FOR MEDICINAL USE NO FUSEL OIL

Cough in the morning; tickling in the throat; difficult breathing; quickened pulse; shortness of breath; tightness in the chest; chilliness in the evening; feverishness; thick expectoration; every one of these is a symptom of consumption !

More than two-thirds of all the deaths in America are caused by consumption. It is almost impossible to cure it in the last stages, but it can readily be checked if taken at the start. Physicians always recommend a pure stimulant, and for this purpose nothing has equaled Duffy's Pure Malt Whiskey.

The celebrated physician, Henry A. Mott, Ph.D., F.C.S., says: "Dufly's Pure Malt Whiskey is free from fusel oil, adulterations or foreng empurities, and these qualities should recommnd it to publici

MONDAY, MARCH 26, 1888.

WILMINGTON, N. C.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

The total amount on deposit in the savings banks of the United States, according to the latest reports-1886-7-is \$1,235,247,371. The banks of New York and Massachusetts held \$773,684,680, while all the rest of the Union South and West of the Alleghenies and below the Ohio held but \$105,488,762, California nold ug about \$80,000,000 of in.s se'n. New England held \$545,532,424, leaving but about \$30,000,000 for all the States and Territories between the Alleghenies and the Rockies. The smallness of the West's deposits is explained by the fact that farm mortgages in ten Western States aggregate in value \$2,422,000.

Prof. John M. Langston, of Virginia, has joined ex-Senator Bruce and Fred Douglass in opposing the scheme to bring about a negro exodus to South America. He thinks the proposed exodus is a fraud from first to last, and that there is no need for it. The negro, he says, is country, and cannot better himself by going to Central or South Amer. ica, or to any other country. Langston was for seven years Minister to Hayti, where he saw enough to convince him that negroes are not yet prepared to live in communities by themselves where they have to manage their own political affairs.

turned out by the Henderson Steel Company, of Birmingham, Ala., have been placed on exhibition in Mobile. charmed with the success of the have proved that steel can be made was made March 8th of \$10 white pig-the lowest grade of iron-was rolled out at the rolling will and came forth genuine boiler plate. Experts say that this test settles the fact that every ounce of red hematite phosphoric ore in Alabama can be converted into steel. Since this test, it is asserted, Henderson stock

has risen to \$1,000 per share in value-

The St. Tammany Lumber Company of Michigan has purchased many thousands of acres of wooded lands North of Lake Ponchartrain, La., and proposes to go into busi ness on an extensive scale there. These Michiganders have, for years past, been large purchasers of Louisiana woodlands, and have secured a considerable share of the 2,500,000 acres recently bought by Westerners. The lumbermen of Michigan recognized the fact that their home supply of timber must soon be exhausted, that they must move somewhere else, where they will find a better field of operations, where there is ample and valuable woods. And they seem to have come to the conclusion that Louisiana offers the best field for this, as their largest purchases have been made there. These purchases mean the early development of the timber resources of Louisiana.

Reports recently received at the Navy Department concerning the work on the new vessels are satisfactory to the department officers. and most of the expectations of Secretary Whitney will be met by the builders. The Charleston, building at San Francisco, is the most advanced of all those in construction. The Union Iron Works are doing very little on the San Francisco, and cannot push her construction ahead of the vessels on which a definite beginning has been made, and it is believed that the contract time for how lieved that the contract time for her completion will be exceeded by more than a year. The Cramps are making preparations for launching the Yorktown and the dynamite cruiser. The ways for the purpose are now being placed in position, and it is thought they will both be HARPER'S YOUNG PEOPLE..... 200 aunched early in April. The Baltimore is now in frame and partly plated. Nearly all the deck frames are in position. It is reported that the keel of the Philadelphia will be laid early in May. It is understood that with the opening of spring work on the Concord and Benning-work of the Philadelphia will be laid early in May. It is understood by mail, postage paid, or by express, free of expense (provided the freight does not exceed one dollar per volume), for \$7.00 per volume. the keel of the Philadelphia will be ton will be pushed rapidly to completion. Very little has been done on these vessels as yet.

How a Dying Child Was Saved!

CICERO, HAMILTON Co., IND., Sept, 19, 1887 .-The following is a true account of what your S. S. S. has done for our little daughter, Hazel, now four years old. When 12 months old a lump appeared on her heel, which slowly grew larger. The family physician thought it was caused by a piece of broken glass or needle, but failed to bring anything to light. The child became feebler all the time, seeming to lose the use of her leg, and finally quit walking entirely. The middle finger and thumb of either hand became enlarged, the flesh becoming hard. The hip joints became involved, so that when seventeen months old she could not stand, having lost the use of leg and arm. Partial curvature of the spine also followed. The nervous system was wrecked, muscles contracted, and there was general wasting of flesh and muscle. At eighteen months of age she was placed under the treatment of a prominent physician of Boston, Mass., but at the end of ten months she had declined to such a degree that she was in a dying condition. This was in April, 1886 We took the child away not knowing what to do. in this dreadful dilemma we were over-persuaded by friends to try "one bottle" of Swift's Specific, which we did, and before it had all been taken we saw a change for the better in her symptoms. We kept it up, and have done so to this day, and will keep it up, if the Lord wills, for many days to come, for it has brought our dying Hazel to life, to vigor, to strength and health again. The ashen hue of her cheeks has changed to a rosy tint. She is able to walk anywhere, her languor and melancholy have passed away, and she is now a blithe, cheerful, happy romping child. Should you wish to increase your testimonials of proof of the virtue of S. S. S., our names and what we have said is but a portion of what we owe to
