Liver, and have been in the habit of taking from 15 to 20 grains of colicium which generally laid me up for three or four days. Lately I have been taking Simmons' Liver Regulator, which gave me relief without any interruption to business."—J. Hoop, Middleport, Ohio.

**ONLY GENUINE**  
has our Z stamp in red on front of Wrapper

Nov 26 to 1st p. daily ch sat

It is estimated that in the past ten years North Carolina has expended \$3,000,000 for commercial fertilizers, while the value of the crops has been only \$15,000,000.

Governor Seay, of Alabama, is in receipt of a letter from Dr. P. S. Riddlee, a prominent citizen of Dakota, in which he states that the terrible loss of life to both man and beast in consequence of the recent blizzard has determined many Dakota farmers to seek Southern homes. In one section forty farmers have indicated their purpose to go South.

The Ohio Legislature is attempting the herculean task of fixing up a law whereby personal property can no longer evade taxation. It finds that this species of property has been gradually slipping away from the tax-gatherers, and the bills already introduced aiming to provide for its recovery are something thing fearful and wonderful to behold. It is all very easy to legislate that a man shall turn his worldly affairs inside out for the lister; it is quite another thing to actually make him do it.

The Duke of Newcastle, one of the wealthiest men of England, is the last arrival of the British nobility in America. The Duke is the youngest wearer of the dual coronet in England, being only twenty-three years old. He is a quiet little man, and shuns every kind of publicity. His diminutive stature is partly due to an accident that happened when he was about two years old. This also was the cause, in later years, of his leg being amputated. He wears a cork leg, but his deformity is not apparent.

The Young Men's Democratic Club of Brooklyn has adopted resolutions regarding the President's message, one of which is as follows: "That the policy suggested by the President will unite the whole Democratic party and attract to its support many persons heretofore acting against it on dead issues, together with the business and progressive interests of the people, and lay the foundation for a platform that will insure a Democratic success in the approaching Presidential election." This is undoubtedly the view generally taken of the political effect of the President's course by the progressive men of his party.

Jay Gould is credited with being interested in another gigantic scheme. It is thus outlined by the Washington Ecceubian:

Information has been received here in regard to a gigantic Anglo-American commercial scheme in which several American millionaires, including the "Little Wizard of Wall Street," the Rothschilds, the Duke of Devonshire, the Duke of Westminster and others are said to be concerned. It has been ascertained that the promoters propose to erect granaries, warehouses, pork curing establishments and cheese and butter factories on sites convenient to the several great lines of railroads leading into Chicago.

such as flour, bacon, cheese, butter and fruits of every description, as well as live stock, are to be carried to Chicago, and thence by the Baltimore and Ohio Railroad to New York.

A bridge will be built connecting the mainland with Staten Island, where large docks will be constructed by the syndicate of capitalists. From New York the products of the United States will be carried by steamers specially built for the company and landed at Barrow-in-Furness, of which the Duke of Devonshire is the principal proprietor, besides being president of the Furness Railway. At Barrow the company propose building alongside the docks abattoirs for slaughtering the cattle immediately after landing, also tanneries for preparing the hides and factories for making margarine out of the tallow.

Large warehouses are also to be erected at Barrow, and thence the food products will be distributed throughout Great Britain by means of retail stores which will be opened in all the leading towns in order to supply consumers direct without incurring any middlemen's charges.

The capital to be invested in the enterprise will, it is said, amount to many millions of dollars. Already agents have been sent to this country and are now making the necessary arrangements to commence operations in the spring.

The blood is the source of health. Keep it pure by taking Hood's Sarsaparilla, which is peculiar in its curative power.

Best shoes for boys at French & Sons.

We gain this month 52 minutes of daylight.

Dr. E. Porter, of Rocky Point, was in the city yesterday and paid us a pleasant little visit.

Nor barques *La Plata*, *Andreasen*, and *Olivia*, Thorsen, hence, arrived at Hull, Eng., Jan. 30th.

The Superior Court, having concluded its labors, adjourned last evening for the term.

There was a sharp white frost in the city early this morning, and the weather was cold and bracing.

This month began on Wednesday and will end on Wednesday, there being five Wednesdays in the month.

