When the pulse beats feebly; when the energy is gone; when the appetite is wrak and sleep uncertain, then the body is in a condition of actual "low life." No matter what the causes may have been Nature has given way and unless her stren wh is restored disease is certain to take possession of the body. The first thing any doctor does in such a case is to assist Nature. Here are some in-

> It is not very encouraging to contemplate the loss by fire during the month of February. The total in the United States and Canada for that month was more than \$11,200, 000, which is the largest total report ed in any February for the past fourteen years. The average February fire waste since 1874 has been only \$7,140,000. The fire loss of last month, therefore, was about 57 per cent, above the usual average loss, A portion of the loss is of course due to the increase in property value throughout the country and the growth of the populators, but the fire waste is evidently proportion ately greater, and so far this year has more than kept pace with our cannot lower you. advancement in wealth and resources. Such losses as have been recorded in January and February of this year emphasize strongly the need of increased individual care and better means for the prevention

A Republican club was recently formed in Buffalo, N. Y., with the avowed object of booming Roscoe Conkling for President. In a letter to the club Mr. Conkling says:-Deeply attached to the State, which, for generations, has been the home of my kindred, proud of its greatness and bound to its people by lifelong ties, any manifestarion of regard by its citizens touches me keenly and adds to the gratitude I shall ever feel for having been deemed worthy to share in upholding the honor and the interests of New York. Recollections of the many kindnesses received from the people of Buffalo make it especially agreeable to know that they still keep a place for me on the roll of remembered names. Not being, however, a seeker of political honors, and not believing it could be useful to bring me into the arena, my wish is to deem the expressed preference of the club only a mark of personal good will. So understood, it has more value to me than anything else could give it."

The refunding of the English debt is an indication of the steady accumulation of loanable capital not merely in England but in the whole commercial world, and an indication also of the fact that the relative as well as the absolute share of capital in current production is growing liable, beneficial, pleasant to take, and gives smaller. At first sight it would seem that this reduction of interest would be a hardship on a certain number of persons with moderate incomes now derived from the consols, but it is hardly likely to be so for any length of time in England-There is a considerable variety of bonds on the market there, yielding 3 per cent, and even more, that are in reality as safe as the consols, and under the spur of the prospective Pain and Inflamand certain loss of one-sixteenth of mation, Heals the their annual revenue the small investors will discover these. Contagious Blood Poison.

Mr. D. B. Adams, Union, South Carolina, writes: "I was afflicted with a terrible case of blood poison for about thirteen months. I was treated by the best physicians, and used various kinds of remedies, but received no substantial relief. I finally tried the Swift Specific, and about four bottles cured me sound and well." B. H. Kleser, editor and propul Col. E. H. Kieser, editor and proprieter of the Opelika, Ala., Times, under date of August 3, 1837, writes: "When I was a young man, through indiscretion, contracted a disease which has stuck to me for years. Some five or six years since I was troubled with poins, so as to make it difficult for me to walk. Laving advertised the S. S. S. in my paper for several years, I concluded I would try it to see if there was any chicacy in the decicine, I commenced using it according to directions and used half dozen bottles. I was once at a and used half dozen bottles. I was once at a way station and, getting left, I walked the seven miles and have not rielt any return of the old malady. After experiencing the good effects I must say I am satisfied with the result. Mr. F. Woeld, 211 North Avenue, Chicago, under date of June 13, 1857, writes: "I deem it my duty to thank you for the cure I re-ceived from your excellent medicine. I contracted a very severe case of blood poisoning about two years ago. Hearing of your medicine, I went to a drug store, the prietor of which persuaded me to buy a preparation of his own, which he said was a sure cure. I used six bottles of his stuff and grew worse all the time. At last I got disgusted and despaired of a cure. I met a friend who told me that your medicine had cured him. I went to the same druggist again and demanded your medicine. He re-luctantly sold me twelve bottles, and I am now perfectly cured. I write this for the benefit of sufferers, to prevent their being deceived by false representations. I thank you again for the benefit derived from your
