The official returns of the City of New York show that nearly three-fourths of all deaths are from consumption. When we stop to calmly think over this fact, it is really awful. And yet every case without exception started from small beginnings. A cough in the morning; tickling in the threat; a thick phlegmy discharge; chilliness at night; difficult breathing; a tightness across the chest; these and many more symptoms indicate the presence of that terrible disease which, unless checked, means certain death with long and painful suffer-

In view of such serious and ever-present facts the suggestions and advice of the most emineut physicians are of the greatest value.

Dr. John Gardner, one of the most eminent physiciane in London, says : "Science, common sense, Holy Scriptures and all experience testify to the benefits derived from the use of pure whiskey." Dr. D. H. Barker says : "I have used and examfined Duffy's Pure Malt Whiskey, and find it the best I ever tried."

Dr. S. M. Buckwalter says: "Duffy's Pure Malt Whiskey is, without doubt, the invalid's drink when stimiliants are indicated, and I find all chronic cases require stimulants, and a large per cent of the acute ones also."

These truths, from the lips of the leading scientific men of the day, and confirmed by the experience of men and women well known in the community should serve as a guide for all who feel the appreach of consumption no matter by what path it may come. We do not hesitate to assert that any man or women who will use Duffy's Pure Malt Whiskey according to directions can defy corsumption and prolong life with all its blessings.

The Daily Review

JOSH. T. JAMES, Editor & Prop'r.

WILMINGTON, N. C. SATURDAY, APRIL 14, 1888.

Entered at the Postoffice at Wilmington, N.C. as second-class matter.

An important feature of the campaign in Louisiana was the endorsement by the Republican Parish Convention in New Orleans last week of the municipal ticket put forth by the Young Men's Democratic Association in opposition to the regular nomination. It was expected up to the meeting of the Convention that the Republicans would nominate a straight ticket, but the movement finally decided on was engineered by Warmoth, who was present and made a speech to the Convention. The young Democracy say this unexpected reinforcement will give them 10,000 extra votes and elect their candidates, Beauregard, Shakes peare and others. The Republican State ticket, it is thought, will also gain by the alliance, and the Republicans predict the election of Warmoth over Nicholls by 5,000 to 8,000 majority, and the election of the rest of the Democratic ticket by about the same figures. The Picayune (Nicholls' paper) says that it will be necessary for Gen. Nicholls to leave New Orleans with at least 10,000 majority to carry the State. Matters look serious for the Democrats from the Republican stand-

The report of the Committee on Rivers and Harbors, as presented to the House of Representatives, contains, says the Charleston News and Courier, an exhibit of the various appropriations which are recommended, and a full and clear statement of the reasons for the action taken.

It is shown that the total appropriations are \$19,494,783, which is ess than half the amount recom. mended by the chief of engineers, and less than one-fifth of the amount which was recommended by the and harbor bill prior to this one was the bill of 1882, which appropriated \$18,738,875, or 56} per cent. of the estimates of the chief of engineers. The present bill, moreover, is really for two years, inasmuch as the Act of August 5, 1886, was not acted on by the President and failed to become a law. Dividing the amount of the present bill between the two fiscal years, the appropriation properly chargeable to this Congress is

The figures given by the committee are sufficient answer to the charge that the appropriations now submitted are unreasonable or excessive, and the committee truly say that the masses of the people, in all sections, approved the Act of 1882 with its appropriation of eighteen and three quarter millions and that tne popularity of the River and Harbor bill has grown apace.

There is good ground for this. No country on the globe "has been blessed equal to ours with waterways, and if we fail adequately to improve them we shall be neglect ing the opportunities afforded us by a bountiful Providence." There is also sound sense in the remark that, while measures like the Inter-State commerce law have much to commend them, a liberal and judicious river and harbor bill will do more to regulate commerce in cheap ening transportation than statutes which are designed, through complicated machinery and the Courts, to govern internal trade.

One hundred and ninety-eight rivers and one hundred and fiftythree harbors, break-waters and ice narbors are provided for in the present bill, as against one hundred and sixty-five rivers, and one hundred and thirty-six harbors, channels, ice harbors and breakwaters in the Act of 1886. The number of new appropriations in the bill is only fortythree. The largest appropriation is for the Mississippi improvement, which absorbs \$3,392,850, or about one-sixth of the whole amount.

their report, that in the investigation of so many hundred public Beantifully Illustrated, 25 cts., \$3 a Year. works they may have in some instances done injustice, but trust that in the main the conclusions ar rived at will be found to be correct. There is reason to hope, therefore, that where the appropriations recommended are absolutely insufficient for the purposes contemplated, and are contrary to public policy as involving loss of money to the Government and loss of trade to important communities, the sums recommended may be increased.

Ask those who have tried and they will tell you that the Boy Clipper Plow is the best made. Sold only at Jacobi's, who is the factory agent. † Don't Get Caught

This spring with your blood full of impurities, your digestion impaired, your appetite poor, kidneys and liver torpid, and whole system liable to be prostrated by disease—but get yourself into good condition, and ready for the changing and warmer weather, by taking Hood's Sarsa parilla. It stands unequalled for purifying the blood, giving an appe tite, and for a general spring medi-

## The Only Remedy

Contagious Blood Poison.

Mr. D. B. Adams, Union, South Carolina, crites: "I was afflicted with a terrible case of blood poison for about thirteen months. I was treated by the best physicians, and used various kinds of remedies, but received no substantial relief. I finally tried the Swift Specific, and about four bottles cured me

specific, and about four bottles cured me sound and well."

Col. B. H. Kieser, editor and proprietor of the Opelika, Ala., Times, under date of August 3, 1887, writes: "When I was a young man, through indiscretion, I contracted a disease which has stuck to me for years. Some five or six years since I was troubled with pains, so as to make it difficult for me to walk. Having advertised the S. S. S. in my paper for several years, I concluded I would try it to see if there was any efficacy in the medicine. I commenced using it according to directions and used half dozen bottles. I was once at a way station and, getting left, I walked the seven miles and have never felt any return of the old malady. After experiencing the good effects I must say I am satisfied with the result. I am sixty-eight years of age and I feel now like a young man and can go to I feel now like a young man and can go to the case when necessary and set up from six to eight thousand ems without any inconvenience. I send you this without solicita-

Mr. F. Woehl, 211 North Avenue, Chicago, under date of June 12, 1887, writes: "I deem it my duty to thank you for the cure I reit my duty to thank you for the cure I received from your excellent medicine. I contracted a very severe case of blood poisoning about two years ago. Hearing of your medicine, I went to a drug store, the proprietor of which persuaded me to buy a preparation of his own, which he said was a sure cure. I used six bottles of his stuff and grew worse all the time. At last I got disgusted and despaired of a cure. I met a friend who told me that your medicine had cured him. I went to the same druggist again and demanded your medicine. He reluctantly sold me twelve bottles, and I am now perfectly cured. I write this for the benefit of sufferers, to prevent their being deceived by false representations. I thank you again for the benefit derived from your medicine."

medicine."

Dr. J. N. Cheney, a prominent physician, residing in Ellaville, Schley County, Georgia, in a letter recounting the infallible success he has in curing contagious blood poison he has in curing contagious blood poison cases in his extensive practice, writes:
"Those who know the almost inevitable, permanently dangerous effects of mercury will welcome your discovery of S. S. S. as a boon to humanity. The medical profession, always warv of proprietary medicines, is coming slowly, and in some cases secretly, to the use of S. S. S. in cases of blood discorder. Of course a medicine that cures poisoning in its worst form must purify the blood of every disorder."