You will find at Heinsberger's an elegant assortment, just received, of fine wire masks for ladies and gentlemen and some other articles needed for masquerade balls.

50 dozen all wool flannel shirts, in all shades and colors, for men and boys, from 75 cents and upwards, at the Wilmington Shirt Factory, No. 27 Market street, J. Elsbach, Prop.

The Board of Directors of the Wilmington Savings and Trust Company met yesterday and elected Col. John W. Atkinson, President, and Mr. H. Walters, Vice President. The other officers will be elected at a future meeting.

Mr. J. T. Collins, of Burgaw, who is in the city to-day, tells us that the truckers in his neighborhood are putting in their best ticks now. He saw yesterday Messrs. Westbrook & Bros.' large strawberry patch near Burgaw, and it is in full bloom. The field is being strawed over to day to prevent injury by severe cold.

**Indications.**  
For North Carolina, slightly warmer and fair weather, and light to fresh winds, shifting to Easterly.

**Sidewalks and Drains.**  
The work of transplanting 500 shade trees on Fifth street has been finished, and the street force, under the supervision of Capt. Sholar, is now at work on Mulberry street, making some necessary repairs to the drains and sidewalks on that street, in the vicinity of Front street.

**A Good Move.**  
Orange street, between Third and Fifth, is to be graded and ditched, the necessary orders to the City Surveyor having been given to that effect. This has been a necessity for a long time, as the rains have caused the water to stand and accumulate at Fifth street by which the value of property has been impaired and health has been jeopardized.

### A Generous Man.

Mr. J. L. Autrey, of Cumberland county, has built a Baptist Church at Shepherd, in that county, and has not allowed any one to contribute a cent towards its construction. The only thing that he has permitted to be contributed is a pulpit Bible, which was the offering of a worthy lady in the neighborhood. Mr. Autrey's noble-hearted generosity is highly appreciated and will be long and gratefully remembered by those who will worship in the church which he has caused to be erected.

### Our Dumb Animals.

There will be a meeting at half past 8 o'clock to-night at the City Hall for the formation of a Society for the prevention of cruelty to animals. It is an organization that has long been much needed here, and we hope that there may be a full attendance of those who have mercy for our dumb animals, and that a society may be formed which shall take active and effective steps to prevent the brutality which is often inflicted upon our beasts of burden.

### Double Wedding.

The double wedding at Whiteville last night, of which we made mention on Tuesday last, was a brilliant affair. The bridal couples were Mr. William M. Powell and Miss Mattie Z. Schulken, and Mr. Millard F. Cook and Miss Lillie H. Schulken. The brides are the daughters of Mr. and Mrs. Martin Schulken, of Vine-land. The marriage ceremony was performed in the Presbyterian Church at Whiteville, Revs. A. McFadyen and G. W. McMillan, of Whiteville, and Rev. F. W. E. Peschau, of this city, taking part in the exercises. There were numerous and costly presents, and there was a large gathering of the many friends of the parties who came to offer their congratulations and bid them God speed on their journey of life.

### City Corner.

Sam Larkins and Thomas Blackwood, both colored, were brought before the Mayor this morning on the charge of larceny, it being alleged that they were the parties who stole the chickens last Monday night. The investigation of their cases was postponed until to-morrow morning.

William Lord, David Emanuel and Fred Lord, all colored, were charged with disorderly conduct. Hearing continued until to-morrow.

Doreas Frank, colored, disorderly conduct, \$20 or 30 days in the chain gang.

Judgment nisi and a fine of \$5 each was ordered to be entered against Phillis Avery, Alice Cowan and Jennie Howe, the parties to be held until the fine is paid.

One party on the double charge of fast driving and allowing his horse to run at large on the public streets, was fined \$10 for each offense. We suppress the name by request.

Four Arabs, three men and a woman, all of them very dirty, which was painfully apparent with the female, were ordered to be escorted out of the city.

### Personal.

Col. F. W. Kerchner has gone North for a few days.

Mr. J. T. Collins, of Burgaw, gave us the pleasure of a visit, this forenoon.

Col. Jno. W. Atkinson has gone to Richmond on a short visit to relatives there.

