

A WONDERFUL ANALYSIS.

A Simple Physical Trouble Shows to be the "Beginning of the End."

What is a cough? It is an irritation of the throat and lungs. What causes it? Congestion, cold, the congestion, the irritation ceases, and the cough is cured. But how to stop the congestion? Ah, here is just where physicians have always been puzzled. But it must be checked, or pneumonia, quick consumption or some terrible pulmonary disease will follow.

Prof. Austin Flint of Bellevue (New York) College, says: "The judicious use of alcoholic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century."

Professor Henry A. Mott, of New York, says: "The purity of Duffy's Pure Malt Whiskey (as simple analytical tests will readily convince a physician or an expert should certainly recommend it to the highest public favor."

Dr. Wm. T. Cutler, State Chemist of Connecticut, says: "Duffy's Pure Malt Whiskey contains no deleterious or injurious qualities, and its absolute purity, as well as scientific mode of manufacture, must commend it to general use and favor."

Duffy's Pure Malt Whiskey is a certain cure and preventive of congestion, and should be kept in every family. It is sold by all druggists and dealers. Be sure and secure the genuine.

WILMINGTON, N. C. SATURDAY, MARCH 3, 1888.

Entered at the Postoffice at Wilmington, N.C., as second-class matter.

The success of the high license system is very well illustrated in Chicago, where, during the year 1881, the receipts from licenses were \$182,226.40, with a fee of \$50, while in 1887, with a fee of \$500, the receipts were \$1,972,621.17.

It has now been discovered that in all probability the prehistoric man in this country ate pork, and very likely had an occasional attack of trichinosis.

The newspapers in London are still writing about Josef Hofmann. Somebody has disinterred from a number of the Gentleman's Magazine, published just a century ago, an account of a musical prodigy of the same name who was then astonishing the world.

Secretary Bayard is perfectly satisfied with the fisheries treaty, and, in an interview with the New York Herald's Washington correspondent said: "The United States have secured practically everything we have been contending for."

It is owing to the influence of Mr. Blaine's wife that he has refused to become a candidate for President this year, according to the Boston Globe. A lady of New York city who knows Mrs. Blaine, says she is certain of the truth of the statement.

The executive committee of the National Republican League held a meeting in New York recently to arrange for a vigorous campaign this fall. The members claim to be much pleased at the outlook and say that the Republican party has made great gains in many of the Southern States.

Owing to the long term rule in Louisiana the Legislature of that State will elect two United States Senators in May next—one to succeed Randall Gibson and the other to succeed James B. Eustis,

the term of the latter not expiring until March, 1891. The recent victory of the reformers in the preliminary canvass for Governor makes Senator Gibson's reelection a foregone conclusion.

The practicability of making merchantable sugar from sorghum is likely to have a satisfactory test next summer, the enterprising people or Kansas having resolved to take advantage of the successful experiments of the bureau of agriculture last autumn.

Don't Get Caught. This spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid, and wholesystem liable to be prostrated by disease—but get yourself into good condition, and ready for the changing and warmer weather, by taking Hood's Sarsaparilla.

There are two forms of chronic rheumatism: one in which the joints are swollen and red without fever, and the other the joints are neither red nor swollen, but only stiff and painful.

Risings are treated so summarily in Russia that even yeast is afraid to its duty.

When a physician loses his skill it naturally follows that he is out of practice.—Mer. Trav.

Now does each side in Congress Declare in hot ferment, That the other eyes the surplus With begrudging intent.—Tid Bits.

A burglar in Harlem took, among other things, a cornet belonging to an amateur, and the neighbors are trying to raise a fund of \$500,000 to bribe the thief to return some night and carry off the amateur.—N. Y. Times.

Chicago Lady (to husband)—"My dear, did you think to order a ton of coal to-day?" Husband—"Yes." Chicago Lady—"And my shoes?" Husband—"Yes, and?" (peering out of the window) "there is a truck backing up to the door now, but it's too dark to see whether it has the coal or the shoes."—Harper's Bazar

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease.

Hood's Sarsaparilla

Sold by all druggists, \$1; six for \$5. Prepared only by C. I. HOOD & Co., Apothecaries, Lowell, Mass.