We were pleased to receive a visit yesterday evening from Mr. John H. Clark, of Clarkton.

Mr. W. F. Burch, who for several months has had charge of the job printing establishment of Mr. W. L. DeRosset, Jr., at Tarboro', has returned to the city.

Judge Shepherd, having finished up the business of the Superior Court docket for the term, left this morning for his home at Washington, carrying with him the unqualified respect and esteem of all with whom he came in contact during his brief sojourn in our city.

A telegram was received here late last night from Mr. Louis L. Curtis, the newly-elected organist and chor conductor of St. James' Church, that the train upon which he was to come had failed to make connection, and that in consequence, he could not reach here until next Monday night.

### The Armory Fund.

The building lot donated to the Wilmington Light Infantry by Col. F. W. Kerchner is not, as some might suppose, intended as a site for the proposed new armory, but it was given as a donation to the Armory Fund. It is located in the Southern section of the city and is to be disposed of for the benefit of the fund. The papers passed yesterday and the deed was placed in the hands of the Register. Neither Mr. VanAmringe, Clerk of the Superior Court, nor the Register of Deeds, Jos. E. Sampson, would accept the fees to which they were entitled, preferring to donate them to the fund. The lot is a fine building lot and is worth several hundred dollars. The present intention is to raffle it off at the next big fair held for the benefit of the fund.

### The Last of Earth.

The remains of the late Mr. Pembroke J. Holmes, whose death we chronicled yesterday, arrived here this morning and were conveyed to St. James' Church where the obsequies were held, the rector, Rev. Robert Strange, officiating. There was quite a concourse of people in attendance, who came to pay their last sad tribute of respect to the deceased. Hook & Ladder Company No. 1, of which the deceased was an honorary member, turned out in a body as a mark of esteem for their late companion. At the conclusion of the impressive ceremonies at the church, the remains were conveyed to Oakdale Cemetery for interment. The pall bearers were Messrs. Pembroke Jones, Owen Holmes, R. Lee Holmes, J. W. Meares, A. H. Holmes and W. H. Brown, all near relatives of the deceased.

### Mrs. James Brown Potter.

Mrs. James Brown Potter, who is to appear at the Opera House in this city next Monday night, in Shakespeare's celebrated play of "Romeo and Juliet," has not found her theatrical life to be strewn entirely with roses, but has had many and grievous annoyances, as the following complaint, recently made to a lady friend, will show:

"You see, my dear, I'm in for it now," said the actress, "and so I must go on; but if I could have only foreseen in what a complete house of looking glasses I should find myself caged! I know it looks queer to see every detail of my wardrobe minutely described, even down to the number of clocks on my stockings and the color, thickness and material of my underthings; but how can I help it? It is not only what I wear and where I go that causes trouble, but my most thoughtless remarks are caught up by some gossip, repeated, twisted, tortured out of their original meaning and come back to me in a disguise in which I cannot recognize them!"

### An Important Meeting.

There was a meeting of the Committee on Public Buildings at the Orton House last night at which steps were taken to increase the appropriation made by the Government for the erection of a public building in this city. It is very evident that the needs of the city are for a public building large enough to accommodate the requirements of the Custom House, Postoffice, United States Court, United States Engineers in charge of the Rivers and Harbors of North and South Carolina, Signal Corps, Marine Hospital Corps, United States Commissioner, Internal Revenue Department and the Inspector of Customs for North and South Carolina and Georgia. It is thought—and this idea will be urged upon Congress—that the present appropriation is not so large as it should be to erect a building which shall fill all of our present requirements, and when it is borne in mind that our commercial interests are constantly increasing, thereby creating a demand for larger accommodations for the business of the government, the present amount seems very small. It is especially small as compared with the appropriations for Charleston, S. C., where it took \$2,825,592 for a Custom House; at Columbia, S. C., where \$412,169 were needed for a postoffice, or at Raleigh, N. C., where the postoffice alone cost \$354,000.

We want a building commensurate with our governmental business and in keeping with our position as the largest commercial city in the State, and we are glad that the committee will urge our claims upon the present Congress.

### NEW ADVERTISEMENTS.
